

Kim Lamphier Bikeways Network Program

The Kim Lamphier Bikeways Network Program provides grant support for a wide range of bicycle network enhancements and associated Complete Streets safety improvements. The program supports projects that maximize bicycle access and enhance last-mile connections to work, school, shopping and transit. The Bikeways Program seeks to leverage past investments in bicycle facilities, complement existing State, local, and federal programs, and promote biking as a fun and healthy transportation mode. The program prioritizes funding projects that improve safety and access for disadvantaged communities.
