MARYLAND'S CONSOLIDATED TRANSPORTATION PROGRAM

The Consolidated Transportation Program (CTP) is Maryland's six-year capital budget for transportation projects. The Capital Program includes major and minor projects for the Maryland Department of Transportation (MDOT) business units: the Secretary's Office (MDOT TSO); the Maryland Aviation Administration (MDOT MAA); the Maryland Port Administration (MDOT MPA); the Motor Vehicle Administration (MDOT MVA); the State Highway Administration (MDOT SHA); the Maryland Transit Administration (MDOT MTA) – and authorities related to the MDOT, including the Maryland Transportation Authority (MDTA) and the Washington Metropolitan Area Transit Authority (WMATA).

In this document, you will find for every major project a Project Information Form (PIF) which includes project details, financial information, and construction status; you will also find a list of minor capital projects. The MDOT works together with residents, local jurisdictions, and local and state elected officials to include projects in the CTP that preserve investments and safety, enhance transportation services and connections, and improve accessibility and opportunity throughout the state. To help Maryland's citizens review this document, the CTP includes a summary of MDOT's financing and budgeting process and instructions for reading PIFs.

MDOT ensures nondiscrimination and equal employment in all programs and activities in accordance with Title VI and Title VII of the Civil Rights Act of 1964. If you need more information or special assistance for persons with disabilities or limited English proficiency, contact MDOT's Office of Diversity and Equity at **410-865-1397**.

For the hearing impaired, Maryland Relay 711.

For further information about this document or to order a hard copy, please contact Ms. Dawn Thomason at the Maryland Department of Transportation, Office of Planning and Capital Programming toll free at 1-888-713-1414, or locally at 410-865-1288. This document is also available online at: www.ctp.maryland.gov.

For more information on Maryland transportation, please visit us on the web at www.mdot.maryland.gov.

TABLE OF CONTENTS

Summary of the Consolidated Transportation Program	1
Significant Changes from the FY 2021- FY 2026 CTP	A-1
FY 2021 Accomplishments	A-6
MDOT Operating and Capital Program Summary	A-15
Minor Program Summary by Fiscal Year	A-19
Major Bridge Projects	A-31
Bicycle and Pedestrian Related Projects	BP-1
Regional Aviation Grants	RA-1
Multimodal Freight Projects	FRT-1
Governor's State American Rescue Plan Act (ARPA) Supported Projects	ARPA-1
MDOT Transportation Secretary's Office	TSO-1
MDOT Motor Vehicle Administration	MVA-1
MDOT Maryland Aviation Administration	MAA-1
MDOT Maryland Port Administration	MPA-1
MDOT Maryland Transit Administration	MTA-1
Washington Metropolitan Area Transit Authority	WMATA-1
MDOT State Highway Administration	SHA-SW-1
Maryland Transportation Authority	MDTA-1
Appendix A – Chapter 30 Scores	APP A-1
Glossary	GL-1

MARYLAND'S CONSOLIDATED TRANSPORTATION PROGRAM

The Maryland Department of Transportation (MDOT) is pleased to present the state's Final six-year capital investment program for transportation, the Final FY 2022 – FY 2027 Consolidated Transportation Program (CTP).

The CTP is the capital budget outlook and a key part of the State Report on Transportation (SRT) which MDOT publishes each year. The SRT contains three important documents: the Maryland Transportation Plan (MTP); the Consolidated Transportation Program (CTP); and the annual Attainment Report (AR) on Transportation System Performance. MDOT last updated the MTP, the 20-year vision for Maryland's transportation system, in January 2019. The performance measures were updated along with the MTP, with direction from the AR Advisory Committee, based on the updated 2040 MTP Goals and Objectives (please visit mdot.maryland.gov/ARAC to learn more). The MTP and AR are updated every five years following extensive outreach efforts and collaboration with the public, local jurisdictions, and state agencies to ensure they reflect the needs and priorities of Marylanders. To learn more about the 2040 MTP, visit: mdot.maryland.gov/MTP. The 2040 MTP goals are:

- Ensure a Safe, Secure, and Resilient Transportation System
- Facilitate Economic Opportunity and Reduce Congestion in Maryland through Strategic System Expansion
- Maintain a High Standard and Modernize Maryland's Multimodal Transportation System
- Improve the Quality and Efficiency of the Transportation System to Enhance the Customer Experience
- Ensure Environmental Protection and Sensitivity
- Promote Fiscal Responsibility
- Provide Better Transportation Choices and Connections

The CTP contains projects and programs across MDOT. It includes capital projects that are generally new, expanded or significantly improved facilities or services that may involve planning, environmental studies, design, right-of-way acquisitions, construction, or the purchase of essential equipment related to the facility or service.

MAINTAINING PRIORITIES

This year's CTP reflects MDOT's priorities as delineated in the MTP goals and our mission statement (below). The state's transportation priorities follow federal and state requirements; address local government needs, interests, and concerns; and serve MDOT's customers and the critical supply chain.

MISSION STATEMENT

"The Maryland Department of Transportation is a customer-driven leader that delivers safe, sustainable, intelligent, and exceptional transportation solutions in order to connect our customers to life's opportunities."

The COVID-19 global pandemic had a significant impact on transportation use and consequently on Transportation Trust Fund revenues. The MDOT team stepped up to deliver critical services that helped other front-line workers get to their jobs and maintain connections across the supply chain and continued to support statewide transportation services and needs. Despite the challenges of operating during a pandemic health crisis, more than 10,000 MDOT employees and our private sector partners continued to deliver outstanding customer service in every business unit across the Department.

As the state's economy and transportation network continues to recover, this Final CTP looks to the future with a focus on preserving what we have, planning for future projects, and building what we can to further support Maryland's economy. With increasing revenues and resources, MDOT is

strategically and efficiently ensuring our transportation investments maintain and further our priorities. MDOT has developed a Blueprint to better outline MDOT's system of the future as an integrated, smart, cleaner, and more autonomous and connected system.

The MDOT Blueprint is a collaboration that reflects how we, as an agency without barriers, are transforming tomorrow's transportation today. Founded in the unique mission and goals of each Transportation Business Unit (TBU), and through the overlapping impact of projects and resources supported by multiple TBUs, MDOT is improving how we propel the movement of goods and services and connect people with the places where they live, work, and play. This is how our System of Systems safely and efficiently keeps Maryland on the move – this is how we create the complete customer experience. Grounded in safety, efficiency, access, and mobility, we are focused on the following collaborative themes and how we can work together to be more efficient, sharing resources to improve asset management, customer service, technology, data, and innovation, economic growth, and sustainability, environmental stewardship, and resiliency.

We will drive our initiatives with four strategic priorities:

1. Focus on the customer
2. Modernize the organization
3. Manage our assets
4. Advance major projects

Maintaining a Culture of Safety for Employees and Users of the Transportation Network

Safety continues to be the number one priority for MDOT. The COVID-19 global pandemic continues to present unique challenges to how MDOT employees across the Department interact with customers to deliver services. The Department also maintains a focus on protecting our employees on the front lines and behind the scenes through enhanced cleaning and disinfecting of facilities and services, providing Personal Protective Equipment, and reengineering worksites to facilitate social distancing. We will not compromise on our commitment to continually improve the safety and security of our customers and partners in everything we do.

It is critical we commit to safety and security in our designs, in our construction, as well as in our operations and maintenance of the state's transportation system. We promote a culture of safety in our business practices and educate our traveling public on good safety behavior and practices. MDOT works with our federal and local law enforcement partners on a daily basis to constantly evaluate and implement measures to reduce the vulnerability of Maryland citizens and facilities. With federal and state investments, progress is being made on a variety of fronts.

Traffic fatalities in Maryland increased from 535 in 2019 to 573 in 2020. Speeding accounts for more than 9,800 crashes and 4,500 injuries each year in Maryland. As no life lost is acceptable, MDOT continues to strive to do what it can to reduce traffic fatalities.

Strategic Highway Safety Plan

MDOT promotes traffic safety through the many infrastructure and behavioral programs and projects implemented by MDOT SHA and MDOT MVA Maryland Highway Safety Office, which is the lead agency for the state's Strategic Highway Safety Plan (SHSP). The SHSP is a statewide, comprehensive safety plan that provides a coordinated framework for reducing deaths and severe injuries on all public roads. Through extensive outreach and involvement of federal, state, local, and private sector safety stakeholders, the Plan establishes statewide goals and critical emphasis areas. As an outgrowth of this initiative, many local communities have developed, or are in the process of developing, local road safety plans using the SHSP as a guide. The Federal Highway Administration (FHWA) has designated this program as a proven countermeasure because it tailors solutions to local issues and needs.

MDOT continues to urge Marylanders to demonstrate safe behavior when driving by focusing on some simple, common rules of the road:

- Have a safe and sober ride... a designated driver, cab, ride share, or public transportation.
- Park the phone before you drive. Distracted driving accounts for more than 54,000 crashes and more than 26,000 injuries per year in Maryland.
- Always buckle up! It's the single most important way to save your life in a crash. Seatbelt use in Maryland was 89.9 percent in 2020.
- Adapt your driving. Leave a little early. You won't feel the need to speed or drive aggressively.
- Look twice for pedestrians, bicyclists, and motorcyclists, especially when changing lanes or approaching an intersection.
- Use crosswalks and bike lanes. Be visible on the road.
- Move over when approaching an emergency vehicle or tow truck using visual signals. If you are unable to move over, slow down.

Safeguarding Motorists and Monitoring the Roadways Across the State

MDOT SHA Coordinated Highways Action Response Team, or “CHART,” and the MDTA’s Courtesy Patrols and Vehicle Recovery Unit are incredibly vital as they continue to safeguard our highways, respond to crashes, and help stranded motorists, among their many other duties. CHART employees also monitor roadways 24/7 at the Statewide Operations Center (SOC), our comprehensive, command and control facility in Hanover. The MDTA has a similar Emergency Operations Center (EOC).

When an incident occurs, our MDOT SHA and MDTA employees are often the first to respond. CHART drivers patrol 2.4 million miles a year, respond to approximately 23,000 incidents, and assist another 27,000 motorists. This means they are helping a driver or responding to an incident every 10 minutes, even during this COVID-19 emergency. With satellite Traffic Operations Centers and emergency traffic patrols spread across the state to handle peak-period traffic incidents, CHART has assisted nearly 1.2 million motorists since the program began in the mid-1980s. MDOT SHA’s CHART incident management program saved motorists \$1.08 billion in user costs due to reduced delay, fuel savings and crash reductions, and helped reduce delays by 23.52 million vehicle hours in CY 2020. Meanwhile, MDTA drivers last year (CY 2020) patrolled more than 1.2 million miles, assisted drivers of 6,453 vehicles and changed 5,940 flat tires. They also removed 6,537 disabled vehicles from roadways.

MDOT Leadership in Safety Efforts

- In September 2020, MDOT MVA’s Maryland Highway Safety Office launched Be the Driver, a highway safety campaign focused on safe driving behaviors. It addresses areas of highway safety concerns as identified in Maryland’s SHSP and focuses on the common contributing factors of fatal crashes. These areas include Occupant Protection, Aggressive Driving, Impaired Driving, Distracted Driving, Motorcycle Safety, and Pedestrian and Bicycle Safety.
- Between September 2020 and April 2021, a multi-agency team participated in the Learning Collaborative on State Strategies to Strengthen and Leverage Data to Address Impaired Driving, hosted by the National Governors Association’s Center for Best Practices and supported by the Centers for Disease Control and Prevention. The Maryland team was led by MDOT MVA Administrator Christine Nizer, supported by Secretary Greg Slater, and focused on how to advance our efforts in collecting actionable impaired driving data and using it to improve public health and safety.
- For the seventh year, MDOT MTA continued to be ranked as the safest transit system of the top 12 U.S. transit agencies.
- During the past 10 winter seasons, MDOT SHA and MDTA were able to clear the roads on primary and interstate highways in fewer than four hours, on average.
- MDOT MVA’s work with REAL ID resulted in Maryland being the first state in the nation to be recertified by the Department of Homeland Security for REAL ID compliance. With about 80% of drivers and card holders already REAL ID compliant, MDOT MVA is well on its way to meeting the REAL ID deadline, which has been extended to May 3, 2023, due to the COVID-19 pandemic.

Asset Management

State of Good Repair is the condition in which a transportation asset, such as transportation infrastructure, services, or vehicles are able to operate at a full level of performance. MDOT is committed to ensuring all of its transportation assets remain in a State of Good Repair. To accomplish this, we continuously catalog and evaluate our assets, which helps us maximize our limited resources by directing them to those most in need of improvements.

Asset management is considered an integrated set of processes to minimize the lifecycle costs of infrastructure assets, at an acceptable level of risk, while continuously delivering established levels of service. Asset management is a holistic approach of balancing costs, opportunities, and risks against the desired performance of assets. MDOT houses the state's transportation agencies in one organization, ensuring the interconnectivity of the state highways, toll facilities, transit, aviation, ports, and motor vehicle and driver services. MDOT will continue to focus on the transportation infrastructure that is most in need of repair.

MDOT strives to maximize the value of every dollar. Maintaining our system in a state of good repair is our priority, and MDOT continues to emphasize allocating funds toward system preservation. The CTP reflects this priority by making continued investments in our: statewide bridge program; road and runway resurfacing; rail car overhauls and replacements; bus replacements; and general facility rehabilitation, replacement, and upkeep.

A key focus area is the condition of bridges across Maryland. MDOT SHA continues to make significant progress in reducing the number of poor rated bridges (the bridges are safe but need repairs/replacement) on the state's highway system to ensure safe travel for our customers. Each year, additional

bridges are identified as poor rated, and through our asset management plan, these projects advance to the construction phase as needed. MDOT recorded 29 poor rated MDOT SHA bridges - the lowest level since tracking began and one of the lowest percentages of any state transportation agency in the nation. These bridges are in the process of being addressed, with nine currently in the construction phase, and the rest in the design phase with construction funding either in place or pending.

MDOT SHA improved or treated approximately 91% of all State Highway lane miles since the beginning of FY 2015, spending \$168 million of system preservation funds in FY 2020 alone. In CY 2020, 87.2% of MDOT SHA's highway network was in overall preferred maintenance condition, and in CY 2020, 91% of the MDOT SHA and MDTA roadway network was in overall acceptable pavement condition, using MDOT SHA definitions. Using, Federal Highway Administration definitions, MDOT SHA has reported 89% of its system in fair/good condition.

In FY 2021, through the Statewide Aviation Grant Program, MDOT MAA administered \$2.2 million to public-use airports across the state. These grants support the flying public with airport improvement and infrastructure preservation projects, safety equipment acquisitions and environmental compliance activities. This state investment leveraged over \$33.1 million in Federal Aviation Administration funds and \$1.0 million in airport owner investment. This level of funding is expected to provide \$15-\$20 million each year over the next six years. In addition, \$2.4 million was allocated to non-state-owned public-use airports as part of the federal Coronavirus Response and Relief Supplemental Appropriation Act (CRRSAA).

In December 2020, the MDTA re-opened the newly constructed I-895 bridge north of the Baltimore Harbor Tunnel (I-895), featuring two lanes of traffic in both the northbound and southbound directions from north of the tunnel,

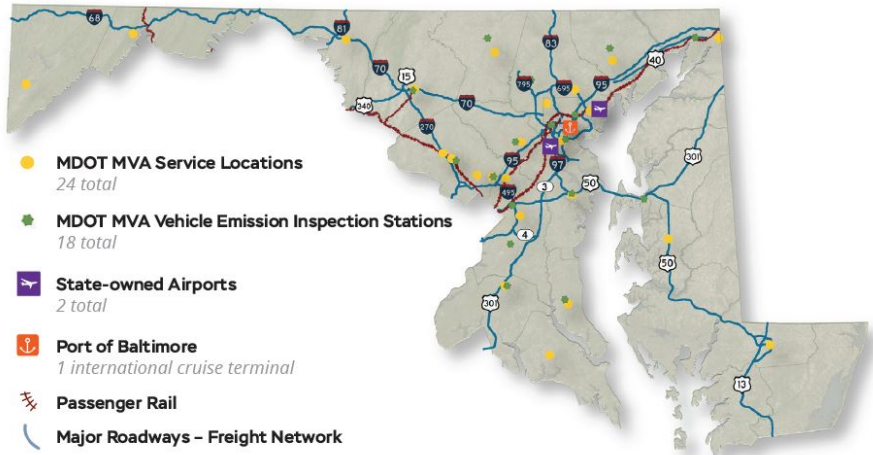

through the tunnel and to the toll plaza. Fully completed in July 2021, the three-year, \$189 million I-895 Bridge Project replaced the 60-year-old bridges and Holabird Avenue exit ramp north of the Harbor Tunnel and rehabilitated the tunnel. The new northbound and southbound I-895 structures replace the MDTA's only poor rated bridge in its inventory.

Construction is underway on the MDTA's \$463 million project to build a new US 301 bridge to replace the 80-year-old Governor Harry W. Nice Memorial/Senator Thomas "Mac" Middleton Bridge over the Potomac River. The project is one of Maryland's largest transportation initiatives and will improve mobility, safety and economic opportunities for Southern Maryland, northeastern Virginia, and the region. The MDTA kicked off major construction in July 2020, and the new, wider, four-lane crossing will open to traffic by early 2023. Once open, the new bridge will:

- Double the vehicle capacity with four 12-foot-wide lanes, replacing the original bridge's two 11-foot-wide lanes.
- Improve safety by installing a barrier-separated median between eastbound and westbound lanes, adding two-foot shoulders and other improvements that meet current safety standards.
- Eliminate lane-shifting safety issues at toll booths by replacing them with all-electronic (cashless) tolling (AET).
- Enable tall ships to pass beneath its 135-foot clearance.

MARYLAND DEPARTMENT OF TRANSPORTATION'S SYSTEM

182 Million square yards of roadway, airfield, and parking pavement	858 Customer, operations and maintenance, and administrative buildings	6,360 Revenue and non-revenue producing vehicles and equipment
11,254 Structures	188 Miles of passenger and freight rail	150 Major IT Systems
		19.6 Miles of road and rail tunnels

Transit Fleet

MDOT MTA is investing in fleet modernization across all modes to support safe and reliable operations and enhance passenger comfort and convenience. Key highlights include:

- The \$400 million replacement of metro railcars and signal system is underway.
- The \$160 million overhaul of the 53-vehicle light rail vehicle fleet continues to move forward.
- The \$54 million overhaul of 63 MARC III passenger coaches which is advancing with seven overhauled coaches currently in service.
- The \$280 million to rehabilitate and renew metro tunnel, track, systems, and stations.

MDOT MTA received a grant for a few 60-foot articulated low or no emission vehicles through the Federal Low or No Emission Grant. MobilityLink paratransit vehicles also continue to be replaced and are being evaluated for low or no emission vehicle opportunities. Also, MDOT MTA is currently working on the next five-year contract to purchase all zero emission Core buses.

Customer Service

Under Governor Hogan's leadership, MDOT aims to provide premier customer service to all customers. There are many examples highlighting MDOT employees providing exceptional customer service.

MDOT MVA launched its new *Customer Connect* system, providing additional options and increased flexibility for Marylanders doing business with

MDOT MVA. *Customer Connect* provides more access to online transactions, reduces the use of paper forms, and enhances security. With more online services now available than ever before, MDOT MVA is encouraging residents to take advantage of the convenience provided by *Customer Connect* from the comfort and safety of home.

The federal REAL ID deadline has been extended to May 2023. If you are unsure about your identification status MDOT MVA's REAL ID Lookup Tool (<https://mva.maryland.gov/Pages/realidlookup.aspx>) provides 24/7 access to check REAL ID status by entering a driver's license or ID card number on the secure website. In addition, an Online Document Guide (license.mva.maryland.gov) provides a checklist of documents and allows customers to schedule an appointment at any MDOT MVA branch.

In August 2020, MDOT MAA opened the new five-gate extension of A Concourse, which added important services and amenities for travelers and supports further growth from Southwest Airlines. The \$48 million improvement project consists of a 55,000 square-foot, five-gate extension of Concourse A. The project includes new airline hold-rooms and jet bridges, upgraded restrooms, and three new food and retail concessions. This project received five awards from the Maryland Quality Initiative (MDQI) including the 2021 Project of the Year.

MDOT MAA welcomed a new concept that offers private rest and workstation rooms for BWI Marshall Airport passengers. Minute Suites offers private rooms where airport passengers can relax, nap or work before a flight or during a layover. At BWI Marshall, Minute Suites provides five relaxation and workstation rooms on Concourse C. The private rooms are accessible for passengers flying from concourses A, B, or C. The Minute Suites include a daybed, television, workstation, free WiFi, and other amenities.

Technology, Data, and Innovation

In August 2020, Governor Hogan announced the permanent transition to full-time all-electronic tolling across Maryland, including at the John F. Kennedy Memorial Highway (I-95), Fort McHenry Tunnel (I-95), Baltimore Harbor Tunnel (I-895), and Nice/Middleton Bridge (US 301). The system provides convenience for motorists, less engine idling for better fuel efficiency and reduced emissions, decreased congestion, and increased safety. The MDTA implemented temporary all-electronic tolling statewide in March 2020 as part of its COVID-19 response and made all-electronic tolling permanent at the Bay Bridge in May 2020 with the installation of a new tolling gantry. Other MDTA facilities, including the Intercounty Connector (ICC)/MD 200, I-95 Express Toll Lanes in Baltimore, and the Key (I-695) and Hatem (US 40) bridges, had already operated using all-electronic tolling.

In April 2021, the MDTA brought Maryland into the next generation of tolling with the launch of DriveEzMD. The launch included a new website, web chat,

expanded customer call center, new toll payment choices, text notifications and more. As Maryland's new home for all things tolling, DriveEzMD encompasses *E-ZPass*, a brand-new Pay-By-Plate option, and Video Tolling.

Electronic toll collection (ETC) systems expedite the toll collection process, reduce delays, decrease congestion and emissions, and are available at all toll facilities across the state.

Target: Short-Term Target: 82%, Long-Term Target: 85%

* Toll collections are paid as cash until March 2020 or ETC. ETC includes transponder, I-tolls, and video tolls.

Regional Transit Plan for Central Maryland and Statewide Transit Plan

MDOT MTA completed a new Regional Transit Plan (RTP) for Central Maryland, providing a 25-year plan for improving public transportation. The Plan focuses on seven topics to provide a better understanding of what transit resources exist while also exploring opportunities to improve mobility. Those topics include: State of Good Repair; Funding; New Mobility; Customer Experience; Service Quality and Integration; Access; and Corridors. The Central Maryland Region includes Anne Arundel, Baltimore, Harford and Howard counties as well as Baltimore City. MDOT MTA collaborated with a broad range of partners, including a regional commission, local governments, other transit providers, and the public to develop this Plan. In 2020, the RTP Implementation Team was formed and will, along with the public and all stakeholders, be engaged in implementing 30 strategies identified in the 5-year action plan. More than half of those strategies, 22 in total, were started or completed in the first year of implementation. To learn more and view the progress dashboard, or to view the Plan, visit: rtp.mta.maryland.gov.

The 5-year action plan includes the launch of the first two RTP Corridor Feasibility Studies – North-South Corridor roughly between Towson and Downtown Baltimore and an East-West Corridor between the Bayview

community and Ellicott City. To learn more about the RTP corridors, visit: <https://rtpcorridors.com/>.

MDOT MTA is also addressing statewide planning needs through the Statewide Transit Plan (STP). The Statewide Transit Plan will outline a 50-year vision for transit in Maryland and builds upon existing regional and local transit plans across the state. The Draft STP is completed and was released for comment on January 5, 2022. MDOT MTA is currently accepting public comments until February 18, 2022. To learn more about the STP, visit: <https://www.mta.maryland.gov/statewide-plan>.

Transit Apps

MDOT MTA continues to promote two mobile apps for smart phones. The CharmPass Mobile Ticketing app, introduced in September 2018, allows riders to pay for MDOT MTA services from a smart phone for all Local Bus, Metro SubwayLink, Light RailLink, MARC Train, and Commuter Bus Services. Electronic and mobile fare payment allowed for the creation of a 90-minute free transfer policy and use of employer-sponsored transit benefits within the app. MDOT MTA launched a partnership with Transit app in June 2018, which provides real-time transit information, trip planning, and step-by-step navigation. Further, through the Transit app, MDOT MTA launched real-time tracking for MARC Train service in August 2020.

MDOT MTA has also provided grants and technical support to Locally Operated Transit Systems to launch mobile ticketing in rural and suburban service areas. For example, MDOT MTA's Statewide Transit Innovation grant provided funding for Cecil Transit to launch its own trip planning and mobile payment app. MDOT MTA continues to work with local and private transit providers toward increasingly integrated and open payment and trip planning options.

Reliable, On-Time Service

BaltimoreLink, launched in June 2017, continues to provide more people with faster and more reliable access to transit, jobs, and services in the region. Since the launch of BaltimoreLink, on-time performance (OTP) has increased substantially. To achieve improved OTP, MDOT MTA implemented new programs and innovations, including dedicated bus lanes and transit signal priority, to make riding easier and more efficient than ever.

Real-time Global Positioning System (GPS) data is one of the tools MDOT MTA uses to manage and monitor service. MDOT MTA uses real-time data daily to resolve identified service issues along specific routes. MDOT MTA has an online performance dashboard that offers searchable performance data for all core services, including Local Bus routes (CityLink, LocalLink, and Express BusLink), which provides on-time, early, and late arrival percentages. Light Rail, Metro, MARC, and Commuter Bus riders can also access this real-time information through the "Transit" app to know when their bus or train will arrive. To learn more about the performance improvements, visit: mta.maryland.gov/performance-improvement.

MDOT MTA launched the Transit Priority Initiative (TPI) in 2018, building on traffic improvements such as dedicated bus lanes and transit signal priority piloted for BaltimoreLink, and identifying additional roadways and bus routes to prioritize for similar improvements. A TPI Toolkit was published identifying additional tools for increasing travel time reliability, reducing delays, and enhancing pedestrian and bicyclist safety and outlining how and why MDOT MTA might apply each treatment to improve service. MDOT MTA has conducted outreach and conceptual plans for the Belair Road/Gay Street Corridor and Garrison Boulevard/Bloomingdale Corridor. MDOT MTA was also awarded Transportation Alternatives Program (TAP) grants to advance design and begin planning additional corridors. To learn more about the Transit Priority Initiative, visit: <https://www.mta.maryland.gov/transit-priority-initiative>.

Commuter Choice Maryland

To promote commuter travel alternatives and support the mobility, health and wealth of its community, environment, and business partners, MDOT continues to promote Commuter Choice Maryland. The benefits of Commuter Choice Maryland are significant, as were demonstrated during mandatory remote work orders in 2020. Commuter Choice Maryland encourages commuters to explore and use alternate means of transportation to and from work, giving them travel choices convenient to them, such as transit, ridesharing (carpool/vanpool), biking, walking, teleworking, and alternative work schedules. These options help reduce commuter stress, reduce congestion, and conserve energy. We have also observed that Commuter Benefits help to attract and retain top employee talent.

Maryland businesses offering Commuter Benefits can also take advantage of the Maryland Commuter Tax Credit, designed to encourage businesses of all sizes to provide Commuter Benefits to their employees.

In 2020, during the COVID-19 pandemic, many people were ordered or strongly encouraged to work from home, which gave us an opportunity to assess how many people could effectively and productively work remotely, while improving air quality and reducing congestion. Studies have shown that many people working remotely are working on average up to three hours more per week and being very productive. As people more widely return to their office location, they should continue to consider teleworking as an option, as appropriate.

Commuter Choice Maryland began seeking partners with state and local organizations, nonprofits and private-sector companies across Maryland for its new Commuter Choice Maryland Partner Program. Through the program, Commuter Choice Maryland partners with organizations to help them promote Commuter Benefits, and also recognizes employers across the state who are leaders in promoting alternative commuting options and benefits. These

partners are helping Maryland achieve important goals, such as reduced traffic congestion, cleaner air and fewer greenhouse gas emissions, as well as increased economic opportunity.

To learn more, please visit CommuterChoiceMaryland.com or email: commuterchoice@mdot.maryland.gov or call: 410-865-1100 between 8:30 am and 5:00 pm Monday – Friday.

IncenTrip

MDOT has launched the expansion of the incenTrip application statewide into Maryland as a congestion mitigation effort. The purpose of incenTrip is to reduce traffic congestion in the weekday peak periods by encouraging Maryland travelers and employers to increase the use of public transportation, ridesharing (carpooling and vanpooling), walking, biking, teleworking, and alternative work schedules. Maryland travelers using the application will earn points when they make decisions to avoid congestion, and the points can be redeemed for rewards.

Connected and Automated Vehicle (CAV) Technology

Connected and automated vehicles (CAV) are an important foundation for the future of mobility in Maryland as we continually strive to increase access to all transportation options and improve the reliability of our transportation system. Maryland is embracing CAV technology and innovation through continuing collaboration with a wide variety of stakeholders, including planners, engineers, emergency responders, private entrepreneurs, researchers, policymakers, and many others within Maryland. Maryland's [CAV Working Group](https://www.mdot.maryland.gov/MarylandCAV) (www.mdot.maryland.gov/MarylandCAV) provides a central point of coordination for all entities seeking to test and develop CAV technology, as the Group sets about implementing tangible strategies that will enable us to reap the benefits of CAV technology in a safe and efficient manner. CAV will not only affect transportation, but this life-changing technology will impact our health, prosperity, and access to resources during difficult times. This technology can help save lives. Lack of action is a real risk; keeping the status quo will mean hundreds of lives every year in Maryland will continue to be lost due to traffic-related crashes.

CAV could change all aspects of mobility—from the way we commute to how we plan and develop infrastructure for future cities and towns. CAV technology leverages connected capabilities with automated features to provide the highest benefit of safety redundancies on the roadway. Connected vehicles “talk and listen” to infrastructure, other vehicles, and mobile devices – to warn a human driver of an impending hazard, enable a vehicle to operate more efficiently, or guide a vehicle to take appropriate action given the

surroundings. Automated vehicles use sensors and other technologies to understand the environment to similarly assist drivers or guide the vehicle; eventually, very high-level automation may be able to perform driving tasks in place of a human driver. Maryland is proactively providing tangible information to our communities and stakeholders to help effectively realize the benefits this vehicle technology can provide. The recently published [Maryland CAV Strategic Framework](#) demonstrates the state's continued leadership in this area and focus on identifying the many life-saving and economic benefits of CAV technology, while continuing to prioritize collaboration across the state.

Economic Growth - Keeping Maryland Moving

Maryland's transportation system is essential to the state's economy. An efficient transportation system provides a competitive advantage to businesses in a regional, national, and global marketplace. Transportation directly impacts the viability of a region as a place that people want to live, work, and raise families, all critical to keep Maryland moving. Transportation infrastructure provides value and investing in Maryland's transportation system creates jobs and supports essential employees and Maryland industries and businesses.

BWI Airport

Over the last five years (2015-2020), air cargo tonnage at BWI Marshall has increased at an average annual rate of 19% - more than doubling the volume processed in 2015. Much of this can be attributed to the shift in consumer buying patterns to e-commerce and last-mile delivery. With the opening of the new Midfield Cargo building in late-2019, BWI Marshall has become one of Amazon's top 5 busiest air cargo facilities in the nation (out of 35) and currently employs over 1,200 persons. As of 2020, BWI Marshall has 57% of the regional market share handling more cargo than Dulles International and Reagan National airports combined. Moving forward, MDOT MAA continues to explore opportunities to accommodate growth in both the domestic and international air cargo markets.

Port of Baltimore

In CY 2020, the Helen Delich Bentley Port of Baltimore handled 1,729 ship calls that brought 37.3 million tons of foreign cargo to Maryland. The Port remains top ranked among all U.S. seaports for cars/light trucks, Ro/Ro, and imported gypsum. Nearly 140,000 jobs in Maryland, including more than 15,300 direct jobs, are generated by the Port of Baltimore.

The ongoing cargo increases at the Port of Baltimore's public marine terminals are spurring capital projects that will place the Port in a very competitive position for future growth. The MDOT MPA is reconstructing and strengthening its Dundalk Marine Terminal berths to better accommodate the increasing size of heavy farm and construction machinery. The Port of Baltimore currently handles more of this commodity than any other port in the nation.

Dredging has been completed for a second, 50-foot berth at the Seagirt Marine Terminal and four additional Neo-Panamax cranes arrived in September 2021. The cranes are expected to be fully operational in FY 2022 and will allow the Port of Baltimore to handle two Ultra Large Container vessels simultaneously. Complementing the new Seagirt berth is the expansion of Baltimore's Howard Street Tunnel. The expanded tunnel, currently underway, will allow for double-stacked container rail cars, clearing a longtime hurdle for the Port and giving the East Coast seamless double-stack capacity from Maine to Florida. The Howard Street Tunnel project benefits from public-private investment from the federal government, Maryland, CSX, and others, and is expected to increase the Port's business by about 160,000 containers annually. It will also generate about 6,550 construction jobs and an additional 7,300 jobs from the increased business. The project received final National Environmental Policy Act approval in FY 2021 and broke ground in FY 2022. More information on the Howard Street Tunnel Project can be found at: <http://www.mpa.maryland.gov/HST>.

General Freight

To meet other freight needs, MDOT is taking an aggressive approach to implement other multimodal freight solutions in Maryland. Please refer to the

CTP Freight Summary Section on page FRT-1 of the CTP for a listing of MDOT's freight projects. In addition to capital projects, MDOT is involved in several freight planning efforts, including a recently completed Statewide Truck Parking Study and is working on updating the State Rail Plan and the State Freight Plan. Additional information on MDOT's freight activities can be found on MDOT's website at: mdot.maryland.gov/freight.

Public-Private Partnerships

Public-Private Partnerships (P3) will continue to be an important tool over the coming years, where we can find opportunities to partner with our federal, state, regional, local, and private partners to advance projects of importance to Maryland. MDOT has a demonstrated history of successful P3 projects at the Port of Baltimore and travel plazas owned by the MDTA.

The P3 agreement with Ports America Chesapeake continues to solidify the Port's position as Maryland's economic engine. The above-described second 50-foot-deep berth project at Seagirt Marine Terminal is part of a \$122.1 million investment, with \$105 million from Ports America, \$10.5 million from the state and \$6.6 million in federal funding.

MDOT remains committed to the construction of the entire 16-mile Purple Line light rail corridor which will connect Prince George's and Montgomery counties inside the Capital Beltway, with 21 stations connecting to: Metrorail's orange, green, yellow, and red lines; the MARC Brunswick, Camden, and Penn lines; regional and local bus services; and Amtrak at New Carrollton. Partnering with the concessionaire's new contractor construction efforts to complete the project are now ramping up over the next few months. For more information about the project, visit: purplelinemd.com.

Work also is progressing on the Hogan Administration's Traffic Relief Plan (TRP) to reduce traffic congestion, increase economic development, enhance safety and improve Marylanders' quality of life. The TRP includes a number of projects -- the largest being the I-495 and I-270 P3 Program's Phase 1: New American Legion Bridge I-270 to I-70 Traffic Relief Plan. The first section of the New American Legion Bridge I-270 to I-70 Traffic Relief Plan, known as Phase 1 South, will advance the historic Capital Beltway Accord between Maryland and Virginia by replacing the nearly 60-year-old American Legion Bridge (ALB) while providing congestion relief for millions of travelers in the National Capital Region. To start, Phase 1 South proposes to provide two new High-Occupancy Toll (HOT), lanes in each direction from the vicinity of the George Washington Memorial Parkway in Virginia across the ALB to I-270 and up I-270 to I-370 while keeping the existing general-purpose highway lanes free. The HOT lanes will help meet the region's growing travel needs for a balanced transportation system by providing new options and opportunities for multi-modal travel – bus transit, carpooling and vanpooling, improved bike/pedestrian and vehicle connections -- and the choice to pay a toll when Marylanders need a faster, more reliable trip. The second section of the New American Legion Bridge I-270 to I-70 Traffic Relief Plan, known as Phase 1 North, is in the early planning stages and will look to extend the HOT lanes north to I-70 in Frederick. Up-to-date information is provided on the P3 Program website at: oplanesmd.com.

Work also continues on the Hogan Administration's Baltimore Traffic Relief Plan, including the I-695 Transportation Systems Management and Operations (TSMO) and I-695 at I-70 Triple Bridges projects. The I-695 TSMO project will reduce congestion and improve reliability on I-695 from the I-70 Interchange to MD 43 through a number of strategies, including converting portions of the existing median shoulder to a toll-free travel lane during the morning and evening rush hours. The I-695 at I-70 Triple Bridges project will address the structural needs at the interchange, reduce congestion, and retain all existing access movements.

The second element of the Baltimore TRP is the extension of the Express Toll Lanes (ETLs) on I-95 north of Baltimore, which will provide innovative congestion relief. This MDTA project, funded with toll revenue, will extend the two-lane ETL to MD 24 including replacing bridges along the route and reconstructing the MD 24 and MD 152 interchanges. Construction is already underway on this key project.

The third element of the TRP is the deployment of cutting-edge smart traffic signals to improve traffic operation and ease congestion. Sixteen of the currently planned 32 corridors across the state have been completed. The system uses real-time traffic conditions and computer software that adjusts the timing of traffic signals, synchronizes the entire corridor, and effectively

deploys artificial intelligence to keep traffic moving. More information on the complete Traffic Relief Plan is available on the MDOT SHA website: roads.maryland.gov.

Walking/Biking

Maryland, like many parts of the country, is seeing an increased interest in biking and walking as a significant transportation mode and an integral part of the state's broader transportation approach. Safe infrastructure for people walking and biking is essential to MDOT contributing to the broader statewide goals of reducing greenhouse gas emissions, alleviating congestion, encouraging healthy activities, and supporting activity-based tourism and economic development.

Throughout October 2021, MDOT hosted the second-annual Walktober campaign alongside various state agencies, county governments, and national non-profit organizations. The Walktober campaign builds from core agency partnerships around health, education, and aging to help celebrate the seventh annual "Walk Maryland Day" on October 6, 2021, while expanding the agenda to reflect broader planning and advocacy concerns identified as part of Maryland's Bicycle and Pedestrian Master Plan. Over 50 individual events and programs were held in October 2021 throughout the state to encourage walking, which is Maryland's official state exercise. On Thursdays throughout the month, MDOT offered free walk-focused webinars (called Walkinars), which discussed topics such as infrastructure, safety, and health.

Walktober 2021 built on the success of 2020's event with the creation of MDOT's Pedestrian newsletter, titled *Walk this Way*, and the addition of the Pedestrian Subcommittee of the Governor's Maryland Bicycle Pedestrian Advisory Committee. Planning has already begun for Walktober 2022 where the hope is more in-person activities can occur. To learn more about Walktober, visit: mdot.maryland.gov/walktober.

MDOT is committed to improving bicycle and pedestrian safety, access and mobility. MDOT SHA's Context Driven approach has improved pedestrian safety statewide and created separated bike lanes expanding network connectivity. The CTP includes key discretionary programs, such as the Federal Transportation Alternatives Program and the state's Kim Lamphier Bikeways Network Program. For the third year in a row, \$3.8 million is available for local jurisdictions through the Bikeways Program for the design and construction of bike facilities.

Together, these program investments are strengthened by comprehensive guidance for all MDOT customers in Maryland. Targeted strategies and initiatives identified in this document, along with the 2040 Maryland Transportation Plan, ensure MDOT is responsive to changing needs and opportunities to improve active transportation connectivity and safety for all.

Sustainability, Environmental Stewardship, and Resiliency

MDOT is committed to environmental stewardship and continues to be a national leader in implementing innovative and multimodal strategies that protect our natural, cultural, and community resources. The following examples illustrate how MDOT works in coordination with state, local, and national partners, among others, to ensure that we make sustainable progress toward our state and local goals related to air and water quality, as well as energy and land conservation.

Through partnerships with the Maryland Department of the Environment (MDE) and the state's Metropolitan Planning Organizations (MPOs), MDOT is

reducing emissions of criteria pollutants, such as particulate matter, as well as the ozone precursors, volatile organic compounds (VOCs) and nitrogen oxides (NOx). In addition to addressing the National Ambient Air Quality Standards (NAAQS) for criteria pollutants, set by the US Environmental Protection Agency (EPA), MDOT is also working to reduce greenhouse gas (GHG) emissions from the transportation sector. Maryland has goals to reduce GHG emissions statewide by 40 percent by 2030, from 2006 emissions levels. In July 2020, the World Resources Institute (WRI) recognized Maryland as the top GHG-reducing state in the nation. The WRI study on "America's New Climate Economy" found that Maryland has successfully reduced emissions by 38 percent between 2005 and 2017 all while growing our economy. MDOT continues to produce annual reports illustrating the progress made toward reducing transportation sector GHGs and submits those state agency reports to the Maryland Commission on Climate Change and the Maryland General Assembly.

Criteria pollutant and GHG emissions from the transportation sector are greatly reduced through vehicle technology advancement. This includes the passage of corporate average fuel economy (CAFE) standards, the advent and adoption of electric and hybrid-electric vehicles (EVs), and the burgeoning opportunity afforded through CAV technologies. MDOT continues to lead Maryland's Zero Emission Electric Vehicle Infrastructure Council (ZEEVIC) and the Maryland CAV Working Group. We have found success through collaboration, boasting robust growth in EV ownership and publicly available charging infrastructure.

During the last year from January to December 2021 EV ownership in Maryland increased by more than 41% percent from 29,268 to 41,474 registrations. Under MDOT's leadership, Maryland has successfully nominated 22 EV alternative fuel corridors (AFCs), two liquified petroleum gas (LPG) AFCs, one compressed natural gas (CNG) AFC, and one liquified

natural gas (LNG) AFC under the FHWA's AFC solicitation. These corridor designations are key to utilizing new federal EV charging infrastructure funding in the Infrastructure Investment and Jobs Act.

The MDOT has worked to facilitate and support the deployment of Electric Vehicles (EVs) and Electric Vehicle Supply Equipment (EVSEs) to mitigate climate change and improve air quality. To support this growing demand, Maryland has been working to deploy a robust EVSE infrastructure of more than 1,100 charging stations and 3,000 charging outlets. Of these, 24 EV charging stations are available at light rail, metro, bus, and MARC train stations, providing a EV-to-transit connection by allowing EV drivers to charge their vehicle at the transit station while completing their trip using transit.

MDOT also invests in a variety of Travel Demand Management (TDM) strategies that provide alternatives to driving alone and limit emissions from the transportation sector. TDM efforts, such as carpooling, car sharing, transit, teleworking, and variable pricing infrastructure, as promoted in the Commuter Choice Maryland program, reduce congestion and lower commuting costs, in addition to providing environmental benefits. MDOT's work force is also participating in telework on a broader scale in the aftermath of pandemic restrictions, and we will continue to monitor these arrangements.

Four MDOT TBUs were awarded Volkswagen Settlement funds to replace more than 40 vehicles. These funds will allow MDOT MAA to incorporate zero emission vehicles (ZEV) into airport shuttle operations, MDOT MTA to

transition to ZEV transit buses, and MDOT SHA and MDOT MPA to replace older vehicles and equipment. More than 200 tons of NOx will be reduced as a result of these vehicle replacements. MDOT TBUs also have begun planning for MDOT light-duty fleet vehicle electrification and installation of EV charging stations at MDOT work sites.

In May 2021, MDOT MAA and BGE installed new electric vehicle charging stations at BWI Marshall Airport. The four new DC fast charging (DCFC) stations, located in the Airport's Cell Phone Lot, will allow motorists to charge their electric vehicles while waiting for airline passengers to arrive.

By coordinating land-use, transportation, and resource planning with partners in other agencies and local governments, MDOT helps to ensure that the investments made will meet multiple needs for the citizens of Maryland. Using the state's Green Infrastructure Plan and Chesapeake Bay Restoration priorities as a guide, MDOT TBUs are minimizing negative impacts and using project mitigation to support the state's broader conservation goals. To help decrease pollution from entering our waterways, the CTP supports a three-pronged approach: retrofitting older parts of the transportation network with the latest stormwater management technology; restoring natural filters through stream restoration, forest establishment, and wetland creation; and adopting protective operational practices. These actions will move the state closer to meeting mandated water quality targets.

Chapter 30

The Maryland Open Transportation Investment Decision Act – Application and Evaluation (Chapter 30) required MDOT to develop a project-based scoring system to rank major highway and transit transportation projects under consideration for funding in the CTP. Chapter 30 established nine goals and 23 measures to evaluate these major projects. The project-prioritization model required under Chapter 30 does not select major transportation projects for funding but is one of many tools MDOT will utilize in its project-selection process. The project evaluation results for this year are shown in the appendix of this CTP.

MDOT created a Chapter 30 scoring model that establishes how the 23 measures are defined and measured and created a weighting structure to score and prioritize the projects. For more information, visit: mdot.maryland.gov/Chapter30.

Process for CTP Development

The CTP takes nearly a full year to create through the work and collaboration of MDOT staff with state, regional and local elected officials. Each year, local jurisdictions are encouraged to submit priority project(s) to the state by April. It is important for MDOT to hear from local jurisdictions to facilitate collaboration on state and local needs. MDOT has established criteria to identify projects and programs responsive to the state's transportation priorities.

These criteria include:

- Meets all federal and other legal mandates (e.g. Total Maximum Daily Load (TMDL) compliance, Positive Train Control (PTC), Federal Aviation Administration (FAA) regulations to maintain airport permits);
- Supports MDOT's program priorities and MTP goals (safety, system preservation, economic development, etc.);
- Meets all federal match requirements to maximize federal revenue sources;
- Supports the state's plans and objectives;
- Supports existing project commitments and upholds intergovernmental agreements;
- Is the single top priority within a local priority letter;
- Is consistent with local plans; and
- Is included in the regional Metropolitan Planning Organization (MPO) long-range plan (if the project is located within an MPO boundary).

CTP Development Process

FINANCING MARYLAND'S TRANSPORTATION PRIORITIES

In developing the CTP and establishing funding levels, MDOT must account for state and local economic growth, fluctuations in state transportation revenue, and allocations of federal funding. The state's Transportation Trust Fund supports MDOT investments through a dedicated account. The Transportation Trust Fund utilizes a variety of revenue sources, which provides funding that enables MDOT to address important capital and operating needs including congestion relief, safety improvements, and transit availability, as well as maintaining the competitiveness of the Port of Baltimore and BWI Marshall Airport.

State Revenue Projections

The economic challenges and uncertainty surrounding the COVID-19 global pandemic impacted virtually all MDOT operations and revenues. At the worst point, traffic volumes on Maryland roads, ridership across all MDOT MTA services, and passenger traffic at BWI Marshall Airport were all severely down. As more people become vaccinated and businesses return to more normal operations, MDOT has seen revenues gradually recover. In anticipation of that recovery, estimated state revenues for this Final FY 2022 – FY 2027 CTP are \$2.5 billion higher than the estimates for the previous Final CTP. Total projected revenues amount to \$32.2 billion for the six-year period. This estimate is based on the revenue sources used by MDOT and includes bond proceeds and federal funds that will be used for operating, capital and debt payment expenses.

Pertinent details are as follows:

- **Opening Balance:** MDOT increased its minimum fund balance policy to \$200 million in FY 2022 to accommodate working cash flow needs throughout the year.
- **Motor Fuel Tax:** This revenue is projected to be \$7.1 billion during the six-year period. As of July 1, 2021, the motor fuel tax rates were 36.1 cents per gallon gasoline and 36.85 cents per gallon diesel fuel, which is a 0.2 cents per gallon decline from the previous tax rate. The Consumer Price Index (CPI) effect is estimated to average 5.3 cents per gallon during the program period. The 5 percent sales and use tax equivalent rate effective July 1, 2021 is 9.0 cents per gallon. The rate is estimated to average 10.3 cents per gallon during the program period. This revenue estimate is up \$460 million from the estimate in the previous Final CTP, reflecting the anticipated recovery from the impacts of COVID-19.
- **Motor Vehicle Titling Tax:** This source is projected to yield \$6.3 billion. The titling tax of 6 percent of the fair market value of motor vehicles, less an allowance for trade-in vehicles, is applied to new and used vehicles sold and to vehicles of new residents. During the six-year planning period, vehicle sales, which declined at the peak of the global pandemic, are projected to recover and follow a normal business cycle around an underlying upward trend.

- **Motor Vehicle Registration/Miscellaneous, and Other Fees:** These fees are projected to generate \$4.0 billion. This forecast assumes revenues will increase an average of 1.5 percent every two-year cycle. Although the timing of revenues from this source has been delayed due to MDOT MVA branch closures and later re-opening by appointment, the overall revenue estimate remains essentially the same during the six-year period.
- **Corporate Income Tax:** The transportation share of corporate income tax revenues is estimated to be \$1.8 billion. MDOT receives 14.6 percent of the state's 8.25 percent corporate income tax revenues.
- **Federal Aid:** This source is projected to contribute \$8.0 billion for operating and capital programs. This amount does not include \$714.7 received directly by WMATA. The majority of federal aid is capital; although COVID-19 relief and recovery funds are more than doubling funds programmed for operating assistance in the six-year program. Since federal aid supports a significant portion of the capital program, a more detailed discussion of federal aid assumptions is presented in the next section of this summary.
- **Operating Revenues:** These revenues are projected to provide a six-year total of \$2.6 billion, with \$742 million from MDOT MTA, \$328 million from MDOT MPA, and \$1.5 billion from MDOT MAA. MDOT MTA revenues primarily include rail and bus fares, which are indexed to inflation. MDOT MPA revenues include terminal operations, the World Trade Center, and other Port-related revenues. MDOT MAA revenues include flight activities, rent and user fees, parking, airport concessions, and other aviation-related fees.
- **Bond Proceeds:** It is projected that \$1.7 billion of Consolidated Transportation Bonds will be sold in the six-year period. The level of bonds issued during the six-year period is determined by capital funding needs. This level of bonds is affordable within the financial parameters used by MDOT.
- **Other Sources:** The remaining sources are projected to provide \$746 million. These sources include investment income, reimbursements, the use of fund balances, and other miscellaneous revenues.

FEDERAL AID ASSUMPTIONS

The current federal authorization is the Infrastructure Investment and Jobs Act (IIJA) also known as the Bipartisan Infrastructure Law (BIL), which provides vital federal funding for highway, transit, and other multimodal projects. The IIJA was signed by President Biden November 15, 2021 and provides authorization for federal fiscal years 2022 through 2027 (FFY 2022- FFY 2027). This Act is more than the usual transportation authorization and much of the discretionary funding was both authorized and appropriated in the Act. The traditional transportation funding still needs FFY 2022 appropriations before it can be utilized. Currently the formula funds are being distributed based upon a continuing resolution of the FAST Act that expires February 18, 2022.

For FY 2022 through FY 2027, this CTP includes only a continuation of the FFY 21 level of funding from the FAST Act as we wait for the appropriations process to conclude and additional levels of funding. With the passage of the IIJA, the funding for MDOT SHA, MDOT MTA and MDOT MAA will increase about 20 percent and may be included in a supplemental budget depending on when final amounts are known.

Federal Stimulus Funding

In addition to federal relief funds provided directly to MTA, SHA, and MAA, MDOT received \$500 million in American Rescue Plan Act of 2021 (ARPA) funding through the state of Maryland. This funding was leveraged to preserve capital projects in the program as well as enable additional high priority projects to move forward. A majority of these funds were directed to critical system preservation needs. The MDOT SHA utilized funding to ensure that the MDOT SHA bridge and highway assets remain in a state of good repair. In addition to two major bridge preservation projects, a portion of these funds was applied to multiple highway resurfacing projects statewide, to include the use of diamond grinding, a preventative maintenance solution, as well as high friction surface treatment, which provides the highest skid resistance of any treatment used in the highway industry. These funds also enabled ongoing extensive resurfacing work being performed on the MDOT state highway network throughout at least five different counties over the next several years. The MDOT MTA was also able to preserve funding for state of good repair needs for bus, Metro, MARC and Light Rail facilities and systems as well as enable investments in a Zero Emission Bus fleet, dedicated bus lanes, safe access to bus stops, shelters and an investment in ADA goals. The MDOT MVA was able to preserve funding for critical preservation needs related to branch office buildings as well as Customer Connect upgrades.

The MDOT was able to restore funding to high priority projects impacted by budget constraints resulting from the COVID-19 global pandemic. The MDOT MAA was able to preserve funding for critical infrastructure projects such as the Airline Maintenance Facility Infrastructure as well as the North Cargo Fuel Tank Expansion. The MDOT MPA utilized funds to preserve ongoing projects contributing to the preservation of the 50-foot channel system into the Port of Baltimore, to include the expansion of the Masonville Dredged Material Containment Facility (DMCF). The COVID-19 global pandemic significantly impacted the Transportation Trust Fund revenues, and by effectively leveraging ARPA funds, MDOT was able to continue to provide critical services and invest in critical infrastructure needs.

Highways and Transit

Along with the relief and stimulus federal funds received by MDOT traditional federal funding comes from the Federal Highway Trust Fund (FHTF), which provides transportation investment for projects in the following areas: highways and transit; multimodal freight; safety and security; system preservation; bike and pedestrian; congestion mitigation; and electric vehicle infrastructure.

The CTP allocates these federal funds to projects in the program based on reasonable assumptions of authorization given the passage of the IIJA. MDOT expects to have \$731.8 million in highway formula funding and \$291.6 million in transit formula funding in FFY 2022 for MDOT projects. This is dependent on the passage of an FFY 2022 appropriations bill. The Purple Line received a commitment from the Federal Transit Administration for New Starts funding totaling \$900 million. The Purple Line also received an additional allocation of \$106.2 million in New Starts funding from ARPA.

Federal highway program funds authorized and apportioned to the states are subject to annual ceilings, which determine how much of the appropriated money can be obligated in any given year. This ceiling is referred to as Obligation Authority (OA) and is imposed by Congress annually in response to prevailing economic policy. Since FFY04, OA has ranged from 84 percent to 95 percent. The OA level received in FFY 2019 was 90.1 percent, in FFY20 was 90.6 percent and in FFY21 was 88.9 percent. This CTP assumes an OA level of 90 percent for FFY22 through FFY27.

Washington Metropolitan Area Transit Authority — WMATA

Based upon continuing the level of funding from the FAST Act, in FY22, WMATA anticipated receiving \$324.7 million in FTA formula grants and \$15.7 million in other federal grants (Congestion Mitigation and Air Quality) for bus and rail preservation activities. So far FFY22 funding of \$148.5 million is provided through the federal Continuing Resolution of the FAST Act. In total given the IIJA, WMATA expects to receive \$488.9 million in federal capital

funding in FY22 in addition to the \$625 million in Coronavirus Response and Relief Supplemental Appropriations Act of 2021 (CRRSAA) federal relief funding it received to compensate for lost operating revenue. (NOTE: \$89 million of the \$714 million in CRRSAA Act relief funds apportioned to WMATA was distributed to the local transit operators in the WMATA service district.) Beginning in the third quarter of FY22, WMATA will begin utilizing relief funds received as a result of the ARPA, from which it will receive \$1.06 billion in operating cost assistance.

The MDOT's top priority regarding WMATA remains restoring the safety and reliability of the system. This is demonstrated through investments in safety and state of good repair. In 2018, the jurisdictions cooperated to create a new, dedicated capital funding source for WMATA totaling \$500 million annually, of which Maryland contributes \$167 million each year. In addition to this funding commitment, this CTP includes a total of \$300 million (\$50 million each year in FY22 through FY27) as Maryland's matching contribution required by federal legislation. To date, the signatory parties have fulfilled their promise by providing formula funds to match federal grants provided from FY10 through FY22.

Overall, WMATA's five-year capital budget is \$13.6 billion in FYs 2023 through 2027 without additional federal dedicated funding. This includes \$5.9 billion in state/local funding, \$5.6 billion in debt (including debt generated from bond sales utilizing the jurisdictional dedicated capital funding), \$2.1 billion from federal sources, and \$55 million in reimbursable funds to complete the extension of the Metrorail Silver Line.

Aviation

The FAA, through the Airport Improvement Program (AIP), is authorized to provide federal entitlement and discretionary funding for airport projects. The MDOT MAA estimates annual AIP entitlement funding is at least \$4.9 million for BWI Marshall Airport during the six-year period. The IIJA provides an additional \$25 million a year through a separate grant program with expanded project eligibility using only emplanements to distribute the funds. Traditional AIP Entitlement funding is calculated using enplanement and cargo-based formulas for BWI Marshall Airport and the amount reflects the 75% adjustment based on the airport's authority to collect a \$4.50 Passenger Facility Charges (PFC). The FAA Reauthorization Act of 2018 extended FAA authority to 2023.

In response to the pandemic, Congress enacted the Coronavirus Aid, Relief, and Economic Security (CARES) Act which allocated \$107.7 million in additional funding to Maryland airports, of which 82%, (\$87.8 million) went to BWI Marshall and Martin State airports (\$75.8 million for operating costs,

including appropriated debt service and \$12.6 million for capital costs). Additionally, MDOT MAA received \$21 million in CRRSAA funding (\$20M debt service and \$1M appropriated debt) and \$84 million in ARPA funding (\$80M of debt service, \$2M appropriated debt, \$2M for operating expenses).

In FFY19, MDOT MAA received \$9.9 million toward the reconstruction of Taxiway Z and in December 2019 received \$3.4 million of Supplemental AIP funding to Rehabilitate Taxiway Lighting & Reconstruct Taxiway F1 to meet EB75 standards. In FFY20, the combination of AIP and CARES provided 100% federal funding for the following projects: passenger boarding bridges on Concourse A (\$1.8 million); noise mitigation program initiation (\$0.7 million); and the reconstruction of Taxiway T Phase I (\$11.4 million). In FFY21, MDOT MAA received \$26M in grants (\$17.3 million for Taxiway F Phase 1), \$4.8 for Remote Transmitter Receiver (RTR), \$2.5M residential sound mitigation, \$670k for noise and \$1M for reimbursement of Concourse A/B and BHS CMAR expenses. The AIP also provided another \$29.8 million to other public use airports throughout Maryland.

Martin State Airport continues to receive its annual \$150,000 AIP entitlement funding, which is applied to eligible projects. The IIJA provided an additional entitlement funding amount of approximately \$763,000 a year. Several development projects at Martin are expected to become eligible for AIP discretionary funding pending a favorable finding on the ongoing programmatic Environmental Assessment (as required by the National Environmental Policy Act) that is anticipated to be complete in CY 2022.

In state FY 2021, MDOT MAA administered \$2.16 million to public-use airports across the state through the Statewide Aviation Grant Program. These grants support the flying public with airport improvement and infrastructure preservation projects, safety equipment acquisitions and environmental compliance activities. This state investment leveraged over \$33.08 million in FAA funds and \$1.02 million in airport owner investment. FAA funding is expected to provide \$15-\$20 million each year over the next six years. In addition, FAA allocated \$2.37 million to non-state-owned public-use airports as part of the CRRSAA, \$3.18 million for airport rescue grants and \$5.25 million for the first year of IIJA.

Port of Baltimore

Terminal security efforts continue to be enhanced with federal assistance through the Federal Emergency Management Agency's Port Security Grant Program. In August 2020, MDOT MPA was awarded nearly \$1.2 million in federal assistance to improve security at its terminals. The funding is being used to strengthen cyber security initiatives and closed-circuit television capabilities at the MDOT MPA's State-owned public terminals.

The MDOT MPA received approximately \$300,000 for resiliency, reduction of greenhouse gases and environmental related grants to support its efforts in being a good steward of our environment. The MDOT MPA expects to receive approximately \$5.0 million in dredging and environmental grants in FY 2022.

In 2020, USDOT announced that MDOT MPA was awarded a \$10 million grant through the Better Utilizing Investment to Leverage Development (BUILD) program that will allow MDOT MPA to make \$36.7 million in investments at Dundalk Marine Terminal to improve resiliency and make flood mitigation improvements. When the agreement between USDOT and MDOT MPA is

finalized, funds will be programmed into the CTP. After the agreement between USDOT and MDOT MPA is finalized, construction is scheduled to begin in FY 2023.

Announced by USDOT in July 2019, Maryland will receive \$125 million as part of the federal Infrastructure for Rebuilding America (INFRA) Grant Program. The funding will allow the state, in partnership with CSX, to increase clearance of the Howard Street Tunnel and bridges over the rail to allow for double-stack shipping containers. This will increase the number of containers handled by the Port of Baltimore and generate a significant number of new jobs.

The MDOT MPA was awarded a BUILD Grant of \$6.6 million in December 2018 through the U.S. Department of Transportation to support Ports America Chesapeake, MDOT MPA's P3 partner, with the Seagirt Marine Terminal Berth 3 modernization project. Project construction began in August 2020 and, when completed, will increase capacity for ultra-large containerships and improve the nation's economic competitiveness by making the Port of Baltimore more efficient. The project includes adding a second 50-foot deep berth, landside improvements at the new berth, and dredging to widen and deepen the turning basin.

Through the IIJA the Port will be eligible to apply for additional Port Infrastructure Development Program grants. This expanded program has \$2.25 billion available over the next five years for port infrastructure and waterways.

WHERE THE MONEY COMES FROM...

Maryland's transportation system is funded through several dedicated taxes and fees, federal aid, operating revenues, and bond sales, which are assigned to the Transportation Trust Fund. This fund is separate from the state's General Fund, which pays for most other state government operations and programs. MDOT's customers pay user fees for transportation infrastructure and services through motor fuel taxes, vehicle titling taxes, registration fees, operating revenues, and corporate income taxes. The motor fuel tax and vehicle titling tax are two of the largest sources of MDOT revenue. Operating revenues include transit fares and usage fees generated at the Port of Baltimore and BWI Marshall and Martin State Airports. In addition to collecting revenue within the state, Maryland also receives federal aid for its transportation program. These federal funds must be authorized by a congressional act. The United States Congress enacted federal surface transportation authorizing legislation as part of the Infrastructure Investment and Jobs Act (IIJA), also known as the Bipartisan Infrastructure Act (BIL), in November 2021, which provided investment in transportation infrastructure through FFY27. There is appropriation legislation still pending in the House and Senate that will provide the yearly approval of the formula funding in the IIJA.

Total projected Trust Fund revenues for operating and capital amount to \$32.2 billion for the six-year period covered by this CTP. These amounts are based on the assumption that the economy will return to a moderate growth scenario during the next six years. MDOT maximizes its finances by leveraging them with bonds, discretionary grants and public-private partnerships.

WHERE THE MONEY GOES...

The MDOT program is fiscally constrained, meaning that the list of projects is tied to estimates of future revenue. The Transportation Trust Fund supports operation and maintenance of state transportation systems, administration, debt service, grants, and capital projects, as well as Maryland's portion of operating and capital subsidies for WMATA. A portion of these funds is directed for General Fund purposes, including environmental, fuel tax collection, and state police programs. Funding also is provided as capital grants to Maryland's counties and Baltimore City for local transportation needs. After operating costs, debt service, and local transportation grants, the remaining money goes toward funding capital projects. This document, Maryland's Final CTP, is the six-year capital budget for all state transportation projects. This Final FY 2022 – FY 2027 CTP totals \$17.7 billion, \$15.0 billion of which comes through the Transportation Trust Fund and \$2.7 billion from "Other" fund sources, including local contributions, WMATA direct funding, airport Passenger Facility Charges (PFC) fees, airport revenue bonds, and airport rental car Customer Facility Charges (CFC).

*Excluding WMATA

Planned Capital Expenditures

FY 2022-2027 FINAL CTP SUMMARY (\$ MILLIONS)

TOTAL		8,501.6	6,406.9	2,787.0	17,695.5	100.0

Note: Figures may not add perfectly due to rounding.

* Funds not received through the Transportation Trust Fund. Includes some funds from the Maryland Transportation Authority (MDTA), Special Transportation Project Revenue Bonds, and federal funds received directly by WMATA.

** Projects using non-trust fund financing sources, such as airport Passenger Facility Charges (PFC) fees, airport revenue bonds, and airport rental car Customer Facility Charges (CFC), are included in the total.

HUR: Highway User Revenue Capital Grants
MDOT TSO – Transportation Secretary's Office
MDOT MVA – Motor Vehicle Administration
MDOT MAA – Maryland Aviation Administration
MDOT MPA – Maryland Port Administration
MDOT MTA – Maryland Transit Administration
WMATA – Washington Metropolitan Area Transit Authority
MDOT SHA – State Highway Administration

EVALUATING OUR PERFORMANCE

Performance Driven

MDOT is a performance driven organization, assessing our transportation system performance through data before making decisions to plan and invest. This is done through the annual Attainment Report on Transportation System Performance, the annual Managing for Results and federal baseline performance measures.

To maintain the highest standards that our customers expect, we must understand where we are succeeding and where extra effort is needed. The Attainment Report provides us with the performance measure information we need to make those decisions. The annual CTP outlines where MDOT will be making investments in the coming years on our roads and highways, at the Port of Baltimore, in our transit systems, at BWI Marshall Airport and Martin State Airport, and all the various facilities that see thousands of people each

day. The Attainment Report lets us know the success of those investments and where we can continue to improve, because we want to ensure our dollars are having the greatest impact in improving the lives of Marylanders.

In 2000, the Maryland General Assembly passed a bill requiring MDOT to develop an Annual Attainment Report (AR) on Transportation System Performance. The main objectives of the AR are to do the following:

- Report on progress toward achieving the goals and objectives in the MTP and the CTP; and
- Establish performance indicators that quantify achievement of these objectives; and set performance targets.

The performance measures evolve and are updated periodically in a collaborative effort between the Secretary's Office, the Transportation Business Units, and, every 4-5 years, with an AR Advisory Committee. The performance measures were updated in 2019 using input from the AR Advisory Committee, based on the updated 2040 MTP Goals and Objectives (please visit mdot.maryland.gov/ARAC). The AR documents show MDOT is achieving its goals and objectives based on performance indicators and helps Maryland citizens assess improvements to its transportation system.

Since 1996, MDOT also has participated in the state's Managing for Results (MFR) effort as part of the budget process. MFR is a strategic planning, performance measurement, and budgeting process that emphasizes use of resources to achieve measurable results, accountability, efficiency, and continuous improvement in state government programs.

Through coordination with MPOs and adjacent state DOTs, MDOT developed baseline performance measures and targets for the MAP-21/FAST Act federal safety, infrastructure condition, and system performance measures:

- Pavement condition of the Interstate System and on the remainder of the National Highway System (NHS).
- Travel time reliability on the Interstate System and the remainder of the NHS.
- Bridge condition on the NHS.
- Fatalities and serious injuries (both number and rate per vehicle miles traveled) on all public roads.
- Traffic congestion.
- On-road mobile source emissions.
- Reliability of truck travel time on the Interstate System.

MDOT will continue to work with USDOT, the regional MPOs, and other stakeholders to ensure we demonstrate the effectiveness of MDOT's programs.

HOW TO READ THIS DOCUMENT

For each major project, there is a Project Information Form (PIF). Each PIF contains a description of the project, its status, its justification, its compliance status with smart growth, and a brief explanation of how it fits with the goals of the MTP. It also shows any significant change in the project since the previous year's CTP, as well as the funding for the project during the six-year cycle. The information in each PIF is meant to provide a general description of the project along with some specifics such as alignments, status of environmental permitting, or alternatives under study.

Funding Phases

Planning – Once a proposal is funded for project planning, detailed studies and analyses are conducted to evaluate the need for the project, to establish the scope and location of proposed transportation facilities and to obtain environmental approvals.

Engineering – Engineering projects involve detailed environmental studies and preliminary and final design. Having been through a detailed analysis based on the information from the Project Planning phase, these projects are candidates for future addition to the Construction Program.

Right-of-Way – This funding is to provide the necessary land for the project or to protect corridors for future projects.

Utilities – This funding is to pay for utility relocations that are required by the project that are the responsibility of MDOT.

Construction – This last stage includes the costs of actually building the designed facility.

Total – This is the sum of any funding shown for Planning, Engineering, Right-of-Way, and Construction.

Federal-Aid – This is the amount of the total that will utilize federal funding.

State (Special) – This is the funding coming from the Transportation Trust Fund that is a Special fund in the Governor's budget.

Other – This is funding from sources that are not federal or special. This funding could be from counties, the general fund, airport bond issuances, or private entities.

Construction does not begin until a project receives necessary environmental permits, the state meets air and water quality requirements, and the contracts are bid. PIFs can include specific facilities and corridor studies that examine multimodal solutions to transportation needs.

The CTP also contains information on minor projects. These projects are smaller in scope and cost. They also can include road resurfacing, safety improvements, and sidewalk and bicycle trail construction.

MAJOR PROJECT SIGNIFICANT CHANGES FROM THE FY 2021-2026 CTP

Significant project changes consist of additions to, or deletions from, the Construction Program or the Development and Evaluation Program; and changes in the construction year.

PROJECTS ADDED TO THE CONSTRUCTION PROGRAM

<u>PROJECT DESCRIPTION</u>	<u>TOTAL COST</u> <u>(\$ MILLIONS)</u>
<u>New Construction Program Projects</u>	
Maryland Aviation Administration	
Fuel Storage Tank Additions at BWI Marshall Airport	16.8
Maryland Port Administration	
Fairfield Masonville Stormwater Mgmt. Phase I	6.4
Masonville Dredged Material Containment Facility Expansion and Related Projects	318.8
Maryland Transit Administration	
Bus Facilities Preservation and Improvements	27.0
Light Rail Systems Overhauls and Replacements	140.1
Light Rail Trackwork Overhauls and Replacement	141.9
Metro Systems Overhauls and Replacements	16.8
MARC Odenton Station Renovation	2.6
MARC Laurel Platform Replacement	1.8
Purple Line Advance Payment	355.0
Zero Emission Bus Procurement	210.0
East - West Bus Priority Corridor (RAISE)	50.0

PROJECTS ADDED TO THE CONSTRUCTION PROGRAM

<u>PROJECT DESCRIPTION</u>	<u>TOTAL COST (\$ MILLIONS)</u>
Maryland Transportation Authority	
MD 695 Francis Scott Key Bridge - Renovate Campus Buildings	11.6
MD 695 Francis Scott Key Bridge - Subgrade Improvements at Bear Creek	61.1
US 50/301 Bay Bridge - Project Management Office and Maintenance Equipment Storage Building	11.0
State Highway Administration	
US 301, Bridge No. 1701401 over Chester River	12.5
I-70 Bridge rehabilitation over I-81 and Norfolk Southern Railroad and Bridge replacement over US 11	39.6
Bridge replacement on I-70 over Crystal Falls Drive	26.8
Bridge deck overlays at I-95/I-695 Interchange	27.1
The Secretary's Office	
Transportation Infrastructure Along the Blue Line Corridor	8.7
MDOT RSTARS Refactoring Project	16.6
<u>Projects Moved From D&E Program to Construction Program</u>	
Maryland Transit Administration	
Zero Emission Bus Infrastructure and Program Management	50.4
Eastern Bus Facility	194.3
State Highway Administration	
US 13 Business, Bridge replacement over East Branch of the Wicomico River	11.4
MD 75, Green Valley Road - Bridge Rehabilitation over I-70	6.5
Total	1,764.8

PROJECTS ADDED TO THE D&E PROGRAM

<u>PROJECT DESCRIPTION</u>	<u>TOTAL FUNDED (\$ MILLIONS)</u>
<u>New D&E Program Projects</u>	
Maryland Transit Administration	
Frederick Douglass Tunnel	.2
AGY Future Montgomery County Priority Transit Project	.8
State Highway Administration	
I-270, Eisenhower Memorial Highway - Full Delivery Stream Restoration	12.1
I-270, Eisenhower Memorial Highway - Planning and preliminary design activities along I-270 and I-495	130.3
I-495/I-95 Capital Beltway - Interchange upgrades at Medical Center Dr (formerly Arena Dr)	9.5
MD 90, Ocean City Expressway - Study of MD 90 from US 50 to MD 528	.8
MD 170, Telegraph Road	2.6
MD 214, Central Avenue from MD 478 to Camp Letts Road	.8
MD 2, Ritchie Hwy	1.0
MD 3, Waugh Chapel Rd/Riedel Rd to MD 32 & St. Stephens Church Rd to MD175	.8
Total	158.8

PROJECTS REMOVED FROM THE D&E OR CONSTRUCTION PROGRAMS

PROJECT DESCRIPTION

JUSTIFICATION

Removed from Construction Program

Maryland Aviation Administration

FIS Hall Reconfiguration at BWI Marshall Airport

Removed due to project being canceled.

Maryland Port Administration

Marine Terminal Property Acquisition

Due to accelerated construction schedules of higher priority projects and their associated costs, terminal property acquisition has been temporarily suspended.

Maryland Transit Administration

Agencywide Roof Replacement

This program was removed in favor of highlighting major roof projects as they relate to the various modes at MDOT MTA. Annual preservation efforts will continue under the minor preservation program.

Removed from D&E Program

Maryland Aviation Administration

Concourse A/B Enabling - Central Utility Plant Upgrades

Project consolidated into larger Concourse A/B Connector Program.

CONSTRUCTION SCHEDULE DELAYS

The start of construction has been postponed from the schedule shown in the FY 2021-2026 CTP, for the following 6 major projects:

<u>PROJECT DESCRIPTION</u>	<u>JUSTIFICATION</u>	<u>FISCAL YEAR</u>
Maryland Aviation Administration		
Concourse D HVAC Replacement at BWI Marshall Airport	Construction delay due to procurement re-bid process.	FY 2021 to FY 2022
Restroom Improvement Program at BWI Marshall Airport	Redesign to achieve MAA design standards.	FY 2021 to FY 2022
Taxiway F Relocation at BWI Marshall Airport	Construction delay from FY 2021 to FY 2022 due to economic conditions.	FY 2021 to FY 2022
Maryland Transportation Authority		
I-895 Baltimore Harbor Tunnel Thruway - Envelope and Switchgear Replacements at Vent Buildings	Revised schedule due to protracted procurement phase.	FY 2022 to FY 2023
Maryland Transit Administration		
MARC Locomotives - Overhauls and Replacements	Manufacturing Delays due to COVID	FY 2021 to FY 2022
Howard Street Rail Replacement	Revised Project Schedule due to Design Delays	FY 2022 to FY 2023

FY 2021 MAJOR PROJECT COMPLETIONS

The Department completed 23 major projects in FY 2021, at a total cost of 1,262.8 million. These projects are listed below:

<u>PROJECT DESCRIPTION</u>	<u>TOTAL COST (\$ MILLIONS)</u>
Maryland Aviation Administration	
Environmental Assessment at BWI Marshall Airport	3.2
Concourse A Improvements Phase 2 at BWI Marshall Airport	68.9
Maryland Transportation Authority	
I-95 John F. Kennedy Memorial Highway - Resurfacing	59.9
I-95 John F. Kennedy Memorial Highway - Remove, Replace, and Upgrade Sign Structures	14.6
I-95 John F. Kennedy Memorial Highway - Replace Deck of Bridge over Little Northeast Creek	13.1
I-95 John F. Kennedy Memorial Highway - Rehabilitate Decks on Three Bridges on I-95 in Cecil County	16.3
I-895 Baltimore Harbor Tunnel Thruway - I-895 Bridge Replacement	241.2
I-895 Baltimore Harbor Tunnel Thruway - Replace Vent Fans	70.9
US 50/301 Bay Bridge - Clean and Paint Structural Steel Westbound Bridge	103.2
US 50/301 Bay Bridge - Rehabilitate Suspension Spans Westbound Bridge	43.1
MD 695 Francis Scott Key Bridge - Convert to Cashless Tolling	25.5
Maryland Transit Administration	
MARC BWI Rail Station Upgrades and Repairs	9.5
Kirk Bus Facility Replacement	168.4
State Highway Administration	
MD 36, Mount Savage Road - Bridge replacement over Jennings Run	9.6

FY 2021 MAJOR PROJECT COMPLETIONS (Cont'd.)

<u>PROJECT DESCRIPTION</u>	<u>TOTAL COST (\$ MILLIONS)</u>
MD 140, Reisterstown Road - Widening from Painters Mill Road to Garrison View Road	12.7
MD 30 Business, Main Street - Streetscape improvements from North Woods Trail to CSX Railroad	35.9
MD 272, Mauldin Avenue - Bridge replacement over Amtrak	24.0
MD 180, Jefferson Pike - Reconstruction of MD 180 between I-70 west and I-70 east crossings	19.3
US 219, Chestnut Ridge Road - Relocation of US 219 from I-68/US 40 to Old Salisbury Road	64.3
MD 355, Frederick Road - Bridge replacement over Little Bennett Creek	12.6
MD 210, Indian Head Highway, New Interchange at Kerby Hill	130.2
I-81, Maryland Veterans Memorial Highway - Widening of I-81 from US 11 in West Va to north of MD 63/MD 68	105.7
MD 273, Telegraph Road - Bridge replacement over Big Elk Creek	<u>10.7</u>
TOTAL	1,262.8

AWARDS

Highlights of projects awarded by the Department during FY 2021 are listed below:

	<u>PROJECT DESCRIPTION</u>	<u>TOTAL COST (\$ MILLIONS)</u>
MAA	Runway 15R-33L Pavement Rehabilitation	1.7
MAA	Concourse A/B Connector and Baggage Handling System - Design	5.0
MAA	Taxiway T Reconstruction - 100% Federal	11.4
MDTA	I-895 Baltimore Harbor Tunnel - Mill and Overlay Bridge Decks	8.6
MDTA	I-95 Fort McHenry Tunnel - Rehabilitate 15 KV Cable, Conduit, and Concrete Wall	33.3
MDTA	I-95 Kennedy Highway - Structural Rehabilitation of the Millard E. Tydings Memorial Bridge	10.0
MDTA	I-95 Fort McHenry Tunnel - Bridge Deck Rehabilitation South of Tunnel	8.2
MDTA	US 50/301 Bay Bridge - Convert to Cashless Tolling	51.5
MDTA	I-95 Kennedy Highway - ETL Northbound Extension - Abingdon Road Overpass Reconstruction	8.3
MDTA	I-95 Kennedy Highway - ETL Northbound Extension - Replace Clayton Road Bridge	11.0
MDTA	US 301 Nice/Middleton Bridge - Campus Improvements	30.9
MDTA	US 50/301 Bay Bridge - Rehabilitate Decks of Eastbound Span, Phase 1	237.6
MDTA	I-95 Fort McHenry Tunnel - Superstructure Repairs of Various Bridges	6.4
MDTA	I-95 Kennedy Highway - ETL Northbound Extension - Express Toll Lanes to MD 152	224.2
MDTA	I-95 Kennedy Highway - ETL Northbound Extension - Eccelston Mitigation	23.5
MDTA	I-95 Kennedy Highway - ETL Northbound Extension - Construct Noise Wall from New Forge Road to Big Gunpowder Falls	6.1

^A– WMATA capital and operating grants in the Secretary's Office budget are shown for informational purposes.

^B– Includes County and Municipality transfer funds from the federal government.

^C– Capital Program WMATA Grants line federal funds received by WMATA directly.

^D– "Other" funds are included in the totals for TSO, MAA, MTA, and WMATA.

^E– Debt Service for County Bonds is not included in FY 24-27.

^F– Funds not received through the Trust Fund. Includes from Passenger and Facility Charges (PFC), Maryland Transportation Authority (MdTA) funds, Certificates of Participation (COPs), County participation and federal funds received by WMATA directly.

SUMMARY OF FEDERAL AID OBLIGATIONS
(\$ MILLIONS)

The following listing estimates the annual levels of funds anticipated from individual federal aid categories necessary to support the FY 2022 - FY 2027 CTP/STIP:

	<u>2022</u>	<u>2023</u>	<u>2024</u>	<u>2025</u>	<u>2026 - 2027</u>	<u>TOTAL</u>
<u>Maryland Transit Administration</u>

MAJOR BRIDGE PROJECTS

The following is a list of major bridge reconstruction, rehabilitation and replacement projects. New highway bridges that are part of a highway project are not included. Detailed information for each can be found on the Major PIFs as referenced.

<u>PROGRAM/PROJECT</u>	<u>DESCRIPTION</u>	<u>PIF LINE #</u>
Allegany		
<u>Secondary Construction Program</u> MD 51, Old Town Road	Replacement of Bridge No. 0104700 over Town Creek.	3
Baltimore County		
<u>Interstate Construction Program</u> I-695, Baltimore Beltway	Replacement of Bridge No. 0317400 on Putty Hill Avenue over I-695.	4
I-95 and I-695, Baltimore Beltway	Latex modified concrete bridge deck overlays on I-95 at the I-695 interchange (10 bridges).	2
<u>Secondary Construction Program</u> MD 151/MD151B, Sparrows Point Boulevard	Replacement of Bridge No. 0309900 on MD 151 and Bridge Nos. 0335000 and 0335100 on MD 151B.	9
US 40, Pulaski Highway	Replacement and widening of the deck and superstructure of Bridge Nos. 0303403 and 0303404 over Little Gunpowder Falls and Bridge Nos. 0303503 and 0303504 over Big Gunpowder Falls.	11
Charles		
<u>Secondary Construction Program</u> MD 225, Hawthorne Road	Replacement of Bridge No. 0802100 over Mattawoman Creek.	1
Frederick		
<u>Secondary Construction Program</u> MD 355, Urbana Pike	Replacement of Bridge No. 1008600 over Bennett Creek.	5
MD 75, Green Valley Road	Deck replacement and rehabilitation of Bridge No. 1015600 over I-70.	3

MAJOR BRIDGE PROJECTS

<u>PROGRAM/PROJECT</u>	<u>DESCRIPTION</u>	<u>PIF LINE #</u>
Garrett		
<u>Secondary Construction Program</u> US 219, Garrett Highway	Replacement of Bridge No. 1102400 over the Youghiogheny River (0.04 miles).	3
Harford		
<u>Secondary Construction Program</u> US 1, Belair Road	Replacement of Bridge No. 1206600 over Tollgate Road and Bridge No. 1206500 over Winters Run.	1
Prince George's		
<u>Primary Construction Program</u> MD 4, Pennsylvania Avenue	Replacement of the bridge decks for Bridge Nos. 1609903 and 1609904 over MD 717, and full replacement of Bridge Nos. 1610803 and 1610804 over Race Track Road.	5
<u>Secondary Construction Program</u> MD 382, Croom Road	Replacement of Bridge No. 1606100 over Charles Branch.	10
MU 277, Riverdale Road	Replacement of Bridge No. 1609000 over Northeast Branch Anacostia River.	8
Queen Anne's		
<u>Primary Construction Program</u> US 301, Blue Star Memorial Highway	Replacement of the northbound US 301 Bridge No. 1701401 over the Chester River.	1
Washington		
<u>Interstate Construction Program</u> I-70, Eisenhower Memorial Highway	Replacement and widening of the bridge deck and superstructure of I-70 dual Bridge Nos. 2111803 and 2111804 over MD 65 and I-70 dual Bridge Nos. 2111903 and 2111904 over CSX Hagerstown Branch.	2

MAJOR BRIDGE PROJECTS

<u>PROGRAM/PROJECT</u>	<u>DESCRIPTION</u>	<u>PIF LINE #</u>
Washington (cont'd)		
<u>Interstate Construction Program (cont'd)</u>		
I-70, Eisenhower Memorial Highway	Replacement and rehabilitation of Bridge Nos. 2107303 and 2114100 over I-81 and Bridge Nos. 2111303 and 2111304 over Norfolk Southern Railroad. Replacement of Bridge Nos. 2111203 and 2111204 over US 11.	4
I-70, Eisenhower Memorial Highway	Replacement of Bridge Nos. 2113503 and 2113504 over Crystal Falls Drive.	3
Wicomico		
<u>Primary Construction Program</u>		
US 13 Business, Salisbury Boulevard	Replacement of Bridge No. 2200400 over East Branch Wicomico River.	1
Worcester		
<u>Primary Development & Evaluation Program</u>		
US 50, Ocean Gateway	Study to replace Bridge No. 2300700 over the Sinepuxent Bay. The study will investigate options to eliminate/upgrade the drawspan structure.	2

BICYCLE & PEDESTRIAN PROJECTS

BICYCLE AND PEDESTRIAN RELATED PROJECTS

The Maryland Department of Transportation has various funding programs for bicycle and pedestrian programs. Program funds are used for both design and construction. Several programs are administered as competitive grant programs, in which available funds are awarded to projects managed by local governments and other partners.

<u>PROGRAM NAME</u>	<u>PROJECTS CURRENTLY FUNDED FOR CONSTRUCTION</u>	<u>FY2022-2027 CTP BIKE/PED FUNDING^</u>
<u>State Highway Administration</u>		
ADA Program	10,367,063	42,929,100
Retrofit Bicycle Program	6,371,000	42,498,100
Neighborhood Conservation*	6,501,385	29,240,000
Primary/ Secondary Program**	1,611,576	1,686,576
Retrofit Sidewalk Program	7,767,000	45,095,000
Recreational Trails Program***	2,266,000	6,741,720
Transportation Alternatives Program***	70,998,000	87,804,000
<u>The Secretary's Office</u>		
Kim Lamphier Bikeways Network Program	13,435,018	14,056,694
Total	119,317,042	270,051,190

^ Includes planning, design and construction funds

* Funding is estimated as a portion of total program funding based on recent bike/ped expenditures

** Additional funding is expected as major projects advance to construction and bicycle and pedestrian costs are itemized

*** Funding is estimated based on projected federal appropriations and historic program spending on bicycle and pedestrian projects;
see typical awards on pages below

^^ No additional earmark projects are expected at this time. Ongoing earmark projects are listed below.

Worcester	Ocean City Municipal	\$ -	\$ 86	\$ 29	\$ 114
Total			\$ 1,650		

MULTIMODAL FREIGHT PROJECTS

MARYLAND DEPARTMENT OF TRANSPORTATION

MULTIMODAL FREIGHT PROJECTS

Maryland's transportation system is essential to the State's economy. An efficient transportation system provides a competitive advantage to businesses in a regional, national and global marketplace. Transportation directly impacts the viability of a region as a place that people want to live, work and raise families, all critical to keep Maryland moving.

Maryland's economy benefits when goods movement is safe, efficient, and reliable over the State's freight network. The COVID-19 global pandemic illustrated the importance of maintaining the critical supply chain network, to keep goods moving and on the shelves, to ensure everyone has access to essential needs, and for our frontline workers who need essential supplies. The Maryland Department of Transportation (MDOT) continues to prioritize its freight infrastructure to ensure that the network of highways, railways, waterways, and airports are ready to handle the current freight movement and the anticipated growth of goods movement.

The MDOT keeps Maryland moving, by implementing multimodal freight mobility solutions, advancing supply chains through transportation and technology improvements, and expanding freight transportation options throughout the State. Investing in freight related projects will help improve logistical transportation for over 82,000 freight industry businesses to continue to employ about 1.5 million people and contribute \$123.4 billion annually to the State's economy.

How is Maryland accommodating goods movement today?

The MDOT is advancing multiple plans and programs which include freight projects in various stages of development from concept to construction. These projects include highway improvements, maintenance, capacity expansion, and operational projects such as Intelligent Transportation Systems (ITS) and Transportation System Management Operations (TSMO) applications. The highway projects help improve safety, protect roadways from truck damage, improve access and mobility for freight vehicles, and help increase

safe havens for truck drivers to obtain required rest. Investments in landside improvements and harbor dredging at the Port of Baltimore keep the inbound and outbound supply chains flowing. Partnerships with short line, switching, and Class I railroads are beneficial for increasing capacity and improving operations to provide alternatives for Maryland shippers.

Public Partnerships and Megaprojects Propel Movement of Goods into the Future

The Port of Baltimore and the entire supply chain network will continue to benefit from key partnerships with the private sector that support essential goods movement. The P3 agreement with Ports America Chesapeake continues to solidify the Port's position as Maryland's economic engine. Work is progressing on a second 50-foot berth that will allow the Port to accommodate two massive ships at the same time. That berth, and four additional supersized cranes, are expected to be operational in FY 2022. Together, with support from USDOT, CSX Transportation and the MDOT Maryland Port Administration will be reconstructing the 125-year old Howard Street Tunnel and improving the vertical clearance at 22 bridges between Baltimore and Philadelphia to create a double-stack rail corridor to and from the Port of Baltimore and the entire East Coast. This project will unlock immeasurable potential for Maryland's freight rail network and increase Baltimore's already well-positioned reach into the American heartland.

The MDOT is updating the Maryland Freight Plan that contains specific policy recommendations and provides guidance for development of freight programs at the Port, on rails, highways, and in the air. MDOT will partner again with carriers, shippers, and freight network users to update the strategy so it continues to work for the entire transportation system and the state as a whole. The Plan is a statewide guide for selecting multimodal transportation projects that impact freight. This is important for State funding priorities and to help Maryland's ability to meet the national freight goals and requirements established in federal surface transportation authorizations. The Freight Plan vision is that "Freight travels freely and safely through a modern, resilient, and interconnected multimodal network contributing to sustainable economic viability and growth for Maryland businesses and communities. We have also revamped our State Freight Advisory Committee to ensure that we work with all of our stakeholders on freight projects, policies and programs.

In addition to these efforts, the MDOT is working to plan and design technological improvements that support emerging freight innovations, which will support Maryland's position in the global economy. Through ITS and TSMO applications that can leverage big data to send important safety, routing and connection information to freight vehicles, as well as inform on truck parking availability, MDOT is working to create a technology ecosystem today and in the future that will ensure safe, efficient, and connected freight mobility. As part of this, MDOT has begun development of connected-vehicle data driven dashboards to monitor freight mobility and truck parking, which can be used in TSMO applications to improve system operations.

The list below highlights projects that have significant freight impacts and are funded for planning, design, and construction activities in the Consolidated Transportation Program, for approximately \$2.8 billion. The list also identifies costs for Port projects by marine terminal and costs for highway freight related projects in each county. Additional information on individual projects can be found under the respective sections later in this document.

MULTIMODAL FREIGHT REPORT
(\$ in 000'S)

<u>PROJECT NAME</u>	<u>SIX YEAR TOTAL</u>
<u>Maryland Aviation Administration</u>	
Midfield Cargo Area Improvements at BWI Marshall Airport	\$ 495
<u>Maryland Port Administration</u>	
Dredged Material Placement and Monitoring	\$ 42,964
Reconstruction Berths 1- 6 at Dundalk Marine Terminal, Phase III (Berth 3)	\$ 26,043
Chrome Ore Processing Residue Remediation (COPR)	\$ 22,242
Cox Creek Dredged Material Containment Facility Expansion and Related Projects	\$ 102,354
Dredged Material Management Program	\$ 6,007
Seagirt Marine Terminal Modernization - Phase 1 - Berth Improvements	\$ 9,147
Howard Street Tunnel Project (INFRA GRANT)	\$ 441,000
Seagirt Marine Terminal Modernization - Phase 2 Loop Channel Improvements	\$ 1,275
Hawkins Point Algal Flow Way TMDL	\$ 4,000
Mid-Chesapeake Bay Island Ecosystem Restoration Project	\$ 72,037
Paul S. Sarbanes Ecosystem Restoration Project at Poplar Island	\$ 65,731
Masonville Dredged Material Containment Facility Expansion and Related Projects	\$ 82,772
Hart-Miller Island Related Projects	\$ 15,867
<u>Maryland Transit Administration</u>	
Freight Rail Program	\$ 12,171
Frederick Douglass Tunnel	\$ 152
<u>Maryland Transportation Authority</u>	
I-95 John F. Kennedy Memorial Highway - Construct Interchange at Belvidere Road	\$ 71,650
I-95 Fort McHenry Tunnel - Convert to Cashless Tolling	\$ 20,312
US 50/301 Bay Bridge - Convert to Cashless Tolling	\$ 32,243
US 301 Governor Harry W. Nice Memorial/Senator Thomas "Mac" Middleton Bridge - Replace Nice/Middleton Bridge	\$ 372,335
I-95 John F. Kennedy Memorial Highway - Express Toll Lanes (ETL) Northern Extension	\$ 839,325

GOVERNOR'S STATE ARPA ENABLED PROJECTS

**MARYLAND DEPARTMENT OF TRANSPORTATION
AMERICAN RESCUE PLAN ACT (ARPA) SUPPORTED PROJECTS**

The \$500 million in American Rescue Plan Act (ARPA) funding allocated to MDOT was applied to MDOT MTA's operating budget, and the State funds made available as a result were applied to MDOT capital projects. Below is a list of the MDOT capital projects to which these State funds were applied and how much was applied to each; in most instances, the amount shown is only a portion of the project's total cost.

<u>Project #</u>	<u>Project/Fund Name</u>	<u>State Amount Enabled by ARPA</u>
Maryland Aviation Administration (MAA)		
MAA9720	Airline Maintenance Facility Infrastructure	\$49,115,607
MAA2336	BWI Fuel Storage Tank Additions	\$16,208,520

PROJECT: Transportation Alternatives Program

DESCRIPTION: Projects that may be considered include: pedestrian or bicycle facilities; provision of safety and educational activities for pedestrians and bicyclists, acquisition of scenic easements and scenic or historic sites; scenic or historic highway programs; landscaping and other beautification; historic preservation; rehabilitation and operation of historic transportation buildings, structures or facilities - including historic railroad facilities and canals; preservation of abandoned railway corridors - including conversion for use as bicycle or pedestrian trails; archaeological planning and research. Project sponsors are required to provide matching funds.

PURPOSE & NEED SUMMARY STATEMENT: Transportation enhancements are projects that will add community and environmental value to the transportation system. The Moving Ahead for Progress in the 21st Century Act's (MAP-21) Transportation Alternatives Program provides that 2% of the apportioned funds be set aside for the program. This new program now includes eligibility for most projects that used to be funded under the Transportation Enhancement Program, as well as Recreational Trails and Safe Routes to School programs.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|--|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input checked="" type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input checked="" type="checkbox"/> Better Transportation Choices & Connections | |

EXPLANATION: Transportation Alternatives projects will improve connectivity by enhancing pedestrian and bicycle mobility. In addition to environmental improvements such as treatment of roadway runoff, tree planting and preservation of historical

PROJECT: Transportation Emission Reduction Program

DESCRIPTION: The object of the program is the reduction of traffic congestion and/or mobile source emissions. This program will incorporate and expand proven strategies to reduce emissions in Maryland's air quality non-attainment areas.

PURPOSE & NEED SUMMARY STATEMENT: The Federal Clean Air Act requires transportation programs to remain in step with State air quality plans. Fifteen counties are in air quality non-attainment or maintenance status. Worsening traffic congestion in the Baltimore/Washington metropolitan area negatively impacts the quality of life for Maryland citizens. This program will help address these issues by implementing projects that will achieve measurable reductions in mobile source emissions. These reductions are important to the annual air quality conformity analysis for the Department's transportation plans and programs and to help reduce Greenhouse Gas emissions.

PROJECT: Kim Lamphier Bikeways Network Program

DESCRIPTION: : Program funds are made available to local jurisdictions and other eligible entities for projects that improve bicycle network access and safety and advance the goals outlined in the 2040 Maryland Bicycle and Pedestrian Master Plan (2019 Update)

PURPOSE & NEED SUMMARY STATEMENT: The program helps implement MDOT's Bicycle and Pedestrian Master Plan and Strategic Trails Plan by filling priority missing links in the statewide bicycling network, connecting and extending on-road and off-road bicycle facilities and improving connections to transit, work, schools, shopping and other destinations. By creating a more integrated and safe network of bicycle facilities, the program also helps advance the Maryland Transportation Plan's goals of economic development and environmental stewardship, while strengthening the health and quality of life for local communities.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

STATUS: A total of 129 Bikeways projects have been in completed in 11 grant cycles. There are currently 30 active Bikeways projects with additional project awards anticipated for the FY22 grant cycle. Additional projects will be solicited through the annual grant cycles

Fund Program # 00434

PROJECT: Virginia Manor Road Relocated (Konterra Drive), Old Gunpowder Road to Ritz Road

DESCRIPTION: A Secretary's grant to Prince George's County for construction/reconstruction of Virginia Manor Road Relocated between the Intercounty Connector and Old Gunpowder Road (Approximately 3.2 miles). Connections will be made to both the Intercounty Connector and the new I-95/Contee Road Interchange. Bicycle and Pedestrian access will be provided.

PURPOSE & NEED SUMMARY STATEMENT: This project will enable Prince George's County to construct a critical roadway connection to the Intercounty Connector and I-95/Contee Road Interchange. This will enhance the supporting roadway network east and west of I-95 in the area that is planned for significant growth and development.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|--|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |
| <input checked="" type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input checked="" type="checkbox"/> Better Transportation Choices & Connections | |

EXPLANATION: The new interchange at I-95 and Contee Road Relocated and Virginia Manor Road Relocated will facilitate enhanced access and improved circulation to an area that is planned for growth and economic development.

**PROJECT:** MDOT AdPICS Refactoring Project

DESCRIPTION: The project will modernize AdPICS for MDOT into a modern programming language and database, migrate the applications from the current legacy mainframe hardware into Amazon Web Services (AWS) or hosted in the MDOT server environment, and implement modern enhancements to the user experience.

PURPOSE & NEED SUMMARY STATEMENT: The newly Modernized AdPICS will be known as EPICS (Enhanced Purchasing Information Control system). It is the Department's procure to pay application which will be integrated with the Department's financial accounting application RSTARS. Modernizing AdPICS will enhance the user experience, improve system and process functionality, lessen the number of application on the mainframe and allow for future integration with eMMA.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Added to Construction Program

PROJECT: Transportation Infrastructure Along the Blue Line Corridor

DESCRIPTION: A Secretary's grant to Prince George's County to support transportation infrastructure projects along the Blue Line Corridor including Morgan Boulevard Urban Street Grid, Arena Drive Complete Streets, and FedEx Field Micromobility.

PURPOSE & NEED SUMMARY STATEMENT: This grant will enable Prince George's County to construct infrastructure improvements to create a interconnected, multi-modal network along the corridor to ensure the safe and accessible movement of motorists, freight carriers, transit users, bicyclists, and pedestrians.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|---|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input type="checkbox"/> Quality & Efficiency |
| <input type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input checked="" type="checkbox"/> Better Transportation Choices & Connections | |

SMART GROWTH STATUS:

- | | |
|--|---|
| <input type="checkbox"/> Project Not Location Specific | <input type="checkbox"/> Not Subject to PFA Law |
| <input checked="" type="checkbox"/> Project Inside PFA | <input type="checkbox"/> Grandfathered |
| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

EXPLANATION: The infrastructure improvements along the corridor will facilitate and improve mobility and access of pedestrians and cyclists along the corridor.

STATUS: Construction is estimated to begin in FY 2022.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Added to the Construction Program.

PROJECT: Baltimore-Washington Superconducting Maglev (SCMAGLEV) Project

DESCRIPTION: Baltimore-Washington Rapid Rail (BWRR), a private company based in Maryland, is proposing to construct an SCMAGLEV train system between Baltimore, Maryland and Washington, DC with an intermediate stop at BWI Marshal Airport. An Environmental Impact Statement (EIS) is being prepared to evaluate the potential impacts of the construction and operation of such a system. This phase of the project is being funded by a grant from the Federal Railroad Administration with matching funds provided by BWRR.

PURPOSE & NEED SUMMARY STATEMENT: Over the next 30 years, population in the Baltimore-Washington region is expected to grow by 30 percent, significantly increasing demand on roadways and railways between the two cities. The purpose of BWRR's proposed action is to increase capacity, reduce travel time, and improve both reliability and mobility options between Baltimore and Washington, with possible future extensions to New York City.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☒ PFA Status Yet to Be Determined ☐ Exception Granted

STATUS: On August 25, 2021 FRA advised that the Maglev NEPA process was paused to review project elements and determine next steps. FRA will share the revised project schedule when it is determined.

[Check Wait Time At Local Service Center](#)
[Schedule An Appointment](#)

**PROJECT:** Alternative Service Delivery Systems**DESCRIPTION:** This project includes the design and implementation of electronic delivery of MVA services through the Internet, kiosks and telephone Interactive Voice Response (IVR) systems.

PURPOSE & NEED SUMMARY STATEMENT: Alternative delivery systems provide MVA customers with the ability to conduct more than 50% of core service transactions electronically. Web-based services, customer service kiosks, interactive voice recognition systems and other advancements not only make interaction with the MVA an efficient and pleasant experience, they will in turn reduce customer wait time and increase overall customer satisfaction.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |

| <input checked="" type="checkbox"/> Project Not Location Specific | <input type="checkbox"/> Not Subject to PFA Law |
| <input type="checkbox"/> Project Inside PFA | <input type="checkbox"/> Grandfathered |
| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

EXPLANATION: New Kiosks provide customers with the ability to receive real-time registration stickers, the option to pay in-cash or with a credit card, and the capability to receive certified and non-certified driving records, as well as the option to order scenic and personalized license plates. Providing this advanced functionality is a benefit to the public and enhances customer satisfaction.

STATUS: Enhancement and expansion of ASD services are underway.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: The project funding allocation increased by \$1.0M due to the addition of FY 2027.

**PROJECT:** Customer Connect

DESCRIPTION: Customer Connect (formerly Project Core) is an enterprise-wide IT project with an emphasis on modernizing the MVA IT infrastructure, replacing legacy systems and enhancing the agency's ability to provide customers and employees with a 360 degree view of their services and needs.

PURPOSE & NEED SUMMARY STATEMENT: Many existing business systems were developed over the years as independent applications in response to separate business unit needs, and have become outdated in meeting the needs of today's operating environment. These systems need to be more efficient for improved customer service and increased employee productivity, and must be re-engineered to allow MVA to maximize service using electronic commerce and a network of branch locations.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input type="checkbox"/> Better Transportation Choices & Connections | |

EXPLANATION: Enable the MVA to maximize customer service by updating IT infrastructure. Provide the ability to conduct driver licensing, vehicle registration and titling transactions at any workstation or through any customer preferred interaction model including via the web and mobile devices. Improve data processing and efficiency for customers and customer service agents.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: An increase of \$4.8M was added for enterprise system upgrades and budget year maintenance and support.

PROJECT: Glen Burnie Headquarters Renovation

DESCRIPTION: Improvements and renovation of the Glen Burnie Headquarters site and facility ground floor and main branch office. Consolidate Driver Licensing functions located in the Annex Building and trailers into the branch office of the main building. Improve vehicular and pedestrian site circulation and maximize parking. Renovate aging infrastructure and site utilities.

PURPOSE & NEED SUMMARY STATEMENT: Improve customer service, operational efficiency, safety, security, and work environment. Improve service and efficiency by consolidating Driver and Vehicle transactions conducted in multiple buildings/trailers into a single main office, while separating customers from back office functions located on other floors. Contain all branch functions on the ground floor of the Headquarters Building. Reconfigure traffic and driving test courses, separate employee and customer parking while adding to total parking spaces. Upgrade fire protection system and improve energy efficiency through equipment and window replacement. Replace HVAC distribution equipment plumbing piping and fixtures, electrical service and distribution, and site utilities.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input checked="" type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input type="checkbox"/> Better Transportation Choices & Connections | |

EXPLANATION: MVA is building the IT infrastructure to support 360 degree customer service, and needs to configure the main branch location to allow for delivery of comprehensive service from each workstation. At the same time, the aging Glen Burnie site and facilities will be renovated, creating a safer, more secure, efficient and environmentally improved workplace, and space for customers.

STATUS: Phase I Site Improvements are underway.

PROJECT: Regional Aviation Assistance Program

DESCRIPTION: The Statewide Aviation Grant Program provides State funding to match federal funding to government or public-owned airports for the repair and upgrade of runways, taxiways, ramps, and lighting systems, as well as, for the removal of trees and other obstacles from runway approaches. If the airport meets the program criteria the Federal Aviation Administration (FAA) will cover 90% of the costs with the State and the airport each contributing 5 percent of the total project cost. Assistance is also provided to private-owned airports, open to the public, for financial grants to improve runways, taxiways, navigation aids, and other safety related projects.

PURPOSE & NEED SUMMARY STATEMENT: This program supports the goals of the Maryland Department of Transportation to meet air service needs of Maryland and to promote safety and security, environmental stewardship, and economic development. There are over 130 licensed and registered airports in the State, of which 35 are public use facilities with three offering air carrier service.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

STATUS: The program has 19 projects under construction and the FY22 grants are expected to be awarded through the 2nd quarter of FY22.

OPERATING COST IMPACT:

PROJECT: Residential Sound Insulation Program

DESCRIPTION: This voluntary program provides for the mitigation of aircraft noise for residential properties that currently fall within the 65 DNL Noise Exposure Map (NEM) contours approved by the Federal Aviation Administration. Under this multi-year program, eligible homeowners may elect to have their homes sound insulated to an interior noise level of 45 DNL in accordance with MAA and FAA standards. The program also includes voluntary residential property acquisition for specific eligible properties within the approved 65 DNL corridor. The State will receive an aviation easement for each property participating in the program.

PURPOSE & NEED SUMMARY STATEMENT: This program enhances the home environment for residents in communities neighboring BWI Marshall Airport that are located within the NEM contours by providing sound insulation improvements to eligible homes. Long term compatible land use is promoted through voluntary property acquisition of eligible properties based on local land use plans and zoning.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input type="checkbox"/> Quality & Efficiency |

OPERATING COST IMPACT:

PROJECT: Shuttle Bus Service Fleet Replacement at BWI Marshall Airport

DESCRIPTION: This project will purchase twenty five 40-foot and fifteen 60-foot buses to be powered by clean diesel and eight electric buses for shuttle services to and from airport operated parking facilities and the Amtrak BWI Rail Station. Electrical charging infrastructure is part of the project scope.

PURPOSE & NEED SUMMARY STATEMENT: The current fleet of 49 buses was purchased in 2004 and have passed their useful life of 12 years. The timely replacement of the existing buses will ensure sufficient capacity to handle customer growth, maintain service levels, and ensure passenger delays are not due to equipment.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

<input type="checkbox"/>	Safe, Secure, and Resilient	<input checked="" type="checkbox"/>	Quality & Efficiency
<input checked="" type="checkbox"/>	Maintain & Modernize	<input checked="" type="checkbox"/>	Environmental Protection
<input type="checkbox"/>	Economic Opportunity & Reduce Congestion	<input type="checkbox"/>	Fiscal Responsibility
<input type="checkbox"/>	Better Transportation Choices & Connections		

EXPLANATION: Passenger ease of movement and airport access is a primary focus of the airport. These improvements provide reliable connections to and from airport operated parking facilities, and Amtrak/MARC rail station. BWI Marshall Airport supports the movement of people, goods and State economy.

SMART GROWTH STATUS:	<input type="checkbox"/> Project Not Location Specific	<input type="checkbox"/> Not Subject to PFA Law
<input checked="" type="checkbox"/> Project Inside PFA	<input type="checkbox"/> Grandfathered	
<input type="checkbox"/> Project Outside PFA	<input type="checkbox"/> Exception Will Be Required	
<input type="checkbox"/> PFA Status Yet to Be Determined	<input type="checkbox"/> Exception Granted	

STATUS: Forty clean diesel buses in passenger service in 2019. Purchasing eight electric buses and charging infrastructure in Spring 2022. Anticipated delivery FY 2023.

POTENTIAL FUNDING SOURCE:						<input checked="" type="checkbox"/> SPECIAL	<input checked="" type="checkbox"/> FEDERAL	<input type="checkbox"/> GENERAL	<input checked="" type="checkbox"/> OTHER

2210 Other funding source is Certificate of Participation (COPS) and Volkswagen grant. Federal funding is CARES stimulus.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: \$3.9M added to the project to reflect additional funds for charging infrastructure and the State match for the buses.

USAGE: Approximately 5.9 million public parking riders annually (pre-COVID).

OPERATING COST IMPACT: Costs will be recovered thru airport user fees.

PROJECT: Midfield Cargo Area Improvements at BWI Marshall Airport

DESCRIPTION: This project consists of improvements to the Midfield Cargo Complex facilities, expansion of apron and taxiway, aircraft parking positions. Improvements include vehicle service road, expansion for new pavement, security enhancements, building modifications, apron pavement rehabilitation, additional aircraft parking positions, overlay and extension of Taxiway Z, and tenant relocation costs.

PURPOSE & NEED SUMMARY STATEMENT: These improvements will provide additional facility and apron space for expanded cargo operations, and preserves the existing airfield pavement to minimize aircraft exposure to Foreign Object Debris (FOD).

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|---|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |

| <input checked="" type="checkbox"/> Project Inside PFA | <input type="checkbox"/> Grandfathered |
| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

EXPLANATION: This project provides compliance with FAA Part 139 regulations. Pavement and deicing improvements, new aircraft parking positions, taxiway modifications, and FAA standards ensure airfield pavement and safety is maximized. The expansion of BWI Marshall Airport cargo operations supports the movement of people, goods and State economy.

STATUS: Project complete and open to use August 2021.

POTENTIAL FUNDING SOURCE:

OPERATING COST IMPACT: Cost recovered mostly through airport user fees.

PROJECT: Concourse A Improvements Phase 2 at BWI Marshall Airport

DESCRIPTION: This project represents the second phase of improvements envisioned during the original Concourse A/B Expansion. The project adds 5 gates sized for B737-800 aircraft by extending the existing Concourse A approximately 234 feet to the northwest, creating a 55,000 square foot addition. The improvements include gates, restrooms, loading bridges, concessions, electrical, mechanical and storage.

PURPOSE & NEED SUMMARY STATEMENT: The project will provide holdrooms designed to ensure required capacity relative to aircraft seats to be used at the new gates for life safety, provide additional aircraft parking positions and gates to deal with capacity constraints during peak periods and provide the ability to reconfigure the existing apron level for safer, improved circulation for people and goods.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP:
None.

USAGE: Accommodate projected annual passenger growth.

OPERATING COST IMPACT: Cost mostly recovered through airport user fees.

PROJECT: Concourse D HVAC Replacement at BWI Marshall Airport

DESCRIPTION: This project will replace the existing HVAC systems serving Concourse D. Improvements will include: hydronic unit replacement, new 600 ton chiller, new piping and controls, commuter concourse rooftop expansion unit replacement, and the replacement of ceiling systems.

PURPOSE & NEED SUMMARY STATEMENT: Existing HVAC systems in Concourse D were installed in 1987 and have reached the end of their service life. Replacement systems will improve operational efficiency, reduce operational costs, and improve overall reliability. Replacement of the ceiling will create a uniform appearance throughout the Concourse.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

<input type="checkbox"/>	Safe, Secure, and Resilient	<input checked="" type="checkbox"/>	Quality & Efficiency
<input checked="" type="checkbox"/>	Maintain & Modernize	<input type="checkbox"/>	Environmental Protection
<input type="checkbox"/>	Economic Opportunity & Reduce Congestion	<input type="checkbox"/>	Fiscal Responsibility
<input type="checkbox"/>	Better Transportation Choices & Connections		

SMART GROWTH STATUS:	<input type="checkbox"/> Project Not Location Specific	<input type="checkbox"/> Not Subject to PFA Law
<input checked="" type="checkbox"/> Project Inside PFA	<input type="checkbox"/> Grandfathered	
<input type="checkbox"/> Project Outside PFA	<input type="checkbox"/> Exception Will Be Required	
<input type="checkbox"/> PFA Status Yet to Be Determined	<input type="checkbox"/> Exception Granted	

EXPLANATION: Maintaining the infrastructure to provide passengers with a consistent travel experience throughout the airport is a primary focus at BWI Marshall Airport. These improvements represent an allocation of funding toward system preservation improvements to meet these goals. BWI Marshall Airport supports the movement of people, goods and State economy.

STATUS: Construction underway.

POTENTIAL FUNDING SOURCE:						<input checked="" type="checkbox"/> SPECIAL	<input type="checkbox"/> FEDERAL	<input type="checkbox"/> GENERAL	<input checked="" type="checkbox"/> OTHER

2192 Other funding source is Passenger Facility Charge (PFC) revenue bonds.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: \$4.3M added to the project to capture total program cost and changes to the scope due to delays from the COVID-19 pandemic.

USAGE: Accommodate projected annual passenger growth.

OPERATING COST IMPACT: Cost mostly recovered through airport user fees.

PROJECT: Restroom Improvement Program at BWI Marshall Airport

DESCRIPTION: This multi-year program will renovate restroom facilities at BWI Marshall Airport. The improvements will vary by restroom depending on the current condition and projected usage. Renovations will range from circulation and cosmetic improvements to full reconstruction. Improvements also include the installation of nursing stations throughout the airport.

PURPOSE & NEED SUMMARY STATEMENT: Restrooms are consistently the top complaint in passenger service feedback. Many of the restrooms throughout the terminal have exceeded their design life as it has been 15-40 years since their last refurbishment. Other restrooms, particularly in Concourses A and B, were designed to handle 30% fewer passengers than the current demand resulting in a significant shortcoming in restroom capacity.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input type="checkbox"/> Better Transportation Choices & Connections | |

- SMART GROWTH STATUS:**
- | | |
|--|---|
| <input type="checkbox"/> Project Not Location Specific | <input type="checkbox"/> Not Subject to PFA Law |
| <input checked="" type="checkbox"/> Project Inside PFA | <input type="checkbox"/> Grandfathered |
| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

EXPLANATION: The quality of the passenger experience is a primary focus of the airport and customer satisfaction with restrooms tops the list. These system preservation improvements will improve the condition of old and new facilities plus expand restrooms to address increased passenger traffic. BWI Marshall Airport supports the movement of people, goods and State economy.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: \$2.8M added to the project to capture total program cost and higher costs due to delays from the COVID-19 pandemic.

USAGE: Accommodate current and projected annual passenger growth.

OPERATING COST IMPACT: Cost mostly recovered through airport user fees.

PROJECT: Taxiway T Reconstruction Phase 1 at BWI Marshall Airport

DESCRIPTION: This project will reconstruct a portion of Taxiway T behind gates A7 thru B2 from the existing asphalt pavement to concrete. The project is intended to address the existing pavement condition and meet FAA Design Standards for Taxiway Geometry. The Pavement Condition Index (PCI) for portions of this pavement ranges from fair to poor. All taxiway lighting and signage will be replaced with high efficiency LED lighting systems.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through reconstruction of pavement to meet Federal Aviation Administration (FAA) standards. The areas identified for upgrades were determined through independent pavement analysis as required by the FAA. Pavement sections within the limits of the project have PCI ranges from 42-64 according to the 2019 Pavement Management Plan Update. In addition, the replacement of taxiway lighting and signage will enhance safety.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

<input checked="" type="checkbox"/> Safe, Secure, and Resilient	<input type="checkbox"/> Quality & Efficiency
<input checked="" type="checkbox"/> Maintain & Modernize	<input type="checkbox"/> Environmental Protection
<input type="checkbox"/> Economic Opportunity & Reduce Congestion	<input type="checkbox"/> Fiscal Responsibility
<input type="checkbox"/> Better Transportation Choices & Connections	

EXPLANATION: This project provides for compliance with Public Law 109-115 and FAA Part 139 regulations. The improvements enhance safety by reducing the risk of aircraft damage in the taxiway area. Pavement improvements and FAA standards ensure airfield pavement is free of cracks and minimize FOD that could impact the aircraft. BWI Marshall Airport supports the movement of people, goods and State economy.

SMART GROWTH STATUS:	<input type="checkbox"/> Project Not Location Specific	<input type="checkbox"/> Not Subject to PFA Law

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP:
None.

USAGE: Accommodate projected annual passenger growth.

OPERATING COST IMPACT: Cost fully recovered through airport user fees.

DESCRIPTION: This project will comprise a two-level building addition between Concourses A and B to provide space for a new fully in-line baggage handling system, operational spaces, a connector between the concourses, upgrades to the Central Utility Plant and lower level roadway improvements. The project will also provide expanded holdrooms, new Passenger Boarding Bridges, new restrooms, and concessions space.

PURPOSE & NEED SUMMARY STATEMENT: The ability to maintain 100 percent electronic baggage screening, while achieving the necessary capacity to meet projected airline departure flight schedules that are using aircraft with larger seating capacity is dependent upon attaining the maximum utilization of bag screening technology. In addition, the project will expand holdrooms to ensure required capacity relative to aircraft seats, improve passenger amenities, and provide a same level connection between the two concourses. Central Utility Plant upgrades are necessary to keep up with airport expansion in order to provide cooling of the terminal complex.

STATUS: Construction start anticipated February 2022. Projected advertisement for the Central Utility Plant upgrades is in FY23.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: \$2.9M was added to this project due to the inclusion of the Central Utility Plant Upgrade enabling project into this PIF netted against a decreased scope change for the overall project.

USAGE: Accommodate projected annual passenger growth.

OPERATING COST IMPACT: Cost mostly recovered through airport user fees.

0232, 0233, 0234 Other funding source is Special Transportation Project Revenue Bonds. Federal funding is CARES stimulus.

PROJECT: Taxiway F Relocation at BWI Marshall Airport

DESCRIPTION: Phase 1 of this project will reconstruct, in concrete, 2500 linear feet of taxiway parallel to Runway 10-28 at a proposed offset of 750 feet. The construction will include clearing, grading, paving, airfield lighting, signage and pavement marking improvements.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through reconstruction of pavement to meet Federal Aviation Administration (FAA) standards. In addition, the proposed alignment will address deficiencies in the current alignment that do not meet current FAA Design Standards.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

<input checked="" type="checkbox"/> Safe, Secure, and Resilient	<input type="checkbox"/> Quality & Efficiency
<input checked="" type="checkbox"/> Maintain & Modernize	<input type="checkbox"/> Environmental Protection
<input type="checkbox"/> Economic Opportunity & Reduce Congestion	<input type="checkbox"/> Fiscal Responsibility
<input type="checkbox"/> Better Transportation Choices & Connections	

EXPLANATION: This project provides for compliance with Public Law 109-115 and FAA Part 139 regulations. The improvements enhance safety by reducing the risk of aircraft damage in the taxiway area. Pavement improvements and realignment to FAA standards ensure airfield pavement is free of cracks and maximizes aircraft safety. BWI Marshall Airport supports the movement of people, goods and State economy.

SMART GROWTH STATUS:	<input type="checkbox"/> Project Not Location Specific	<input type="checkbox"/> Not Subject to PFA Law
<input checked="" type="checkbox"/> Project Inside PFA	<input type="checkbox"/> Grandfathered	
<input type="checkbox"/> Project Outside PFA	<input type="checkbox"/> Exception Will Be Required	
<input type="checkbox"/> PFA Status Yet to Be Determined	<input type="checkbox"/> Exception Granted	

STATUS: Construction start December 2021. Federal AIP grants received.

POTENTIAL FUNDING SOURCE:						<input checked="" type="checkbox"/> SPECIAL	<input checked="" type="checkbox"/> FEDERAL	<input type="checkbox"/> GENERAL	<input type="checkbox"/> OTHER

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: \$15.3M added to this project for Phase 1 to include Segments 1 and 2; Phase 2 was funded for design and partial construction and Phase 3 was funded for design.

USAGE: Improve standards.

OPERATING COST IMPACT: Cost fully recovered through airport user fees.

PROJECT: Aircraft Maintenance Facility Infrastructure at BWI Marshall Airport

DESCRIPTION: This project provides infrastructure improvements in support of the development of a full-service aircraft maintenance facility at BWI Marshall Airport. The improvements include utility infrastructure and site grading. Landside and airside access routes will be provided to support operations.

PURPOSE & NEED SUMMARY STATEMENT: At BWI Marshall Airport, airlines need to perform periodic or incidental maintenance on their aircraft. There is insufficient space at either the airline gates or within the terminal and adjacent areas for airlines to perform aircraft maintenance functions. The site provides sufficient area for a facility that will support aircraft maintenance needs.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

<input type="checkbox"/>	Safe, Secure, and Resilient	<input checked="" type="checkbox"/>	Quality & Efficiency
<input type="checkbox"/>	Maintain & Modernize	<input type="checkbox"/>	Environmental Protection
<input checked="" type="checkbox"/>	Economic Opportunity & Reduce Congestion	<input type="checkbox"/>	Fiscal Responsibility
<input type="checkbox"/>	Better Transportation Choices & Connections		

EXPLANATION: This project provides airlines with a location to locally perform periodic or incidental maintenance on their aircraft fleet. Reliable aircraft ensures airlines maintain schedules and minimize delay impact on passengers. Opening of the facility will increase local employment. BWI Marshall Airport supports the movement of people, goods and State economy.

SMART GROWTH STATUS:	<input type="checkbox"/> Project Not Location Specific	<input type="checkbox"/> Not Subject to PFA Law

9720, 9721, 9722 Federal funding is CARES stimulus.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: \$13.3M was removed from this project due to favorable bids caused by price changes due to market volatility.

USAGE: Accommodate projected airline maintenance needs.

OPERATING COST IMPACT: Cost responsibility of airline.

PROJECT: Airfield Lighting Vault Relocation at BWI Marshall Airport

DESCRIPTION: This project will relocate the existing Airfield Lighting Vault, demolish the existing facility and convert the site to aircraft apron pavement. In addition, the demolition will allow for taxiway and apron improvements between Taxiways T and P. The building will be replaced with a dedicated facility that incorporates all new airfield lighting control and infrastructure, purpose design layout incorporating circuit resiliency by segregating portions of the airfield into different sections reducing the possibility of a single point of failure and a state of the art nitrogen inerting fire protection system.

PURPOSE & NEED SUMMARY STATEMENT: The existing facility is a repurposed fire station and does not meet the requirements of a proper Airfield Lighting Vault. The existing facility represents a potential single point of failure in a catastrophic event and the existing site constrains airfield capacity into the Concourses B-C alley. The existing regulators, power transformers, emergency power generator and fire protection system are all in need of replacement.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

<input checked="" type="checkbox"/> Safe, Secure, and Resilient	<input type="checkbox"/> Quality & Efficiency
<input checked="" type="checkbox"/> Maintain & Modernize	<input type="checkbox"/> Environmental Protection
<input checked="" type="checkbox"/> Economic Opportunity & Reduce Congestion	<input type="checkbox"/> Fiscal Responsibility
<input type="checkbox"/> Better Transportation Choices & Connections	

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

<input checked="" type="checkbox"/> Project Inside PFA	<input type="checkbox"/> Grandfathered
<input type="checkbox"/> Project Outside PFA	<input type="checkbox"/> Exception Will Be Required
<input type="checkbox"/> PFA Status Yet to Be Determined	<input type="checkbox"/> Exception Granted

EXPLANATION: This project provides compliance with FAA Part 139 regulations. New airfield lighting control and infrastructure combined with new aircraft travel patterns that increase airfield capacity ensure airfield movement and safety is maximized. The replacement of the Airfield Lighting Vault supports the movement of people, goods and State economy.

STATUS: Advertisement anticipated January 2022. Project contingent upon receipt of federal funding.

2196 Anticipating 100% federal grant with no State matching funds.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: \$2.2M was added to the project to align with receipt of anticipated Federal funding.

USAGE: Accommodate projected annual passenger growth.

OPERATING COST IMPACT: Cost mostly recovered through airport user fees.

PROJECT: Fuel Storage Tank Additions at BWI Marshall Airport

DESCRIPTION: This project expands the North Area Fuel Farm by adding two 16,800 BBL above ground storage tanks with new supply lines, filtration, and pumps to transport Jet-A fuel to designated locations. A new upsized water line will be installed to facilitate a completed fire protection loop around the fuel farm, expand the capacity, and modernize the existing infrastructure.

PURPOSE & NEED SUMMARY STATEMENT: BWI Marshall Airport continues to grow in flight operations, which requires an increased fuel farm system.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

USAGE: Accommodate projected annual flight operations.

OPERATING COST IMPACT: Operating cost mostly recovered through airport user fees.

PROJECT: Environmental Assessment at Martin State Airport

DESCRIPTION: This project provides for the preparation of an environmental assessment of Phase 1 capital projects shown on the Airport Layout Plan (ALP) approved by the FAA in July 2011.

PURPOSE & NEED SUMMARY STATEMENT: In accordance with the National Environmental Policy Act (NEPA) and Federal Aviation Administration Order 5050.4B, Airport Environmental Handbook, MAA must determine the environmental consequences of capital project development as proposed by the Airport Layout Plan.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

STATUS: Inter-agency coordination began in 2013. Updated draft Environmental Assessment documents submitted to FAA in September 2020. Two public workshops held in March 2021. Interagency coordination on the final documentation continues into Winter 2021. Anticipated project completion and FAA determination is now early calendar year 2022.

**PROJECT:** Hart-Miller Island Related Projects

DESCRIPTION: Hart-Miller Island is a 1,140-acre island located in Baltimore County that was formerly used for placement of dredged material from the shipping channels for the Port of Baltimore. The site operated from 1984 and ceased accepting dredged material in 2009. The southern portion, South Cell, of the site is open for passive recreation, and MDOT MPA is coordinating with the Department of Natural Resources on the development of the North Cell for a wildlife habitat and passive recreation.

PURPOSE & NEED SUMMARY STATEMENT: During its operational life, Hart-Miller Island was necessary to enable dredging of the shipping channels for the Port of Baltimore. The current work is necessary to complete the re-development of the site for public and ecological benefit.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|--|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input type="checkbox"/> Quality & Efficiency |
| <input type="checkbox"/> Maintain & Modernize | <input checked="" type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input checked="" type="checkbox"/> Better Transportation Choices & Connections | |

SMART GROWTH STATUS:

- | | |
|--|---|
| <input type="checkbox"/> Project Not Location Specific | <input type="checkbox"/> Not Subject to PFA Law |
| <input checked="" type="checkbox"/> Project Inside PFA | <input checked="" type="checkbox"/> Grandfathered |
| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

EXPLANATION: The dredged material placed in the Hart-Miller Island facility was collected from Harbor and Bay channels and berths. The placement of this material at Hart-Miller Island allowed vessels to transport cargo to and from the Port of Baltimore.

STATUS: The facility ceased in-flow operations December 31, 2009. Maintenance and monitoring will continue until the North Cell is developed.

POTENTIAL FUNDING SOURCE:

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: A related project is no longer active, therefore the previous costs (\$7.5 million) associated with it have been removed.

PROJECT: Dredged Material Placement and Monitoring

DESCRIPTION: This program supports the placement, monitoring and management of material dredged from the shipping channels for the Port of Baltimore. Costs associated with this program enable design and construction of containment sites, monitoring during and after placement, site operations at dredged material facilities, and innovative and beneficial reuse of dredged material.

PURPOSE & NEED SUMMARY STATEMENT: The Governor's Strategic Plan for Dredged Material Management identifies either specific sites and projects, or types of sites and projects for future dredged material placement. This program funds the development, construction and monitoring of selected dredged material management sites and projects to maintain the navigation channels that help the Port remain competitive and increase economic development.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

STATUS: MDOT MPA continues to evaluate alternative dredged material placement sites and options. The Masonville and Cox Creek Dredged Material Containment Facilities and the Poplar Island Ecosystem Restoration project are accepting dredged material.

POTENTIAL FUNDING SOURCE:

☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

5206,5245-46,5260,5401,5418-20,5425-27

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: The cost for this program was reduced significantly due to the Masonville Dredged Material Containment Facility Expansion being broken out into a separate project.

PROJECT: Cox Creek Dredged Material Containment Facility Expansion and Related Projects

DESCRIPTION: The Cox Creek Dredged Material Containment Facility (DMCF) is an existing 144-acre dredged material placement site located in Anne Arundel County. The footprint of the DMCF is being expanded into the adjacent 93-acre upland area owned by MDOT MPA. The expansion will increase the capacity for the placement of dredged material from the shipping channels for the Port of Baltimore as part of the State's 20-Year Dredged Material Management Plan (DMMP). The dikes at the existing DMCF are also being raised as part of the expansion.

PURPOSE & NEED SUMMARY STATEMENT: Placement capacity for dredged material from Baltimore Harbor is currently provided by the existing Cox Creek and Masonville DMCFs. The capacity that is currently available is not adequate to accommodate necessary dredging of the shipping channels for the Port of Baltimore over the 20-year planning period of the State's DMMP. Expansion and raising of the existing dikes at Cox Creek are necessary to create capacity to ensure safe and efficient passage of shipping vessels calling at the Port of Baltimore.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |

| <input type="checkbox"/> Better Transportation Choices & Connections | |

- SMART GROWTH STATUS:**
- | | |
|--|---|
| <input type="checkbox"/> Project Not Location Specific | <input type="checkbox"/> Not Subject to PFA Law |
| <input checked="" type="checkbox"/> Project Inside PFA | <input type="checkbox"/> Grandfathered |
| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

EXPLANATION: The Cox Creek DMCF is being expanded to increase capacity for the placement of dredged material from the shipping channels for the Port of Baltimore as part of the State's 20-Year Dredged Material Management Plan. This expansion, including raising the existing dikes, is necessary to create capacity to ensure safe and efficient passage of shipping vessels.

STATUS: Construction of the foundation for the dike raising is completed, and raising to +60 feet will commence this year; dredged material placement is planned to continue during the expansion project.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: The project funding allocation increased by \$14.5 million due to the restoration of funding that was deferred last year due to reduced revenues related to the Covid-19 pandemic; minor revisions to the scope of this project have slightly lowered the total estimated cost.

5305, 5308, 5309, 5311

PROJECT: Dredged Material Management Program

DESCRIPTION: This project includes detailed studies with the U.S. Army Corps of Engineers to identify and assess potential dredged material placement sites consistent with Maryland's Dredged Material Management Program, emphasizing beneficial uses of dredged material for projects such as island and shoreline restoration.

PURPOSE & NEED SUMMARY STATEMENT: Available placement capacity for sediment dredged from navigational channels serving the Port of Baltimore is completely committed. The MPA must identify placement sites and uses for future dredged material. Studies and investigations are necessary to meet the requirements of the Dredge Material Management Act of 2001.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

5217, 5220, 5221, 5224

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: The cost decrease of over \$41 million is due to the removal of the historical costs of a program that is no longer funded as part of MDOT MPA's capital program.

PROJECT: Innovative Reuse and Beneficial Use of Dredged Material

DESCRIPTION: MPA continues to implement the Innovative Reuse and Beneficial Use Strategy to advance the reuse of dredged material from channels serving the Port of Baltimore.

PURPOSE & NEED SUMMARY STATEMENT: The Dredged Material Management Act of 2001 (DMMA) established the Dredged Material Management Program (DMMP) and the DMMP Executive Committee to ensure that the federal navigational channels in the Chesapeake Bay and Baltimore Harbor remain open for waterborne commerce and to provide oversight and guidance over the Port of Baltimore's dredging needs through a rolling 20-year capacity and placement plan. Further, DMMA prioritizes beneficial use and innovative reuse alternatives over traditional dredged material placement methods. Solutions that can reuse dredged material extend the placement capacity at the Port of Baltimore's dredged material placement sites.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

5005, 5007, 5241, 000181, 000182

**PROJECT:** Mid-Chesapeake Bay Island Ecosystem Restoration Project

DESCRIPTION: The Mid-Chesapeake Bay Island Ecosystem Restoration Project (Mid-Bay Project) will restore two eroding Chesapeake Bay islands, James and Barren, providing long-term capacity for sediment removed from the shipping channels serving the Chesapeake Bay. This project will restore 2,000 acres of important, scarce remote island habitat, both upland and wetlands, and provide shoreline protection from erosion by reducing wave energy. This project is cost-shared with the U.S. Army Corps of Engineers, and the funding shown here is only the state's contribution.

PURPOSE & NEED SUMMARY STATEMENT: The Mid-Bay Project will be used to place dredged material drawn from the approach channels to the Baltimore Harbor and C&D Canal's southern approach channels as Poplar Island reaches its capacity. This new capacity allows the Port of Baltimore to continue to maintain its channels to their authorized depths and allow safe passage of cargo ships entering and leaving the Port of Baltimore. This project is part of the Governor's Strategic Plan for Dredged Material Management that identifies either specific sites and projects, or types of sites and projects for future dredged material placement.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input checked="" type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input type="checkbox"/> Better Transportation Choices & Connections | |

- SMART GROWTH STATUS:** ☐ Project Not Location Specific ☐ Not Subject to PFA Law
- | | |
|--|--|
| <input type="checkbox"/> Project Inside PFA | <input type="checkbox"/> Grandfathered |
| <input checked="" type="checkbox"/> Project Outside PFA | <input checked="" type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

EXPLANATION: The placement of this material at the Mid-Chesapeake Bay Island Ecosystem Restoration Project at James Island and Barren Island will allow the Port of Baltimore to maintain its channels to their authorized depths and allow safe passage of cargo ships entering and leaving the Port of Baltimore, and restores lost habitat due to sea level rise and erosion.

STATUS: This project is currently in the engineering and design phase.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: The project funding allocation has increased by \$41.9 million due to plans for this project being in the process of finalization by the U.S. Army Corps of Engineers.

PROJECT: Paul S. Sarbanes Ecosystem Restoration Project at Poplar Island

DESCRIPTION: The Paul S. Sarbanes Ecosystem Restoration Project at Poplar Island is an international model of the beneficial use of dredged material restoring remote island habitat in the mid-Chesapeake Bay. In 1996, only five acres remained of the 1,140 acres that were documented in 1847. MDOT MPA, working with the U.S. Army Corps of Engineers, began restoring Poplar Island in the 1990s. In 2017, an expansion project began to increase the site's placement capacity and create 1,715 acres of restored habitat consisting of 777 acres of tidal wetlands, 828 acres of upland habitat, open water ponds, and a 110-acre open water embayment. This project is cost-shared with the U.S. Army Corps of Engineers, and the funding shown here is only the state's contribution.

PURPOSE & NEED SUMMARY STATEMENT: Poplar Island receives approximately 2 million cubic yards of dredged material, drawn from the approach channels to the Baltimore Harbor and C&D Canal's southern approach channels. This capacity allows the Port of Baltimore to maintain its channels to their authorized depths and allow safe passage of cargo ships entering and leaving the Port of Baltimore. This project is part of the Governor's Strategic Plan for Dredged Material Management that identifies either specific sites and projects, or types of sites and projects for future dredged material placement.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

PROJECT: Masonville Dredged Material Containment Facility Expansion and Related Projects

DESCRIPTION: The Masonville Dredged Material Containment Facility (DMCF) is an existing 193-acre dredged material placement site located in Baltimore City. The dikes are being raised at the facility to increase the capacity for the placement of dredged material from the shipping channels for the Port of Baltimore as part of the State's 20-Year Dredged Material Management Plan (DMMP). This program supports the placement, monitoring and management of material dredged from the shipping channels for the Port of Baltimore, and design and construction of containment sites, monitoring during and after placement, and site operations of the DMCF.

PURPOSE & NEED SUMMARY STATEMENT: Placement capacity for dredged material from Baltimore Harbor is currently provided by the existing Cox Creek and Masonville DMCFs. The capacity that is currently available is not adequate to accommodate necessary dredging of the shipping channels for the Port of Baltimore over the 20-year planning period of the State's DMMP. Raising of the existing dikes at Masonville is necessary to create capacity to ensure safe and efficient passage of shipping vessels calling at the Port of Baltimore.

EXPLANATION: The dikes are being raised at the Masonville DMCF to increase capacity for the placement of dredged material from the shipping channels for the Port of Baltimore as part of the State's 20-Year Dredged Material Management Plan. Raising the existing dikes is necessary to create capacity to ensure safe and efficient passage of shipping vessels.

STATUS: Masonville construction is resuming after funds had previously been reduced due to funding constraints related to the COVID-19 global pandemic. Construction is resuming with funding being restored for FY22, FY23, and FY24.

POTENTIAL FUNDING SOURCE:

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: This project was part of the Dredged Material Placement and Monitoring program, but has been broken out into its own separate project. Construction funding for FY22, FY23, and FY24 has been restored.

5232, 5235, 5237

PROJECT: Fairfield Masonville Stormwater Management Phase I

DESCRIPTION: This project will capture and convey the surface run-off from Masonville Dredged Material Containment Facility (DMCF) slopes and the land locked Kurt Iron Slip, and prepare the way for the next four stormwater management phases. The proposed system will also relieve the existing Fairfield Marine Terminal storm drain system by re-routing storm drain discharge.

PURPOSE & NEED SUMMARY STATEMENT: To capture and convey surface run-off from the Masonville DMCF, relieve the existing Fairfield Marine Terminal storm drain system, and provide increased conveyance capacity for development of the Kurt Iron Slip and other areas at Fairfield and Masonville terminals.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

<input checked="" type="checkbox"/>	Safe, Secure, and Resilient	<input type="checkbox"/>	Quality & Efficiency
<input checked="" type="checkbox"/>	Maintain & Modernize	<input checked="" type="checkbox"/>	Environmental Protection
<input checked="" type="checkbox"/>	Economic Opportunity & Reduce Congestion	<input type="checkbox"/>	Fiscal Responsibility
<input type="checkbox"/>	Better Transportation Choices & Connections		

SMART GROWTH STATUS:		<input type="checkbox"/> Project Not Location Specific	<input type="checkbox"/> Not Subject to PFA Law
<input checked="" type="checkbox"/>	Project Inside PFA	<input type="checkbox"/>	Grandfathered
<input type="checkbox"/>	Project Outside PFA	<input type="checkbox"/>	Exception Will Be Required
<input type="checkbox"/>	PFA Status Yet to Be Determined	<input type="checkbox"/>	Exception Granted

EXPLANATION: This project is integral to Fairfield Marine Terminal and Masonville DMCF development. Phase 1 allows elevation of the DMCF dike above +30 to the targeted elevation of +42, increasing the capacity for dredged material. Installing stormwater drainage allows for the development of the Kurt Iron Slip for future development at the Port and prepares the way for additional stormwater management improvements throughout the terminal.

STATUS: Project design is underway.

POTENTIAL FUNDING SOURCE:

☒ SPECIAL ☐ FEDERAL ☐ GENERAL ☐ OTHER

PHASE	TOTAL		PREVIOUS YEAR 2021	CURRENT YEAR 2022	BUDGET YEAR 2023	PLANNING FOR PLANNING PURPOSES ONLY				SIX YEAR TOTAL	BALANCE TO COMPLETE

Other	0	0	0	0	0	0	0	0	0	0	0

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: This project was originally deferred due to reduced revenues related to the COVID-19 pandemic, but has since been reinstated into MDOT MPA's six-year Consolidated Transportation Program.

PROJECT: Reconstruction Berths 1- 6 at Dundalk Marine Terminal, Phase III (Berth 3)

DESCRIPTION: The western bulkhead at Dundalk Marine Terminal was part of the original Harbor Municipal Airport dating back to the 1930s; the marginal wharf was constructed in the early 1960s. This project will (in a phased approach) replace and deepen the berths to meet future cargo and vessel needs; heavy cargo vessels have grounded on the bottom at low tides. The berths will be designed to allow dredging to an eventual depth of 50 feet. The first phase funded reconstruction of Berths 5 and 6. Phase II funded Berth 4 reconstruction; Phase III will fund Berth 3 reconstruction.

PURPOSE & NEED SUMMARY STATEMENT: Berths 1-6 are essential to the Port because they handle a variety of cargoes, e.g., automobiles, forest products, roll-on/roll-off and other break-bulk (van packs). Age and a harsh marine environment require these berths be rehabilitated before they become unstable. The other berths (7-13) at Dundalk Marine Terminal are not viable alternatives because they are too distant from the warehouses and automobile lots.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|---|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input type="checkbox"/> Better Transportation Choices & Connections | |

EXPLANATION: This project will allow vessels with deeper drafts to make calls at the Dundalk Marine Terminal. Future vessels will be larger than current-day ships and carry more cargo. Rehabilitation of these berths will enable the movement of additional cargo across the terminal.

- SMART GROWTH STATUS:** ☐ Project Not Location Specific ☐ Not Subject to PFA Law
- | | |
|--|---|
| <input checked="" type="checkbox"/> Project Inside PFA | <input type="checkbox"/> Grandfathered |
| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

STATUS: Construction for Phase I (Berths 5 & 6) was completed in December 2006 and Phase II construction (Berth 4) was completed in November 2016. Phase III (Berth 3) construction started in FY21.

POTENTIAL FUNDING SOURCE:

- ☒ SPECIAL ☐ FEDERAL ☐ GENERAL ☐ OTHER

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Project construction has begun, and funds are being expended.

PROJECT: Seagirt Marine Terminal Modernization - Phase 1 - Berth Improvements

DESCRIPTION: Phase one will improve Seagirt Marine Terminal Berth 3 which will provide a second 50-foot deep berth at the Seagirt Marine Terminal (SMT). Phase two of the project includes deepening and widening the remainder of the west access channel, known as the Seagirt Loop Channel.

PURPOSE & NEED SUMMARY STATEMENT: This project is necessary to remain competitive with other East Coast ports by increasing the number of deep berths available at SMT. Increasing the efficiency and safety of large container vessels entering and exiting SMT is required to remain competitive as the world's fleet evolves to larger ships. This project also leverages third party funds of approximately \$18.4 million.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|--|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |
| <input checked="" type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input checked="" type="checkbox"/> Better Transportation Choices & Connections | |

- SMART GROWTH STATUS:** ☐ Project Not Location Specific ☐ Not Subject to PFA Law
- | | |
|--|---|
| <input checked="" type="checkbox"/> Project Inside PFA | <input type="checkbox"/> Grandfathered |
| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

EXPLANATION: Having a second deep water berth at Seagirt will allow more frequent calls from large container ships. It is estimated that the impact of the increased terminal capacity could contribute to approximately 1,950 direct/induced/indirect jobs, resulting in an increase of \$195 million in total economic activity.

STATUS: MDOT MPA is partnering with Ports America Chesapeake in a Public Private Partnership that has received a \$6.6 million BUILD grant through USDOT - MARAD. Project construction started in FY21, and deepening of Berth 3 to 50 feet has been completed; modernization/improvements to the Berth itself are underway.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Project started in FY21 and funds have been expended.

PROJECT: Seagirt Marine Terminal Modernization - Phase 2 Loop Channel Improvements

DESCRIPTION: This is phase two of the Seagirt Modernization project, which will widen and deepen the loop channel to facilitate improved access at Seagirt Marine Terminal for the larger container ships that are now calling on East Coast ports. Phase one consists of deepening a second berth and landside improvements at Seagirt Marine Terminal Berth 3.

PURPOSE & NEED SUMMARY STATEMENT: This project is necessary to remain competitive with other East Coast ports by improving access to Seagirt Marine Terminal. This project will also improve safety for ships entering and exiting the Seagirt Marine Terminal

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

STATUS: Studies are underway to assess widening and deepening the rest of the loop channel to Seagirt Marine Terminal.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: None

PROJECT: Howard Street Tunnel Project (INFRA GRANT)

DESCRIPTION: The project consists of reconstructing the 126-year-old Howard Street Tunnel in Baltimore and improving the vertical clearance at 21 bridges between Baltimore and Philadelphia to create a double-stack rail corridor to and from the Port of Baltimore and along the entire East Coast.

PURPOSE & NEED SUMMARY STATEMENT: The project is needed to provide a more efficient way to move containerized cargo to and from the Port of Baltimore. The improved tunnel will allow the Port to attract more containers, resulting in additional jobs and economic growth for the region.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|--|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input checked="" type="checkbox"/> Environmental Protection |
| <input checked="" type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input checked="" type="checkbox"/> Better Transportation Choices & Connections | |

- SMART GROWTH STATUS:**
- | | |
|--|---|

| <input checked="" type="checkbox"/> Project Inside PFA | <input type="checkbox"/> Grandfathered |
| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

EXPLANATION: Creating this double-stack rail access will result in significant public benefits such as reduced highway congestion, increased roadway safety, decreased fuel consumption and improved air quality. Not only will the project address a long-standing bottleneck in the national rail network, but the improvements will be undertaken in a cost-effective manner, using public and private funds, with minimal impact to the public and environment.

STATUS: The project received final National Environmental Policy Act (NEPA) approval in June 2021, and construction is expected to begin in 2022.

POTENTIAL FUNDING SOURCE:

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: None

PROJECT: Chrome Ore Processing Residue Remediation (COPR)

DESCRIPTION: After years of COPR investigations, and submission of a Corrective Measures Alternative Analysis (CMAA), the Maryland Department of the Environment (MDE) directed MPA and Honeywell to implement enhanced isolation and containment of the COPR at Dundalk Marine Terminal (DMT). This requires relining storm drains in the COPR areas and installing enhanced long-term monitoring and maintenance of the site.

PURPOSE & NEED SUMMARY STATEMENT: Originally, chromium was believed to be good fill material; unfortunately, it is now known that a large portion of the chromium at DMT contains hexavalent chromium which is defined and regulated as a hazardous substance under Federal and State law. The studies and work plans required under the Consent Decree are designed to assess the chromium remediation. The CMAA was approved by the MDE in July 2012.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input checked="" type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input type="checkbox"/> Better Transportation Choices & Connections | |

EXPLANATION: Remediation of the affected areas located at the DMT will prevent hazardous substances generated by chrome ore residue from entering Baltimore Harbor. The application of Corrective Measures will enable the reclamation of chrome ore affected areas. The MPA will use these areas to store additional cargo brought to the Port of Baltimore by truck, vessel or rail.

- SMART GROWTH STATUS:**
- | | |

1011, 1068, 1084, 1102, 1104, 1106, 1108, 9000

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: The project funding allocation increased by \$4.9 million due to the restoration of funding that was deferred due to reduced revenues related to the Covid-19 pandemic; this funding will allow for the completion of this project.

PROJECT: Hawkins Point Algal Flow Way TMDL

DESCRIPTION: To construct an Algal Flow Way (AFW) at Hawkins Point. The AFW is a best management practice for treating stormwater. The AFW removes nitrogen, phosphorus, and sediment by growing algae and using water from the Patapsco River; the algae uses the nutrients from the river to grow, and thus, removes the unwanted nutrients from the water system. The algae is then removed and disposed of at a landfill.

PURPOSE & NEED SUMMARY STATEMENT: A condition of MPA's permit requires that it comply with its Water Discharge Permit for treating water/water quality. The condition states MPA must have the work, including design and construction, completed prior to 2025.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input type="checkbox"/> Quality & Efficiency |

| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

EXPLANATION: In response to the Presidential Executive Order to improve the water quality of the Chesapeake Bay by 2025, the Maryland Department of the Environment (MDE) has included Chesapeake Bay restoration requirements in stormwater discharge permits; MPA is required to treat 20% of its impervious surfaces. This project allows MPA to stay in compliance with MDE permits and helps improve the health of the Chesapeake Bay.

STATUS: Ongoing. Current engineering alternative analysis being performed to narrow down the best and most efficient approach.

EXPLANATION: The improvements made at the South Locust Point Marine Terminal are for the comfort and convenience of cruise line passengers. These improvements spurred an increase in passenger demand and voyages from MPA facilities in the Port of Baltimore.

STATUS: The terminal started operations in FY 2006, and facility improvements are needed to keep the terminal in a state of good repair.

[illegible]

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: The cost increase of \$2.5 million is for the replacement of the roof and air conditioning system, as well as other improvements.

MDOT MTA CONSTRUCTION PROGRAM

PROJECT: MARC Maintenance, Layover, & Storage Facilities

DESCRIPTION: Planning, environmental documentation, design, and construction of maintenance, layover, and storage facilities. Includes design and construction of storage tracks and replacement of track switches at MARC Martin State Airport facility and the construction of a heavy maintenance building at the MARC Riverside facility.

PURPOSE & NEED SUMMARY STATEMENT: Projects will provide a critically needed maintenance facility for the MARC fleet. Upgrades to the storage facility will reduce interference with Amtrak operations at Washington Union Station and Penn Station and provide urgently needed fleet storage away from the passenger platforms at the station.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input type="checkbox"/> Better Transportation Choices & Connections | |

EXPLANATION: Additional storage capacity enables MARC trains to be stored away from passenger platforms, minimizing disruptions and delays caused by congestion around the platforms and will help with maintenance inspections. The new maintenance facility will house specialized equipment to support maintenance of MARC's diesel locomotives.

- SMART GROWTH STATUS:**
- | | |
|--|---|
| <input type="checkbox"/> Project Not Location Specific | <input type="checkbox"/> Not Subject to PFA Law |
| <input checked="" type="checkbox"/> Project Inside PFA | <input type="checkbox"/> Grandfathered |
| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

STATUS: Design of Martin State Airport storage tracks complete. Construction is underway for the heavy maintenance building at the Riverside location.

POTENTIAL FUNDING SOURCE:

- ☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Project cost decreased by \$13.7M due to the completion of real estate acquisition of the MARC Riverside facility (\$19.9M), and the addition of the MARC Martin's Yard Power Switch project, an FRA competitive grant award (\$6.2M).

USAGE: MARC annual ridership in FY 21 exceeded 900,000.

PROJECT: MARC Improvements on Camden, Brunswick, and Penn Lines

DESCRIPTION: Ongoing improvement program of the MARC Camden, Brunswick, and Penn lines to ensure safety and quality of service. Program is implemented through CSX and Amtrak construction agreements. CSX efforts include projects such as interlocking replacements and other track improvements. Amtrak efforts include projects such as passenger upgrades at Baltimore Penn Station and Washington Union Station, interlocking work, and other track improvements along the Northeast Corridor.

PURPOSE & NEED SUMMARY STATEMENT: Investments in passenger rail corridor infrastructure improvements are necessary to continue quality MARC service.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input type="checkbox"/> Better Transportation Choices & Connections | |

EXPLANATION: Projects such as interlocking replacements and platform improvements are needed to keep the system in a state of good repair.

USAGE: MARC annual ridership in FY 21 exceeded 900,000.

PROJECT: MARC Locomotives - Overhauls and Replacements

DESCRIPTION: Overhaul eight diesel SC-44 locomotives, overhaul six GP39H-2 diesel locomotives, complete mid-life overhaul for 26 MP36PH-3C diesel locomotives, develop specifications for new locomotive procurements, and replace six electric locomotives.

PURPOSE & NEED SUMMARY STATEMENT: Overhaul of locomotives in accordance with the manufacturer's schedule is needed to maintain safe and reliable operation and to comply with federally-mandated maintenance regulations. Replacement diesel locomotives have higher horsepower and meet EPA air quality emissions standards.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

<input type="checkbox"/> Safe, Secure, and Resilient	<input type="checkbox"/> Quality & Efficiency
<input checked="" type="checkbox"/> Maintain & Modernize	<input type="checkbox"/> Environmental Protection

**PROJECT:** MARC Positive Train Control

DESCRIPTION: Implementation and development of Positive Train Control (PTC) for MARC as required by the Federal Railroad Administration. Positive Train Control incorporates an on-board computer that ensures all signals are received by the various parts of the system to prevent collision, maintain speed limits, and train spacing, while also protecting track workers who have been given exclusive use of the tracks. All locomotives and cab cars will be upgraded to operate the Positive Train Control system.

PURPOSE & NEED SUMMARY STATEMENT: PTC for MARC will create a safeguard against train collisions through proper train spacing on the tracks and active speed limit oversight.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|---|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input type="checkbox"/> Quality & Efficiency |
| <input type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input type="checkbox"/> Better Transportation Choices & Connections | |

EXPLANATION: Ensure the safe operation of MARC service.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Project cost decreased by \$8.2M due to the reallocation of the BWI garage system preservation funds to the minor reporting section of the CTP.

USAGE: MARC annual ridership in FY 21 exceeded 900,000.

PROJECT: MARC Odenton Station Renovation

DESCRIPTION: This project will provide design and construction for renovations to the existing MARC Odenton Station. Interior renovations will include new doors, lighting, flooring, seating, HVAC, paint, millwork at customer service counter, and other miscellaneous customer amenities. Interior renovation will also include accessible restrooms and water cooler. Exterior renovations will include improved drainage, exterior signage, and replacement of all doors and windows. Temporary restrooms and ticket trailer will be provided during construction.

PURPOSE & NEED SUMMARY STATEMENT: The MARC Odenton Station was constructed in the 1940's and requires upgrades to the facility to improve ADA accessibility and to maintain a state of good repair.

**PROJECT:** Freight Rail Program

DESCRIPTION: The MDOT MTA Freight Rail program supports inspection, design, maintenance, and rehabilitation projects for state-owned freight rail lines, structures, and grade crossings. Projects include regular inspection and rehabilitation of freight railroad bridges in compliance with Federal regulations, grade crossing inspection and repair, and track improvements.

PURPOSE & NEED SUMMARY STATEMENT: Projects are identified and funded to meet Federal Railroad Administration (FRA) requirements, and support continued safe and efficient freight rail operations that are essential to the economic viability of the areas they serve. Inactive lines may also require maintenance to ensure preservation of rights of way and address safety concerns that may arise.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

STATUS: Bridge inspections are conducted annually, per FRA regulations. Grade crossings are inspected periodically to identify priorities for repair work. Other projects are identified according to conditions to support continued safe operation, preserve and maintain rights of way, and maintain safe conditions.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Project funding allocation increased by \$8.9M after re-evaluation of project deferrals caused by reduced revenues from the COVID-19 pandemic.

**PROJECT:** Light Rail Vehicle Overhaul

DESCRIPTION: Perform a mid-life overhaul of Light Rail vehicles. A 15-year inspection and overhaul of the major and sub-assemblies of the vehicles will be performed. The effort will also involve identifying and replacing obsolete parts to improve vehicle performance. This project also supports ongoing overhauls of systems to ensure reliability and safety.

PURPOSE & NEED SUMMARY STATEMENT: Major overhaul of the Light Rail vehicles and upgrades of selected systems will ensure safe operation, reduce ongoing maintenance costs, increase vehicle reliability and availability, and increase passenger comfort and security.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Project funding allocation increased by \$22.5M to fully fund the Metro Track Section B and Northwest Yard Interlocking projects.

USAGE: Metro annual ridership in FY 21 exceeded 1.6 million.

DESCRIPTION: Rehabilitation of Metro stations. Work will include painting, surface finish upgrades, major plumbing repairs, equipment and lighting upgrades, signage upgrade to include next train arrival display, above ground station platform repairs, staircase repair/replacement, structural repairs, roof replacement, and water intrusion abatement.

PURPOSE & NEED SUMMARY STATEMENT: Station repairs/upgrades and equipment replacement are needed to stop leaks, increase energy efficiency, and extend the service life of Metro SubwayLink stations.

STATUS: Construction to begin on Reisterstown Plaza Metro Station ADA Improvements and Stair Replacement project in FY 22. Replacement of the customer service station booth at Mondawmin Metro Station to begin in late FY 22.

[illegible]

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Project funding allocation increased by \$29.0M to address additional customer facing rehabilitation needs at several Metro stations.

USAGE: Metro annual ridership in FY 21 exceeded 1.6 million.

PROJECT: Metro Railcar and Signal System Overhauls and Replacement

DESCRIPTION: Replacement of Metro railcars and repair of critical equipment such as traction motors, gearboxes, axles, and wheels as well as repair and replacement of signal system and associated components.

PURPOSE & NEED SUMMARY STATEMENT: The new vehicles will replace the existing fleet which is nearing the end of its useful life. The replacement of the Railcar Fleet will enhance passenger comfort and convenience, ensure better reliability, and improve safety. On-going overhauls for Metro vehicle subsystems are required to reduce system failures and improve reliability.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Project costs decreased by \$5.1M due to the completion of the Metro Signal System interim maintenance project and adjustments to preservation efforts.

USAGE: Metro annual ridership in FY 21 exceeded 1.6 million.

PROJECT: Metro Maintenance Facility Improvements

DESCRIPTION: Replace, upgrade, and install maintenance equipment in the Wabash Rail Shop to support the maintenance of new Metro vehicles while concurrently maintaining the old fleet throughout the transition.

PURPOSE & NEED SUMMARY STATEMENT: Upgrades and replacement of heavy maintenance equipment is required to reduce equipment failures and to support the new metro fleet.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |

1533, 1558, 1559, 1564, 1615, 1617, 1751, 1752

**PROJECT:** Kirk Bus Facility Replacement

DESCRIPTION: Construct replacement for the existing Kirk Bus Division. Phase I of the project will construct a new maintenance facility on an expanded site. Phase II will construct an enclosed storage/operations facility.

PURPOSE & NEED SUMMARY STATEMENT: The existing Kirk facility is obsolete, severely constrained, and cannot adequately support MDOT MTA's current fleet. MDOT MTA employees must park off-site on the surrounding neighborhood streets. By replacing the existing Kirk facility with two new sustainable buildings, substantial operational efficiencies will be realized and the community's environmental justice concerns will be addressed.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |

EXPLANATION: Rehabilitation of bus facilities and equipment is necessary to keep them in a state of good repair and provide a safe, efficient, and well-heated workplace for MDOT MTA employees.

STATUS: Replacement of the boiler at Bush Division Building 5 and replacement of vehicular and pedestrian doors will begin in FY 22. Design of gable windows, building 5 HVAC, and bus paint booth at Bush Division will be completed and advertised for construction in FY 22.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Added to construction program.

USAGE:

[illegible]

1518, 1527, 1528, 1529, 1746, 1750

**PROJECT:** Beyond the Bus Stop

DESCRIPTION: The Beyond the Bus Stop program aims to improve amenities for both riders and operators at bus stops around the network. The Beyond the Bus Stop program will improve the customer experience by adding real-time information signage and shelter improvements to bus stops, including some multi-modal transfers. The program also includes constructing a comfort station at the Patapsco Light Rail Station for use by our operators. Blue Light phones will also be added at these locations.

PURPOSE & NEED SUMMARY STATEMENT: With the launch of real-time information on the Transit mobile application, real-time information signage will extend that availability to the users of the BaltimoreLink system who do not have access to mobile technology. MDOT MTA bus operators currently lack sufficient restrooms while operating their routes.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: None

USAGE: Core Bus annual ridership in FY 21 exceeded 35 million.

**PROJECT:** Bus Network Improvements

DESCRIPTION: Funding to implement improvements throughout the bus network including planning, design, and construction for priority corridors, dedicated bus lanes, bus stops and transit hubs, wayfinding and improving the customer experience, ADA improvements, and bike and shared mobility.

PURPOSE & NEED SUMMARY STATEMENT: The Central Maryland Regional Transit Plan set goals and objectives for MDOT MTA to accomplish in the next 25 years. This funding will work towards expanding dedicated bus lanes, improving bus stops and transit hubs, adding additional wayfinding and customer experience amenities, and improving bike and shared mobility connections.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Project funding allocation increased by \$32.8M with the completion of the BaltimoreLink Bus Hubs and Concrete Bus Pads projects (\$18.1M), additional funds allocated toward bus shelter installation/replacements (\$2M), addition of transit priority corridors implementation (\$5.5M), and addition of the Fast Forward project (\$43M).

USAGE: Core Bus annual ridership in FY 21 exceeded 35 million.

PROJECT: Bus Hub at Baltimore Arena

DESCRIPTION: Design and construct a transfer facility in Downtown Baltimore as outlined in the Regional Transit Plan objectives. Concept facility includes expansion of the sidewalk area to add bus bays, pedestrian lighting, ADA access, and bus stop amenities on Baltimore Street near Royal Farms Arena, which in turn creates ease of transfers and improve first mile/last mile access throughout the region.

PURPOSE & NEED SUMMARY STATEMENT: Modernized facility improvements will allow enhanced safety to valued passengers. Use of bus bays will allow for easier transfers between buses and to the Light Rail.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

PROJECT: Bus Communications Systems Upgrade

DESCRIPTION: Retrofit of MDOT MTA buses with a unified, integrated, and state-of-the-art suite of on-board bus equipment as well as fixed-end systems at operations and security monitoring centers, allowing MDOT MTA to upgrade equipment and systems to enhance the delivery of safe and reliable customer service.

PURPOSE & NEED SUMMARY STATEMENT: The retrofit will provide a unified infrastructure on-board buses and will fully integrate security and monitoring systems

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: None

USAGE: Core Bus annual ridership in FY 21 exceeded 35 million.

PROJECT: Bus Procurement

DESCRIPTION: Annual purchase of clean diesel buses to replace those that have been in service for 12 or more years. The MDOT MTA has more than 700 buses in its active fleet.

PURPOSE & NEED SUMMARY STATEMENT: Bus replacement levels are based on the fleet size and must be maintained to prevent high out-of-service rates and major repair problems that arise from retaining buses beyond their useful life. The replacement program will serve to maintain the average age of the bus fleet. Replacement buses will reduce emissions, fuel consumption, and noise levels.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

STATUS: Sixty-eight (68) buses from the 350 bus procurement were delivered and put into revenue service in FY 21. A total of seventy (70) buses will be delivered in FY 22.

**PROJECT:** Zero Emission Bus Pilots

DESCRIPTION: Purchase of three 60-foot Battery Electric Buses (BEBs) and charging stations based at Kirk Bus Division utilizing competitive grant funds from Federal Transit Administration and four 40-foot battery electric buses and charging infrastructure utilizing funds made available by an agreement with Volkswagen.

PURPOSE & NEED SUMMARY STATEMENT: Maryland's 2019 Greenhouse Gas Emissions Reduction Act requires MDOT MTA to upgrade 50 percent of its fleet (approximately 375 buses) to zero-emission technology by 2030. MDOT MTA has committed to meet this target in the Regional Transit Plan. To accomplish this ambitious goal, MDOT MTA's next large bus procurement needs to be for zero-emission buses.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

<input type="checkbox"/> Safe, Secure, and Resilient	<input checked="" type="checkbox"/> Quality & Efficiency
<input checked="" type="checkbox"/> Maintain & Modernize	<input checked="" type="checkbox"/> Environmental Protection
<input type="checkbox"/> Economic Opportunity & Reduce Congestion	<input type="checkbox"/> Fiscal Responsibility
<input type="checkbox"/> Better Transportation Choices & Connections	

EXPLANATION: This project will allow MDOT MTA to pilot emerging low and/or no emission technologies.

PROJECT: Zero Emission Bus Infrastructure and Program Management

DESCRIPTION: Plan, design, and construct the infrastructure to support zero emission buses and management of the agency's transition to zero emission buses. Kirk and Northwest bus operations and maintenance facilities will be outfitted to support zero emission fleets.

PURPOSE & NEED SUMMARY STATEMENT: Supports initiatives that ensure environmental sustainability throughout the region. MDOT MTA must replace 50% of the bus fleet to zero emission buses by 2030 to meet goals set in the Maryland Greenhouse Gas Reduction Act and Regional Transit Plan.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Project funding allocation increased by \$39.7M due to the addition of the Zero Emission Bus Transition Retrofit project for Kirk and Northwest bus divisions and miscellaneous program adjustments. This project was moved from the D&E program to the construction program.

USAGE:

**PROJECT:** North Avenue Rising

DESCRIPTION: Planning, environmental documentation, design, and construction of facilities to improve transit, pedestrian, and bicycle movement and safety along the North Avenue corridor. Includes targeted streetscaping, Penn-North Metro Station improvements, roadway repaving, Dedicated Bus Lanes, Enhanced Bus Stops, Penn North intersection improvements, Transit Signal Priority, shared mobility corrals, and on-street bike facilities (on North Avenue, Baker Street, and 20th Street).

PURPOSE & NEED SUMMARY STATEMENT: Project will improve reliability and speed of transit service along North Avenue (a key transit corridor in Baltimore City), improve pedestrian safety, expand bicycle access, leverage other City, State, and private investment in the corridor, and improve economic opportunities for corridor residents. The project will help bring both transit and roadway infrastructure into a better state of good repair, improve the quality of service for transit riders, reduce energy usage, and support economic development.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: None

USAGE:

This project will be funded with \$1.0M from Baltimore City and \$1.6M from Federal Highway Administration. 1489

PROJECT: East - West Bus Priority Corridor (RAISE)

DESCRIPTION: The East-West Priority Corridor project is a partnership between MDOT MTA and Baltimore City Department of Transportation to facilitate faster, more reliable transit trips and strengthen east-west connections that runs from the Fox Ridge community in eastern Baltimore County through downtown Baltimore to the Centers for Medicare and Medicaid Services (CMS) in western Baltimore County. This project will include dedicated bus lanes, transit signal priority, bus stop enhancement and transit hubs, and upgrades to pedestrian and bicycle safety.

PURPOSE & NEED SUMMARY STATEMENT: Project will improve bus reliability, travel speeds, on time performance and passenger safety of multiple MDOT MTA bus routes. The east-west corridor was identified through the Transit Priority Initiative as an area experiencing travel delays for the CityLink Blue and Orange routes.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Project cost decreased by \$75.0M due to the completion of the original Mobility Vehicle Procurement project and the addition of FY27.

USAGE: Demand Response Mobility annual ridership in FY 20 exceeded 1.7 million. FY 21 ridership data will be available for the final CTP.

PROJECT: Fare Collection System and Equipment Replacement

DESCRIPTION: Complete replacement of the current fare system including ticket vending machines, faregates, fareboxes and smart card/mobile app readers, back-office software and other related components as well as on-going overhaul and replacement of system components as needed.

PURPOSE & NEED SUMMARY STATEMENT: As the existing fare collection system ages it is imperative that MDOT MTA upgrade software and overhaul and/or replace critical hardware system components to ensure reliable system operation. This project will improve customer service and operations with efficiencies and options provided by a new fare system. The current system is very close to its end of useful life and an increasing number of components and replacement parts are no longer available.

[illegible]

PROJECT: Agencywide Radio and Telecommunications Upgrade

DESCRIPTION: This project will migrate all MDOT MTA radio users from 490 MHz to the Maryland (MD) First responders Interoperable Radio System Team (FiRST) Statewide 700 MHz Radio Communications System. This includes upgrading the current MD FiRST Baltimore cell with additional channel capacity to safely accommodate the additional MDOT MTA users, installation of new dispatching consoles, and installation of new subscriber radios.

PURPOSE & NEED SUMMARY STATEMENT: This project will migrate all radio users to the MD FiRST Statewide 700 MHz Radio System. MDOT MTA will be joining the Maryland Statewide network. The current system is obsolete and will soon become inoperable due to Federal Law, which requires an alternative spectrum.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|---|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input type="checkbox"/> Quality & Efficiency |

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Project cost decreased by \$11.4M due to updating of historical costs to more accurately reflect past expenditures and project savings of \$1.4M.

USAGE:

**PROJECT:** Purple Line

DESCRIPTION: The Purple Line is a 16-mile double track light rail line that will operate between Bethesda in Montgomery County and New Carrollton in Prince George's County. The Bethesda to Silver Spring segment will include a parallel hiker/biker trail. The line will include direct connections to Metrorail in four locations, all three MARC Train lines, and Amtrak. The project includes track, stations, railcars, and two operation and maintenance facilities. In June 2020, the concessionaire issued a notice of termination to the State for alleged extended delays and unpaid additional costs and a court case was filed. As a result of continued negotiations, the parties reached a settlement agreement that was approved by the Board of Public Works in December 2020.

PURPOSE & NEED SUMMARY STATEMENT: The Purple Line will provide faster, more reliable transportation between residential and major employment areas. It will enhance access to existing radial Metrorail lines, increase capacity of congested roadways, support economic development consistent with local master plans, and reduce environmental impacts.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input type="checkbox"/> Maintain & Modernize | <input checked="" type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input type="checkbox"/> Better Transportation Choices & Connections | |

EXPLANATION: The Purple Line will serve a corridor that currently lacks rail transit service and includes important commercial, institutional, and residential communities. Electrically powered trains will reduce air pollution and greenhouse gas emissions associated with cars and buses. Transit travel times in corridor will be reduced.

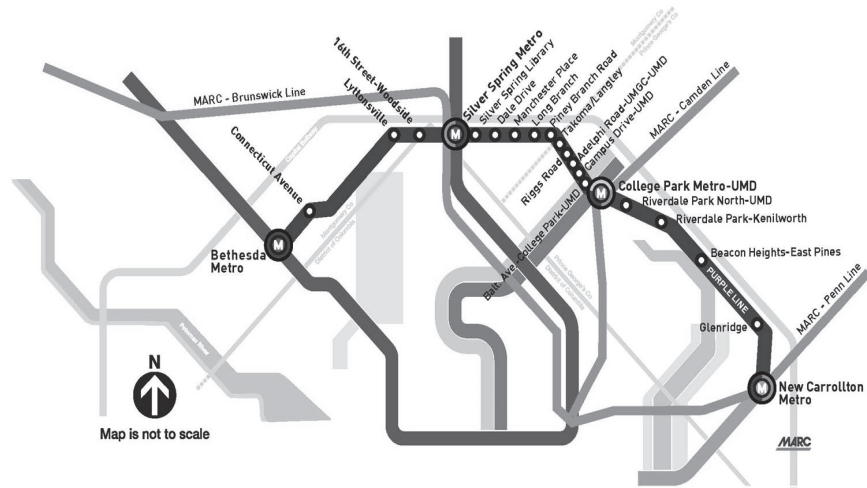

- SMART GROWTH STATUS:**
- | | |
|--|---|
| <input type="checkbox"/> Project Not Location Specific | <input type="checkbox"/> Not Subject to PFA Law |
| <input checked="" type="checkbox"/> Project Inside PFA | <input type="checkbox"/> Grandfathered |
| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

STATUS: Pursuant to the settlement agreement, a replacement design-build contractor was selected. Updated project costs and schedule will be final once the contractor is approved by the Board of Public Works in early 2022. MDOT MTA is performing certain limited construction activities to move the project forward while the resolicitation is underway.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Project budget increased due to 1) work currently underway to reduce risk on the project by advancing certain activities like utility relocations and design work; 2) the addition of outyear funding for project management and oversight activities; 3) the final installment of the settlement payment approved by the BPW in the settlement agreement; and 4) an updated cost and schedule.

USAGE: Daily ridership estimated at 72,000 in 2040.

**PROJECT:** Purple Line: Third-Party Funded Projects

DESCRIPTION: Montgomery County has elected to fund a program of projects that will be implemented through and associated with the Purple Line. Projects include a new southern entrance to the Bethesda Red Line station, Capital Crescent Trail, and the Silver Spring Green Trail along Wayne Avenue. In addition, the University of Maryland has funded a project to pave a .95 mile bicycle path. This project also includes repairs to the Polk Street Maintenance Facility roof, which will be funded by Prince George's County Department of Parks and Recreation.

PURPOSE & NEED SUMMARY STATEMENT: To further enhance the transportation and quality of life benefits of the Purple Line, Capital Crescent Trail, and Polk Street Maintenance Facility, Montgomery County, University of Maryland, and Prince George's County Department of Parks and Recreation are adding additional access features. MTA will assist in funding these efforts.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input type="checkbox"/> Maintain & Modernize | <input checked="" type="checkbox"/> Environmental Protection |

PROJECT: Purple Line Advance Payment

DESCRIPTION: In accordance with a settlement agreement between MTA and the concessionaire for the Purple Line, a solicitation for a replacement design-build contractor is underway. This payment to the concessionaire will advance fund money owed to the concessionaire in future years for work completed by the previous design-build contractor.

PURPOSE & NEED SUMMARY STATEMENT: Advance funding future obligations owed to the concessionaire provides contracting and financing efficiencies to support the selection of a new design-build contractor and reduces the MTA's future funding obligations.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

STATUS: Payment for work already completed.

POTENTIAL FUNDING SOURCE:

☒ SPECIAL ☐ FEDERAL ☐ GENERAL ☐ OTHER

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Added to construction program to advance fund work already completed on the Purple Line. The action reduces future funding obligations for money that would have been paid through availability payments over the 30-year life of the P3 Agreement.

USAGE:

PROJECT: Locally Operated Transit Systems Capital Procurement Projects (Local Jurisdictions)

DESCRIPTION: Funding to rural and small urban jurisdictions for transit vehicles, equipment, and facilities. In addition, the MDOT MTA provides rideshare funds to Baltimore City, Anne Arundel, Baltimore, Calvert, Carroll, Frederick, Harford, Howard, Montgomery and Prince George's Counties, and the Tri-County Council for Southern Maryland to promote the use of carpools and vanpools. MDOT MTA facilitates federal funds for locally-sponsored projects.

PURPOSE & NEED SUMMARY STATEMENT: Intense use of equipment and increased service demand requires regular vehicle replacement and expansion as well as adequate support facilities providing reliable maintenance service. The ridesharing program provides citizens with information on expanded commute options and provides companies with technical expertise needed to meet federal clean air requirements.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Project funding allocation increased by \$2.6M due to the addition of FY 27 and the county being awarded a competitive Low-No Emission grant awarded by Federal Transit Administration.

USAGE:

**PROJECT:** Transit Innovation Grant

DESCRIPTION: A competitive, state funded grant program to support locally planned, designed, and constructed or operated transit projects incorporating innovative investments such as transit signal priority, dedicated or separated right of way, off-board fare payments, and intelligent transportation systems. Project sponsors awarded grant funding will be reimbursed up to the award amount for eligible projects and will be required to provide a local match. Funds may cover planning, design, engineering, or construction phases, including capital investments.

PURPOSE & NEED SUMMARY STATEMENT: To support cost-effective regional and statewide mobility with investments in locally owned and operated transit services and facilities projects that improve travel speeds, reliability and quality of service, and the safe, convenient, affordable, and efficient movement of people.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input type="checkbox"/> Better Transportation Choices & Connections | |

EXPLANATION: Eligible projects for the grant program will improve regional and statewide mobility, and the safety, efficiency, and reliability of transit at the local level. Projects will reduce delays and travel time between major activity, population, and job centers in the state.

TRANSIT READINESS RESOURCE GUIDE

MD MARYLAND DEPARTMENT OF TRANSPORTATION
MARYLAND TRANSIT ADMINISTRATION

PROJECT: Central MD Regional Coordination Studies

DESCRIPTION: The Regional Transit Plan (RTP) has identified a series of strategies for implementation, including: conduct ADA accessibility surveys/passenger amenity reviews and implement improvements at all Light Rail and Metro Subway stations; inventory/document functionality/condition of existing RTIS throughout the system and prioritize upcoming investments; convene a Task Force of MDOT MTA, state agencies, city and county agencies, business representatives, community representatives, and riders to focus on growing ridership; and investigate industrywide best practices to reduce assaults on operators/prepare coordinated operator training on dealing with mental health issues.

PURPOSE & NEED SUMMARY STATEMENT: Regional coordination studies are an important step in achieving the RTP's objectives and increasing access to quality transit across the State of Maryland.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|--|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |
| <input checked="" type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input checked="" type="checkbox"/> Better Transportation Choices & Connections | |

EXPLANATION: Coordination plans will describe tools and opportunities for supporting fixed-route, schedule-based transit service in different site contexts and land use types throughout the region, including case studies of peer regions, and will identify existing and potential adoption of technology across all transit providers in the region.

- SMART GROWTH STATUS:**

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: None

USAGE:

PROJECT: MARC Penn-Camden Connector

DESCRIPTION: The Penn-Camden Connector project provides a connection track between the Northeast Corridor and the CSX-owned MARC Camden Line, utilizing mostly existing railroad right-of-way north of BWI airport to allow Penn Line trains to access storage and maintenance at Riverside Yard. The project includes repurposing CSX-owned Mount Clare Yard into a MARC layover facility.

PURPOSE & NEED SUMMARY STATEMENT: The connection will allow MARC to more efficiently bring its locomotives to MARC's Riverside Maintenance Facility, which is MARC's only backshop for locomotive servicing and maintenance. The connector will also allow MARC to store trainsets at a rail yard (Mt. Clare Yard) adjacent to the Penn-Camden Connector, eliminating the need to store trains overnight at Amtrak's Penn Station.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input type="checkbox"/> Better Transportation Choices & Connections | |

EXPLANATION: The connection will allow MARC to more efficiently bring its locomotives from both Penn and Camden lines to MARC's Riverside Maintenance Facility.

USAGE:

**PROJECT:** Corridor Cities Transitway (CCT)

DESCRIPTION: The CCT is a 16-mile bus rapid transit line between Shady Grove Metrorail Station and the former COMSAT facility in Montgomery County. The line would be constructed in two phases: from Shady Grove to Metropolitan Grove and from Metropolitan Grove to COMSAT. The project includes a grade separated busway, stations, rapid transit vehicles, and a maintenance facility. Upon financial close and as part of the upfront payment for Phase 1 South and in consultation with Montgomery County, \$60 million will support the design of one of Montgomery County's transit priorities, which could include the Corridor Cities Transitway or bus rapid transit on MD355. This project is associated with SHA Statewide Line 5 - I-270 and I-495 - Phase I and MTA Line 54 - AGY Future Montgomery Country Transit Priority Projects.

PURPOSE & NEED SUMMARY STATEMENT: The CCT will provide faster, more direct transportation between residential and major employment areas in the I-270 corridor. It will enhance access to Shady Grove station and employment areas, increase capacity of congested roadways, support economic development consistent with local master plans, and reduce environmental impacts.

SMART GROWTH STATUS:

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: None

USAGE:

PROJECT: Frederick Douglass Tunnel

DESCRIPTION: Replace the existing 1.4-mile B&P Tunnel, which dates from the Civil War era. At nearly 150 years old, it is the oldest tunnel Amtrak inherited and a single point of failure for MARC's Penn line and the Northeast Corridor. MDOT and MTA are coordinating with Amtrak on design and phasing plans to replace the tunnel to meet the needs of the 9 million MARC and Amtrak customers who rely on it annually. The project also includes a new ADA-accessible West Baltimore MARC Station.

PURPOSE & NEED SUMMARY STATEMENT: The tunnel suffers from a variety of age-related issues such as excessive water infiltration, a deteriorating structure, and a sinking floor. There are no fire and life safety systems that help keep passengers safe in the event of emergencies, and excessive costly maintenance is required. Due to its age, delays are chronic — more than 10% of weekday trains are delayed, and delays occur on 99% of weekdays.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|--|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |
| <input checked="" type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input checked="" type="checkbox"/> Better Transportation Choices & Connections | |

EXPLANATION: Replacing the 150 year-old tunnel will allow for more efficient and reliable commutes for MARC train riders.

- SMART GROWTH STATUS:**
- | | |
|--|---|
| <input type="checkbox"/> Project Not Location Specific | <input type="checkbox"/> Not Subject to PFA Law |

PROJECT: Southern Maryland Rapid Transit Study

DESCRIPTION: Planning activities to identify and protect an alignment for future development of high-capacity transit services in the US 301/MD 5 corridor from White Plains in Charles County to the Branch Avenue Metrorail Station in Prince George's County.

PURPOSE & NEED SUMMARY STATEMENT: This project builds on previous studies of the Southern Maryland Rapid Transit including the 2010 Corridor Preservation Study, the 2016 Environmental Inventory and the 2017 Final Alternatives Analysis. The study will assess the final recommendations of the 2017 analysis for transit options along the MD 5/US 301 corridor in Prince George's and Charles Counties. The study will document the preliminary assessment of potential right of way impacts and environmental mitigation strategies.

PROJECT: WMATA Capital Improvement Program

DESCRIPTION: The program provides Maryland's share of the funding for the Washington Metropolitan Area Transit Authority's Capital Improvement Program (CIP). It includes Maryland's share of matching funds to federal formula funds received directly by WMATA as well as Maryland's share of additional state and local funds for WMATA capital projects

PURPOSE & NEED SUMMARY STATEMENT: WMATA's FY 2022 - 2027 CIP is focused on safety, infrastructure rehabilitation and replacement and maintaining the Washington region's primary transit system in a state of good repair. WMATA's FY 2022 - 2027 CIP includes investment to replace rail cars, rehabilitation of track and rail structures, replacement vehicles for Metrobus and Metro Access, and implementing recommendations from the National Transportation Safety Board, the Federal Transit Administration and the Tri-State Oversight Committee.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

STATUS: The FY 2022 - 2027 CIP was adopted by the WMATA Board of Directors on April 22, 2021.

POTENTIAL FUNDING SOURCE:

☒ SPECIAL ☐ FEDERAL ☐ GENERAL ☒ OTHER

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Project funding allocation increased \$1.0M due to the addition of funding for FY 2027.

PROJECT: Matching Funding for "Passenger Rail Investment Act of 2008" - P.L.110-432

DESCRIPTION: The Passenger Rail Investment and Improvement Act of 2008 authorizes new federal funds to be appropriated over a ten year period for capital and preventative maintenance projects of the Washington Metropolitan Area Transit Authority. The federal legislation also requires matching funds from Maryland, Virginia and The District of Columbia. This program provides Maryland's share of the match to federal funds.

PURPOSE & NEED SUMMARY STATEMENT: Funding is used for capital improvements to improve safety and state of good repair of the rail system, including replacement of all 1000 series railcars and other investments called for in recommendations made by the Federal Transit Administration (FTA) and National Transportation Safety Board (NTSB).

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

STATUS: The Federal Transit Administration (FTA) dedicated funding allocation for WMATA in FY 2021 is \$150.0M. Maryland will provide \$50.0M due to the addition of funding for FY 2027.

PROJECT: WMATA Debt Service

DESCRIPTION: WMATA debt service represents the amount of bond debt taken on by the Authority after agreement by the state to cover the costs of debt repayment and associated fees. WMATA refinanced their debt, this debt was approved for funding Maryland's share of WMATA's Capital Improvement Program (CIP).

PURPOSE & NEED SUMMARY STATEMENT: These series of debt authorizations fund the purchase of long-term bonds issued by WMATA to fund its CIP.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

STATUS: Maryland's share of WMATA debt payment with programmed funding beginning in FY 2020 and continuing through FY2022 - FY2027. Effective FY2022 debt service has been consolidated into one project.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: WMATA refinanced their debt, this debt was approved for funding Maryland's share of WMATA's Capital Improvement Program (CIP). Due to the refinancing the debt has been consolidated into one project. The total debt funding allocation increased by \$31.3 due to the addition of FY2027 funding.

PROJECT: Governor's Capital Dedicated Funding

DESCRIPTION: In accordance with House Bill 372 and Senate Bill 277, passed during the 2018 legislative session of the Maryland General Assembly, \$167 million will be appropriated to WMATA annually as Maryland's portion of the dedicated fund towards its capital improvement program. This funding shall be in effect in so long as the District of Columbia and the Commonwealth of Virginia provide their share of the \$500 million dedicated capital fund.

PURPOSE & NEED SUMMARY STATEMENT: The funding is mandated by state legislation. Maryland will provide \$167M annually to WMATA's Capital Improvement Program beginning in FY 2020.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

STATUS: Maryland's share of the \$500.0M annual dedicated funding to WMATA's CIP is \$167.0M.

PROJECT: Resolution of Audit Payment

DESCRIPTION: WMATA's FY 2022 - 2027 CIP is focused on safety, infrastructure rehabilitation and replacement and maintaining the Washington region's primary transit system in a state of good repair. In addition to the six-year CIP, this added a one time payment due to withholding from prior years. WMATA's FY 2022 - 2027 CIP includes investment to replace all rail cars, rehabilitation of track and rail structures, replacement vehicles for Metrobus and Metro Access, and implementing recommendations from the National Transportation Safety Board, the Federal Transit Administration and the Tri-State Oversight Committee.

PURPOSE & NEED SUMMARY STATEMENT: WMATA's FY 2022 - 2027 CIP is focused on safety, infrastructure rehabilitation and replacement and maintaining the Washington region's primary transit system in a state of good repair. MDOT
MARYLAND DEPARTMENT
OF TRANSPORTATION

STATE HIGHWAY
ADMINISTRATION

MDOT SHA STATEWIDE

PROJECT: Coordinated Highway Action Response Team (CHART)

DESCRIPTION: Install advanced traffic management system (ATMS) and advanced traffic information system (ATIS) technologies on Interstate highways and arterials statewide. Technologies include cameras, traffic detectors, weather sensors, dynamic message signs, highway advisory radios, web sites and telecommunication networks. CHART is comprised of five major components: 1) Traffic and Roadway Monitoring; 2) Incident Management; 3) Traveler's Information; 4) System Integration and Communication; and 5) Traffic Management.

PURPOSE & NEED SUMMARY STATEMENT: Heavy volumes of traffic, stop-and-go commuter peaks, and lack of comprehensive information regarding current, real-time conditions on available alternatives contribute to and compound the effects of unexpected incidents. With the growth in traffic outpacing any realistic hope of expanding capacity through building new highways, or expanding existing ones, it is imperative to operate the existing system more efficiently through the application of Intelligent Transportation System technologies and interagency teamwork.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

<input checked="" type="checkbox"/> Safe, Secure, and Resilient	<input checked="" type="checkbox"/> Quality & Efficiency
<input checked="" type="checkbox"/> Maintain & Modernize	<input type="checkbox"/> Environmental Protection
<input checked="" type="checkbox"/> Economic Opportunity & Reduce Congestion	<input type="checkbox"/> Fiscal Responsibility
<input checked="" type="checkbox"/> Better Transportation Choices & Connections	

EXPLANATION: Projects in the CHART program will aid in the reduction of travel time, reduce congestion and provide critical traffic information for the traveling public, which improves movement of both passengers and freight. Messages on dynamic message boards provide information to aid in the safety and security of travelers.

STATUS: This represents a summary of the Statewide CHART program. Individual projects are shown in the System Preservation Minor Projects Program pages in the county where the project is located.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: The cost increase of \$38.2 million is due to higher than expected expenditures in FY 2021 and the addition of funding over the FY 2022-2027 six-year program period.

EXPLANATION:

PROJECT: Total Maximum Daily Load (TMDL)

DESCRIPTION: Plan, design, and construct storm water controls and alternative water quality improvement strategies in Maryland Phase 1 and Phase II counties in order to meet the US Environmental Protection Agency (EPA) Chesapeake Bay Total Maximum Daily Load (TMDL) requirements by 2025. These strategies support the goal of protecting and restoring the Chesapeake Bay watershed. The implementation will follow the State of Maryland's commitment in its Watershed Implementation Phase 1 Plan (WIP 1).

PURPOSE & NEED SUMMARY STATEMENT: The MDOT SHA is required to adhere to the Chesapeake Bay TMDL and local TMDLs as a result of its National Pollutant Discharge Elimination System (NPDES) Phase 1 and Phase II Municipal Separate Storm Sewer System Permit (MS4). This programmatic effort is needed to ensure permit compliance and supports the ultimate goal of improved water quality in Maryland streams, creeks, rivers, and the Chesapeake Bay.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

PROJECTED (2041) N/A

PROJECT: I-270, Eisenhower Memorial Highway, and I-495, Capital Beltway - Phase 1

DESCRIPTION: Phase 1 includes the addition of managed lanes from the American Legion Bridge (ALB) to I-70, including replacement of the ALB and includes the NEPA study for Phase 1 North (I-370 to I-70). Phase 1 South, ALB to I-370, will leverage \$3.5 billion in construction funding, \$145 million in developer rights fees to offset MDOT costs, and \$5 million for vision zero efforts. In addition, the project will provide \$300 million to support transit services, \$50 million for community grants, \$25 million for emerging technologies over the operating term of the agreement (45 years)/Phase 1 North, will also leverage a multi-billion dollar private construction investment as well as provide future financial benefits to the State of Maryland. Upon financial close and as part of the upfront payment for Phase 1 South and in consultation with Montgomery County, \$60 million will support the design of one of Montgomery County's transit priorities, which could include the Corridor Cities Transitway or bus rap

PURPOSE & NEED SUMMARY STATEMENT: The purpose of the I-495 & I-270 Public-Private Partnership (P3) Program is to provide long-term congestion relief on I-495 and I-270 by providing new options and opportunities for travelers while also being responsible to the community and the environment.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☒ PFA Status Yet to Be Determined ☐ Exception Granted

STATUS: Project planning and preliminary design for Phase 1 South (American Legion Bridge to I-370) is underway.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: This is a breakout of the I-270 and I-495 Capital Beltway Project.

PROJECT: I-270 and I-495, Capital Beltway - Full Delivery Stream Restoration

DESCRIPTION: Full-delivery stream and wetland mitigation services in multiple watersheds.

PURPOSE & NEED SUMMARY STATEMENT: The purpose is to develop and provide compensatory stream and wetland mitigation credits to support MDOT SHA projects in the watersheds. Projects may include those developed under the I-495 & I-270 P3 Program or other MDOT SHA projects requiring compensatory mitigation in those watersheds.

**PROJECT:** Highway User Revenue

DESCRIPTION: Highway User Revenue (HUR) are funds that are distributed from the Transportation Trust Fund to Baltimore City, local counties and municipalities for the benefit of local road systems. The calculation of local funding is based on a formula that incorporates roadway lane miles maintained by the jurisdiction and the number of registered vehicles in that jurisdiction.

PURPOSE & NEED SUMMARY STATEMENT: Chapter 330, Laws of Maryland 2018 increases the allocation of HUR to Baltimore City, the counties and the municipalities from 9.6% to 13.5% of the funds credited to the Gasoline and Motor Vehicle Revenue Account (GMVRA). This increased allocation is for five fiscal years (FY 2020 - FY 2024). Chapter 330 also changes the definition of HUR from funds in the GMVRA to capital grants appropriated to the local jurisdictions. These changes were effective July 1, 2019. This increases local transportation funding and is included in the 6-year CTP total funding level.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA
☐ Project Outside PFA
☐ PFA Status Yet to Be Determined

☐ Grandfathered
☐ Exception Will Be Required
☐ Exception Granted

STATUS: Funding ongoing.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: The increase in the project funding allocation is due to the addition of FY 2027, revised revenue forecasts, and the Administration's intent to extend the current enhanced HUR allocations to local jurisdictions beyond the legislatively mandated sunset in FY 2024.

PROJECT: US 220, McMullen Highway

DESCRIPTION: Study to upgrade and/or relocate US 220 (4.8 miles) and/or MD 53 (3.1 miles) from I-68/US 40 to Cresaptown. This study represents a portion of an approved 2014 Maryland-West Virginia joint study of two Appalachian Development Highway System corridors, I-68 and US 48.

PURPOSE & NEED SUMMARY STATEMENT: US 220 and MD 53 corridor improvements will enhance accessibility and promote economic development.

ANNE ARUNDEL COUNTY

**PROJECT:** MD 175, Annapolis Road

DESCRIPTION: Widen MD 175 from Sellner Road/Race Road to McCarron Court from two lanes to six lanes and reconfigure ramps at the MD 295 interchange to create signalized left turns at MD 175. Bicycle and pedestrian accommodations will be provided.

PURPOSE & NEED SUMMARY STATEMENT: This project will improve safety and operations along MD 175 and ease growing congestion related to BRAC expansion at Fort Meade.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

STATUS: Utility relocations underway and construction to begin in Spring 2022.

EXPLANATION: This project will address safety concerns at the MD 295 interchange and improve mobility for BRAC expansion at Fort Meade.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: The cost decrease of \$4.3 million is due to a revised project cost estimate.

PROJECT: I-95 and I-695, Baltimore Beltway

DESCRIPTION: Latex modified concrete bridge deck overlays on I-95 at the I-695 interchange (10 bridges).

PURPOSE & NEED SUMMARY STATEMENT: The purpose of the project is to address concrete bridge decks before they reach a deteriorated state and upgrade existing bridge parapets to meet current safety criteria. Proactively addressing bridge deck condition will avoid the need for major rehabilitation or replacement of these bridges which are located on a heavily traveled section of the Interstate Highway system.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

STATUS: Engineering underway.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Added to the construction program.

EXPLANATION: This project improved safety and traffic flow on I-695 as this portion serves as a major connection between I-70 and I-95.

PROJECT: I-695, Baltimore Beltway

DESCRIPTION: This project from US 40 to MD 144 improved mobility and safety on I-695 by widening the roadway to provide a fourth lane on the outer loop. This project also accommodates the ultimate configuration of this section of I-695, and includes replacing and extending the inner loop noise barrier from Shady Nook Avenue to US 40.

PURPOSE & NEED SUMMARY STATEMENT: This project provided additional capacity and improved safety and operations on this segment of I-695.

STIP REFERENCE #BA7271 12/01/2021

Classification:

STATE - Principal Arterial

FEDERAL - Interstate

STATE SYSTEM: Primary

Estimated Annual Average Daily Traffic (vehicles per day)

CURRENT (2021) 184,700

PROJECTED (2041) 200,850

**STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

<input checked="" type="checkbox"/> Safe, Secure, and Resilient	<input checked="" type="checkbox"/> Quality & Efficiency
<input checked="" type="checkbox"/> Maintain & Modernize	<input type="checkbox"/> Environmental Protection
<input checked="" type="checkbox"/> Economic Opportunity & Reduce Congestion	<input type="checkbox"/> Fiscal Responsibility
<input checked="" type="checkbox"/> Better Transportation Choices & Connections	

EXPLANATION: This project will improve I-695 safety and traffic flow between I-70 and MD 43. This capacity improvement supports mobility and infrastructure stability for the adjacent communities and the greater Baltimore region.

PROJECT: I-695, Baltimore Beltway

DESCRIPTION: Use of the shoulder and dynamic lane controls to create a new traffic lane during peak hours on the inner and outer loops of I-695 from I-70 to MD 43.

PURPOSE & NEED SUMMARY STATEMENT: This project will address congestion along I-695.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

<input checked="" type="checkbox"/> Project Inside PFA	<input type="checkbox"/> Grandfathered
<input type="checkbox"/> Project Outside PFA	<input type="checkbox"/> Exception Will Be Required
<input type="checkbox"/> PFA Status Yet to Be Determined	<input type="checkbox"/> Exception Granted

STATUS: Construction to begin this fiscal year.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: The cost decrease of \$7.5 million is due to reduced engineering needs.

POTENTIAL FUNDING SOURCE:

**PROJECT:** MD 151/MD151B, Sparrows Point Boulevard**DESCRIPTION:** Replacement of Bridge No. 0309900 on MD 151 and Bridge Nos. 0335000 and 0335100 on MD 151B.

PURPOSE & NEED SUMMARY STATEMENT: The existing bridges, built in the mid-1950s by Bethlehem Steel, were nearing the end of their useful service life. Bridge No. 0309900 is rated poor based on deck, superstructure, and substructure condition. The new bridges are designed to accommodate the heavier loads associated with the development of the adjacent Tradepoint Atlantic property.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: The cost increase of \$1.3 million is due to a revised maintenance of traffic plan and necessary utility relocation costs.

Classification:

STATE - Principal Arterial

FEDERAL - Interstate

STATE SYSTEM: Primary

Estimated Annual Average Daily Traffic (vehicles per day)**CURRENT (2021)** 78,600 - 221,900**PROJECTED (2041)** 105,000 - 299,000

**PROJECT:** MD 85, Buckeystown Pike

DESCRIPTION: Widen MD 85 to a multilane divided highway from Crestwood Boulevard/Shockley Drive to Spectrum Drive (0.8 miles), includes MD 85 interchange reconstruction at I-270 and I-270 dual bridges replacement. This project is phase one of a three-phase project to widen and reconstruct MD 85 from south of English Muffin Way to north of Grove Road.

PURPOSE & NEED SUMMARY STATEMENT: This project will relieve congestion and provide capacity for planned commercial development in the MD 85 corridor. Additionally, the existing I-270 dual bridges, built in 1950, were rated poor.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

<input checked="" type="checkbox"/> Safe, Secure, and Resilient	<input type="checkbox"/> Quality & Efficiency
<input checked="" type="checkbox"/> Maintain & Modernize	<input type="checkbox"/> Environmental Protection
<input checked="" type="checkbox"/> Economic Opportunity & Reduce Congestion	<input type="checkbox"/> Fiscal Responsibility
<input type="checkbox"/> Better Transportation Choices & Connections	

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

<input checked="" type="checkbox"/> Project Inside PFA	<input type="checkbox"/> Grandfathered
<input type="checkbox"/> Project Outside PFA	<input type="checkbox"/> Exception Will Be Required
<input type="checkbox"/> PFA Status Yet to Be Determined	<input type="checkbox"/> Exception Granted

EXPLANATION: This project will improve safety for all roadway users by reconstructing the interchange and bridges. It also supports ongoing and planned growth by increasing roadway and interchange capacity.

STATUS: Construction underway. County funded \$1.5 million for partial engineering.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: The cost increase of \$3.2 million is primarily due to an updated right-of-way estimate and additional construction costs due to encountering rock and utilities.

PROJECT: US 219, Chestnut Ridge Road

DESCRIPTION: Upgraded and relocated US 219, from I-68/US 40 to Old Salisbury Road (1.5 miles). This project was broken out from a larger study to upgrade and/or relocate US 219 from I-68/US 40 to the Pennsylvania state line.

PURPOSE & NEED SUMMARY STATEMENT: US 219 corridor improvements will enhance accessibility and promote economic development.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

<input type="checkbox"/> Safe, Secure, and Resilient	<input checked="" type="checkbox"/> Quality & Efficiency
<input type="checkbox"/> Maintain & Modernize	<input type="checkbox"/> Environmental Protection
<input checked="" type="checkbox"/> Economic Opportunity & Reduce Congestion	<input type="checkbox"/> Fiscal Responsibility
<input checked="" type="checkbox"/> Better Transportation Choices & Connections	

EXPLANATION: This project enhances accessibility and promotes economic development.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

<input checked="" type="checkbox"/> Project Inside PFA	<input type="checkbox"/> Grandfathered
<input type="checkbox"/> Project Outside PFA	<input type="checkbox"/> Exception Will Be Required
<input type="checkbox"/> PFA Status Yet to Be Determined	<input type="checkbox"/> Exception Granted

STATUS: Open to service. Construction and right-of-way phases funded with Appalachian Development Highway System funds.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: The cost increase of \$1.7 million is due to ramp design modifications and necessary slope repairs.

POTENTIAL FUNDING SOURCE:

PROJECT: US 1, Washington Boulevard

DESCRIPTION: Study to identify potential improvements in the US 1 corridor from the Prince George's County line to the Baltimore County line, including potential interchange improvements at MD 175 (11.0 miles).

PURPOSE & NEED SUMMARY STATEMENT: Improvements identified as a result of this study provide a blueprint for future State, local and developer projects, so the corridor can be developed in a manner consistent with the County's overall vision plan, and accommodate existing and future travel demand for all users.

EXPLANATION: Improvements in the vicinity of Naval Support Activity Bethesda are vital to support the congressionally authorized BRAC initiative. These improvements will reduce congestion and improve safety for all roadway users.

PROJECT: MD 185, Connecticut Avenue

DESCRIPTION: Construct MD 185 Phase 3 intersection improvements at Jones Bridge Road. Bicycle and pedestrian facilities will be provided where appropriate. (BRAC Intersection Improvements)

PURPOSE & NEED SUMMARY STATEMENT: Improved access to Naval Support Activity Bethesda is vital to accommodate increased employment as a result of BRAC. This project will improve safety, capacity, and operations.

EXPLANATION: This project will provide greater multi-modal access to the Naylor Road Metro Station, and will enhance pedestrian safety and connectivity in the vicinity of the station.

PROJECT: MD 5, Branch Ave, and MD 637, Naylor Road

DESCRIPTION: Construct roadway and streetscape, including sidewalks and crosswalks, on MD 5 from Curtis Drive to Southern Avenue (1.2 miles), and on MD 637 (Naylor Road) from MD 5 to Suitland Parkway (1.4 miles).

PURPOSE & NEED SUMMARY STATEMENT: This project will provide greater multi-modal access to the Naylor Road Metro Station, and will enhance safety for vulnerable users and connectivity in the vicinity of the station.

PROJECT: US 1, Baltimore Avenue

DESCRIPTION: Reconstruct US 1 from College Avenue to MD 193 (Segment 1). Includes bicycle and pedestrian improvements (1.5 miles).

PURPOSE & NEED SUMMARY STATEMENT: There are significant mobility needs along this segment of US 1. This project will improve traffic operations, pedestrian circulation, and safety. This project will also accommodate planned revitalization within College Park.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|---|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |

| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

STATUS: Construction underway.

EXPLANATION: This project will improve traffic operations while enhancing bicycle and pedestrian mobility and safety.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: The cost increased by \$1.6 million to reflect the funding from the University of Maryland and College Park for pedestrian lighting and steam sleeves.

PROJECT: US 301, South Corridor Transportation Study

DESCRIPTION: The South Corridor Transportation Study is a multimodal study of US 301 corridor highway and transit improvements between the Potomac River/Virginia state line and I-95/US 50 (50.3 miles).

PURPOSE & NEED SUMMARY STATEMENT: This study will address transportation needs along the US 301 corridor in Charles and Prince George's counties.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA

WASHINGTON COUNTY

PROJECT: I-81, Maryland Veterans Memorial Highway

DESCRIPTION: Upgraded and widened I-81 from US 11 in West Virginia to north of MD 63/MD 68 (3.6 miles). West Virginia is funding improvements in West Virginia and Maryland is administering this bi-state project. This is Phase 1 of a four-phase project to upgrade and widen I-81 from the Potomac River/West Virginia State line to the Pennsylvania State line.

PURPOSE & NEED SUMMARY STATEMENT: I-81 corridor improvements improve mobility, accommodate a high truck volume, and provide capacity for planned development.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|---|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |
| <input checked="" type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input checked="" type="checkbox"/> Better Transportation Choices & Connections | |

EXPLANATION: I-81 is a critical link in western Maryland. Increasing capacity supports critical regional transportation needs.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- | | |
|--|---|
| <input checked="" type="checkbox"/> Project Inside PFA | <input type="checkbox"/> Grandfathered |
| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

STATUS: Open to service. West Virginia contributed \$39.8 million for the additional widening to the Maryland State line.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: The increase of \$1.8 million is due to project delays caused by flooding on the Potomac River.

POTENTIAL FUNDING SOURCE:

PROJECT: I-70, Eisenhower Memorial Highway

DESCRIPTION: Replacement and rehabilitation of Bridge Nos. 2107303 and 2114100 over I-81 and Bridge Nos. 2111303 and 2111304 over Norfolk Southern Railroad. Replacement of Bridge Nos. 2111203 and 2111204 over US 11.

PURPOSE & NEED SUMMARY STATEMENT: The existing bridges are nearing the end of their useful service lives, and the bridges over US 11 are rated poor based on deck condition. Replacing and rehabilitating these structures will create additional width, allowing the extension of ramps to and from I-81, improving I-70 operations and safety.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

<input checked="" type="checkbox"/> Safe, Secure, and Resilient	<input type="checkbox"/> Quality & Efficiency
<input checked="" type="checkbox"/> Maintain & Modernize	<input type="checkbox"/> Environmental Protection
<input type="checkbox"/> Economic Opportunity & Reduce Congestion	<input type="checkbox"/> Fiscal Responsibility
<input type="checkbox"/> Better Transportation Choices & Connections	

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

<input checked="" type="checkbox"/> Project Inside PFA	<input type="checkbox"/> Grandfathered
<input type="checkbox"/> Project Outside PFA	<input type="checkbox"/> Exception Will Be Required
<input type="checkbox"/> PFA Status Yet to Be Determined	<input type="checkbox"/> Exception Granted

STATUS: Engineering underway.

EXPLANATION: The existing bridges are nearing the end of their useful service lives, and the bridges over US 11 are rated poor based on deck condition.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Added to the construction program.

PROJECT: MD 90, Ocean City Expressway

DESCRIPTION: Study of MD 90 operations from US 50 to MD 528, including across Bridge No. 2300200 over Assawoman Bay.

PURPOSE & NEED SUMMARY STATEMENT: MD 90 is a high traffic volume arterial that serves as one of three routes into and out of Ocean City and, therefore, is a key evacuation route during storm events. This project would improve operations and increase network redundancy.

PROJECT: I-95 John F. Kennedy Memorial Highway - Express Toll Lanes (ETL) Northern Extension

DESCRIPTION: The two-lane Express Toll Lane extension to MD 24 includes I-95 safety improvements from Cowenton Road to MD 24; the reconstruction of the MD 24 and MD 152 interchanges; the replacement of four bridges over I-95 (Bradshaw Road, Old Joppa Road, Clayton Road, and Raphael Road); the construction of five noise walls; and environmental mitigation.

PURPOSE & NEED SUMMARY STATEMENT: Traffic operations on northbound I-95 beyond the current MD 43 Express Toll Lanes terminus experience routine congestion during peak hours. The improvements will address capacity concerns, improve safety, and allow for better incident management and maintenance activities. The construction of additional noise walls will address the community's requests about quality of life.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input type="checkbox"/> Better Transportation Choices & Connections | |

EXPLANATION: Extending the northbound Express Toll Lanes and associated improvements will provide congestion relief and address safety concerns.

PROJECT: I-95 John F. Kennedy Memorial Highway - Rehabilitate Decks on Three Bridges on I-95 in Cecil County

DESCRIPTION: Rehabilitate the decks on three bridges on I-95 in Cecil County. The work includes overlaying the bridge decks, making the decks continuous over the piers, and performing miscellaneous steel and concrete repairs. Bridges included are I-95 over MD 824, I-95 over MD 545 and Little Elk Creek, and I-95 over MD 279.

PURPOSE & NEED SUMMARY STATEMENT: The annual facility inspection and follow-up studies revealed the need for deck rehabilitation for three bridges in Cecil County. The deck rehabilitation and miscellaneous structural repairs will extend the useful life of the decks.

PROJECT: I-95 John F. Kennedy Memorial Highway - Construct Interchange at Belvidere Road

DESCRIPTION: The project will construct a new interchange between I-95 John F. Kennedy Memorial Highway and Belvidere Road, including constructing a new bridge over I-95.

PURPOSE & NEED SUMMARY STATEMENT: Increased development in the vicinity of Belvidere Road in Cecil County necessitates an interchange at I-95 (JFK Highway) and Belvidere Road. The project cost will be shared with Stewart Properties contributing \$8.8 million for right-of-way, Cecil County contributing \$1 million for construction, and MDTA providing \$46.7 million, with the balance of \$20 million from a Federal BUILD Grant. The BUILD Grant was awarded in December 2018. At the time of the grant application in 2018, the project was estimated at \$54 million; however, the cost shown on this page reflects the low bid received from the selected Design-Build team.

PROJECT: I-95 Fort McHenry Tunnel - Port Covington I-95 Access Study

DESCRIPTION: The first phase of this project is a comprehensive evaluation of potential improvements to I-95 ramps required to support major planned development on the Port Covington Peninsula located in Baltimore City. Improvements being evaluated include potential changes to the I-95 ramps between Hanover Street and Key Highway.

PURPOSE & NEED SUMMARY STATEMENT: A National Environmental Policy Act (NEPA) study is required to determine the potential environmental effects associated with proposed improvements to accommodate anticipated growth while maintaining the functionality of the regional and local transportation system.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |

PROJECT: I-95 Fort McHenry Tunnel - Rehabilitate Substructure and Superstructure of Various Bridges on I-95 in Baltimore City

DESCRIPTION: Repair substructure and superstructure of seventy-four bridges on I-95 in Baltimore City. The work includes structural weld repairs, structural steel repairs, roadway joint repairs, concrete repairs, and application of protective coatings on seventy-four bridges. Originally only Phase 1 was funded. Funding for Phase 2 is now added. Each phase includes thirty-seven bridges.

PURPOSE & NEED SUMMARY STATEMENT: The annual facility inspection, as well as findings and issues noted by MDTA Operations, have identified the need to perform a comprehensive substructure and superstructure rehabilitation.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|---|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input type="checkbox"/> Quality & Efficiency |

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Cost increased by \$2.9 million to include Construction Management Inspection (CMI).

PROJECT: I-95 Fort McHenry Tunnel - Rehabilitate Tunnel 15 KV Cable, Conduit, and Concrete Wall

DESCRIPTION: The scope of this project includes performing concrete repairs to the underside of the roadway slab and walls inside the fresh air ducts of all four bores of the Fort McHenry Tunnel. In addition, replacement of the existing four (4) 15KV tie feeders, with associated cables and conduits, between the East and West Ventilation Buildings.

PURPOSE & NEED SUMMARY STATEMENT: Recent hands on inspection reports have identified the original 15KV cable and conduits including the concrete around it need major rehabilitation and replacement.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|---|

PROJECT: I-95 Fort McHenry Tunnel - Superstructure Repairs of Various Bridges North and South of Fort McHenry Tunnel

DESCRIPTION: The scope of work includes various repairs to 19 bridges and includes installing fatigue retrofits for steel box girder diaphragms, drainage system repairs and miscellaneous repairs.

PURPOSE & NEED SUMMARY STATEMENT: Recent facility inspections and rehabilitation contracts for structural painting and repair, and joint replacements revealed a need for a comprehensive design and retrofit program to correct fatigue-related defects in the box girders and traditional steel girders and reconfiguration of the drainage system.

PROJECT: I-95 Fort McHenry Tunnel - Convert to Cashless Tolling

DESCRIPTION: Remove the existing toll booths and plaza elements, construct gantry structures, and reconstruct the plaza roadway to convert to cashless tolling; construct underground infrastructure, utilities, stormwater management, signing and marking, and commercial inspection area.

PURPOSE & NEED SUMMARY STATEMENT: Cashless tolling provides toll collection at highway speeds through the electronic methods of E-ZPass and video tolling. The advantages of converting to cashless tolling include reduced travel time; increased safety/reduced crashes; alignment with national practice; improved customer convenience; reduced emissions; and reduction in toll collection and maintenance costs. Cashless tolling has been used successfully at the MDTA's MD 200 Intercounty Connector (ICC) and the I-95 Express Toll Lanes (ETL).

PROJECT: MD 695 Francis Scott Key Bridge - Renovate Campus Buildings

DESCRIPTION: Replace heating, ventilation, and air conditioning (HVAC) units at the Francis Scott Key Bridge Campus Engineering/Construction (OEC) and Maintenance Buildings and replace roof on OEC Building.

PURPOSE & NEED SUMMARY STATEMENT: The heating, ventilation, and air conditioning units at the Key Bridge Campus Engineering/Construction (OEC) and Administration Maintenance Buildings are reaching the end of their useful life and need to be replaced. Inspection reports indicated that the roof on the Engineering Building is deteriorated and in need of replacement.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

PROJECT: MD 695 Francis Scott Key Bridge - Subgrade Improvements at Bear Creek

DESCRIPTION: This project will rehabilitate the subgrade and pavement systems of the MD 695 roadway in the Bear Creek vicinity.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of the project is to repair and rehabilitate the subgrade and pavement of MD 695 near Bear Creek and perform backwall repairs of adjacent bridges. The need for repairs and rehabilitation are based on various studies that revealed settlement and deterioration in this area. The expected increase in truck volumes due to the ongoing development and expansion of Tradepoint Atlantic confirms the need for the rehabilitation at this time.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Added to Construction Program.

PROJECT: I-895 Baltimore Harbor Tunnel Thruway - I-895 Bridge Replacement

DESCRIPTION: Replace the elevated portion of the I-895 roadway from the north portal entrance to Holabird Avenue. The rehabilitation of the tunnel deck, liner, and standpipe and sump pump systems have been added to this project. Note: This project was previously named "Replace Canton Viaduct."

PURPOSE & NEED SUMMARY STATEMENT: The bridge deck on this structure has not been renovated since 1985. Testing has indicated that portions of the bridge are nearing the end of their life cycle. The bridge deck, substructure, and superstructure are experiencing various degrees of wear. Additional work within the tunnel has been added to the project.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Cost increased by \$2.3 million for scope change.

PROJECT: I-895 Baltimore Harbor Tunnel Thruway - Replace 15KV Feeder Cables

DESCRIPTION: Replace four 15KV feeder cables between service substations in the Canton and Fairfield Ventilation Buildings.

PURPOSE & NEED SUMMARY STATEMENT: Facility inspections and InterNational Electrical Testing Association (NETA) testing identified the need to replace the feeder cables.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Cost increased by \$1.4 million due to COVID delays and tunnel accessibility.

PROJECT: I-895 Baltimore Harbor Tunnel Thruway - Envelope and Switchgear Replacements at Vent Buildings

DESCRIPTION: Replace building facade, louvers, doors, roofing, elevators and fire pumps along with switchgear/MCC line-ups, transformers, switchboards, SCADA system integration and associated feeder cables at the Baltimore Harbor Tunnel Vent Buildings, Fairfield and Canton Sites.

PURPOSE & NEED SUMMARY STATEMENT: The existing facade is failing and the existing louvers provide no protection of the building interiors and equipment from rain and snow. The switchgear is original to the facility and has reached the end of its useful life.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|---|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |

| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

EXPLANATION: Replacing the facade will extend the useful life of the Baltimore Harbor Tunnel Vent Buildings and provide protection for the equipment housed therein. Replacing the switchgear and associated apparatus will provide reliable system and power control.

STATUS: Engineering and right-of-way acquisition are underway. Under revised project schedule, construction will begin in FY 2023.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Cost increased by \$6.2 million due to market condition changes.

PROJECT: US 50/301 Bay Bridge - Clean and Paint Structural Steel Westbound Bridge

DESCRIPTION: Partial painting of all structural steel surfaces on the westbound bridge of approximately three million square feet including girder spans, deck trusses, overhead truss members, and suspension spans. Phase I is painting the west girder spans. Phase II is cleaning and painting the suspension towers, spot painting the remainder of the suspension span, and zone painting the deck truss spans. Phase III is cleaning and painting the deck truss spans and steel rail posts and rehabilitating the steel barrier. Phase IV is cleaning and painting the east girder and through truss spans.

PURPOSE & NEED SUMMARY STATEMENT: The bridge has not been fully painted since it opened in 1973. Limited spot painting has been done as needed. The paint is showing signs of wear. This improvement will protect the steel components of the bridge and extend the useful life.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|---|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input type="checkbox"/> Quality & Efficiency |

0632, 2224, 2259, 2260

PROJECT: US 50/301 Bay Bridge - Deck Rehabilitation and Miscellaneous Modifications

DESCRIPTION: Deck rehabilitation of the westbound span of the Bay Bridge includes resurfacing Lane 1 with Latex Modified Concrete (LMC) with the exception of the areas where the deck was already replaced, rehabilitating Lanes 2 and 3 by overlaying with LMC, and patching and sealing the remaining areas where needed. This project also includes replacing the lane use signal gantries (LUSG) mounted on the westbound span which is all the bridge-mounted LUSG with the exception of those mounted on the through truss and suspension towers.

PURPOSE & NEED SUMMARY STATEMENT: Inspection of the deck surface revealed the need for rehabilitation including overlays and sealing to extend the service life of the deck.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |

PROJECT: US 50/301 Bay Bridge - Rehabilitate Suspension Spans Westbound Bridge

DESCRIPTION: Rehabilitate the suspension spans on the westbound Bay Bridge, including work on the suspension cables, the bridge superstructure, substructure and bearings.

PURPOSE & NEED SUMMARY STATEMENT: The main suspension cable investigation of the westbound Bay Bridge found areas with varying degrees of wear. The installation of supplemental cables will maintain long-term serviceability of the suspension system. Additionally, signs of wear were found during the routine inspections of structural components of the suspended spans that will be repaired to extend the useful life of the components.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|---|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input type="checkbox"/> Quality & Efficiency |

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Cost decreased by \$2.9 million due to less than anticipated costs for structural steel, testing, maintenance-of-traffic, and the Miscellaneous Allowance Item.

PROJECT: US 50/301 Bay Bridge - Structural Repairs and Miscellaneous Modifications

DESCRIPTION: This project includes structural concrete and steel repairs to both spans of the Bay Bridge. Bid specific work addresses priority repairs with an emphasis on minimizing lane closures with the use of rigging and barge access. An additional phase of structural work has been added to include replacement or rehabilitation to components of the suspension spans.

PURPOSE & NEED SUMMARY STATEMENT: The routine inspections of the eastbound and westbound spans of the Bay Bridge found areas of the structural steel, concrete, and deck joints with signs of wear. Repairs to these components will extend the useful life of the bridge. Recent inspections indicated additional structural work needed to suspension span components that have been experiencing defects and deterioration. This includes replacement of rocker links and wind tongues and rehabilitation of bearings. Navigational lighting renovations have also been added as they can be well coordinated with the structural work.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Cost increased by \$10.6 million for scope change to add upgrading the 5KV Feeder Cable on the westbound span.

PROJECT: US 50/301 Bay Bridge - Crossover Automated Lane Closure System

DESCRIPTION: The automated lane closure system includes enhanced lane use signals, gantries, pavement markings, dynamic in-pavement lights, dynamic message signs (DMS), and cameras to deploy lane closure and two-way traffic automatically.

PURPOSE & NEED SUMMARY STATEMENT: The installation of an automated lane closure system will reduce the response time and improve safety for implementing lane closure and two-way traffic operations on the bridge for incidents and construction work. The original span opened in July 1952 and provides a two-lane roadway for eastbound traffic. The parallel structure opened in June 1973 and has three lanes for westbound travelers. During periods of heavy eastbound traffic, one lane of the westbound bridge is reversed to carry eastbound travelers ("two-way" traffic operations).

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|--|
| <input checked="" type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: None.

PROJECT: US 50/301 Bay Bridge - Convert to Cashless Tolling

DESCRIPTION: Close existing openings between the tunnel beneath the plaza and the toll islands, demolish existing toll islands and plaza elements, and reconstruct US 50/301 at toll plaza to support cashless tolling; install automatic lane controls to improve western shore operational traffic shifts, construct commercial inspection areas, and make environmental management improvements.

PURPOSE & NEED SUMMARY STATEMENT: Cashless tolling provides toll collection at highway speeds through the electronic methods of E-ZPass and video tolling. The advantages of converting to cashless tolling include reduced travel time; increased safety/reduced crashes; alignment with national practice; improved customer convenience; reduced emissions; and reduction in toll collection and maintenance costs. Cashless tolling has been used successfully at the MDTA's MD 200 Intercounty Connector (ICC) and the I-95 Express Toll Lanes (ETL).

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|--|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input checked="" type="checkbox"/> Quality & Efficiency |
| <input type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: Cost increased by \$4.4 million due to actual bid price.

PROJECT: US 50/301 Bay Bridge - Project Management Office and Maintenance Equipment Storage Building

DESCRIPTION: This project includes the construction of a new Project Management Office and a new Maintenance Equipment Storage Building at the Bay Bridge Campus. Work also includes site utility upgrades such as water main, power, fiber, and street lighting to support the new and existing buildings.

PURPOSE & NEED SUMMARY STATEMENT: The Bay Bridge crossing and approach roadways require continuous construction and maintenance activity to maintain the dual bridges in the highest serviceable condition for safe passage of MDTA customers. The Project Management Office will provide work areas for the inspection and contract administration staff. The Maintenance Equipment Storage Building will provide protection for the equipment used by operations staff.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|---|
| <input type="checkbox"/> Safe, Secure, and Resilient | <input type="checkbox"/> Quality & Efficiency |
| <input checked="" type="checkbox"/> Maintain & Modernize | <input type="checkbox"/> Environmental Protection |
| <input type="checkbox"/> Economic Opportunity & Reduce Congestion | <input type="checkbox"/> Fiscal Responsibility |
| <input type="checkbox"/> Better Transportation Choices & Connections | |

- SMART GROWTH STATUS:**

| <input type="checkbox"/> Project Not Location Specific | <input checked="" type="checkbox"/> Not Subject to PFA Law |
| <input type="checkbox"/> Project Inside PFA | <input type="checkbox"/> Grandfathered |
| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

EXPLANATION: Due to the need to maintain traffic at all times, contract work is performed year round during both daytime and nighttime hours. A vast construction management and field staff presence is needed to monitor the schedule, budgets, progress, quality, performance, and inspection of the work for all these various disciplines. The establishment of a permanent centralized office building is needed to support these functions on a 24/7/365 basis.

STATUS: Engineering is underway. Construction will begin in FY 2023.

SIGNIFICANT CHANGE FROM FY 2021 - 26 CTP: None.

PROJECT: US 301 Governor Harry W. Nice Memorial/Senator Thomas "Mac" Middleton Bridge - Replace Nice/Middleton Bridge

DESCRIPTION: Replace the current bridge with a new 4-lane bridge.

PURPOSE & NEED SUMMARY STATEMENT: The existing bridge does not meet current standards, i.e., narrow lanes, lack of shoulders, and steep grades with lack of truck climbing lanes. The existing bridge is reaching capacity during peak periods. Traffic is projected to increase by 45 percent on weekdays and 33 percent on weekends by 2025.

APPENDIX A – CHAPTER 30 SCORES

Appendix A: Chapter 30 Project Scores Final FY 2022-2027 CTP

The Maryland Department of Transportation (MDOT) evaluates major transportation projects through a project-based scoring model that is required by the Maryland Open Transportation Investment Decision Act – Application and Evaluation (Chapter 30). Major transportation projects are defined as highway and transit capacity projects over \$5 million. The major transportation projects evaluated through the scoring model in this year's CTP and their corresponding scores are shown below. Please note that the maximum allowable score for any project was determined to be 2000. The project prioritization model required under Chapter 30 does not select major transportation projects for funding, but it is one of many tools MDOT utilizes in its project evaluation and selection process.

<u>Project Name</u>	<u>Sponsor</u>	<u>Score</u>	<u>Rank</u>
I-270 and I-495 (I-70/US 40 to MD 355 to Virginia state line)	MDOT SHA	2000.00	1
MD 3 (MD 32 to St. Stephens Church Road)	Anne Arundel County	1366.69	2
Parole Transportation Center	Anne Arundel County	588.63	3
MD 170 (MD 100 to south of MD 174)	Anne Arundel County	219.35	4
MD 214 (MD 468 to Oakford Avenue)	Anne Arundel County	102.08	5
Odenton MARC Garage	Anne Arundel County	71.63	6
US 40 & Otsego Street/Ohio Street Intersection	Harford County	67.71	7
MD 175 (US 1 to Dorsey Run Road)	Howard County	54.22	8
US 50/US 301 (MD 2/MD 450 to Chesapeake Bay Bridge)	Anne Arundel County	39.52	9
US 220 and MD 53 at Cresaptown	MDOT SHA	36.14	10
MD 194 (MD 26 to Devilbiss Bridge Road)	Frederick County	35.37	11
US 29 (Seneca Drive to Middle Patuxent River)	Howard County	24.63	12
MD 175 (MD 170 to west of MD 295)	Anne Arundel County	22.83	13
MD 18 (Castle Marina Road to the Kent Narrows)	Queen Anne's County	22.75	14
MD 586 Veirs Mill Road Bus Rapid Transit (Wheaton Metro to Montgomery C	Montgomery County	21.70	15
I-95 (MD 32 to MD 100)	MDOT SHA	20.51	16
MD 85 (Guilford Drive to south of Ballenger Creek)	Frederick County	20.30	17
MD 2 (US 50 to Wishing Rock Road)	Anne Arundel County	16.82	18
MD 5 (MD 246 to MD 471)	St. Mary's County	16.35	19
US 15/US 40 (I-70 To MD 26)	Frederick County	15.95	20
MD 22 (Thomas Run Road to Glenville Road)	Harford County	15.86	21
MD 26 (MD 32 to Liberty Reservoir)	Carroll County	12.30	22
I-81 (north of MD 63/MD 68 to Pennsylvania state line)	Washington County	11.17	23
MD 198 (MD 295 to MD 32)	Anne Arundel County	9.98	24

Appendix A: Chapter 30 Project Scores Final FY 2022-2027 CTP

<u>Project Name</u>	<u>Sponsor</u>	<u>Score</u>	<u>Rank</u>
MD 197 (MD 450 to Kenhill Drive)	Prince George's County	8.14	25
MD 32 (MD 26 to Howard County line)	Carroll County	6.23	26
I-95/I-495 @ Greenbelt Metro Station Interchange	Prince George's County	6.15	27
I-70 (I-270 to Alternate US 40)	Frederick County	5.95	28
MD 295 (I-195 to MD 100) and Hanover Road (MD 170 to CSX Railroad)	Anne Arundel County	5.07	29
BWI Rail Station and Fourth Track (Grove Interlocking to Winans Interlocking)	MDOT MTA	4.85	30
I-70 (US 29 to US 40)	Howard County	4.50	31
MD 210 (MD 228 to Palmer Road)	Prince George's County	4.42	32
MD 223 (MD 4 to Steed Road)	Prince George's County	4.00	33
MD 5 (north of I-95/I-495 to US 301)	Prince George's County	3.82	34
MD 4 Governor Thomas Johnson Bridge (MD 2 to MD 235)	St. Mary's County	3.52	35
US 29 Bus Rapid Transit (US 40 to Silver Spring Metro)	Howard County	3.44	36
South Side Transit (Branch Avenue Metro to King Street Metro)	Prince George's County	3.44	37
MD 4 (I-95/I-495 to MD 223)	Prince George's County	2.96	38
Southern Maryland Rapid Transit (Branch Avenue Metro to Demarr Road)	Charles & Prince George's Counti	2.89	39
MD 213 Chestertown Bypass (MD 297 to south of MD 544)	Kent County	2.24	40
East-West Bus Priority Corridor (RAISE)	Baltimore County & City	Pending Score*	

* The East-West Bus Priority Corridor Project does not yet have a clearly defined scope to be scored yet. Following completion of planning activities this project will be scored.

CONSOLIDATED TRANSPORTATION PROGRAM GLOSSARY

State Report on Transportation (SRT)	Consists of the Maryland Transportation Plan (MTP), the Consolidated Transportation Program (CTP), and the Annual Attainment Report (AR)
Maryland Transportation Plan (MTP)	The MTP identifies the focus of the Department and its modal administration that defines program objectives and serves to guide program development. It includes a 20-year forecast of needs based on anticipated resources available to the Department.
CHART	Coordinated Highways Action Response Team – Maryland’s program to employ Intelligent Vehicle Highway System (IVHS) technology to better manage highway capacity
Consolidated Transportation Program (CTP)	The CTP designates capital projects that will be undertaken during the six-year period, and a summary of operating programs. The CTP also identifies projects added to the Construction Program and Development and Evaluation Program, delayed in schedule, deleted from the Development and Evaluation Program and finally completions.
Construction Program	List within the CTP of major projects (descriptions, cost estimates and schedules) under construction and those anticipated to begin construction within the six-year period. An estimate of annual expenditure levels for system preservation projects is also included.
Development & Evaluation Program (D&E)	List within the CTP of projects for planning studies, preparation of environmental studies and preliminary design. These projects are candidates for future addition to the Construction Program.
Balance to Complete	Amount of funds required after the six-year program period of the CTP to complete a project
Major Capital Project	New, expanded or significantly improved facility or service that generally involves planning, environmental studies, design, right-of-way acquisition, construction or purchase of essential equipment related to the facility or service
System Preservation Project	Project of limited scope for the preservation or rehabilitation of an existing facility or service which generally does not have a significant impact on the human or natural environment

CONSOLIDATED TRANSPORTATION PROGRAM GLOSSARY (Cont'd.)

Reconstruction	Complete rebuilding of a facility/structure or system which is beyond the point where it may be economically repaired or renovated
Rehabilitation	Restoration and/or modernization of a facility/structure or system in order that it may be effectively used for its designated functional purpose or comply with current requirements
Highway System Preservation Program	Program of projects oriented toward preserving the existing highway system, including resurfacing, safety improvements, bridge rehabilitation, landscaping, traffic control and ridesharing lots and other miscellaneous improvements
Reimbursables	State funds advanced for work performed for local jurisdictions, services performed for other agencies, recovery of damages to Department property, salaries and expenses of the Interstate Division for Baltimore City, fees for issuing commercial entrance permits, and other activities performed by the Department and are paid by various sources
Capital Contributions Agreement	Agreement entered into by 8 local jurisdictions in Maryland, Virginia and the District of Columbia that provides a capital funding schedule for Metrorail construction in the Washington area
(PP)	Project Planning: The phase in the planning process where detailed studies and analysis are conducted to establish the scope and location of proposed transportation facilities
(PE)	Preliminary Engineering: The phase in project development when surveys, soil conditions, elevations, right-of-way plats, and detailed design plans and specifications are prepared
(RW)	Right-of-Way: Acquisition of land for transportation projects
(CO)	Construction
(IN)	Inflated Cost
(FA)	Federal aid
(STP)	Surface Transportation Program category of federal aid
(NHS)	National Highway System category of federal aid

CONSOLIDATED TRANSPORTATION PROGRAM GLOSSARY (Cont'd.)

(IM)	Interstate Maintenance category of federal aid
(BR)	Bridge Replacement/Rehabilitation category of federal aid
(CMAQ)	Congestion Mitigation/Air Quality category of federal aid
(DEMO)	Specific projects identified in federal legislation for demonstration purposes
