MARYLAND DEPARTMENT OF TRANSPORTATION

MARYLAND CONSOLIDATED TRANSPORTATION PROGRAM

FY 2026 – FY 2031

2026 State Report on Transportation

Wes Moore
Governor

Aruna Miller
Lt. Governor

Kathryn Thomson
Acting Secretary

MARYLAND'S CONSOLIDATED TRANSPORTATION PROGRAM

The Consolidated Transportation Program (CTP) is Maryland's six-year capital budget for transportation projects. The Capital Program includes major and minor projects for the Maryland Department of Transportation (MDOT) modal administrations: the Secretary's Office (TSO); the Maryland Aviation Administration (MAA); the Maryland Port Administration (MPA); the Motor Vehicle Administration (MVA); the State Highway Administration (SHA); the Maryland Transit Administration (MTA) – and authorities that are a part of MDOT, including the Maryland Transportation Authority (MDTA) and the Washington Metropolitan Area Transit Authority (WMATA).

In this document, you will find for every major project a Project Information Form (PIF) that includes project details, financial information, and construction status; you will also find a sample of minor capital projects. MDOT works together with residents, local jurisdictions, and local and State elected officials to include projects in the CTP that preserve investments, increase safety, enhance transportation services and connections, and improve accessibility and opportunity throughout the State. To help Maryland's citizens review this document, the CTP includes a summary of MDOT's financing and budgeting process and instructions for reading PIFs.

MDOT ensures nondiscrimination and equal employment in all programs and activities in accordance with Title VI and Title VII of the Civil Rights Act of 1964. If you need more information or special assistance for persons with disabilities or limited English proficiency, contact MDOT's Office of Diversity and Equity at **410-865-1397.**

For the hearing impaired, Maryland Relay 711.

For further information about this document or to order a hard copy, please contact Ms. Dawn Thomason at the Maryland Department of Transportation, Office of Planning and Capital Programming toll free at 1-888-713-1414, or locally at 410-865-1288. This document is also available online at: *www.ctp.maryland.gov*.

For more information on Maryland transportation, please visit us on the web at *www.mdot.maryland.gov*.

CTP INTRODUCTION

CTP Overview

The Consolidated Transportation Program (CTP) is Maryland's six-year capital budget for transportation projects and programs, designed to advance Maryland's goals and provide a safe, dependable transportation system that connects Marylanders to economic opportunities across the State.

Thanks to Governor Moore, support from stakeholders around the State, and the Maryland General Assembly, the last legislative session resulted in new revenues dedicated specifically to transportation funding.

This $22.1 billion CTP reflects this additional revenue. The new legislation provides **more than $400 million per year** in additional state money which will allow the Department to **match available federal funding to add nearly $700 million in total annually to the program.** This money stabilizes the program allowing MDOT make smart investments to **improve the safety** of the transportation network, **drive economic growth** and **preserve our transportation systems.**

The much needed additional revenue has enabled MDOT to secure proper debt service coverage, meet critical operating budget needs, ensure the continuity of Highway User Revenue (HUR) and Locally Operated Transit Systems (LOTS) funding and make significant investments in the capital program. It should be noted that the Transportation Trust Fund still experiences significant challenges due to increased construction costs, costs to preserve the existing transportation system and increased operating costs.

Commitment to Safety for All, System Preservation and Driving Economic Development – MDOT is focused on safety, system preservation and driving economic development. Major areas of investment are described below.

1. **Rebuilding of the Francis Scott Key bridge** on I-695 is a primary focus of the Department, with MDOT doing all it can to expedite the reopening of this important transportation connection while improving transportation options to lessen the impact to travelers while the bridge is rebuilt.

2. **MDOT is Serious about Safety for all.** Safety is a primary focus in all of the projects and grants MDOT pursues, including implementation of the Strategic Highway Safety Plan, significant investments in the State's bridges, pedestrian safety projects and implementing the Department's new Complete Streets Policy. MDOT is Serious about Safety, advancing critical projects such as:

- Full funding for the construction of safety improvements and freight capacity on I-81. The $107.9 million I-81 Phase 2 project is expected to begin construction in 2027 and will widen a 3.5-mile stretch of I-81 from four to six lanes.
- Full funding for capacity and safety improvements for US 15 in Western Maryland. The $177.9 million US 15 project is under design and expected to begin construction in 2028 and will widen US 15 from four to six lanes between I-70 and MD 26 (Liberty Road).
- Full funding for the construction of the MD 97 Montgomery Hills project. This project will increase safety for all roadway users, enhance transit travel times and create a walkable environment for community members and small businesses near Georgia Avenue and Forest Glen Road, which experiences significant, high speed traffic volumes.
- Full funding for the construction of the MD 5 Great Mills project, which will enhance pedestrian and vehicular safety.
- Continued commitment to advance safety projects with construction and design funding for safety projects on some of Maryland's highest incident state highway corridors through MDOT's Pedestrian Safety Action Plan and in accordance with our Complete Streets initiative. The use of "quick build" Complete Streets demonstration projects, like flex posts and pavement markings, that will save lives today, will help those dollars go further and accelerate the Department's ability to provide tangible safety improvements.
- Advancing the critical U.S. 220 roadway safety project in Cresaptown. The Cresaptown Triangle Improvement project in Allegany County will advance roadway and freight safety investments along a rural main street that will enhance access to local destinations and reduce truck traffic in the community.
- Advancing US Route 1, Phases 2 and 3, roadway safety project in Prince George's County.

3. Thanks to the Governor's budget, the Department will also be able to take significant action to further **preserve our transportation system**. Investments in maintaining the State transportation system are managed through a comprehensive and integrated asset management program that guides transportation decision-making and investments. Maryland has a history of success with very few bridges in poor condition and the majority of its highway pavement in good condition. Still, there exists a backlog of state of good repair needs, so MDOT has prioritized key assets and structures first. Modal highlights are included below.

SHA

- Providing over $890 million in additional federal resources compared with the FY 25 – FY 30 Final CTP, and in so doing, bringing additional funds to address critical bridge rehabilitation, roadway resurfacing state of good repair and other needs.
- Addressing long-awaited repair needs in communities across the State, including on MD 222 in Port Deposit and MD 231 in Calvert County.

MTA

- Leveraging a historic federal grant to support the $1.4 billion Light Rail Modernization Program to replace the light rail vehicle fleet with modern, low floor vehicles; upgrade all light rail stations and systems from BWI to Hunt Valley and modernize two maintenance facilities. This is the first

significant investment in the State's light rail system in 30 years and helps to position the State for future federal transit capacity investments. The program is advancing with Requests for Proposals (RFP) for elements of the program moving forward now.

- Bringing a new, more reliable user experience to MTA customers with MTA's new Metro SubwayLink cars and a new train control system.
- Advancing important rail projects in Amtrak's program along the Northeast Corridor, including the Frederick Douglass Tunnel, Bush River Bridge Replacement Program, Gunpowder River Bridge Replacement Program and Susquehanna River Bridge Replacement Program. These projects will promote frequency, reliability, and reduce trip times for both MARC and Amtrak rail services by replacing centuries old rail assets.

MAA

- Addressing system preservation needs at Baltimore Washington International (BWI) Thurgood Marshall International Airport and Martin State Airport. This includes the BWI Passenger Movement Modernization program to replace aging passenger boarding bridges, elevators, escalators and moving walkways and the Martin State Airport Air Traffic Control Tower Replacement.
- Programming more than $374 million for system preservation projects that includes investments in Runway 10/28 rehabilitation and roof replacements.

MDTA

- Advancing MDTA's MEGA grant-funded project to replace bridges, enhance freight safety and fully implement automated tolling collections on I-895 at Frankfurst Avenue, near the Baltimore Harbor Tunnel.
- Advancing resiliency and maintenance improvements to the Curtis Creek Drawbridge on I-695 as part of a coordinated response to improving travel experiences in replacing the Francis Scott Key bridge.

WMATA

- Funding WMATA's ongoing system preservation capital needs.

4. To advance Governor Moore's directive and take meaningful action to **spur economic growth and create jobs** the Department is strategically deploying resources.

SHA

- Advancing planning and design for major roadway projects supporting economic development, including Medical Center Drive in Prince George's County and MD 90 in Worcester County.

MTA

- Enabling more accessible and frequent high-quality transit services to over 3 million annual riders and over 300,000 jobs within a 15-minute walk of a station through the Light Rail Modernization Program.
- Investing in design for enhancement projects along the MARC system, including Penn-Camden Connector and Silver Spring Turnback, designed to improve system reliability and flexibility.
- Advancing towards the purchase of land for the new 5th bus division maintenance facility.

MPA

- Expanding the Port's ability to drive growth and opportunity throughout the State, with nearly 273,000 jobs linked to Port of Baltimore activities.
- Reconstructing the Dundalk Marine Terminal Berth 11, which is nearly 60 years old, and fully funding the State's contribution to the dredging program to maintain the Port's 50-foot channel.
- Advancing phase 1 construction of the Mid-Chesapeake Bay Island Ecosystem Restoration project (James Island), which is vital for the Port to maintain its 50-foot channel through a 2025 U.S. Army Corp of Engineers appropriated $71.9 million.
- Advancing work with CSX and FRA, to create a double-stack clearance route to and from the Port of Baltimore and improve the Port's connectivity to key Midwest markets. The Howard Street Tunnel reopened to tunnel traffic in September 2025, and the double-stack route is scheduled to be operational by Spring 2026.

MAA

- Completing the Terminal A/B Connector project to enhance operations and baggage handling at BWI and provide additional space for concessions and business opportunities at BWI.
- Completing the Southwest Maintenance Facility to support operations for BWI's largest customer.

TSO

- Deploying at least 30MW of clean solar power on State-owned facilities with a $50 million grant from the Maryland Energy Administration, supporting climate goals, providing stable energy costs and new supply to meet growing demand, and creating green jobs for Marylanders.
- Advancing MDOT's transit-oriented development (TOD) program, with a first round of projects at Reisterstown Plaza in Baltimore, Odenton in Anne Arundel County and Bowie State in Prince George's County, and a new grant program launched in Spring 2025 to support local jurisdictions, with grants awarded to Baltimore City and Montgomery County.
- Advancing project prioritization by identifying $10 million for initial project planning and design studies and adding a new opportunity for local jurisdictions to request MDOT conduct these studies to bring projects from initial concepts to the 10%-15% design stage—enabling projects to be submitted for project scoring under proposed updates to the Chapter 30 scoring system.

WMATA

- Partnering with WMATA on major joint development opportunities, including at North Bethesda and Capitol Heights Metro Stations. MDOT supports ongoing redevelopment efforts through annual funding of the Project Development Program at WMATA.

Workforce Development

MDOT is supporting the Governor's efforts in workforce development. MDOT has partnered with the Maryland Department of Labor to create the Road to Careers grant program to prepare workers for skilled careers in Maryland's transportation and construction sectors. Leveraging federal transportation funding, the program will provide workforce development grants that will fund workforce training and supportive services, creating a new generation of workers to build the State's critical transportation infrastructure. The program will invest $4 million annually over six years. The first round of funding was awarded in 2025 and MDOT is currently in the midst of Round 2.

MARYLAND'S CONSOLIDATED TRANSPORTATION PROGRAM: BUILDING ON PROGRESS

Marylanders deserve a transportation system that provides access to jobs, affordable housing, food, healthcare, amenities, recreation and other critical services needed for everyday living. Maryland's communities are changing; jobs are growing and MDOT needs to make sure that everyone can access opportunities. From rural towns on the Eastern Shore, Southern Maryland and Western Maryland to the urban areas of Baltimore and the Washington, DC region, and everywhere in between, Maryland needs a transportation system that provides accessible, equitable and sustainable options across the entire State, connecting people to quality jobs and training and opening doors to economic opportunity and prosperity.

MDOT has released its capital budget, the FY 2026 - FY 2031 CTP, which is aligned with the State transportation vision, principles and goals outlined in **The Playbook** *(http://www.mdot.maryland.gov/MTP)* – the State's long-range transportation plan – and aligned with the Moore-Miller Administration's State Plan. The $22.1 billion program outlines capital investments planned for each mode.

This CTP was developed with a focus on safety, fiscal sustainability, maintaining the existing system, and strategic investments that grow the economy.

MDOT MARYLAND DEPARTMENT OF TRANSPORTATION

MISSION STATEMENT
The Maryland Department of Transportation is a customer-driven leader that delivers safe, sustainable, intelligent, exceptional, and inclusive transportation solutions in order to connect our customers to life's opportunities.

GOALS AND PROGRAM PRIORITIES

The new transportation revenue enacted in the last legislative session has allowed the Department to enhance its focus on the safety of all users, system preservation and driving economic development. Through these investments, the Department continues to advance the goals and program priorities outlined in its long-range transportation plan, **The Playbook** *(http://www.mdot.maryland.gov/MTP)*.

MDOT understands that Marylanders want a transportation system that meets multiple goals. It should be an efficient and accessible transportation system. It should connect Marylanders to jobs, schools, parks, health care, amenities and to each other. It should operate cleanly and help to achieve environmental goals. It should support the creation of community and deliver high-quality experiences for the traveling public. And above all it should be safe and secure. These goals align with the

Moore-Miller Administration's priorities and provide the guidance to meet federal and State requirements; address local government needs, interests and concerns; and serve MDOT's customers and the critical supply chain. The following section highlights the MDOT's recent investments in these priority areas.

Enhance Safety and Security:

Consistent with a commitment to Vision Zero, MDOT is Serious about Safety, and this goal prioritizes efforts to end traffic deaths among all users of Maryland's roadways, including our roadway workers, while also providing a safe workplace and travel experience for MDOT's modal administrations. Alongside that overarching theme, MDOT specifically intends to enhance multimodal infrastructure to support a low-stress network for pedestrians and bicyclists and maintain a system that is resilient to weather events and roadway incidents effectively.

Under the Moore-Miller Administration, MDOT intends to decrease injuries on Maryland's roadways. Recent activities to advance safety and enhance security include:

- SHA recorded 20 poor-rated State bridges during their annual condition submission to the FHWA in March 2025. This is the lowest number ever recorded and represents less than 1% of SHA's bridge inventory. This reduction can be attributed to the efficient use of federal funds for current bridge replacement projects, the successful bridge rehabilitation and reservation program and the enhancement of asset management strategies. All 20 of these bridges are under construction or in design to address the poor rating.
- In 2024, MDOT implemented a Complete Streets policy in order to promote safer transportation facilities. MDOT continues to implement this policy through updates to practices and manuals and investment through all of its surface transportation projects.
- At the 2025 Annual Safety Summit, MDOT launched the "Serious About Safety" campaign, an initiative that builds on the updated Complete Streets Policy. Any MDOT funded project must prioritize safety options throughout all phases of project development.
- In January 2025, MDOT, Maryland State Police and the Maryland Institute for Emergency Medical Services Systems were awarded $13.2 million through the National Highway Traffic Safety Administration's State Electronic Data Collection grant program. The grant provides over five years in federal funding to update the State's crash reporting system and streamline the exchange of data across local, state, and federal agencies.
- In July 2025, SHA broke ground on the MD 650 Pedestrian Safety Action Plan (PSAP) project. This is a $15 million investment in pedestrian, bicycle and multi-modal improvements along nearly 2.5 miles of MD 650 (New Hampshire Avenue) from University Boulevard to Powder Mill Road in Prince George's and Montgomery counties.
- Since 2021, Maryland has constructed almost 27 miles of new sidewalks. MDOT invested $10.2 million in FY 2025 to design and construct new sidewalks and pedestrian facilities, including the construction of new sidewalks along MD 214 (Central Avenue) in Anne Arundel County, US 1 (Washington Boulevard) in Howard County and MD 7 (Delaware Avenue) in Elkton.
- Since 2023, MDOT has advanced efforts to create a unified statewide sidewalk dataset through the Maryland Sidewalk Data Collaboration. This initiative established a framework to evaluate feasibility, develop a schema for capturing pedestrian infrastructure, and demonstrate the value of sidewalk data along priority corridors.
- MDOT continues to facilitate rail safety education efforts through the Maryland Operation Lifesaver Program and continues to implement at-grade safety projects using federal formula and discretionary funding. In

FY 2025, MDOT received an $800,000 grant from the Federal Railroad Administration (FRA) to complete a Statewide Railroad Trespass Study and continues to seek other funding opportunities to improve rail safety across the State.

- Maryland's Coordinated Highway Action Response Team (CHART) responded to 65,710 motorists – 30,811 roadway incidents and 34,899 disabled vehicles – in CY 2024.
- MDOT is developing a new Strategic Highway Safety Plan to cover the next five calendar years (2026-2030). The Plan will continue to address the current emphasis areas – speeding, occupant protection, impaired driving and pedestrian/bicycle safety while also addressing emerging technologies and autonomous vehicles. Using the Safe System approach, this Plan will focus on education, enforcement and engineering to improve road safety and driving behavior. The Plan also addresses the importance of the timely delivery of emergency medical services when needed.
- Maryland will host the 2026 Lifesavers Annual Conference in April. Lifesavers is the leading national event focused on traffic safety. It brings together professionals from government, law enforcement, public health, education and advocacy groups to share the latest research, strategies, and technologies aimed at reducing roadway injuries and fatalities. The conference features workshops, presentations and networking opportunities to promote collaboration and improve traffic safety outcomes.

Deliver System Quality:

Marylanders expect a transportation system that provides a reliable, high-quality, and integrated experience. To deliver on this goal, MDOT seeks to maintain infrastructure in a state of good repair, improve reliability in the transportation system, create a truly resilient transportation system and effectively deliver projects on-time and on-budget. Recent activities to deliver a high-quality system include:

- In 2025, MDOT released the new Strategic Asset Management Plan (SAMP), a five-year guide to applying best practices that improve asset management knowledge, enhance system reliability, and promote financial stewardship. The new SAMP establishes a dynamic roadmap for advancing the tools, systems and processes necessary for achieving MDOT's asset management goals and modernizing our transportation system with data-driven decision making. In addition, MDOT also released the Tactical Asset Management Plan building on the SAMP toward implementation.
- SHA has identified over 120 drainage sites for improvements that encompass state of good repair improvements to keep drains operating and prevent flooding resulting from blockages and climate change.
- In Spring 2025, SHA received $1.6 million funding under the Bridge Investment Program for the project Rethinking the I-68 Viaduct: A Plan to Reconnect Cumberland.
- The 2022 State Freight Plan identified projects for initial National Highway Freight Program funding to improve freight movement in the State. The State Freight Plan is anticipated to be updated by end of 2026.

- MVA opened its first-ever on-site driving course at the Oakland branch in Garrett County in 2025, eliminating the need to travel to the Cumberland branch.
- MAA broke ground on a new Air Traffic Control Tower at Martin State Airport and is performing advanced planning for replacement of the 75-year-old control tower at BWI Marshall Airport.
- In October 2024, Maryland was awarded $38 million for critical transportation and port infrastructure projects, including $7.5 million to MDTA for resiliency and maintenance improvements to the Curtis Creek Drawbridge as part of the Key Bridge replacement effort.
- In December 2024, MDTA completed the extension of Northbound Express Toll Lanes along I-95, providing travelers with a more reliable travel experience and enhancing the resilience of the existing infrastructure.

Serve Communities and Support the Economy:

To ensure transportation is doing all it can to support communities and the economy, MDOT seeks to improve Marylanders' satisfaction with transportation services, leverage technology to improve information for residents, increase transit and active transportation use and transit-oriented development, improve quality of life through transportation alternatives, prioritize needs of underserved communities and enhance the competitiveness of the Port of Baltimore and BWI Marshall Airport.

In its work, MDOT will strive to ensure that transportation meets communities' needs and drives access to opportunity and the success of economic centers. Activities to serve communities and support the economy include:

- MPA continues to work with CSX and FRA to complete the Howard Street Tunnel Project to create a double-stack clearance route to and from the Port of Baltimore, improving the Port's connectivity to key Midwest markets. The Howard Street Tunnel reopened to tunnel traffic in September 2025, and the double-stack route is scheduled to be operational by Spring 2026.
- Port of Baltimore's largest cargo facility, Dundalk Marine Terminal, received a $31 million federal grant to rehabilitate Berth 11, which will enable the Port to better handle automobile and high and heavy roll-on/roll-off vessels, preventing supply chain disruptions and cargo capacity loss.
- Critical runway rehabilitations at BWI Marshall Airport along with enhanced A & B Concourses and baggage systems. The A&B Concourse is slated to be completed this year.
- MDOT's enhanced Transit-Oriented Development (TOD) Program launched a $5 million grant and loan program for localities, and advanced joint development activities at Reisterstown Plaza Metro Station, Bowie State MARC Station, and Odenton MARC Station. These efforts will advance the development of inclusive and thriving communities.
- In coordination with Montgomery County and WMATA, MDOT and SHA made permanent almost seven miles of bus-only lanes on MD 97 (Georgia Avenue) between Silver Spring and Glenmont and almost 5 miles of bus-only lanes on MD 193 (University Boulevard) between Wheaton and Northwood Park.

- In June 2025, MTA completed the BMORE BUS Vision Plan, a transit plan that presents the agency's roadmap for improved bus service in the Baltimore region and details what resources are needed to implement the plan's recommendations and achieve that vision. The strategies proposed in BMORE BUS would complement MTA's other modes and Locally Operated Transit Services, expand Baltimore's Frequent Transit Network of routes that run every 15 minutes or less, enhance connections within Central Maryland, and generate economic growth and opportunity in the region.

- In June 2025, MTA completed the MARC Growth and Transformation Plan, recommending capital improvements that maintain the MARC system in a state of good repair and advance MARC's service expansion proposals. It also incorporates requirements of the 2022 Maryland Regional Rail Transformation Act (House Bill 778/ Senate Bill 524). The Plan encompasses the existing MARC system and proposed extensions to Delaware, Northern Virginia, and Western Maryland.
- MTA continues to focus on the transit customer experience. In 2024, MTA announced the creation of an Office of Customer Experience charged to better understand transit rider's needs through conversation and data collection in order to drive meaningful agency change. Through that process, MTA was able to develop the 2025 Customer Experience Action Plan which was published in August 2025. The plan lays out a clear set of actions that MTA will implement over the next year to enhance service reliability, communication, accessibility, cleanliness, and safety across the system. The plan was shaped by input from thousands of riders, stakeholders and advocates.
- The primary terminal taxiway supporting approximately 70 percent of the BWI Airport passenger activity is undergoing a multi-phase, multi-year reconstruction to maintain critical airfield infrastructure and provide a safe, secure, and resilient transportation system. Phase 2 kicked off in May 2024 and the project is set to be completed in January 2026.
- The total passenger traffic at BWI Marshall Airport reached 27.1 million in 2024 — an increase of almost 3.3% over 2023. July 2024 was the busiest month ever at the airport, with over 2.66 million passengers for the month.
- The Seagirt Marine Terminal processed 4,211 trucks in April 2025, the highest number of trucks since the Key Bridge incident.
- The Port of Baltimore handled 45.9 million tons of cargo in 2024, its second-best year ever to 2023's record year of 52.3 million tons. The dollar value of cargo was $62 billion, the third highest ever.
- MTA ridership increased by 2.3% in June 2024-May 2025 from the same time last year. MTA provided over 69.8 million rides from June 2024-May 2025.
- MDOT continues to make progress on the construction of the 16-mile Purple Line which will open in late 2027 and transform the region by providing a new east-west connection between homes, job centers, schools, medical facilities, and life's opportunities.
- MDOT's support for Transportation Demand Management (TDM) continued and grew in 2025 with increasing participation in the Employer Partner Program, carpool and vanpool programs and transit incentive program. Increases were in part the result of new 2025, carpool, vanpool, and transit incentives.

Promote Environmental Stewardship:

The transportation sector is the leading contributor to greenhouse gas emissions and climate change. The Moore-Miller Administration is committed to leading the nation to combat climate change and MDOT is doing its part seeking fundamental shifts in the environmental impacts of the transportation system. MDOT is working to meet emission reduction goals consistent with the transportation sector's targets under Maryland's Climate Solutions Now Act.

MDOT's most recent long-range transportation plan, the Playbook focuses on minimizing fossil fuel consumption and improving air quality, supporting the widespread adoption of zero-emission vehicles, protecting the environment through avoidance and mitigation activities, and protecting transportation assets. Recent activities to promote environmental stewardship include:

- MDOT established a Solar Energy Initiative under the Secretary's Office of Environment, furthering the Department's commitment to the environment and to using transportation dollars wisely. To accelerate the Solar Energy Initiative and help MDOT reach its goal of generating 100 megawatts of solar on state property, MDOT received $50 million from the Maryland Energy Administration to accelerate contract award and development.
- In FY25, MDOT continued the process of building out our electric vehicle charging network via the National Electric Vehicle Infrastructure (NEVI) Program. MDOT awarded $9.5 million for 19 electric vehicle charging sites in 13 counties most of which are expected to be operational in calendar year 2026. Round 2 of the NEVI Program launched in December 2024, resulting in 12 projects conditionally awarded for another $9.5 million in October 2025. As of publication, six NEVI corridor chargers are in operation in Grantsville, Hagerstown, Elkton, Jessup, Camp Springs, and Salisbury, Maryland.
- In July 2024, MDOT and the Maryland Department of the Environment were awarded $81 million from the Environmental Protection Agency (EPA) for the Clean Corridor Coalition – A Proposal for Zero Emission Medium and Heavy-Duty Vehicle Infrastructure along the I-95 Corridor.
- In 2024, MDOT issued more than $20 million in funding the Carbon Reduction Program (CRP) for a variety of strategic investments including electric vehicle (EV) chargers, energy-efficient lighting, and bicycle and pedestrian projects. In 2025, MDOT anticipates awarding more than $14.5 million in CRP funding in support of nine projects across the State for a variety of strategic investments including electric vehicle (EV) chargers, intelligent lighting pilot, and bicycle and pedestrian projects.
- The number of EVs, both Plug-in Hybrid Electric Vehicles and Battery Electric Vehicles, in the State exceeded 139,000 at the close of FY 2025, increasing the EV share to approximately 2.8% of the total registered vehicles in the State. As of July 2025, the State has more than 1,600 charging station locations (more than 5000 ports) which totals 0.84 ports per 1,000 people.
- Though VMT increased annually across the State, GHG emissions from on-road vehicles declined from 25.8 mmt CO2e in FY 2023 to 24.9 mmt in FY 2024 CO2e due to continued improvements in vehicle efficiency.
- In FY 2025, MPA was awarded a game-changing $145.6 million under the EPA Clean Ports Program for the Equipment Electrification and Terminal Decarbonization Application Project and $1.9 million for the Air Quality Improvement Strategy and Comprehensive Community Engagement Plan Development Project. This will allow an upgrade to clean vehicles, equipment, and charging infrastructure.
- In FY 2025, BWI Marshall collected 38 tons of used cooking oil to be refined into Sustainable Aviation Fuel (SAF) by Neste, which then sells

it to airlines around the world. Using SAF for airplanes versus conventional aviation fuel results in 80 percent lower lifecycle GHG emissions without having to make additional investments in aircraft or fueling infrastructure.

- Through the Urban Tree Program (Transportation - §2–103.8), MDOT supports Maryland's goal to plant five million trees by 2031 and has awarded over $164,000 in grants through the end of FY 2025. These funds have enabled the planting of nearly 2,600 trees across 40+ communities, advancing statewide reforestation efforts under the Tree Solutions Now Act of 2021.

Wildlife – Protections and Highway Crossings – House Bill 731

SHA and the Maryland Department of Natural Resources (DNR) will establish the "Maryland Connectivity Coalition," to protect threatened and endangered species from habitat fragmentation and to protect motorists and wildlife by reducing wildlife-vehicle collisions. Currently there are no specific wildlife crossing projects planned or in development. Wildlife crossing considerations and potential elements for inclusion are incorporated into active design projects.

Project Prioritization

MDOT is committed to achieving its safety, system quality, economic, community, and environmental goals as effectively as possible within finite resources. It is important that every dollar spent does as much as possible to achieve the State's goals. MDOT is focused on a data-driven, heart-led process to improve transparency and accountability over time. This year, the Department:

- Published the Strategic Asset Management Plan (SAMP) to improve our ability to address our greatest state of good repair needs Departmentwide;
- Launched a new standardized Priority Letter process to improve consistency and transparency with our local partners;
- Was awarded a federal grant award for $2 million for the Prioritization Process Pilot Program;
- Identified $10 million for initial project planning and design studies and added a new opportunity for local jurisdictions to request MDOT conduct these studies to bring projects from initial concepts to the 10%-15% design stage—enabling projects to be submitted for project scoring under proposed updates to the Chapter 30 Scoring System; and
- Conducted a Pilot round of a new Chapter 30 scoring methodology and continued efforts to improve the Chapter 30 project prioritization process.

For more information, visit:
http://www.mdot.maryland.gov/Prioritization.

Process for CTP Development

The CTP takes nearly a full year to create through the work and collaboration of MDOT staff with State, regional and local elected officials. It is important for MDOT to hear from local jurisdictions to facilitate collaboration on State and local needs. An element of this collaboration includes local jurisdictions submitting priority project(s) to MDOT by April each year. To ensure that every dollar available for transportation in Maryland is spent efficiently, MDOT employs a strategic decision-making process, using established priorities and criteria for inclusion in the CTP and through the annual CTP Tour meetings.

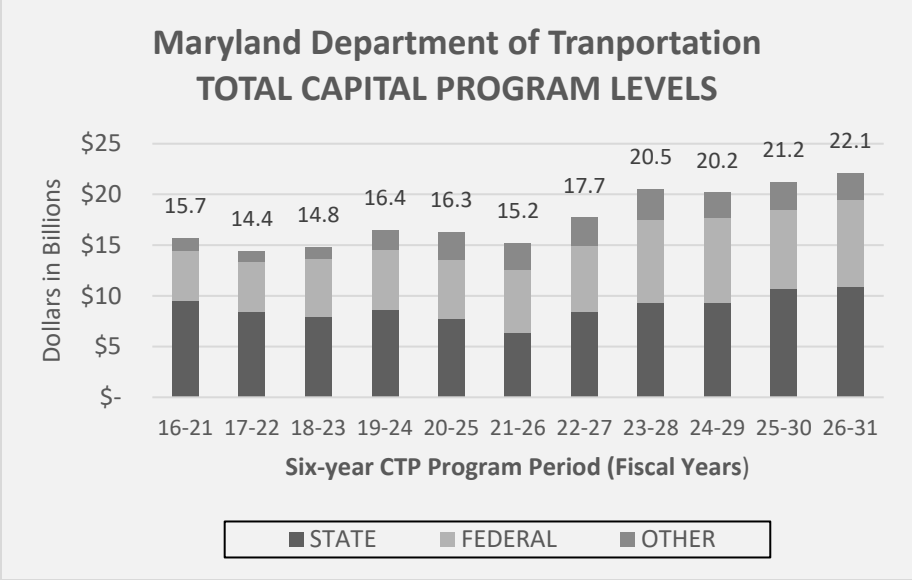

These criteria ask if a project:

- Meets all federal and other legal mandates (e.g., stormwater compliance or Federal Aviation Administration (FAA) regulations to maintain airport permits);
- Supports MDOT's program priorities and MTP goals (safety and security, system quality, serving communities and economy and promoting environmental stewardship);
- Meets federal match requirements and maximizes federal revenue sources;
- Supports existing project commitments and upholds intergovernmental agreements;
- Is the single top priority within a local priority letter;
- Is consistent with local plans; and
- Is included in the regional MPO's long-range plan (if the project is located within an MPO boundary).

FINANCING MARYLAND'S TRANSPORTATION PRIORITIES

The State's Transportation Trust Fund supports MDOT investments through a dedicated account. The Transportation Trust Fund utilizes a variety of revenue sources, which provide funding that enable MDOT to address important capital and operating needs including safety, system preservation, multimodal transportation options, environmental stewardship, congestion relief and maintaining the competitiveness of Maryland's Port of Baltimore and BWI Marshall Airport.

*Starting with the FY 2024 - FY 2029 CTP, MDOT is classifying General Funds as State funds (in addition to State Transportation Trust Fund funds), whereas in prior CTPs, these funds were classified as Other funds.

STATE REVENUE PROJECTIONS

During the 2024 and 2025 legislative sessions, Governor Moore and the Maryland General Assembly took action to stabilize funding for Maryland's transportation system. The increased investment allows MDOT to invest in delivering the core transportation services that Maryland citizens rely on, enhancing the safety and reliability of the current system, and making strategic investments to advance the economy. This additional funding ensures that core needs are addressed and funds planning and designing activities for key projects like the Red Line.

Chapter 717 of 2024 and Chapter 604 of 2025 established new and increased transportation revenues. New fees include an annual registration surcharge for electric vehicles, a fee on transportation network company trips, and a fee on the purchase of tires. Increased fees include the vehicle titling tax rate, vehicle registration fees, and various MVA fees. In addition, taxes and fees on rental cars were modified and certain State revenues from the sales tax on electricity at electric vehicle charging stations and a portion of the capital gains tax were directed to the Transportation Trust Fund.

The Transportation Trust Fund benefits from a diverse set of revenues and is unique in providing significant funding for two major metropolitan area transit systems, the Maryland Transit Administration (MTA) and the Washington Metropolitan Area Transit Authority (WMATA). Projected State-sourced revenues, federal aid, and bond issuances in FY 2026 through 2031 total $43.6 billion to support MDOT's operating, capital, and debt payment expenses. Outside of tax and fee actions taken during the 2024 and 2025 legislative sessions and the impact of annual inflation to certain transportation revenues, little to no growth is expected for most revenue sources through the six-year period.

Additional information about MDOT's revenue sources is as follows:

- Given the recent increase in the tax rate during the 2025 legislative session, revenue from the Motor Vehicle Titling Tax is now the largest source of revenue for the Transportation Trust Fund, comprising 17.4% of all funding. Revenues are projected to yield $8.1 billion over the six-year period. The tax rate is 6.5 percent (up from 6.0 percent) of fair market value of new and used vehicles, less an allowance for a vehicle trade-in. The sale of rental vehicles, previously exempt from the application of the titling excise tax, are now taxed at a rate of 3.5%. The amount of revenue generated is a function of the number of vehicles sold and vehicle prices. Titling tax revenues largely follow the normal business cycles of auto sales with periods of growth and decline.

- Motor Fuel Tax, historically the largest source of State-sourced revenue, is now the second largest source of State revenue for the Transportation Trust Fund. Revenues are projected to total $7.7 billion over the six-year period after certain statutory deductions. The motor fuel tax rate includes a base rate on gasoline (23.5 cents per gallon) and diesel fuel (24.25 cents per gallon), plus a Consumer Price Index (CPI) component, and a sale and use tax equivalent component. Per State law, the rate is set annually by the Comptroller's Office based on a calculation that includes inflation and average gas prices over the prior year. For FY 2026, the gas tax rate was set at 46.0 cents per gallon, a reduced rate from the prior year. The tax rate is expected to increase moderately over the six-year program; however, moderate but steady declines in the number of gallons sold will offset the revenue impact of this higher tax rate. Gallons of fuel sold have been declining in recent years due to the improved fuel efficiency for all vehicles and the continued adoption of electric vehicle ownership. This trend is expected to continue, averaging a 1% decline in gallons sold annually during the forecast period.
- Revenues from Motor Vehicle Registration and Miscellaneous Motor Vehicle Fees are projected to generate $6.4 billion. These revenues include vehicle registration fees, electric vehicle surcharge fees, vehicle emissions inspection fees, as well as various miscellaneous MVA fees. Historically, vehicle registration in Maryland was paid every two years; however, MVA now offers one- and three-year options, as well as payment plans for periods less than one year. State law requires the MVA to recover between 100 and 105 percent of its expenses from certain fees. To meet this cost recovery requirement, certain MVA fees are modified annually.
- Operating Revenues are projected to provide a six-year total of $3.1 billion. Operating revenues include charges for airport operations, including flight activities, rent and user fees, parking, and concessions ($2.1 billion over the six-year period); transit fares ($678 million); and fees for port terminal operations and rent ($341 million).
- Corporate Income Tax revenues are estimated to be $2.6 billion over the six-year period. Corporate income tax revenues are shared between the Transportation Trust Fund, the Higher Education Investment Fund, and the State's General Fund. In accordance with State law, the share of revenue distributed to the Transportation Trust Fund from the corporate income tax will decline in FY 2028 from 22 percent to 20 percent. The State's Board of Revenue Estimates prepares independent forecasts for this revenue source.
- Beginning in FY 2026 and annually thereafter, a portion of the State's Capital Gain Tax will be distributed to the Transportation Trust Fund. For capital gains amounts over $350,000, a 2% tax will be imposed, and the revenues will be shared between the State's General Fund and the Transportation Trust Fund. Revenues from this source are expected to total $696 million during the six-year period.
- MDOT issues bonds to fund its capital program. Bond issuances are estimated at $3.2 billion during the six-year period. MDOT maintains credit ratings of AAA from Standard and Poor's, Aa1 from Moody's, and AA+ from Fitch Ratings. State law, bond covenants, and MDOT's debt practices place various limits on MDOT's debt issuances. State law limits MDOT's debt outstanding to $5 billion. This debt outstanding limit was increased during the 2025 legislative session as part of the transportation revenue package. In addition, MDOT's bond covenants include two debt coverage ratios – net income and pledged taxes – that must be met. These coverage requirements are forecasted to be met throughout the six-year forecast.
- Federal Aid is projected to contribute $9.5 billion to the operating and capital programs. Most funding received from the federal government for transportation is for capital projects. The Infrastructure Investment and Jobs Act (IIJA) is the current multi-year federal transportation authorization legislation and provides increased levels of funding to established federal formula programs and new discretionary grant programs. Most formula and discretionary grant programs include a funding match requirement. Match requirements vary by program and are typically higher for discretionary grant programs. Federal funds are provided on a reimbursable basis, requiring the use of Transportation Trust Fund dollars to pay expenses until reimbursements are received months, or sometimes years later.

- The Transportation Trust Fund also receives funding from several other funding sources. Beginning January 1, 2026, a Statewide fee on the purchase of new tires is projected to generate $126 million over the six-year period. The Transportation Trust Fund also receives certain sales and use tax revenues. Specifically, a portion of the sales and use tax for rental vehicles and the sales and use tax generated from electric vehicle charging stations. Together, these sales and use tax revenues are projected to total $278 million over the six-year period. Also included are transportation network company fees, which are projected to generate roughly $293 million over the forecast period. These revenues are included in Motor Vehicle Registrations/Misc and Other.
- Other sources of revenue include transfers from the State's General Fund, reimbursements, interest income, and other miscellaneous revenues.

FEDERAL AID ASSUMPTIONS

The current federal authorization is the Infrastructure Investment and Jobs Act (IIJA), which provides a historic level of federal funding for highway, transit, and other multimodal projects. The IIJA was signed by President Biden on November 15, 2021, and provides authorization for FFY 2022 through 2026. Formula funds are currently being distributed based on FFY 2025 appropriations.

This Act is more expansive in scope than prior transportation authorization bills and much of the discretionary funding was both authorized and appropriated in the legislation.

GRANTS

The IIJA provides a significant increase in federal funding for formula and discretionary grants for transit, highways, airport, port, rail, freight and active transportation. Many of these grant programs are annual over the five years covered by IIJA and focus on the following priority areas: repairing/rebuilding infrastructure, climate change mitigation, resilience, equity and safety. To best leverage State transportation dollars, MDOT continues to pursue relevant federal discretionary grants to maximize federal transportation funding opportunities. The State also supports local jurisdictions, non-profits and private sector partners applying for federal grants through technical assistance, letters of support, grant match support, and engagement with Maryland's Federal Delegation.

Highways and Transit

The MDOT's traditional federal funding comes from the Federal Highway Trust Fund, which provides transportation investment for projects in the following areas: highways and transit; multimodal freight; safety and security; system preservation; bike and pedestrian; congestion mitigation; climate change and electric vehicle infrastructure.

The CTP allocates these federal funds to projects in the program based on reasonable assumptions of authorization given the passage of the IIJA. MDOT received $845 million in highway formula funding and $365 million in transit formula funding in FFY 2025 for MDOT projects.

Federal highway program funds authorized and apportioned to the states are subject to annual ceilings, which determine how much of the appropriated money can be obligated in any given year. This ceiling is referred to as obligation authority and is imposed by Congress annually in response to prevailing economic policy. This CTP assumes an obligation authority level of 86.8 percent for FFY 2024 through FFY 2027.

Washington Metropolitan Area Transit Authority — WMATA

In total, WMATA expects to receive $625 million in federal capital funding in FY 2026. This includes $470 million in FTA formula grants and $11.5 million in other federal grants for bus and rail preservation activities. The Passenger Rail Improvement and Investment Act (PRIIA) of 2008 was reauthorized within the IIJA and will provide an additional $143.5 million annually through FY 2030. These funds are subject to annual appropriations and requires that $5 million of the federal funds be directed each year toward the operating budget of WMATA's Office of the Inspector General. WMATA intends to pursue competitive federal grant funding for qualified programs. No such funds are included in WMATA's capital budget until they are awarded.

Overall, WMATA's six-year capital budget is $12.9 billion in FY 2026 through 2031. This includes $6 billion in state/local funding, $2.5 billion in debt (including debt generated from bond sales utilizing the jurisdictional dedicated capital funding), $4 billion from federal sources, and $442 million in prior year funding.

Aviation

The FAA, through the Airport Improvement Program (AIP,) is authorized to provide federal entitlement and discretionary funding for airport projects. MAA estimates annual AIP entitlement funding is $7.4 million for BWI Marshall Airport during the six-year period, which increased as a result of changes to the entitlement calculation provision in the FAA Reauthorization Act of 2024. In addition, MAA receives annually $150,000 for Martin State Airport (MTN), a Non-Hub Reliever Airport.

MAA also competes for various AIP Discretionary Programs each year, which provides additional federal funding opportunities. In addition to the AIP Program, IIJA provided five years (FFY 2022-FFY 2026) of additional federal funding for airport infrastructure. IIJA apportions roughly $25 million annually in entitlement funding to BWI Marshall Airport and $750,000 to Martin State Airport, through the Airport Infrastructure Grant (AIG) program.

In FY 2025, MAA administered $3.5 million in grants to public-use airports across the State through the Statewide Aviation Grant Program. These grants support the traveling public with airport improvement and infrastructure preservation projects, safety equipment acquisitions and environmental compliance activities. This State investment leveraged over $21.3 million in FAA funds and $8.9 million in airport owner investment. This level of combined funding is expected to be $25-$30 million a year for the next six years.

Maryland's Port of Baltimore

In 2024, the U.S. Department of Transportation (USDOT) awarded a $30.9 million Infrastructure for Rebuilding America (INFRA) grant to MPA for the Dundalk Marine Terminal Reconstruction of Berths 11-13, Phase 1 project. This grant will enable the Port to safety reopen Berth 11 to accommodate automobile and High and Heavy Roll On/Roll-Off (RORO) cargo ships.

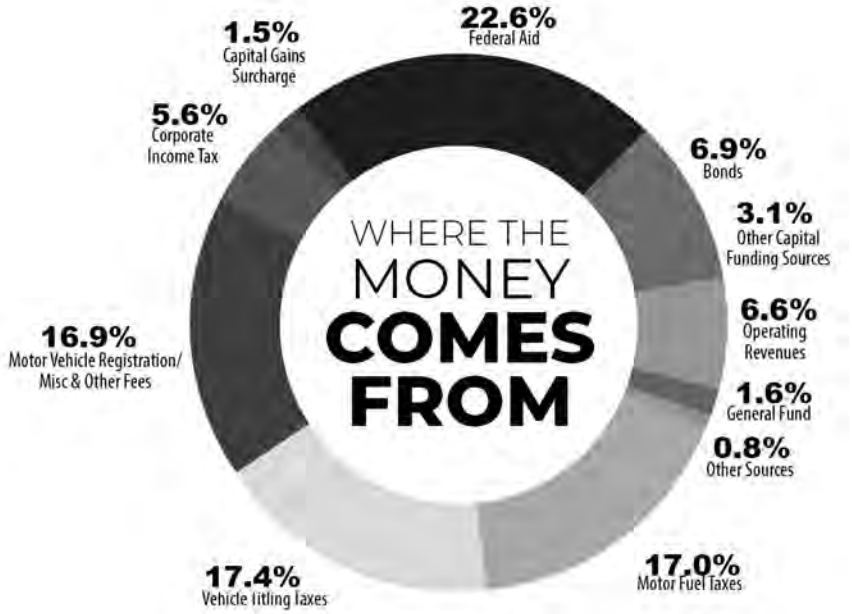

The U.S. Army Corps of Engineers (USACE) allocated $71.9 million in the FY 2025 USACE Work Plan for the Mid-Chesapeake Bay Island Ecosystem Restoration Project (Mid-Bay) Project. Mid-Bay is a partnership project between MPA and the USACE Baltimore District following a 65% federal/35% non-federal cost share. The project is a large-scale environmental restoration effort using beneficial dredged material to rebuild James and Barren Islands in the Chesapeake Bay.

In 2024, MPA was awarded a US Environmental Protection Agency (EPA) Clean Ports grant for $145.6 million. The project will support the procurement of 213 new Zero Emission vehicles and equipment and the associated charging infrastructure to improve air quality surrounding the Port of Baltimore while advancing MPA's mission to become a net zero-emissions facility.

WHERE THE MONEY COMES FROM…

Maryland's transportation system is funded through several dedicated taxes and fees, federal aid, operating revenues, and bond sales, which are assigned to the Transportation Trust Fund. This fund is separate from the State's General Fund, which pays for most other State government operations and programs. MDOT's customers pay user fees for transportation infrastructure and services through motor fuel taxes, vehicle titling taxes, registration fees, rental vehicle and electric vehicle charging sales tax, tire fees, and operating revenues. Operating revenues include transit fares and usage fees generated at the Port of Baltimore, BWI Marshall Airport, and Martin State Airport.

In addition to these State-sourced revenues and federal aid, MDOT utilizes other capital funding sources to fund its capital program. These other capital funding sources include funding from State General Obligation bonds, direct federal aid received by WMATA, Grant Anticipation Revenue Vehicle (GARVEE) bonds, airport revenue bonds, airport passenger facility charge revenues, airport rental car customer facility charge revenues, and local contributions.

In total, MDOT's operating and capital spending from all fund sources, including nonbudgeted capital funding, is $46.8 billion over the six-year period. MDOT continually looks for opportunities to maximize its financial resources by leveraging alternative financing sources such as alternative forms of debt, partnering with local jurisdictions and private entities, and applying for competitive federal grants. Funding programmed in the current six-year program are shown in the Where the Money Comes From pie chart.

WHERE THE MONEY GOES…

The Transportation Trust Fund supports the planning, development, operation, maintenance, construction, and rehabilitation of the State's transportation network, including transit, roads, bridges, ports and airport; transportation grants to local governments; and debt service. Per Maryland law, a portion of certain transportation revenues are directed for General Fund purposes, including environmental, fuel tax collection, and state police programs.

Total operating budget spending over the six-year period is $21 billion. The Transportation Trust Fund is unique in providing funding for two major metropolitan area transit agencies, MTA and WMATA. Nearly two-thirds of operating budget spending is dedicated to transit operations. While Maryland receives immense economic, societal, and environmental benefit from its transit operations, this funding responsibility, and the lack of a dedicated funding source for transit, places significant pressure on the Transportation Trust Fund.

Total debt service over the six-year period is $3.0 billion. Debt service repays the Consolidated Transportation Bonds issued by MDOT to help fund its capital program. Debt service in FY 2026 is $419 million and will grow over the six-year period as additional debt is issued.

After operating costs and debt service, the remaining funding goes toward capital projects. This CTP totals $22.1 billion, including $2.3 billion for capital grants to Maryland's counties, municipalities, and Baltimore City for local transportation needs. The CTP is funded with $10.96 billion from the Transportation Trust Fund, $8.64 billion from federal aid, and $2.51 billion from other capital funding sources.

Planned Capital Expenditures

FINAL FY 2026 - FY 2031 CTP SUMMARY *** ($ Millions)					
MODAL ADMINISTRATIONS	**STATE FUNDS**	**FEDERAL AID**	**OTHER***	**TOTAL**	**PERCENT OF TOTAL**
TSO	252.7	39.6	0.7	293.0	1.3%

Totals	**10,867.5**	**8,644.0**	**2,594.7**	**22,106.2**	**100.0%**

Notes: MDTA excluded and totals $8.44 billion over the 6-year CTP period
Figures may not sum perfectly due to rounding.

* Funds not received through the Transportation Trust Fund. Includes some funds from the Maryland Transportation Authority (MDTA), Special Transportation Project Revenue Bonds, State General Obligation bonds, and federal funds received directly by WMATA.

** Projects using non-trust fund financing sources, such as airport Passenger Facility Charges fees, airport revenue bonds, and airport rental car Customer Facility Charges, are included in the total.

TSO – The Secretary's Office

MVA – Motor Vehicle Administration

MAA – Maryland Aviation Administration

MPA – Maryland Port Administration

MTA – Maryland Transit Administration

WMATA – Washington Metropolitan Area Transit Authority

SHA – State Highway Administration

HUR – Highway User Revenue Capital Grant

*** Starting with the FY 2024 - FY 2029 CTP, MDOT is classifying State General Funds as State funds (in addition to State TTF funds), in prior CTPs these funds were classified as Other funds.

EVALUATING PERFORMANCE

Performance Driven

MDOT is a performance driven organization, assessing transportation system performance through data before making decisions to plan and invest. This is done through the Annual Attainment Report on Transportation System Performance (AR), the annual Managing for Results (MFR) and federal baseline performance measures.

In 2000, the Maryland General Assembly passed a bill requiring MDOT to develop the AR. The main objectives of the AR are to do the following:

- Report on progress toward achieving the goals and objectives in the MTP and the CTP; and
- Establish performance indicators that quantify achievement of these objectives; and set performance targets.

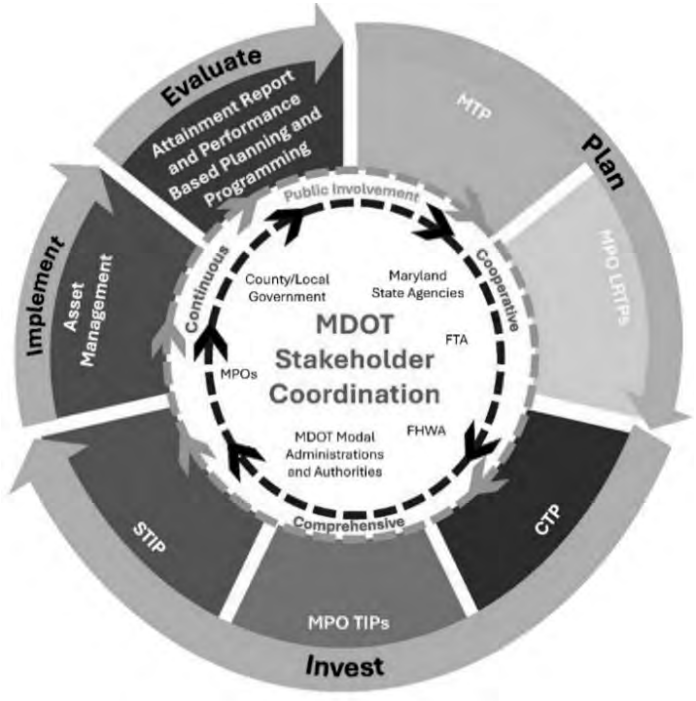

The performance measures evolve and are updated periodically in a collaborative effort between the Secretary's Office, MDOT's modal administrations, and, every 4-5 years, with an AR Advisory Committee. The performance measures were updated in 2023 using input from the AR Advisory Committee, based on the updated 2050 MTP Goals and Objectives (please visit *www.mdot.maryland.gov/ARAC*). The AR shows whether MDOT is achieving its goals and objectives based on performance indicators and helps Maryland citizens assess improvements to its transportation system.

To maintain the highest standards that MDOT's customers expect, MDOT must understand where it is succeeding and where extra effort is needed toward achieving critical policy goals. The AR provides the performance measure information needed to make those decisions. The annual CTP outlines where MDOT will be making investments in the coming years on the State's multi-modal transportation system. The AR demonstrates the success of those investments and where improvements can continue to be made to ensure that taxpayer dollars are having the greatest impact in improving the lives of Marylanders.

Since 1996, MDOT also has participated in the State's MFR effort as part of the budget process. MFR is a strategic planning, performance measurement, and budgeting process that emphasizes use of resources to achieve measurable results, accountability, efficiency, and continuous improvement in state government programs.

Through coordination with MPOs and adjacent state DOTs, MDOT initiated baseline performance measures and targets for the MAP-21/FAST Act federal safety, infrastructure condition, and system performance measures. These system performance measures are described in the System Performance Report included with the 2050 MTP.

MDOT will continue to work with USDOT, the regional MPOs and other stakeholders to demonstrate the effectiveness of MDOT's programs.

HOW TO READ THIS DOCUMENT

For each major project, there is a Project Information Form (PIF). Each PIF contains a description of the project, its status, its justification, its compliance status with smart growth, and a brief explanation of how it fits with the goals of the MTP. It also shows any significant change in the project since the previous year's CTP, as well as the funding for the project during the six-year cycle. The information in each PIF is meant to provide a general description of the project along with some specifics such as alignments, status of environmental permitting or alternatives under study.

Funding Phases

Planning – Once a proposal is funded for project planning, detailed studies and analyses are conducted to evaluate the need for the project, to establish the scope of improvements and to obtain environmental approvals.

Engineering – Engineering projects involve detailed environmental studies and preliminary and final design. Having been through a detailed analysis based on the information from the Project Planning phase, these projects are candidates for future addition to the Construction Program.

Right-of-Way – This funding is to provide the necessary land for the project or to protect corridors for future projects.

Utilities – This funding is used to pay for utility relocations that are required by the project that are the responsibility of MDOT.

Construction – This last stage includes the costs of building the designed facility.

Total – This is the sum of any funding shown for Planning, Engineering, Right-of-Way, and Construction.

Federal-Aid – This is the amount of the total that will utilize federal funding.

Special – This is the funding coming from the Transportation Trust Fund, including funding from the State's General Fund that is transferred to the TTF.

Other – This is funding from sources that are neither federal nor special. This funding could be from counties, General Obligation bonds, airport bond issuances or private entities.

Construction does not begin until a project receives necessary environmental permits, the State meets air and water quality requirements, and the contracts are bid. PIFs can include specific facilities and corridor studies that examine multimodal solutions to transportation needs.

The CTP also contains information on minor projects. These projects are smaller in scope and cost.

FY 2025 MAJOR PROJECT COMPLETIONS

The Department completed 15 major projects in FY 2025, at a total cost of $237.3 million. These projects are listed below:

PROJECT DESCRIPTION	TOTAL COST ($ MILLIONS)
Maryland Transportation Authority	
I-95 Fort McHenry Tunnel - Rehabilitate Substructure and Superstructure of Various Bridges on I-95 in Baltimore City	33.1
I-95 Fort McHenry Tunnel - Rehabilitate Vent Fans	46.3
Maryland Transit Administration	
Regional Transit Plan Corridor Studies	4.9
MARC Laurel Platform Replacement	2.8
I-495/I-270 Corridor Transit Investments Program	0.3
MARC Stations and Service Studies	6.3
State Highway Administration	
MD 24, Rocks Road - Slope repair and resurfacing from 900' south of Sharon Road to 1700' north of Ferncliff Lane	10.5
MD 185, Connecticut Ave., MD 185 at Jones Bridge (Phase 3) - Intersection improvements	22.7
MD 75, Green Valley Road - Bridge rehabilitation over I-70	7.3
MD 382, Croom Road - Bridge replacement over Charles Branch	6.1
I-70, Eisenhower Memorial Highway - Bridge replacement on I-70 over Crystal Falls Drive	24.0
I-95 and I-695, Baltimore Beltway - Bridge deck overlays at I-95/I-695 Interchange	41.8
MD 91, Emory Road - Bridge replacements over N. Branch of Patapsco River and Maryland Midland RR	18.3
MD 17, Burkittsville Middletown Road - Bridge replacement over Middle Creek	4.5
MD 42, Friendsville Road - Bridge replacement over Buffalo Run	8.3
TOTAL	**237.3**

AWARDS

Highlights of projects awarded by the Department during FY 2025 are listed below:

	PROJECT DESCRIPTION	TOTAL COST ($ MILLIONS)
MAA	DX/DY Apron Reconstruction at BWI Marshall Airport	31.6
MAA	Expanded Group V Aircraft Remote Parking at BWI Marshall Airport	4.2
MAA	Concourse E Baggage Handling System (BHS) Expansion at BWI Marshall Airport	36.0
MAA	Checkpoint D Expansion at BWI Marshall Airport	5.5
MAA	Air Traffic Control Tower at Martin State Airport	22.2
MAA	Residential Sound Insulation Program Phase 2 at BWI Marshall Airport	5.5
MAA	Concourse DE Patio Leak Repairs at BWI Marshall Airport	0.2
MDTA	I-95 ETL NBE MD 24 to Bynum Run (PIN 2492)	66.3
MDTA	I-95 ETL NB Transition - MD 24 Interchange Reconstruction (PIN 2493)	286.9
MDTA	ICC & JFK Data Center Hardware Replacement (PIN 2633)	2.0
MDTA	BB On-Call Structural Repairs and Modification (PIN 2593)	25.7
MDTA	FMT Facility-wide Zone Paint Program (PIN 0217)	26.5
MDTA	Police Headquarters Building Envelope Renovations (PIN 2438)	3.2
MDTA	On-Call Signs, Sign Lights, and Sign Structures (PIN 2630)	6.3
MDTA	Rehabilitate FMT Area-Wide Lighting (PIN 0200)	11.3
MDTA	Key Bridge Rebuild (PIN 2655)	1,702.0

AWARDS

	PROJECT DESCRIPTION	TOTAL COST ($ MILLIONS)
SHA	MD 413 - Bicycle pedestrian improvements from 1,000 ft. north of Big Annemessex River to south of US 13	7.5
SHA	National Electric Vehicle Implementation - Round 1	35.0
SHA	Guard rail improvements at various locations in Carroll, Frederick and Howard Counties	6.1
SHA	MD 173 - Sidewalk improvements from Duvall Highway to Kenton Road	3.1
SHA	Roadway patching at various locations in Dorchester, Somerset, Wicomico and Worcester Counties	3.4
SHA	MD 650 - Geometric Improvements from North Hampton Drive to Powder Mill Road	10.8
SHA	MD 140 - Smart signal systemization on MD 140	3.3
SHA	Resurfacing at various locations on NHS in Baltimore and Harford Counties	8.3
SHA	Signalization improvements at various locations in Cecil, Caroline, Dorchester, Kent, Queen Annes, Somerset, Talbot, Wicomico and Worcester Counties	8.0
SHA	Resurfacing at various locations in St Mary's County	3.7
SHA	Resurfacing at various locations in Charles County	2.5
SHA	US 40 - Bridge rehabilitation over Conococheague Creek	21.6
	Total	2,348.8

MAJOR BRIDGE PROJECTS

The following is a list of major bridge reconstruction, rehabilitation and replacement projects. New highway bridges that are part of a highway project are not included. Detailed information for each can be found on the Major PIFs as referenced.

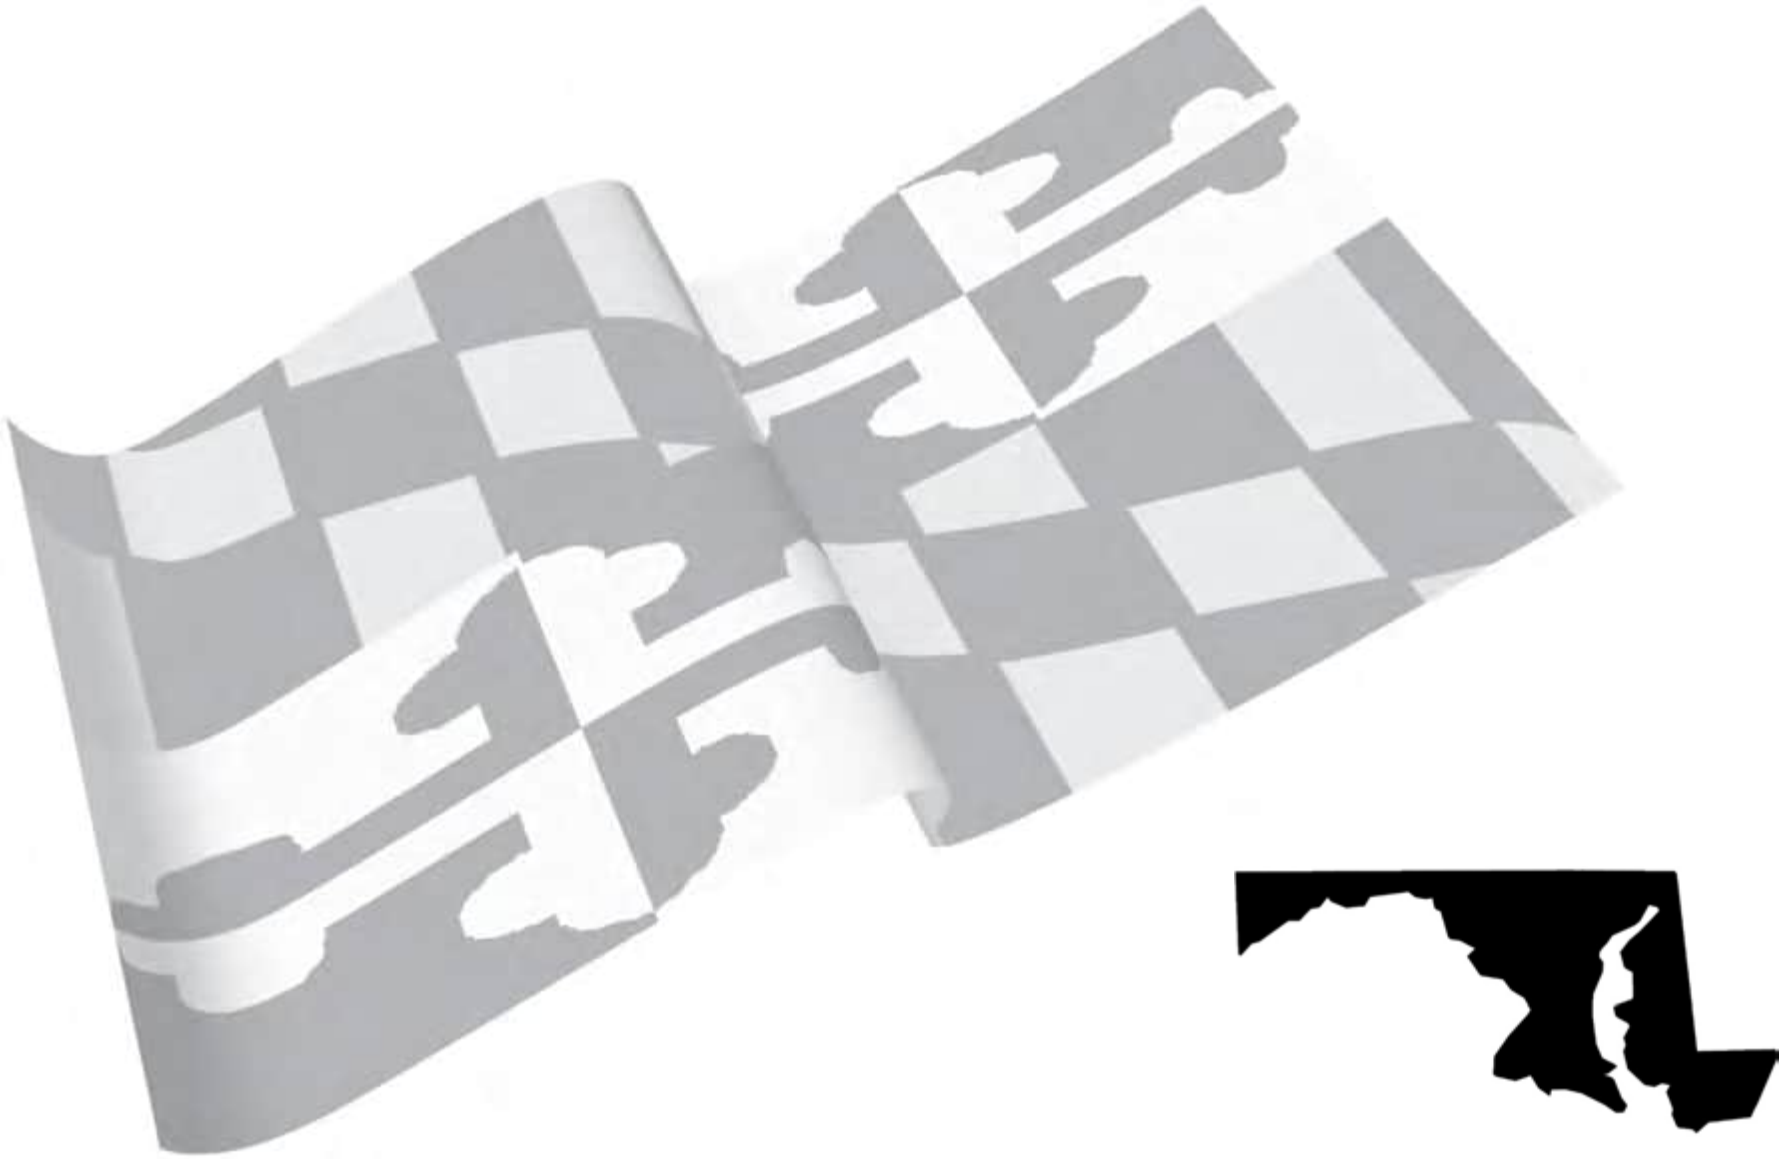

PROGRAM/PROJECT	DESCRIPTION	PIF LINE #
Allegany		
Interstate Construction Program		
I-68 Cumberland Viaduct	Deck replacement and rehabilitation of Bridge No. 0109600 (the Cumberland Viaduct).	1
Secondary Construction Program		
MD 144, Naves Cross Road	Replacement of Bridge No. 0109100 on MD 144 over Evitts Creek.	3
MD 51, Old Town Road	Replacement of Bridge No. 0104700 on MD 51 over Town Creek.	2
Baltimore County		
Interstate Construction Program		
I-695, Baltimore Beltway	Replacement of Bridge No. 0317400 on Putty Hill Avenue over I-695.	4
Carroll		
Secondary Construction Program		
MD 26, Liberty Road	Bridge Deck Replacement of Bridge Nos. 0600100 and 0600200 over Liberty Reservoir.	1
Charles		
Secondary Construction Program		
MD 225, Hawthorne Road	Replacement of Bridge No. 0802100 on MD225 over Mattawoman Creek.	1
Frederick		
Secondary Construction Program		
MD 77, Rocky Ridge Road	Replacement of Bridge No. 1005400 on MD 77 over Beaver Branch.	5

MAJOR BRIDGE PROJECTS

PROGRAM/PROJECT	DESCRIPTION	PIF LINE #
Garrett		
Secondary Construction Program		
US 219, Garrett Highway	Replacement of Bridge No. 1102400 over the Youghiogheny River (0.04 miles).	1
Harford		
Secondary Construction Program		
US 1, Belair Road	Replacement of Bridge No. 1206600 on US 1 over Tollgate Road and Bridge No. 1206500 on US 1 over Winters Run.	2
Prince George's		
Interstate Construction Program		
I-95, Capital Beltway	Replacement of Bridge Nos. 1615905 and 1615906 on I-495 over MD 4. This is a Project Labor Agreement (PLA) candidate project.	2
Primary Construction Program		
MD 4, Pennsylvania Avenue and MD 717, Water Street	Replacement of Bridge Nos. 1609903 and 1609904 on MD 4 over MD 717, Bridge Nos. 1610803 and 1610804 on MD 4 over Race Track Road, and Bridge No. 1610900 on MD 717 over Western Branch. This is a Project Labor Agreement (PLA) candidate project.	4
Secondary Construction Program		
MU 227, Riverdale Road	Replacement of Bridge No. 1609000 on Riverdale Road over Northeast Branch Anacostia River.	6
Queen Anne's		
Primary Construction Program		
US 301, Blue Star Memorial Highway	Replacement of Bridge No. 1701102 on US 301 Southbound over MD 290.	2

MAJOR BRIDGE PROJECTS

PROGRAM/PROJECT	DESCRIPTION	PIF LINE #
Washington		
Interstate Construction Program		
I-70, Eisenhower Highway	Replacement of Dual Bridge Nos. 2111503 and 2111504 on I-70 over MD 632.	5
I-70, Eisenhower Memorial Highway	Deck replacement and rehabilitation of Bridge Nos. 2107303 and 2114100 on I-70 over I-81 and Bridge Nos. 2111303 and 2111304 on I-70 over Norfolk Southern Railroad. Replacement of Bridge Nos. 2111203 and 2111204 on I-70 over US 11.	3
I-70, Eisenhower Memorial Highway	Replacement of Bridge Nos. 2110203 and 21102014 on I-70 over St. Paul Road.	4
Secondary Construction Program		
US 40, National Pike	Rehabilitation of Bridge No. 2101200 over Conococheague Creek.	7
Wicomico		
Primary Construction Program		
US 13 Business, Salisbury Boulevard	Replacement of Bridge No. 2200400 over East Branch Wicomico River.	1
Worcester		
Primary Development & Evaluation Program		
US 50, Ocean Gateway	Study to replace Bridge No. 2300700 over the Sinepuxent Bay. The study investigated options to eliminate/upgrade the draw span structure. New bridge/roadway improvements to include median and sidewalks where appropriate.	2

MARYLAND DEPARTMENT OF TRANSPORTATION

BICYCLE & PEDESTRIAN PROJECTS

BICYCLE AND PEDESTRIAN RELATED PROJECTS

The Maryland Department of Transportation has various funding programs for bicycle and pedestrian programs. Program funds are used for both design and construction. Several programs are administered as competitive grant programs, in which available funds are awarded to projects managed by local governments and other partners.

PROGRAM NAME	PROJECTS CURRENTLY FUNDED FOR CONSTRUCTION	FY2026-2031 CTP BIKE/PED FUNDING^
State Highway Administration		
ADA Program	33,254,791	55,541,972
Retrofit Bicycle Program	34,286,546	70,188,388
Neighborhood Conservation*	1,433,011	38,492,843
Primary/ Secondary Program**	6,265,000	6,265,000
Retrofit Sidewalk Program	99,930,957	240,614,317
Recreational Trails Program***	19,857,848	25,026,503
Transportation Alternatives Program***	24,818,558	81,114,000
The Secretary's Office		
Kim Lamphier Bikeways Network Program	14,149,517	23,649,517
Total	**233,996,228**	**540,892,540**

^ Includes planning, design and construction funds

* Funding is estimated as a portion of total program funding based on recent bike/ped expenditures

** Additional funding is expected as major projects advance to construction and bicycle and pedestrian costs are itemized

*** Funding is estimated based on projected federal appropriations and historic program spending on bicycle and pedestrian projects; see typical awards on pages below

BICYCLE AND PEDESTRIAN RELATED PROJECTS

PROJECT NAME	MILES	ESTIMATED BIKE/PED COST

MARYLAND DEPARTMENT OF TRANSPORTATION

MULTIMODAL FREIGHT PROJECTS

MARYLAND DEPARTMENT OF TRANSPORTATION

MULTIMODAL FREIGHT PROJECTS

Maryland's transportation system is essential to the State's economy. An efficient transportation system provides a competitive advantage to businesses in a regional, national and global marketplace. Transportation directly impacts the viability of a region as a place that people want to live, work and raise families, all critical to keep Maryland moving.

Maryland's economy benefits when goods movement is safe, efficient, and reliable over the State's freight network. The COVID-19 global pandemic and the tragic collapse of the Francis Scott Key bridge illustrated the importance of maintaining the critical supply chain network, to keep goods moving and on the shelves, to ensure everyone has access to essential needs, and for our frontline workers who need essential supplies. The Maryland Department of Transportation (MDOT) continues to prioritize its freight infrastructure to ensure that the network of highways, railways, waterways, and airports are ready to handle the current freight movement and the anticipated growth of goods movement.

The MDOT keeps Maryland moving, by implementing multimodal freight mobility solutions, advancing supply chains through transportation and technology improvements, and expanding freight transportation options throughout the State. Investing in freight related projects will help improve transportation and logistics for over 82,000 freight industry businesses to continue to employ about 1.5 million people and contribute more than $123 billion annually to the State's economy. Annually, Maryland's freight system moves in excess of 305 million tons of freight, valued at $390 billion. From 2022 to 2050, freight moved annually in Maryland by trucks is expected to increase 54 percent by weight and 98 percent by value (inflation-adjusted dollars).

How is Maryland accommodating goods movement today?

The MDOT is advancing multiple plans and programs which include freight projects in various stages of development from concept to construction. These projects include highway, port, air and rail improvements, maintenance, capacity expansion, and operational

projects such as Intelligent Transportation Systems (ITS) and Transportation System Management Operations (TSMO) applications. The highway projects help improve safety, protect roadways from truck damage, improve access and mobility for freight vehicles, and help increase safe havens for truck drivers to obtain required rest. Investments in landside improvements and harbor dredging at the Port of Baltimore keep the inbound and outbound supply chains flowing. Partnerships with short line, switching, and Class I railroads are beneficial for increasing capacity and improving operations to provide alternatives for Maryland shippers. Major rail tunnel and rail bridge projects along the Amtrak Northeast Corridor will not only improve travel for passengers but also unlock freight bottlenecks for Class One railroad freight traffic.

Public Partnerships and Megaprojects Propel Movement of Goods into the Future

The Port of Baltimore is fully back open to business and past and future investments will continue to make intermodal transportation crucial to the economic vitality of Maryland. The Port and the entire supply chain network will continue to benefit from key partnerships with the private sector that support essential goods movement. The Public Private Partnership (P3) agreement with Ports America Chesapeake continues to solidify the Port's position as Maryland's economic engine. The re-construction of the Francis Scott Key Bridge will restore the critical travel and goods movement link to and from the Port and beyond.

To accommodate the increasing number of ultra-large container vessels calling on the Port, Ports America Chesapeake and the MPA completed Seagirt Berth 3 Modernization P3 project in August 2023; adding a second 50-foot-deep berth and installing four new Neo-Panamax container cranes, additional yard equipment and dredging to widen the entrance channel and turning basin. Upgrades to the terminal infrastructure, hardware, and cargo handling equipment are also planned to service the larger vessels. The Berth 3 Modernization project was made possible in part by a $6.6 million grant from the USDOT Better Utilizing Investments to Leverage Development (BUILD) Grant program. In the past year, Ports America Chesapeake has added 15 new RTG's into service, resulting in a 3-minute reduction of transaction times since June 2023, and helping achieve an average import delivery rate of 1,370 per day as compared to 1,253 a day previously. They have also completed improvements to their inbound lanes on Broening Highway, increasing their available lanes by 40 percent; improving efficiencies and allowing for single stop transactions.

Together, with support from USDOT and CSX Transportation, the Maryland Port Administration heads towards substantial completion of the 130-year-old Howard Street Tunnel and improving the vertical clearance at 22 bridges between Baltimore and Philadelphia to create a double-stack rail corridor to and from the Port of Baltimore and the entire East Coast. This project unlocks immeasurable potential for Maryland's freight rail network and increases Baltimore's already well-positioned reach into the American heartland.

In 2026, MDOT will continue efforts towards the establishment of a Public Private Partnership (P3) for the long-term operations, maintenance, and state of good repair of the state-owned freight railroad lines on the Eastern Shore. This partnership will increase opportunities for job growth and economic growth for Eastern Shore Counties and the rail-depending customers along these lines.

In 2026, MDOT will initiate an update to the Maryland Statewide Freight Plan that contains specific policy recommendations and provides guidance for development of freight programs at the Port, on rails, highways, and in the air. MDOT will partner with carriers, shippers, and freight network users to implement the plan strategies so they continue to work for the entire transportation system and the state as a whole. The Plan is a statewide guide for selecting multimodal transportation projects that impact freight. This is important for State funding priorities and to help Maryland's ability to meet the national freight goals and requirements established in federal surface transportation authorizations. The Freight Plan vision is that "Freight travels freely and safely through a modern, resilient, and interconnected multimodal network contributing to sustainable economic viability and growth for Maryland businesses and communities." We continue to work with our State Freight Advisory Committee to ensure that we partner with all our stakeholders on freight projects, policies and programs.

The CTP includes $5 million, over 5 years, for the first ever Maryland Statewide Rail Grant Program. Rail transportation continues to be a safe and environmentally friendly way to move freight in Maryland. The grant program offers state grant assistance to local jurisdictions, railroads, businesses and commercial interests, and other key agencies to help preserve railroad corridors, support economic development, and foster sustainability and innovative technologies. Projects supported by the initial round of awards will

support rail rehabilitation, resilience efforts, corridor preservation and improvements for rail-served businesses.

In addition to these efforts, the MDOT is working to plan and design technological improvements that support emerging freight innovations, which will support Maryland's position in the global economy. Deployment of ITS and TSMO applications will leverage big data to send important safety, routing and connection information to freight vehicles, as well as inform on truck parking availability. MDOT is working to create a technology ecosystem today and in the future that will ensure safe, efficient, and connected freight mobility. As part of this, MDOT has begun development of connected-vehicle data driven dashboards to monitor freight mobility and truck parking, which can be used in TSMO applications to improve system operations.

The list below highlights projects that have significant freight impacts and are funded for planning, design, and construction activities in the Consolidated Transportation Program, for approximately $2.3 billion. The list also identifies costs for Port projects by marine terminal and costs for highway and rail freight related projects in each county. Additional information on individual projects can be found under the respective sections later in this document.

MULTIMODAL FREIGHT REPORT
($ in 000'S)

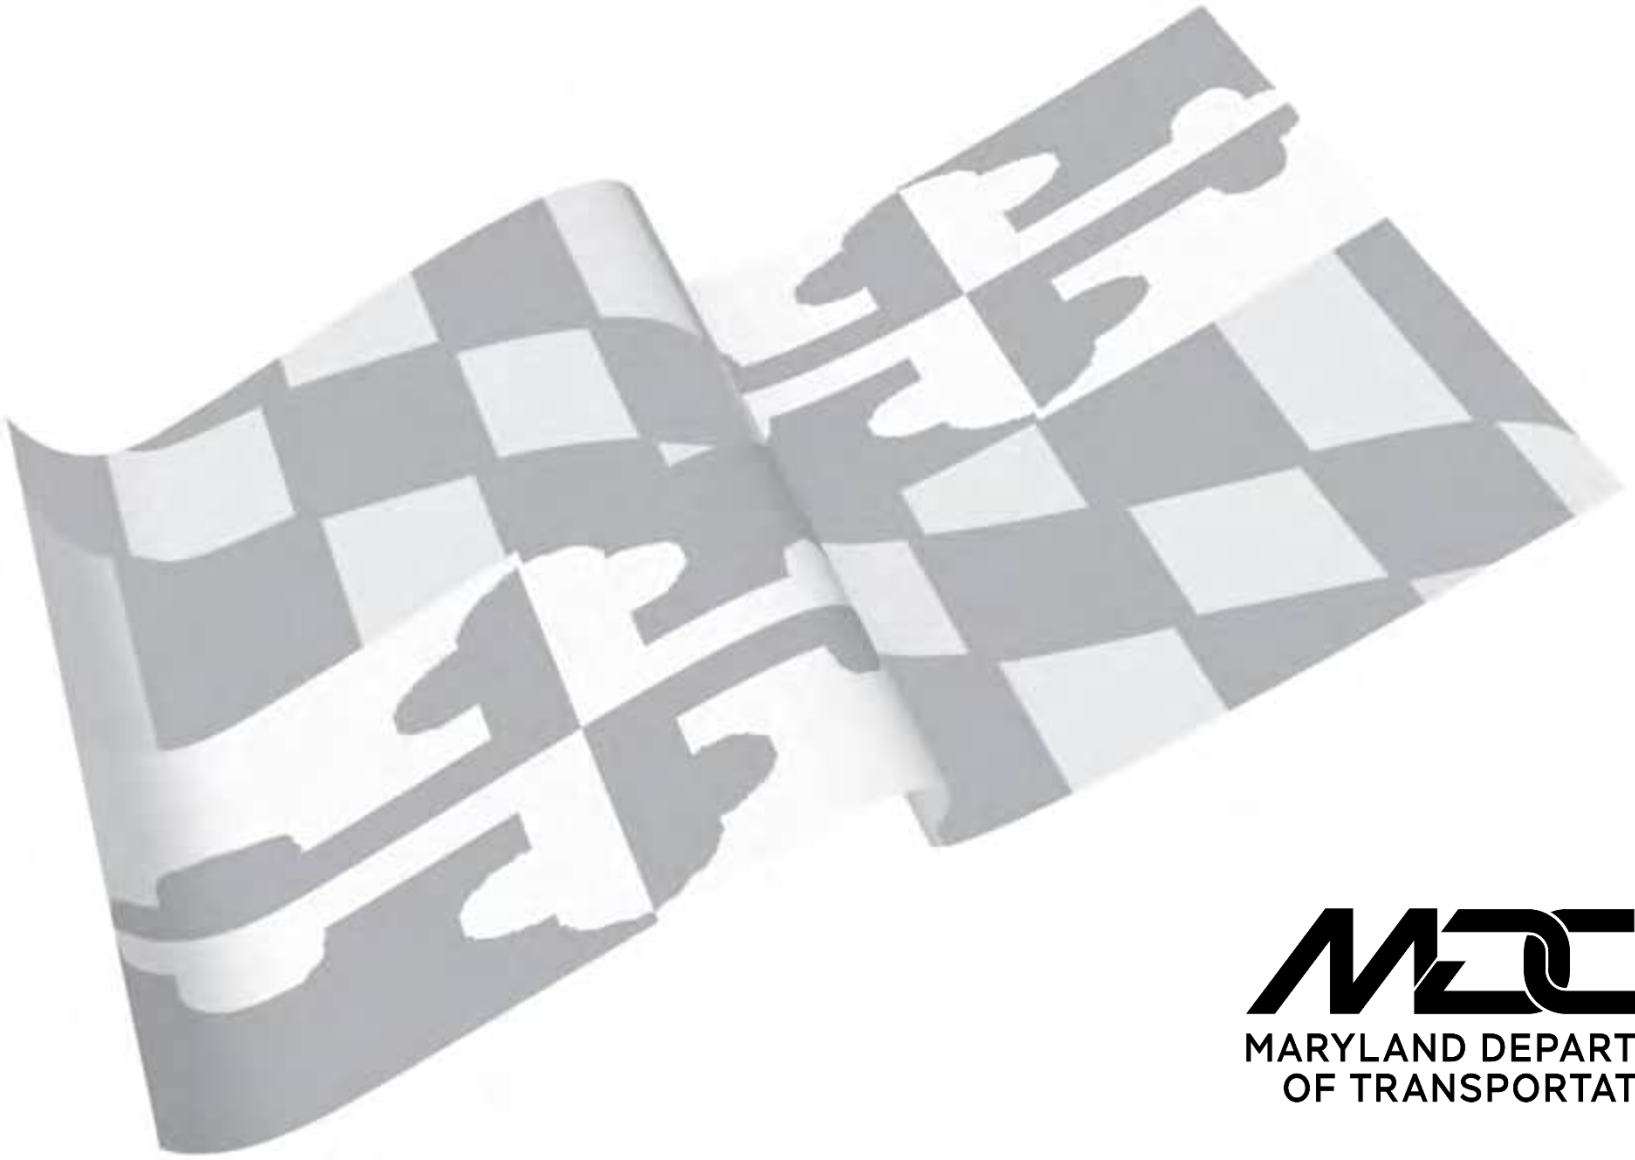

PROJECT NAME		SIX YEAR TOTAL
Maryland Port Administration		
Dredged Material Placement and Monitoring	$	59,378
Chrome Ore Processing Residue Remediation (COPR)	$	34,943
Cox Creek Dredged Material Containment Facility Expansion and Related Projects	$	67,341
Howard Street Tunnel Project	$	250,857
Seagirt Marine Terminal Modernization - Loop Channel Improvements	$	9,406

PROJECT: Transportation Alternatives Program

DESCRIPTION: Maryland's Transportation Alternatives Program (TAP) awards grant funding to projects that enhance mobility and accessibility, as well as the cultural, aesthetic, historic, and environmental aspects of Maryland's transportation network. TAP funding creates projects that support bicycle and pedestrian facilities, restore historic transportation buildings, convert abandoned railway corridors to pedestrian trails and mitigate highway runoff.

PURPOSE & NEED SUMMARY STATEMENT: TAP provides Transportation Alternative Set-Aside from the Surface Transportation Block Grant Program under the Infrastructure Investment and Jobs Act (IIJA). These local-state partnership projects are important to providing safer and connecting transportation options for all users of the transportation system. The program includes eligibility of projects for the Safe Routes to School (SRTS) and Recreational Trails Programs (RTP).

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Transportation Alternatives projects will serve communities, improve system quality, and enhance safety by enhancing pedestrian and bicycle mobility. This project also supports environmental improvements such as treatment of roadway runoff, tree planting, and preservation of historic transportation buildings.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

STIP REFERENCE #State6

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: FY 31 funding added and this PIF now reflects the federal funding supporting the Transportation Alternatives Program.

PROJECT: Transportation Emission Reduction Program

DESCRIPTION: The object of the program is the reduction of traffic congestion and/or mobile source emissions. This program will incorporate and expand proven strategies to reduce emissions in Maryland's air quality non-attainment areas.

PURPOSE & NEED SUMMARY STATEMENT: The Federal Clean Air Act requires transportation programs to remain in step with State air quality plans. Fifteen counties are in air quality non-attainment or maintenance status. This program will help address these issues by implementing projects that will achieve measurable reductions in mobile source emissions. These reductions are important to the annual air quality conformity analysis for the Department's transportation plans and programs and help reduce Greenhouse Gas emissions.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [ ] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION:

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Increase of $23M due to increased federalization of the commuter connections program, including significant transportation demand management incentives for areas affected by the Key Bridge collapse.

TSO0054, TSO0055, TSO0057, TSO0062, TSO0115, TSO0159, TSO0160, TSOPRJ000426

PROJECT: Kim Lamphier Bikeways Network Program

DESCRIPTION: Program funds are made available to local jurisdictions and other eligible entities for projects that improve bicycle network access and advance the goals outlined in the 2050 Maryland Bicycle and Pedestrian Master Plan.

PURPOSE & NEED SUMMARY STATEMENT: The program helps implement MDOT's Bicycle and Pedestrian Master Plan by filling priority missing links in the statewide bicycling network, and improving connections to transit, work, schools, shopping and other destinations. By creating a more integrated and safe network of bicycle facilities, the program also helps advance the Maryland Transportation Plan's goals of economic development and environmental stewardship, while strengthening the health and quality of life for local communities.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION:

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: The Kim Lamphier Bikeways Network Program has helped local jurisdictions complete 160 bicycle transportation projects over 14 grant cycles. With 37 active projects, MDOT has awarded additional projects for the FY25 grant cycle. MDOT is able to advance this grant program because of the funding provided by the Governor and Legislature in the last session.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: $2M added to support program in FY31.

Fund Program # 00434

PROJECT: Transit Oriented Development Planning & Implementation

DESCRIPTION: Program funds are used for transit-oriented development (TOD) planning and feasibility studies as well as related policy and transactional support. The State of Maryland has also contributed to other important TOD efforts in the State such as Reisterstown Plaza Metro, Bowie State, and Odenton Marc Station. MDOT is using $1.2M for initial, key TOD initiatives. This includes the Penn Line TOD Strategy which will develop station area plans for strategic MARC stations on the Penn Line and the Baltimore Investment Study which will identify investment and incentive programs to encourage significant TOD in the Baltimore metro area.

PURPOSE & NEED SUMMARY STATEMENT: These expenditures will be used to understand feasibility of sites, public investment need, overall planning strategies, transactions and overall execution of TOD projects. It also includes supporting partnerships with local jurisdictions in pursuing TOD around adjacent transit assets. The overall goal is to plan, implement and support transit-oriented development around state transit assets, whether owned or invested, to achieve higher ridership, increase tax revenue and jobs, meet environmental goals and support local community development.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [ ] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

EXPLANATION: TOD will encourage dense development which will provide connected employment and enhanced tax revenue opportunities around transit hubs while also increasing transit ridership. This development will create better transportation choice by developing mixed-use communities around transit that are fully connected by transit and active mobility. TOD will support environmental stewardship by increasing the supply of housing close to transit which will help to reduce emissions.

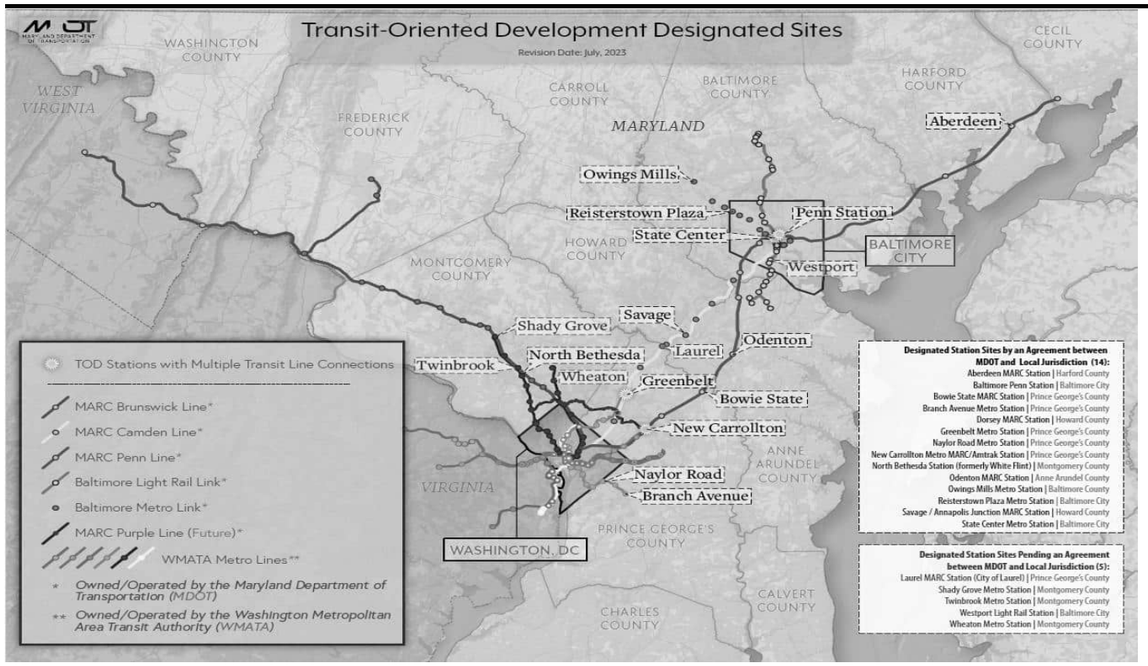

STATUS: The first round of initiatives for the State's TOD program includes the Penn Line Initiative and the Baltimore Investment Strategy Initiative. Upcoming work includes developing a parking policy framework as well as transactional support for ongoing joint developments. Out years include site feasibility studies and TOD planning.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: No significant changes.

PROJECT: Transit Oriented Development Grant Program

DESCRIPTION: The Transit-Oriented Development (TOD) Capital Grant and Revolving Loan Fund is a special, non-lapsing fund; requiring interest earnings of the Fund to be credited to the Fund; authorizing MDOT to use the fund to provide financial assistance to local jurisdictions to be used for certain purposes within a TOD; and generally relating to TOD within the State.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of the fund is to promote the equitable and inclusive development of TOD developments throughout the State. The fund aims to maximize local-state partnerships for the potential of land proximate to transit in a manner that results in quality-of-life improvements, increased ridership, and expanded access to resources, such as health, education, and employment.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [ ] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: This fund emphasizes a preference toward supporting projects that enhance access to transit for low-income and minority residents; enhance access to transit in areas with affordable housing and a diversity of job and educational opportunities; or encourage development around underdeveloped and underutilized transit stations in transit-oriented developments. This serves communities and supports the economy, while also promoting environmental stewardship by supporting transportation options that reduce emissions.

PROJECT: MDOT Asset Management Program

DESCRIPTION: The MDOT Asset Management Program is an integrated set of processes to minimize the lifecycle costs of infrastructure assets, at an acceptable level of risk, while continuously delivering established levels of service.

PURPOSE & NEED SUMMARY STATEMENT: Asset management (AM) practices are integrated through processes and procedures to capture, maintain, and leverage asset information and performance data. The MDOT AM Program navigates federal and state legislative requirements, guidance from Maryland's Departments of Budget and Management and General Services, and industry best practices. The MDOT AM program supports capital planning, risk management, performance management, the Maryland Transportation Plan, the Attainment Report, and the Consolidated Transportation Program. Funding details provided represent TSO's capital expenditures for the MDOT AM Program. This is not inclusive of modal administration capital needs, state of good repair, or specific AM functions.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: MDOT's Asset Management Program is a holistic approach of balancing costs, opportunities, and risks against the desired performance of assets. Implementing asset management principles and policies into an organization provide for improved financial performance, informed and defensible asset investment decisions, managed risk, improved customer service, and organizational sustainability.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: MDOT is completing its new tactical asset management plan which supports asset management human capital, finance/procurement, and technology. The new enterprise asset management system, Maximo Application Suite, went live the last week of August.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: No significant changes.

PROJECT: MDOT RSTARS Refactoring Project

DESCRIPTION: The project is to modernize RSTARS for MDOT into a modern programing language and database, migrate the applications from the current legacy mainframe hardware hosted in the MDOT server environment, and implement modern enhancements to the user experience.

PURPOSE & NEED SUMMARY STATEMENT: RSTARS is the Department's financial accounting system which supports agency-based accounting, billing, purchasing, and asset management to the MDOT modal administrations. Modernizing RSTARS will enhance the user experience, improve system and process functionality, lessen the number of applications on the mainframe and allow for future integration with systems.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project will enhance the system quality and efficiency of RSTARS.

PROJECT: ADA Street and Sidewalk Improvements in Baltimore City

DESCRIPTION: Grant for Baltimore City to improve streets and sidewalks to comply with Americans with Disabilities Act. Enable Baltimore City to construct infrastructure improvements to create an interconnected, multi-modal network along corridors city-wide to ensure the safe and accessible movement of motorists, freight carriers, transit users, bicyclists, and pedestrians. Consistent with the City of Baltimore's ADA Policy, Complete Streets Design Manual, and Vision Zero plan.

PURPOSE & NEED SUMMARY STATEMENT: Support transportation infrastructure projects within Baltimore City including improvements to sidewalks, curb ramps, pedestrian signals, pavement markings, asset inventory and tracking to provide access to multimodal transportation and transit, including the following: ADA compliant upgrades to enhance pedestrian facilities, sidewalks, curb ramps, crosswalks, bus and transit stops, traffic and pedestrian signal improvements/enhancements, and the removal of obstructions in the pedestrian way.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: ADA Street and Sidewalk Improvements in Baltimore City will serve communities by improving accessibility and enhance safety for pedestrians.

PROJECT: MDOT Statewide Rail Trespass Study

DESCRIPTION: The Statewide Rail Trespass Study will review incident data, collect stakeholder input, prioritize hot spots and develop conceptual countermeasures for rail trespass issues statewide.

PURPOSE & NEED SUMMARY STATEMENT: The Federal Railroad Administration's (FRA) online Trespass and Suicide and Dashboard identifies seventy-three (73) reported injuries and eighty-nine (89) reported fatalities related to railroad trespassing in Maryland between 2013 - 2022. The study will investigate best practices and recommend measures to reduce trespasser fatalities on Maryland's rail network.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [ ] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Trespassing on railroad property in Maryland leads to more injuries and fatalities than incidents at highway-rail grade crossings. The Study will serve as an early step in a comprehensive statewide approach toward reducing injuries and fatalities related to trespassing on active railroad property in Maryland in pursuit of MDOT's goal of providing a safe transportation network.

PROJECT: MDOT Solar Implementation

DESCRIPTION: Install a portfolio of ground-mounted, rooftop, and parking lot canopy solar arrays on thirty-five MDOT sites. This project is in collaboration with the Maryland Energy Administration (MEA) to support meeting the State's Renewable Energy Portfolio Standard (RPS), and support MDOT's internal goal of developing 100 Megawatts (MW) of solar energy on its properties.

PURPOSE & NEED SUMMARY STATEMENT: The State of Maryland has an RPS, with a carve-out for mandatory solar generation of 14.5% in 2028 and later (COMAR 20.61).

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [ ] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: With the financial support of MEA, MDOT will accelerate and increase local Tier 1 solar energy production to help Maryland reach the RPS target. This includes developing solar in census tracts meeting the requirements set forth in Chapter 98 of the 2023 Laws of Maryland (HB550). MDOT will achieve reduced operating costs by spending less on solar-generated electricity than on traditional utility-generated electricity. This project supports an improvement in air quality, an increase in local jobs, and a decrease in money spent on utilities.

PROJECT: Enterprise IT Capital Program - TSO OTTS

DESCRIPTION: This is the MDOT Enterprise Information Technology (IT) Program. This program supports IT projects which enhance MDOT's information technology infrastructure and strategy, including cybersecurity, innovation, IT oversight responsibilities, hardware/software upgrades, and end-of-life replacements.

PURPOSE & NEED SUMMARY STATEMENT: These reflected capital funds contribute to the MDOT Enterprise Information Technology Program.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Information technology supports the MDOT enterprise. Information technology enhances MDOT's ability to achieve its goals by supporting specific transportation projects and information technology projects that enhances the safety, security, and efficiency of MDOT.

SMART GROWTH STATUS: [X] Project Not Location Specific [X] Not Subject to PFA Law

PROJECT: Glen Burnie Headquarters Renovation

DESCRIPTION: Improvements and renovation of the Glen Burnie Headquarters site and facility ground floor and main branch office. Consolidate Driver Licensing functions located in the Annex Building and trailers into the branch office of the main building. Improve vehicular and pedestrian site circulation and maximize parking. Renovate aging infrastructure and site utilities.

PURPOSE & NEED SUMMARY STATEMENT: Improve customer service, operational efficiency, safety, security, and work environment. Improve service and efficiency by consolidating Driver and Vehicle transactions conducted in multiple buildings/trailers into a single main office, while separating customers from back office functions located on other floors. Contain all branch functions on the ground floor of the Headquarters Building. Reconfigure traffic and driving test courses, separate employee and customer parking while adding to total parking spaces. Upgrade fire protection system and improve energy efficiency through equipment and window replacement. Replace HVAC distribution equipment plumbing piping and fixtures, electrical service and distribution, and site utilities.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: MVA is building the IT infrastructure to support 360 degree customer service, and needs to configure the main branch location to allow for delivery of comprehensive service from each workstation. At the same time, the aging Glen Burnie site and facilities will be renovated, creating a safer, more secure, efficient and environmentally improved workplace, and space for customers.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

PROJECT: Enterprise IT Capital Program - MVA OTTS

DESCRIPTION: This is the MDOT Enterprise Information Technology (IT) Program. This program supports IT projects which enhance MDOT's information technology infrastructure and strategy, including cybersecurity, innovation, IT oversight responsibilities, hardware/software upgrades, and end-of-life replacements.

PURPOSE & NEED SUMMARY STATEMENT: These reflected capital funds contribute to the MDOT Enterprise Information Technology Program.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Information technology supports the MDOT enterprise. Information technology enhances MDOT's ability to achieve its goals by supporting specific transportation projects and information technology projects that enhances the safety, security, and efficiency of MDOT.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA

PROJECT: Regional Aviation Assistance Program

DESCRIPTION: The Statewide Aviation Grant Program provides State funding to match federal funding to government or public-owned airports for the repair and upgrade of runways, taxiways, ramps, and lighting systems, as well as for the removal of trees and other obstacles from runway approaches. If the airport meets the program criteria, the Federal Aviation Administration (FAA) will cover 90% of the costs with the State and the airport each contributing five percent of the total project cost. Assistance is also provided to private-owned airports, open to the public, for financial grants to improve runways, taxiways, navigation aids, and other safety related projects.

PURPOSE & NEED SUMMARY STATEMENT: This program supports the goals of the Maryland Department of Transportation to meet air service needs of Maryland and to promote safety and security, environmental stewardship, and economic development. There are over 130 licensed and registered airports in the State, of which 34 are public use facilities with three offering air carrier service.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

[ ] Project Inside PFA
[ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
[ ] PFA Status Yet to Be Determined

STATUS: The program has twenty (20) active projects at the start of FY 2026 and will award twenty (20) new projects at various airports across the State in FY 2026.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [ ] GENERAL [ ] OTHER

OPERATING COST IMPACT: N/A

PROJECT: Aircraft Maintenance Facility Infrastructure at BWI Marshall Airport

DESCRIPTION: This project provides infrastructure improvements in support of the development of a commercial service aircraft maintenance facility at BWI Marshall Airport. The improvements include utility infrastructure and site grading. Landside and airside access routes will be provided to support operations.

PURPOSE & NEED SUMMARY STATEMENT: At BWI Marshall Airport, Southwest Airlines needs to perform periodic or incidental maintenance on their aircraft. There is insufficient space at either their gates or within the terminal and adjacent areas to perform aircraft maintenance functions. The site provides sufficient area for a facility that will support aircraft maintenance needs.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project provides Southwest Airlines with a location to locally perform periodic or incidental maintenance on their aircraft fleet. Reliable aircraft ensures the airline maintains schedules and minimizes delay impacts on passengers. Opening of the facility will increase local employment. BWI Marshall Airport supports the movement of people, goods and the State's economy.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Project is in the final phase of construction. Substantial completion September 2025. Punchlist items underway.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

9720, 9721, 9722; Federal funding was CARES stimulus.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
None.

USAGE: Accommodate projected airline maintenance needs.

OPERATING COST IMPACT: Cost responsibility of Southwest Airlines.

PROJECT: BC Apron Reconstruction, Infill & Taxiway Improvements at BWI Marshall Airport

DESCRIPTION: This project funds a series of phases to complete the overall development objective of BC Apron Reconstruction, Infill & Taxiway Improvements that is aligned with the FAA Airport Capital Improvement Plan (ACIP). The first phase of the program is the relocation of the Airfield Lighting Vault (ALV), which was completed in July 2024. Demolition of the existing vault and infill of those areas with apron pavement is included in the current project phase. The remaining phases (BC Alley Reconstruction and Concourse C Apron Reconstruction) will follow after completion of the Concourse A/B Connector and BHS Program. This will provide enough gate capacity airport-wide to mitigate the operational impacts to airlines located in the BC Alley.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through reconstruction of pavement to meet FAA standards. In addition, the proposed alignment will address deficiencies in the current alignment that do not meet current FAA Design Standards. Finally, the improvements will increase capacity at BWI Marshall by removing the operation constrictions at the entrance to BC Alley.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project provides compliance with FAA Part 139 regulations. New airfield lighting control and infrastructure combined with new aircraft travel patterns that increase airfield capacity ensure airfield movement and safety is maximized. BWI Marshall Airport supports the movement of people, goods and the State's economy.

SMART GROWTH STATUS:

- [ ] Project Not Location Specific
- [ ] Not Subject to PFA Law
- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Construction for Airfield Lighting Vault Relocation - Phase 1 completed July 2024. Phase 2 is anticipated to begin July 2026 (after completion of the Concourse A/B Connector and BHS Program due to gate capacity in the project area). Airfield projects are staggered to accommodate flight activity and lessen restrictions.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

0265, 0336, 2196

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
The cost decreased by $5.0M due to a revised cost estimate.

USAGE: Improve standards and accommodate projected annual flight operations.

OPERATING COST IMPACT: Operating cost recovered through airport user fees.

PROJECT: DX/DY Apron Pavement Rehab at BWI Marshall Airport

DESCRIPTION: This project will provide a comprehensive pavement rehabilitation to the DX-DY Apron that is aligned with the FAA Airport Capital Improvement Plan (ACIP). The Pavement Condition Index for these pavements ranges from 45-59 (out of 100), which ranks in the poor to low-end of fair range. The pavement distresses include medium and high severity weathering, alligator cracking and block cracking. The project will include all grading, pavement, lighting, signage, installation of an oil-water separator and all related infrastructure.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through reconstruction of pavement to meet FAA standards. In addition, the proposed alignment will address deficiencies in the current alignment that do not meet current FAA Design Standards.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project provides for compliance with FAA Part 139 regulations. The improvements enhance safety by reducing the risk of aircraft damage in the apron area. Pavement improvements and FAA standards ensure airfield pavement is free of cracks and minimize Foreign Object Debris (FOD) that could impact the aircraft. BWI Marshall Airport supports the movement of people, goods and the State's economy.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

PROJECT: Electrical Substations Reconstruction at BWI Marshall Airport

DESCRIPTION: This project replaces aging utility infrastructure at the airport. Specifically, this project will (1) reconstruct the North and South BGE Substations, replacement of 35kV switchgears, replacement of meters and relays in the 15kV switchgears, and (2) replace electrical Substation ST-AB including new switchgear, main load interrupters, and transformers.

PURPOSE & NEED SUMMARY STATEMENT: The equipment is 25 to 30 years old and has reached the end of its useful life. The replacement of the substations will consolidate equipment into one location and provide connections to the BGE sources. In addition, the replacement of switchgear and transformer equipment will increase reliability of the electrical distribution system and maintain operational resiliency.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project improves utility infrastructure that supports airport operations. BWI Marshall Airport supports the movement of people, goods and State economy.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: Construction is substantially complete for North/South BGE Substations, only punchlist items remaining. Construction started for replacement of Substation ST-AB with completion anticipated in September 2026.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [X] OTHER

0170, 0254; Federal funding was CARES stimulus; Other funding source is Passenger Facility Charge (PFC) revenue.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
None.

USAGE: Accommodate projected annual passenger growth.

OPERATING COST IMPACT: Cost fully recovered through airport user fees.

PROJECT: North Cargo Pavement Rehabilitation at BWI Marshall Airport

DESCRIPTION: This project will rehabilitate the North Cargo pavement area at BWI Marshall that is aligned with the FAA Airport Capital Improvement Plan (ACIP). The construction will be done in three phases. Phase 1 (outlined in blue) is pavement rehabilitation of Taxilane J and pavement reconstruction of cargo positions F18-F20 in concrete. Phase 2 (outlined in green) is rehabilitation/replacement of the pavement for cargo positions F1-F5 and concrete pavement rehabilitation of parking positions F6-F9. Phase 3 is the concrete pavement rehabilitation of the entire cargo ramp between cargo buildings D&E including parking positions F10-F17 and the taxilane in-between.

PURPOSE & NEED SUMMARY STATEMENT: The 2023 Pavement Condition Index (PCI) report identified the North Cargo pavement in the recommended five-year CIP program as the PCI is considered very poor to fair condition. The proposed improvements will improve the operational conditions and reduce future maintenance costs, needs, and operational impacts.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project provides compliance with FAA Part 139 regulations to ensure airfield movement and safety is maximized.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: Design underway for Phases 1 and 2. 100% submission expected March 2026.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: Runway 10/28 Rehabilitation at BWI Marshall Airport

DESCRIPTION: This project will resurface the longest runway at BWI Marshall as well as Runway 10/28 and Runway 15R-33L intersection that is aligned with the FAA Airport Capital Improvement Plan (ACIP). The project will include additional pavement repairs as needed, and tie-ins to adjacent taxiways and runway. The runway edge lights, centerline lights, threshold lights and touchdown zone lights will all be updated to the latest LED lights. The runway surface sensors will also be replaced.

PURPOSE & NEED SUMMARY STATEMENT: To maintain a safe runway with minimal surface defects, the pavement surface needs to be replaced periodically. The 2023 Pavement Condition Index (PCI) report identified Runway 10-28 in the recommended five-year CIP programs as the PCI will be falling into the fair range over the next few years. Additionally, while the runway is closed, all existing pavement lighting will be replaced with LED lights to reduce power usage and maintenance.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Community and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: This project provides compliance with FAA Part 139 regulations to ensure airfield movement and safety is maximized.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: MDOT is able to advance this project to the construction phase because of the funding provided by the Governor and Legislature in the last session. Increased State funding allows the ability to leverage $64.2M in Federal funding. Design underway. Meetings with Airline Technical Committee ongoing.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: Runway 15L/33R & Associated Taxiways - Pavement Rehabilitation at BWI Marshall Airport

DESCRIPTION: This project will provide a comprehensive pavement rehabilitation of the small commercial service Runway 15L/33R (for general aviation) and connecting taxiways that is aligned with the FAA Airport Capital Improvement Plan (ACIP). The 2023 Pavement Management Plan (PMP) Pavement Condition Index (PCI) for these pavements ranges from 54 to 84 (out of 100). The pavement distresses include alligator cracking, block cracking and weathering. The Project will include pavement, grading and related infrastructure improvements.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through pavement rehabilitation to meet FAA standards. It will also improve the functional and structural service life of the existing pavement.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project provides for compliance with Public Law 109-115 and FAA Part 139 regulations. The improvements enhance safety by reducing the risk of aircraft damage on the airfield. Pavement improvements to FAA standards ensure airfield pavement is free of cracks and maximizes aircraft safety. BWI Marshall Airport supports the movement of people, goods and the State's economy.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Cost decreased by $1.7M due to Federal eligibility with revised cost estimate.

USAGE: Improve standards and accommodate projected annual flight operations.

OPERATING COST IMPACT: Operating cost recovered through airport user fees.

PROJECT: Taxiway F Relocation at BWI Marshall Airport

DESCRIPTION: This project will relocate Taxiway F as per the approved Airport Layout Plan and provide a new taxiway constructed in concrete, which will meet current FAA Standards and is aligned with the FAA Airport Capital Improvement Plan (ACIP). The project is intended to address the existing pavement condition and meet FAA Design Standards for Taxiway Geometry. Specifically, the project will address separation from Runway 10-28. Additionally, the project will provide LED lighting, signage and drainage improvements. The project will be completed in two (2) phases:
Phase 1-New alignment will provide access to a concurrent maintenance hangar development project and relocate a portion of Taxiway F to provide the required runway to taxiway separation.
Phase 2-Relocate and extend Taxiway F west of Phase 1 to its connection with future Taxiway R and the Runway 10 End to provide the required runway to taxiway separation.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through reconstruction of pavement to meet Federal Aviation Administration (FAA) standards. In addition, the proposed alignment will address deficiencies in the current alignment that do not meet current FAA Design Standards.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project provides for compliance with Public Law 109-115 and FAA Part 139 regulations. The improvements enhance safety by reducing the risk of aircraft damage in the taxiway area. Pavement improvements and realignment to FAA standards ensure airfield pavement is free of cracks and maximizes aircraft safety. BWI Marshall Airport supports the movement of people, goods and the State's economy.

PROJECT: Taxiway T Reconstruction at BWI Marshall Airport

DESCRIPTION: This project will reconstruct portions of Taxiway T from the existing asphalt pavement to concrete that is aligned with the FAA Airport Capital Improvement Plan (ACIP). The project is intended to address the existing pavement condition and meet FAA Design Standards for Taxiway Geometry. The Pavement Condition Index (PCI) for portions of this pavement ranges from fair to poor. All taxiway lighting and signage will be replaced with high efficiency LED lighting systems.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through reconstruction of pavement to meet FAA standards. The areas identified for upgrades were determined through independent pavement analysis as required by the FAA. Pavement sections within the limits of the project have PCI ranges from fair to poor according to the 2023 Pavement Management Plan (PMP) Update. In addition, the replacement of taxiway lighting and signage will enhance safety and energy efficiency.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [X] Promote Environmental Stewardship

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA

PROJECT: Snow Equipment Replacement at BWI Marshall and Martin State Airports

DESCRIPTION: Replacement of 39 existing pieces of snow removal equipment dating from 1999 to 2013, with 32 pieces of new equipment. Some equipment will be multi-functional and replace the equivalent of two existing pieces. New equipment replaced includes plow and broom trucks, plow trucks, tow behind brooms, spreaders, and snow blower equipment.

PURPOSE & NEED SUMMARY STATEMENT: BWI Marshall Airport has approximately 20 million square feet of priority 1 airfield pavement area to keep clear of snow and receives approximately 18 inches of snow per year. The current snow equipment has reached the end of its useful life and needs to be replaced.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project provides the equipment necessary to maintain airport operations safely during a snow event. BWI Marshall and Martin State Airports support the movement of people, goods and State economy.

SMART GROWTH STATUS:

- [ ] Project Not Location Specific

PROJECT: Deicing Pad Expansion at BWI Marshall Airport

DESCRIPTION: This project scope was reduced to only include joint repairs and pavement restriping on the Runway 15R Deicing Pad. It will no longer enlarge the Runway Deicing Pad.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield capacity by allowing efficient movement of aircraft during deicing operations.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project will expand the deicing capacity at BWI Marshall Airport to meet the future demands of flight operations. Pavement improvements and realignment to FAA standards ensure airfield pavement is free of cracks and maximizes aircraft safety. BWI Marshall Airport supports the movement of people, goods and the State's economy.

0266, 0267

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Removed from Primary Construction Program and was downsized due to lack of funding. Project is now under Comprehensive Paving Improvements in the Minor Projects Program.

USAGE: Accommodate projected annual flight operations.

OPERATING COST IMPACT: Operating cost recovered through airport user fees.

PROJECT: Concourse A/B Connector and Baggage Handling System Replacement at BWI Marshall Airport

DESCRIPTION: This project will comprise of a two-level building addition between Concourses A and B to provide space for a new fully in-line baggage handling system, operational spaces, a connector between the concourses, upgrades to the Central Utility Plant and lower-level roadway improvements. The project will also provide expanded holdrooms, automated exit lanes, new Passenger Boarding Bridges, new restrooms, and concessions space.

PURPOSE & NEED SUMMARY STATEMENT: The ability to maintain 100 percent electronic baggage screening, while achieving the necessary capacity to meet projected airline departure flight schedules that are using aircraft with larger seating capacity is dependent upon attaining the maximum utilization of bag screening technology. In addition, the project will expand holdrooms to ensure required capacity relative to aircraft seats, improve passenger amenities, and provide a same level connection between the two concourses. Central Utility Plant upgrades are necessary to keep up with airport expansion in order to provide cooling of the terminal complex.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Passenger ease of movement and providing travel options are some of the primary focuses of the airport. These improvements provide travel flexibility and capacity for new or expanding airline service. BWI Marshall Airport supports the movement of people, goods and the State's economy.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: Construction is 85% complete with total project completion expected in July 2026. Permanent Checked Baggage Inspection System and Checked Baggage Reconciliation Area operational in October 2025. Holdrooms expected to be operational early January 2026.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [X] OTHER

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
None.

USAGE: Accommodate projected annual passenger growth.

OPERATING COST IMPACT: Operating cost recovered through airport user fees.

PROJECT: Concourse A/B Bag Claim 0-5 Reconfiguration at BWI Marshall Airport

DESCRIPTION: This project will replace the five (5) existing baggage claim carousels and inbound lines with new carousels in Concourse A/B as well as install one (1) new additional baggage claim carousel. When complete, there will be a total of six (6) baggage claim carousels to accommodate Concourse A/B.

PURPOSE & NEED SUMMARY STATEMENT: The existing baggage claim carousels are 20 years old and beyond their useful life. Additional baggage claim capacity is needed to meet passenger demand on Concourse A/B.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project provides for modernizing aging bag claim equipment as well as expands capacity by providing an additional bag claim carousel. BWI Marshall Airport supports the movement of people, goods and State economy.

SMART GROWTH STATUS:

- [ ] Project Not Location Specific
- [ ] Not Subject to PFA Law
- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Construction ongoing with anticipated completion by May 2026.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [ ] GENERAL [X] OTHER

PROJECT: Concourse E Outbound Baggage Handling System Expansion at BWI Marshall Airport

DESCRIPTION: The project includes replacement of the existing legacy outbound baggage conveyors dating from the original opening of Concourse E in 1997 and is nearing the end of its useful life. Also included is the installation of one additional baggage make-up belt and one additional explosive detection system (EDS) machine on Concourse E.

PURPOSE & NEED SUMMARY STATEMENT: The replacement of the legacy conveyors is needed to preserve the capacity of the outbound baggage handling system in Concourse E to get checked baggage to the outgoing aircraft from the ticket counters and Federal Inspection Services recheck area. The installation of the third explosive detection system machine and baggage makeup unit is needed to enhance the capacity of the outbound baggage handling system to meet current demand. The third explosive detection system machine will also enhance the security of the airport by ensuring all outbound baggage is screened in a timely manner.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project replaces infrastructure that supports airport operations and enhances security. BWI Marshall Airport supports the movement of people, goods and State economy.

PROJECT: Passenger Movement Modernization at BWI Marshall Airport

DESCRIPTION: The Passenger Movement Modernization Program is a multiyear program to replace aging infrastructure related to improving the efficiency and movement of passengers in the terminal building. The program will address replacing Passenger Boarding Bridges (PBBs), terminal vestibule doors, elevators, escalators and moving walkways to improve the movement of travelers and their bags between aircraft and ground transportation. Phase I will replace fourteen (14) PBBs, upgrade six (6) escalators and upgrade four (4) elevators. Phase II will include replacement of forty (40) terminal vestibule doors on the upper and lower levels of the terminal building.

PURPOSE & NEED SUMMARY STATEMENT: BWI Marshall Airport's infrastructure has exceeded their useful life of 15-20 years and have become difficult to maintain and keep in service due to availability of parts and materials. The project will ensure that passengers with disabilities and reduced mobility continue to have equal access to the terminal building while boarding aircraft comfortably and safely. Passenger Boarding Bridges will come equipped with wheelchair lifts, ramps and handrails to ensure all passengers can board safely.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Passenger ease of movement is a primary focus of the airport. BWI Marshall Airport supports the movement of people, goods and the State's economy.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Phase 1: Construction of PBBs expected to start Fall 2026. Construction is 63% complete for elevator upgrades.
Phase 2: Design completed for terminal vestibule door replacement. Construction anticipated Spring 2026.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [X] OTHER

0261, 0269, 0511; Federal funding is Bipartisan Infrastructure Law Airport Terminal Program Grant. Other funding source is Passenger Facility Charge (PFC) revenue.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increased by $52.0M due to the addition of PFC funding reflective of the 100% engineer's estimate and inclusion in a PFC application.

USAGE: Accommodate projected annual passenger growth.

OPERATING COST IMPACT: Operating cost recovered through airport user fees.

PROJECT: Multi Use Flight Information Display Systems (MUFIDS) Replacement at BWI Marshall Airport

DESCRIPTION: This project replaces the Multi Use Flight Information Display Systems (MUFIDS) and associated Airport Operational Database (AODB). The equipment being replaced is Flight Information Display System (FIDS), Baggage Information Display System (BIDS), Gate Information Display System (GIDS), Digital Wayfinding Displays, and Ticket counter LED signage. Also included is a new Gate Management System for use by Airport Operations.

PURPOSE & NEED SUMMARY STATEMENT: The existing MUFIDS equipment is 10-15 years old and was installed between 2010 and 2015. The existing hardware is reaching the end of support and sales life. Most parts are no longer manufactured; system software and cyber security is no longer offered or supported and there is limited overall systemwide engineering support available.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Passenger ease of movement is a primary focus of the airport. This new equipment will assist the traveling public by providing flight and baggage information. The Gate Management System will assist MAA with aircraft parking, gate utilization and revenue management. BWI Marshall Airport supports the movement of people, goods and the State's economy.

SMART GROWTH STATUS:

- [ ] Project Not Location Specific
- [ ] Not Subject to PFA Law
- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: MDOT is able to advance this project to the construction phase because of the funding provided by the Governor and Legislature in the last session. Procurement underway.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [ ] GENERAL [X] OTHER

0447; Other funding source is Passenger Facility Charge (PFC) revenue.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Cost decreased by $1.6M due to scope reduction with revised cost estimate.

USAGE: Preservation of airport infrastructure.

OPERATING COST IMPACT: Operating cost recovered through airport user fees.

PROJECT: Residential Sound Insulation Program

DESCRIPTION: This voluntary program provides for the mitigation of aircraft noise for residential properties that currently fall within the 65 DNL Noise Exposure Map (NEM) contour approved by the Federal Aviation Administration. Under this multi-year program, eligible homeowners may elect to have their homes sound insulated to an interior noise level of 45 DNL in accordance with MAA and FAA standards. The program also includes voluntary residential property acquisition for specific eligible properties within the approved 65 DNL contour. The State will receive an avigation easement for each property participating in the program.

PURPOSE & NEED SUMMARY STATEMENT: This program enhances the home environment for residents in communities neighboring BWI Marshall Airport that are located within the 65 DNL contour by providing sound insulation improvements to eligible homes. Long term compatible land use is promoted through voluntary property acquisition of eligible properties based on local land use plans and zoning.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [ ] Enhance Safety and Security
- [ ] Deliver System Quality
- [X] Serve Community and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: This program enhances the environment of neighboring communities by providing residential sound mitigation for people living within designated noise zones near BWI Marshall Airport or acquires eligible residential parcels to accelerate transition to compatible land use.

SMART GROWTH STATUS:

- [ ] Project Not Location Specific
- [ ] Not Subject to PFA Law
- [X] Project Inside PFA
- [ ] Project Outside PFA
  - [ ] Grandfathered
  - [ ] Exception Will Be Required
  - [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: This is a multi-phase program. Four Federal AIP grants have been received to date for program planning, design and construction. Three phases are complete and one phase is in construction. Two additional phases have been designed but are deferred pending FAA required update to the BWI Marshall CFR Part 150 Noise Compatibility Plan which is programmed to take place 2026-2028, after which new phases will be defined and pursued.

POTENTIAL FUNDING SOURCE: [ ] SPECIAL [X] FEDERAL [ ] GENERAL [X] OTHER

None.

USAGE: This is a community-based program.

OPERATING COST IMPACT: N/A

PROJECT: Consolidated Rental Car Facility Improvements at BWI Marshall Airport

DESCRIPTION: Improvements will be phased over multiple years and include the reallocation of the rental car operators, customer service counters, associated wayfinding signage, restriping of exterior fire lanes, and reconfiguring the entry/exit plaza. Also included is an upgrade to the Fire Suppression & Alarm System. The Consolidated Rental Car Facility (CRCF) shuttle buses will also be refurbished which will extend their useful life by three years.

PURPOSE & NEED SUMMARY STATEMENT: A Facility Condition Assessment was completed for the Consolidated Rental Car Facility outlining the need for these improvements. Reallocation of tenant lease areas is required by the tenant lease agreements.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project will replace aging infrastructure to maintain current and future levels of service.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: Design underway. Ongoing coordination with Rental Car Consortium.

POTENTIAL FUNDING SOURCE: [ ] SPECIAL [ ] FEDERAL [ ] GENERAL [X] OTHER

0509, 0516, 0753; Other funding source is Customer Facility Charge (CFC) revenue.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost decreased by $10.3M due to project consolidation and revised estimate.

USAGE: Accommodate projected annual rental car operations.

OPERATING COST IMPACT: None.

PROJECT: Runway Improvement Program at Martin State Airport

DESCRIPTION: The program will fund a series of projects that include rehabilitation of the runway and taxiway pavements, lowering of the Amtrak catenaries north of the airfield, vegetative obstruction removal both on- and off-airport property, and replacement of outdated systems that are at the end of their useful life. Phase I of the program will include the runway and taxiway pavement rehabilitation, Amtrak catenary lowering and necessary planning and environmental review activities to reclaim and obtain the published 8,100 feet of usable runway. Phase II of the program will complete the necessary obstruction removal and associated environmental mitigation as well as Navaid relocations.

PURPOSE & NEED SUMMARY STATEMENT: Runway 15-33 at Martin State Airport (MTN) needs significant pavement rehabilitation/reconstruction. The concrete section has expanded due to reactivity with the ground water, which causes cracking and heaving. The existing runway does not meet FAA Standards in several aspects including width, profile, and transverse grade. Likewise, the connecting taxiway geometry needs improvements and the Amtrak catenary needs lowering to ensure they meet FAA Standards. Rehabilitation efforts coincided with the Maryland Air National Guard's infrastructure needs to support a flying mission in Maryland. Partnership with the Maryland Air National Guard has helped secure $32M in Department of Defense Federal Funds towards completion of this project.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Improvements enhance safety by reducing the risk of aircraft damage and maintaining navigable airspace per FAA standards. Pavement improvements and realignment to FAA standards ensure airfield pavement is free of cracks and maximizes aircraft safety. Martin State Airport supports the movement of people, goods and the State's economy.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Construction of runway complete. Amtrak catenary lowering is at 30% design. Obstruction removal is in advanced planning and permitting phase, with FAA coordination and approvals ongoing. NAVAID relocation preliminary design is complete.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

0274, 0275, 0451, 0452; Federal Funding secured through the Department of Defense (DOD).

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost decreased by $8.1M due to construction completing under budget.

USAGE: Accommodate current and future civilian and military flight operations. Standards compliance, improved utility, enhanced operational safety and level of service.

OPERATING COST IMPACT: Some operating costs recoverable from Martin State Airport user fees.

PROJECT: Airport Traffic Control Tower at Martin State Airport

DESCRIPTION: This project replaces the Airport Traffic Control Tower (ATCT) built in 1942, one of the nation's oldest, greatly improving overall controller line-of-sight, depth perception, ADA compliance, and working environment. The new tower will be a stand-alone facility located near the airfield midpoint, on an elevated site providing climate change and operational resiliency.

PURPOSE & NEED SUMMARY STATEMENT: A relocated tower with its midpoint location and 36-foot higher elevation provides controllers with greater visibility of the Airport Operations Area and non-movement areas and ability to track aircraft and ground operations. It will also include modern equipment with enhanced safety measures and ADA compliant access. By elevating the tower site, the design provides resiliency against weather and flooding in this coastal location.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project provides for funding to replace aging infrastructure that supports airport and flight operations. Martin State Airport supports the movement of people, goods and the State's economy.

SMART GROWTH STATUS:

- [ ] Project Not Location Specific
- [ ] Not Subject to PFA Law
- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Construction started May 2025 and is 33% complete. Completion anticipated September 2026.

1121; Federal funding is Bipartisan Infrastructure Law Airport Terminal Program Grant.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increased by $3.5M due to contract bid amount and award.

USAGE: Accommodate current and future flight operations.

OPERATING COST IMPACT: Some operating costs recoverable from Martin State Airport user fees.

PROJECT: Taxiway F Extension at Martin State Airport

DESCRIPTION: The extension of Taxiway F (the primary civilian taxiway) to the Runway 15 end will result in a full-length parallel taxiway which will provide unobstructed line-of-sight from the Airport Traffic Control Tower (ATCT), and it will improve airfield circulation and reduce aircraft taxi time. All taxiway lighting and signage will be replaced with LED infrastructure and drainage improved to alleviate runoff onto Wilson Point Road.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through provision of clear line of sight from the existing and planned ATCT sites to all operational areas. In addition, the revised parallel alignment will reduce taxi length and meet all current FAA Standards.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: This project enhances safety by improving line of sight. Pavement improvements to FAA standards ensure airfield pavement maximizes aircraft safety. Martin State Airport supports the movement of people, goods and the State's economy.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Design and engineering for Taxiway F Extension expected to start in 2027; design and engineering for Drainage Improvements expected to start in 2030 after coordination with Federal Highway Administration (FHA).

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

0273, 0277

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Design and engineering has been delayed a year since previous Final CTP.

USAGE: Accommodate projected annual flight operations.

OPERATING COST IMPACT: Some operating costs recoverable from Martin State Airport user fees.

PROJECT: Air Operations Area Fence Upgrade at BWI Marshall Airport

DESCRIPTION: This project includes enhanced security by removing and replacing 8' perimeter security fencing with 10' perimeter security fence. It also includes gate hardening by installing manual crash beam barriers at certain gates and automatic wedge plate barriers at others with integrated access control and bollards.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to provide visual deterrents, additional security and enhanced protective measures for BWI Marshall Airport.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [ ] Deliver System Quality
- [ ] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The improvements enhance airport and passenger safety. BWI Marshall Airport Security supports the movement of people, goods and the State's economy.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: Construction complete July 2025.

2352; Federal funding was CARES stimulus.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
None.

USAGE: Safety and security.

OPERATING COST IMPACT: Operating cost recovered through airport user fees.

PROJECT: Fuel Storage Tank Additions at BWI Marshall Airport

DESCRIPTION: This project expands the North Area Fuel Farm by adding two 16,800 BBL above ground storage tanks with new supply lines, filtration, and pumps to transport Jet-A fuel to designated locations. A new upsized water line will be installed to facilitate a completed fire protection loop around the fuel farm, expand the capacity, and modernize the existing infrastructure.

PURPOSE & NEED SUMMARY STATEMENT: BWI Marshall Airport continues to grow in flight operations, which requires an increased fuel farm capacity with adequate reserves to promote operational resiliency.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project will expand the fuel capacity at BWI Marshall Airport to meet the future demands of flight operations and provide sufficient reserves to maintain operational resiliency. BWI Marshall Airport supports the movement of people, goods, and the State's economy.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

2336; Federal funding was CARES stimulus.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
None.

USAGE: Accommodate projected annual flight operations.

OPERATING COST IMPACT: Cost responsibility of Baltimore Fuel Farm Consortium.

PROJECT: Taxilanes N and N1 Reconstruction at BWI Marshall Airport

DESCRIPTION: Taxilanes N & N1 provide access from aircraft gates located on the Concourse D and E alley to the airfield. Some of the largest design aircraft that utilize the airport transit the area, and the existing asphalt pavement is in need of repairs. The 2023 Pavement Management Plan (PMP) identifies this area as "very poor" with an aggregate Pavement Condition Index (PCI) of 26 – 40 (out of 100). The project consists of complete reconstruction of the existing pavement with Portland Cement Concrete (PCC), utilities, associated pavement markings, signage and lighting improvements.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through reconstruction of pavement to meet FAA standards. In addition, the proposed alignment will address deficiencies in the current alignment that do not meet current FAA Design Standards.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project provides for compliance with Public Law 109-115 and FAA Part 139 regulations. The improvements enhance safety by reducing the risk of aircraft damage in the taxilane area. Pavement improvements and FAA standards ensure airfield pavement is free of cracks and minimize Foreign Object Debris (FOD) that could impact the aircraft. BWI Marshall Airport supports the movement of people, goods and the State's economy.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: Construction complete July 2025.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

0252; Federal funding is Bipartisan Infrastructure Law Airport Improvement Grant.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost decreased $3.2M due to project completing under budget.

USAGE: Improve standards and accommodate projected annual flight operations.

OPERATING COST IMPACT: Operating cost recovered through airport user fees.

PROJECT: Enterprise IT Capital Program - MAA OTTS

DESCRIPTION: This is the MDOT Enterprise Information Technology (IT) Program. This program supports IT projects which enhance MDOT's information technology infrastructure and strategy, including cybersecurity, innovation, IT oversight responsibilities, hardware/software upgrades, and end-of-life replacements.

PURPOSE & NEED SUMMARY STATEMENT: These reflected capital funds contribute to the MDOT Enterprise Information Technology Program.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Information technology supports the MDOT enterprise. Information technology enhances MDOT's ability to achieve its goals by supporting specific transportation projects and information technology projects that enhances the safety, security, and efficiency of MDOT.

SMART GROWTH STATUS: [X] Project Not Location Specific [X] Not Subject to PFA Law

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: New PIF

USAGE: Enhance MDOT's information technology infrastructure and strategy.

OPERATING COST IMPACT: N/A

PROJECT: D/E Bag Claim Expansion at BWI Marshall Airport

DESCRIPTION: This project will construct one new baggage claim carousel along with the associated bag feed belt for Concourse D/E. It includes minor demolition and the fit-out of vacant shell space including architectural, mechanical and electrical improvements.

PURPOSE & NEED SUMMARY STATEMENT: Additional inbound baggage claim capacity is needed to accommodate increased traffic from airlines on Concourse D/E.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project expands capacity by providing an additional bag claim carousel. BWI Marshall Airport supports the movement of people, goods and State economy.

SMART GROWTH STATUS:

- [ ] Project Not Location Specific
- [ ] Not Subject to PFA Law
- [X] Project Inside PFA
- [ ] Project Outside PFA

0236, 0342; Other funding source is Passenger Facility Charge (PFC) revenue.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Cost increased by $9.0M due to the addition of future PFC bond funding.

USAGE: Accommodate projected annual passenger growth.

OPERATING COST IMPACT: Cost fully recovered through airport user fees.

PROJECT: Snow Removal Equipment Building at BWI Marshall Airport

DESCRIPTION: Construction of a new, free-standing Snow Removal Equipment (SRE) building in the existing uncovered equipment storage yard adjacent to the BWI Marshall fuel farm. This site is also being considered for solar panel installation.

PURPOSE & NEED SUMMARY STATEMENT: Snow removal equipment is expensive and critical to maintaining airfield operations during snow and inclement weather events. Currently the equipment is stored outside and is subject to the elements, which lessens the usable life and increases maintenance cost of the equipment. A covered storage area will extend the life and protect the investment in the equipment, ensuring operational resiliency.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Community and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: This project will ensure that snow removal equipment is properly maintained throughout its useful life.

SMART GROWTH STATUS:

- [ ] Project Not Location Specific
- [ ] Not Subject to PFA Law
- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Project has been deferred due to other priorities.

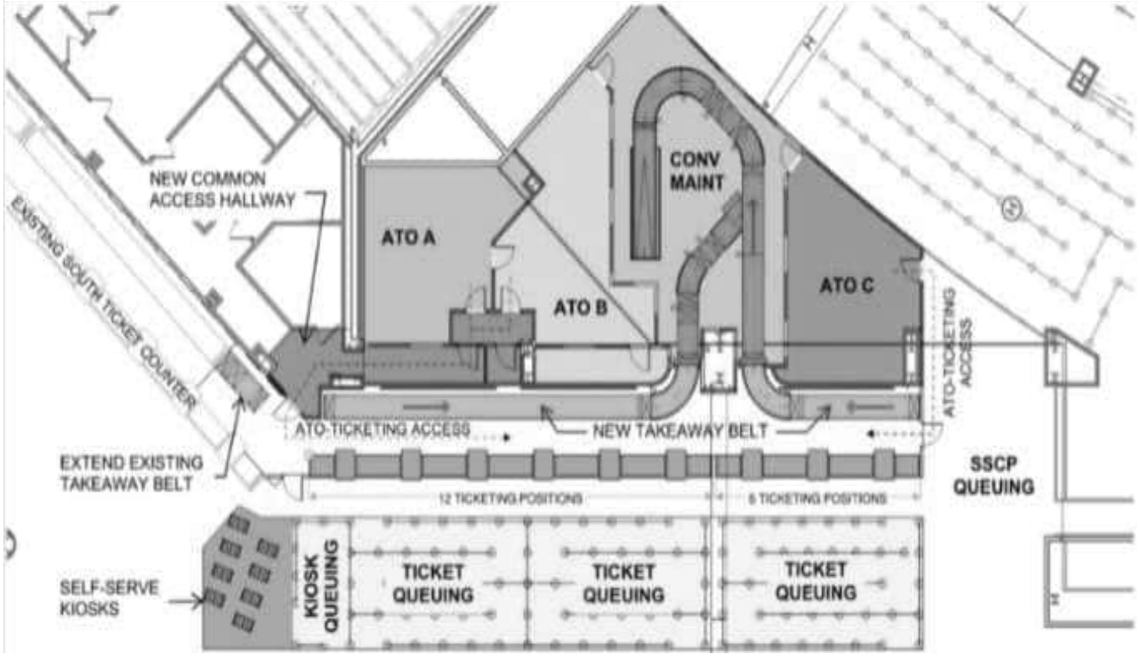

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [ ] GENERAL [ ] OTHER

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost decreased by $15.8M due to the project being deferred and removed from FAA's Airport Improvement Program.

USAGE: Preserve snow removal equipment to maintain its useful life.

OPERATING COST IMPACT: N/A

PROJECT: Ticket Counter Expansion Program at BWI Marshall Airport

DESCRIPTION: This program includes ticket counter expansions for Concourse A/B and Concourse E. These two expansions will increase common use capability and flexibility for our air carries as well as provide additional check-in counters, kiosks, bag belts, airline ticket office space and queuing areas to accommodate airline growth and new market entrants.

PURPOSE & NEED SUMMARY STATEMENT: Capacity improvements are needed primarily in check-in facilities. The intent of these projects is to address passenger demand growth with facility enhancements that maximize the use of the existing facility before a major terminal expansion project would be required.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Passenger ease of movement is a primary focus of the airport. These improvements provide capacity for new or expanding airline service. BWI Marshall Airport supports the movement of people, goods and the State's economy.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: MDOT is able to advance this project to the construction phase because of the funding provided by the Governor and Legislature in the last session. Design completed. BPW date pending.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [ ] GENERAL [X] OTHER

0235, 0340; Other funding source is Passenger Facility Charge (PFC) revenue.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increased $1.9M due to revised cost estimate.

USAGE: Accommodate projected annual passenger growth.

OPERATING COST IMPACT: Operating cost recovered through airport user fees.

PROJECT: Roof Replacement Program at BWI Marshall Airport

DESCRIPTION: This phased project replaces the terminal roof, skylights and drainage systems. The existing roof exhibits significant wear, deterioration, delamination, ponding, sealant failures and underlying moisture. The skylights are metal framed with fiberglass panels, which are in fair to poor condition requiring replacement. The skylights be replaced with metal-framed glass skylights utilizing insulating laminated low-e glazing panels. The first phase of this project replaces the roof on Concourse B. Additional phases include roof replacement on Concourse C, Concourse D and Concourse E. The roof replacement for Concourse A/B is being completed as part of the A/B Connector & Baggage Handling System project.

PURPOSE & NEED SUMMARY STATEMENT: The overall general condition of the terminal and concourse roof areas varies from good to poor. An extensive replacement program needs to be initiated in the near term and extend over the next 20 years to re-establish quality roof surfaces and skylights for the airport complex.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project will replace aging infrastructure that supports airport operations.

SMART GROWTH STATUS:

- [ ] Project Not Location Specific
- [ ] Not Subject to PFA Law
- [X] Project Inside PFA
- [ ] Project Outside PFA
  - [ ] Grandfathered
  - [ ] Exception Will Be Required

0259, 0490, 0708; Other funding source is Passenger Facility Charge (PFC) revenue.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increased by $14.5M due to the addition of future PFC Bond funding.

USAGE: Preservation of airport infrastructure.

OPERATING COST IMPACT: Operating cost recovered through airport user fees.

PROJECT: Master Plan and Airport Layout Plan Update for BWI Marshall Airport

DESCRIPTION: This project is dedicated to developing an updated, comprehensive Airport Master Plan and Airport Layout Plan for BWI Marshall Airport following Federal Aviation Administration (FAA) guidance and airport industry best practices.

PURPOSE & NEED SUMMARY STATEMENT: The last full Master Plan update was completed in 2011. Most of the identified early phase capital projects are completed or underway. Market, industry and socio-economic conditions have changed since 2011. This project will identify and validate the path forward for BWI Marshall to meet the growing air travel needs of the region, provide operational resiliency, and promote compatible land within the surrounding areas.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: BWI Marshall Airport supports the movement of people, goods and the State's economy.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: Scope of work and funding coordination with the FAA is underway.

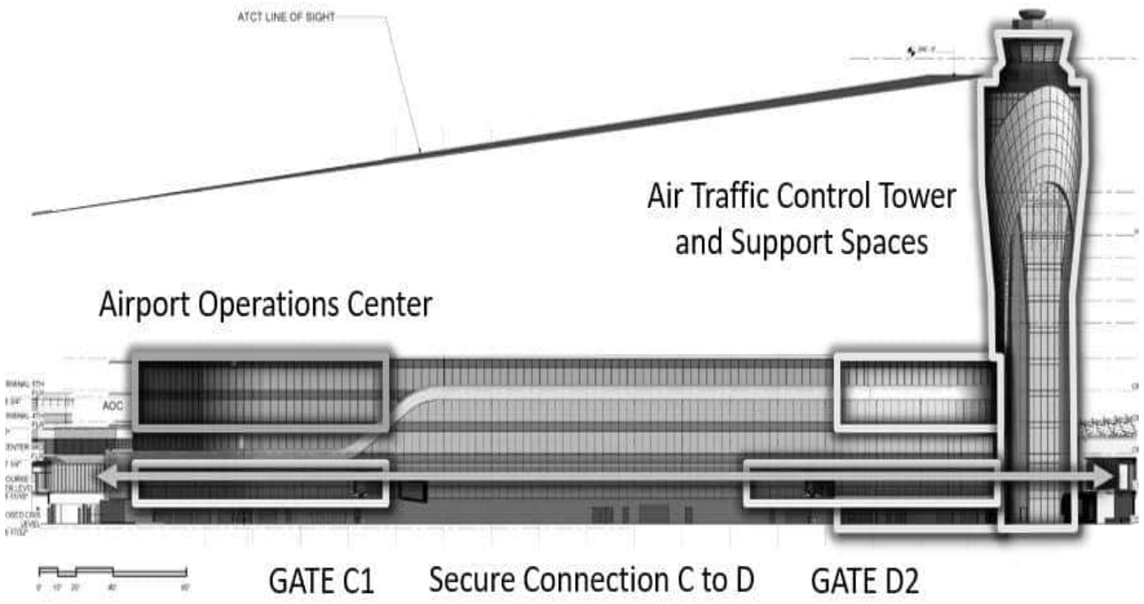

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

OPERATING COST IMPACT: N/A

PROJECT: Airport Traffic Control Tower, Concourse C/D Baggage Handling System and Connector Project at BWI

DESCRIPTION: This project will replace the existing 70+ year old Airport Traffic Control Tower (ATCT). Additional elements of the project include expanded baggage handling capability, right-sizing two passenger holdrooms, additional security screening lanes, consolidated Airport Operations Center, expanded concessions space, improved restrooms and consolidated airport and FAA operational spaces. It will also construct the final post-security passenger connector between concourses C and D. This is a Project Labor Agreement candidate project.

PURPOSE & NEED SUMMARY STATEMENT: Provides a secure connector allowing uninhibited passenger flow between all gates and concourses while decreasing walking distances particularly for connecting passengers. Replaces an outdated ATCT and accommodates ADA access and equipment modernization while improving controller line of sight to the airfield. Provides terminal facilities and amenities to meet current and growing passenger travel demands and replaces aging infrastructure and systems some over 74 years old.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Community and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Passenger ease of movement is a primary focus of the airport. BWI Marshall Airport supports the movement of people, goods and the State's economy.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: Preliminary planning underway. 30% bridging document to be completed by October 2026 to address the siting and airspace.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [X] OTHER

PROJECT: Howard Street Tunnel Project

DESCRIPTION: The project consists of reconstructing the 131-year-old Howard Street Tunnel in Baltimore and improving the vertical clearance at the tunnel and 21 bridges between Baltimore and Philadelphia to create a double-stack rail corridor to and from the Port of Baltimore and along the entire East Coast.

PURPOSE & NEED SUMMARY STATEMENT: The project is needed to provide a more efficient way to move containerized cargo to and from the Port of Baltimore. The improved tunnel will allow the Port to attract more containers, resulting in additional jobs and economic growth for the region.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Creating this double-stack rail access will result in significant public benefits such as reduced highway congestion, increased roadway safety, decreased fuel consumption and improved air quality. Not only will the project address a long-standing bottleneck in the national rail network, but the improvements will be undertaken in a cost-effective manner, using public and private funds, with minimal impact to the public and environment.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: This project is currently under construction with a target completion date in 2027. Double-stack service started in October 2024 on a temporary route to/from the north of the Port of Baltimore. The permanent, shorter route through the tunnel is expected to open in Mid-2026.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Overall costs decreased $71M as CSX accelerated construction with the temporary closure of the Howard Street Tunnel. Cash flows were reallocated to accelerate construction.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [X] GENERAL [X] OTHER

PROJECT: Reduced Emission Locomotives for CSX Curtis Bay Yard

DESCRIPTION: The project will replace three older, non-regulated emissions diesel-electric switching locomotives with reduced or zero emissions locomotives at the Port of Baltimore. The project is located at the Port of Baltimore's Curtis Bay Piers, a deep-water port terminal located on the west side of Curtis Bay cove. The project is funded by a Federal Rail Administration (FRA) Consolidated Rail Infrastructure & Safety Improvements (CRISI) grant with 50% match to be provided by CSX Transportation.

PURPOSE & NEED SUMMARY STATEMENT: The project will provide emission reductions related to operating the locomotives at Curtis Bay Piers.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: The project will provide emission reductions related to operating the locomotives at Curtis Bay Piers.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: MDOT and FRA are negotiating the grant agreement.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Funding was moved FY 2025 into FY 2026 as MDOT and FRA are working on a final grant agreement.

POTENTIAL FUNDING SOURCE: [ ] SPECIAL [X] FEDERAL [ ] GENERAL [X] OTHER

PROJECT: Hart-Miller Island Related Projects

DESCRIPTION: Hart-Miller Island is a 1,140-acre island located in Baltimore County that was formerly used for placement of dredged material from the shipping channels for the Port of Baltimore. The site operated from 1984 and ceased accepting dredged material in 2009. The southern portion, South Cell, of the site is open for passive recreation, and MPA is coordinating with the Department of Natural Resources on the development of the North Cell for a wildlife habitat and passive recreation.

PURPOSE & NEED SUMMARY STATEMENT: During its operational life, Hart-Miller Island was necessary to enable dredging of the shipping channels for the Port of Baltimore. The current work is necessary to complete the re-development of the site for public and ecological benefit. This includes activities such as water monitoring and management, invasive species control, permit compliance, site maintenance, studies and design.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [ ] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: The dredged material placed in the Hart-Miller Island facility was collected from Harbor and Bay channels and berths. The placement of this material at Hart-Miller Island allowed vessels to transport cargo to and from the Port of Baltimore.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [X] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [X] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: The facility ceased in-flow operations as of December 31, 2009. Maintenance and monitoring will continue until the North Cell is developed.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [ ] GENERAL [ ] OTHER

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Overall costs went up by $2.9M as $2.7M was added in FY2031 and extra costs were incurred in FY 2025 for the landbase pier and personnel pier replacements.

PROJECT: Cox Creek Dredged Material Containment Facility Expansion and Related Projects

DESCRIPTION: The Cox Creek Dredged Material Containment Facility (DMCF) is an existing 144-acre dredged material placement site located in Anne Arundel County. The footprint of the DMCF is being expanded into the adjacent 93-acre upland area owned by MPA. The expansion will increase the capacity for the placement of dredged material from the shipping channels for the Port of Baltimore as part of the State's 20-Year Dredged Material Management Plan (DMMP). The dikes at the existing DMCF are also being raised as part of the expansion.

PURPOSE & NEED SUMMARY STATEMENT: Placement capacity for dredged material from Baltimore Harbor is currently provided by the existing Cox Creek and Masonville DMCFs. The capacity that is currently available is not adequate to accommodate necessary dredging of the shipping channels for the Port of Baltimore over the 20-year planning period of the State's DMMP. Expansion and raising of the existing dikes at Cox Creek are necessary to create capacity to ensure safe and efficient passage of shipping vessels calling at the Port of Baltimore.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The Cox Creek DMCF is being expanded to increase capacity for the placement of dredged material from the shipping channels for the Port of Baltimore as part of the State's 20-Year Dredged Material Management Plan. This expansion, including raising the existing dikes, is necessary to create capacity to ensure safe and efficient passage of shipping vessels.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Dike raising to +60 feet began in 2021 and was substantially completed in 2024; dredged material placement is planned to continue during the expansion project. Planning and design for the next phase of dike raising to +80 feet began in 2025.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Cash flows were realigned based on updated project schedules for the +60 dike raising phase of construction. Overall costs increased by $28.3M because engineering and construction costs have been added for the next phase of the project to raise the dikes to +80 feet.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: Masonville Dredged Material Containment Facility Expansion and Related Projects

DESCRIPTION: The Masonville Dredged Material Containment Facility (DMCF) is an existing 193-acre dredged material placement site located in Baltimore City. The dikes are being raised at the facility to increase the capacity for the placement of dredged material from the shipping channels for the Port of Baltimore as part of the State's 20-Year Dredged Material Management Plan (DMMP). This program supports the placement, monitoring and management of material dredged from the shipping channels for the Port of Baltimore, and design and construction of containment sites, monitoring during and after placement, and site operations of the DMCF.

PURPOSE & NEED SUMMARY STATEMENT: Placement capacity for dredged material from Baltimore Harbor is currently provided by the existing Cox Creek and Masonville DMCFs. The capacity that is currently available is not adequate to accommodate necessary dredging of the shipping channels for the Port of Baltimore over the 20-year planning period of the State's DMMP. Raising of the existing dikes at Masonville is necessary to create capacity to ensure safe and efficient passage of shipping vessels.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The dikes are being raised at the Masonville DMCF to increase capacity for the placement of dredged material from the shipping channels for the Port of Baltimore as part of the State's 20-Year Dredged Material Management Plan. Raising the existing dikes is necessary to create capacity to ensure safe and efficient passage of shipping vessels.

PROJECT: Paul S. Sarbanes Ecosystem Restoration Project at Poplar Island

DESCRIPTION: The Paul S. Sarbanes Ecosystem Restoration Project at Poplar Island is an international model of the beneficial use of dredged material restoring remote island habitat in the mid-Chesapeake Bay. In 1996, only five acres remained of the 1,140 acres that were documented in 1847. MPA, working with the U.S. Army Corps of Engineers, began restoring Poplar Island in the 1990s. In 2017, an expansion project began to increase the site's placement capacity and create 1,715 acres of restored habitat consisting of 777 acres of tidal wetlands, 828 acres of upland habitat, open water ponds, and a 110-acre open water embayment. This project is cost-shared with the U.S. Army Corps of Engineers, and the funding shown here is only the state's contribution.

PURPOSE & NEED SUMMARY STATEMENT: Poplar Island receives approximately 2 million cubic yards of dredged material, drawn from the approach channels to the Baltimore Harbor and C&D Canal's southern approach channels. This capacity allows the Port of Baltimore to maintain its channels to their authorized depths and allow safe passage of cargo ships entering and leaving the Port of Baltimore. This project is part of the State's 20-Year Dredged Material Management Plan (DMMP) that identifies either specific sites and projects, or types of sites and projects for future dredged material placement.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: The placement of this material at the Paul S. Sarbanes Ecosystem Restoration Project at Poplar Island allows the Port of Baltimore to maintain its channels to their authorized depths and allow safe passage of cargo ships entering and leaving the Port of Baltimore, and restores lost habitat due to sea level rise and erosion.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [X] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

- [ ] Grandfathered
- [ ] Exception Will Be Required
- [X] Exception Granted

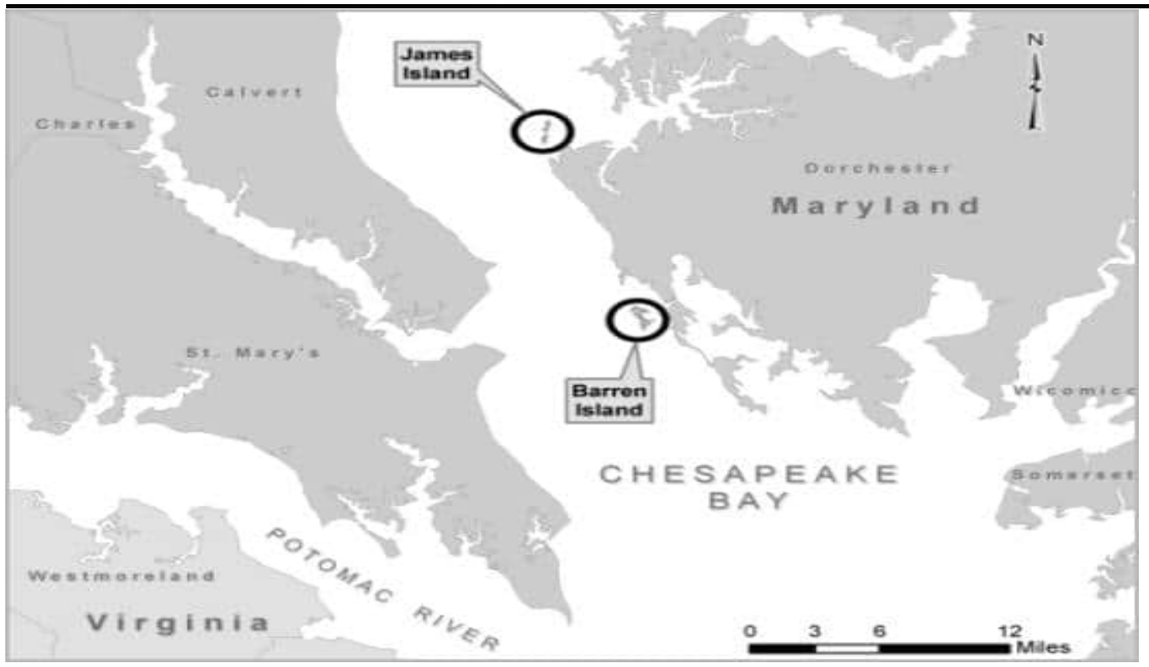

STATUS: The Paul S. Sarbanes Ecosystem Project at Poplar Island continues to accept dredged material placement.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [ ] GENERAL [ ] OTHER

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: $10.1M in funding was added in FY 2031 to cover ongoing design and construction costs. The overall cost increased by $9.9M.

5101, 5103, 5105, 5402

PROJECT: Mid-Chesapeake Bay Island Ecosystem Restoration Project

DESCRIPTION: The Mid-Chesapeake Bay Island Ecosystem Restoration Project (Mid-Bay Project) will restore two eroding Chesapeake Bay islands, James and Barren, providing long-term capacity for sediment removed from the shipping channels serving the Chesapeake Bay. This project will restore 2,000 acres of important, scarce remote island habitat, both upland and wetlands, and provide shoreline protection from erosion by reducing wave energy. This project is cost-shared with the U.S. Army Corps of Engineers, and the funding shown here is only the state's contribution.

PURPOSE & NEED SUMMARY STATEMENT: The Mid-Bay Project will be used to place dredged material drawn from the approach channels to the Baltimore Harbor and C&D Canal's southern approach channels as Poplar Island reaches its capacity. This new capacity allows the Port of Baltimore to continue to maintain its channels to their authorized depths and allow safe passage of cargo ships entering and leaving the Port of Baltimore. This project is part of the State's 20-Year Dredged Material Management Plan (DMMP) that identifies either specific sites and projects, or types of sites and projects for future dredged material placement.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: The placement of this material at the Mid-Chesapeake Bay Island Ecosystem Restoration Project at James Island and Barren Island will allow the Port of Baltimore to maintain its channels to their authorized depths and allow safe passage of cargo ships entering and leaving the Port of Baltimore, and restores lost habitat due to sea level rise and erosion.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [X] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

- [ ] Grandfathered
- [ ] Exception Will Be Required
- [X] Exception Granted

STATUS: Construction continues on Barren Island. Construction is anticipated to start on James Island in late summer 2026. MDOT is able to advance this project to start construction on James Island because of the funding provided by the Governor and Legislature in the last session.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Costs increased by $16.8M mainly due to $16.5M in funding being added to FY 2031 to continue the construction of this project.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [X] GENERAL [ ] OTHER

PROJECT: Innovative Reuse and Beneficial Use of Dredged Material

DESCRIPTION: MPA continues to implement the Innovative Reuse and Beneficial Use Strategy to advance the reuse of dredged material from channels serving the Port of Baltimore into sustainable and resourceful applications while reclaiming capacity at containment facilities to ensure the long-term maintenance of the 50-ft navigation channel system.

PURPOSE & NEED SUMMARY STATEMENT: The Dredged Material Management Act of 2001 (DMMA) established the Dredged Material Management Program (DMMP) and the DMMP Executive Committee to ensure that the federal navigational channels in the Chesapeake Bay and Baltimore Harbor remain open for waterborne commerce and to provide oversight and guidance over the Port of Baltimore's dredging needs through a rolling 20-year capacity and placement plan. Further, DMMA prioritizes beneficial use and innovative reuse alternatives over traditional dredged material placement methods. Solutions that can reuse dredged material extend the placement capacity at the Port of Baltimore's dredged material placement sites.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: This project provides enhanced dredge placement capacity as well as environmental benefits.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] P
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: MPA has started to develop the Cox Creek Sediment Technology and Reuse (STAR) site to continue the advancement of the innovative reuse of dredged material. MPA has awarded contracts to nine companies to test the feasibility of using material dredged from Baltimore's channels for other applications.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Overall estimated project costs increased by $7.5M, mainly due to $5.5M added to FY 2031 to continue this program.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: Cox Creek Sediment Technology and Reuse (STAR) Facility Remediation

DESCRIPTION: The property was acquired by MPA and requires environmental remediation. Under the terms of the agreement, remediation of the property will be cost-shared with the previous owner who will contribute 62% of the cost for remediation.

PURPOSE & NEED SUMMARY STATEMENT: The property is adjacent to the Cox Creek DMCF and will be used to support MPA's Innovative Reuse and Beneficial Use program. Prior to being able to use the property, environmental remediation needs to happen under a Maryland Department of Environment Administration Consent Order.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [ ] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: The project will provide for environmental remediation of the property to support MPA's Innovative Reuse program that provides enhanced dredge placement capacity.

PROJECT: Dundalk Marine Terminal Resiliency and Flood Mitigation

DESCRIPTION: The project will provide critical flood protection improvements at Dundalk Marine Terminal. The project will install tide gates to prevent storm surges from flowing back through the drains onto the terminal; installing a perimeter barrier to prevent storm surges from overtopping the berths; and constructing a new box culvert with lateral drains to deal with extreme rain events. MPA is using a $10 million FY20 Better Utilizing Investments to Leverage Development (BUILD) grant and $41.3 million in Promoting Resilient Operations for Transformative, Efficient, Cost-saving Transportation (PROTECT) Federal Formula funding that is coming from SHA.

PURPOSE & NEED SUMMARY STATEMENT: The project is part of a larger, long-term resiliency and flood mitigation program at MPA's terminals and is essential in maintaining the POB's competitiveness in the Automobile and Roll-On/Roll-Off heavy equipment marketplace. By making improvements to Dundalk Marine Terminal, the project will reduce the risk of cargo losses due to storm surge and rainfall flooding at the POB's largest and most versatile general cargo facility.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: The project will protect Dundalk Marine Terminal from storm surges that may be associated with sea level rise and flooding from future high intensity-short duration rain events.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Cash flows were adjusted based on updated scheduling.

PROJECT: Fairfield Marine Terminal Pier 4 Reconstruction

DESCRIPTION: The project will reconstruct Pier 4 at Fairfield Marine Terminal which was removed from service in 2020 due to structural deterioration.

PURPOSE & NEED SUMMARY STATEMENT: The Port of Baltimore is the Nation's leading automobile port. Fairfield Marine Terminal is MPA's dedicated automobile terminal. Pier 4 was taken out of service in 2020, leaving only one available pier for the Roll-On/Roll-Off (Ro/Ro) carriers to berth. This has the potential to create bottlenecks and increase costs as Ro/Ro vessels have to wait at anchor for the only existing berth to open.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The reconstruction of Pier 4 will allow MPA to offer two piers for Ro/Ro carriers to berth and eliminate potential delays in loading and unloading cargo.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

PROJECT: Dundalk Marine Terminal Electrification

DESCRIPTION: Upgrading power system into Dundalk Marine Terminal for electric vehicles and shore to ship power. This is a terminal-wide approach needed to correct all deficiencies. Installation of a resilient power system and monitoring equipment. Improvements to electrical conduit systems for durability and reliability. Installation of electric vehicle charging stations to accommodate the increased use of electric personal vehicles and equipment. Provide provisions for shore to ship power.

PURPOSE & NEED SUMMARY STATEMENT: The Maryland Port Administration has renewed and expanded a voluntary Memorandum of Understanding with the Maryland Department of the Environment and Maryland Energy Administration to strengthen environmental initiatives at the marine terminals. The agreement calls for a continued committed effort to reduce diesel and greenhouse gas emissions and increase energy efficiency at the Port.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Dundalk Marine Terminal's electrical system will need to be upgraded to handle future power requirements that will be necessary as MPA and its tenants de-carbonize their operations.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: Electrical System inspection is underway with repairs being made as necessary. MDOT is able to advance this project to the construction phase because of the funding provided by the Governor and Legislature in the last session.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Overall costs decreased by $3M as funds were reprogrammed to other areas of need.

PROJECT: Fairfield Marine Terminal Stormwater Management Program

DESCRIPTION: A five phase project designed to capture and convey surface runoff from the adjacent Masonville Dredged Material Containment Facility, relieve existing Fairfield Marine Terminal drain system, and provide storm drain capacity for the development of the Kurt Iron Slip and other areas at Fairfield Marine Terminal and Masonville Marine Terminal.

PURPOSE & NEED SUMMARY STATEMENT: Maryland Port Administration is required to restore and protect water quality using stormwater restoration measures and management practices, while simultaneously expanding and redeveloping Port facilities, cleaning up and returning historically contaminated sites to productive use, and continuing to grow and improve the economic competitiveness of one of the largest ports in the US for total cargo tons handled.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: The stormwater management program at Fairfield / Masonville Marine terminals is required before any further development can be performed on these sites. In addition, Phase I is required to address surface runoff from the Masonville Dredged Material Containment Facility.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Funds were realigned as the construction start date was pushed back to FY 2027.

2714, 000273

PROJECT: South Locust Point Cruise Maryland Terminal

DESCRIPTION: Cruise lines operate international excursions out of MPA facilities. Recent projects included: installing a redundant electrical feeder and new restrooms; upgrading the public address system; enclosing the existing canopy; purchasing new check-in counters, furniture, and carpeting; expanding the Customs and Border Protection inspection area; and erecting a new cruise entrance to improve vehicular circulation.

PURPOSE & NEED SUMMARY STATEMENT: Cruise lines make decisions on what ports to call based on surveys of their passengers and the MPA must continue to maintain the Cruise Maryland Terminal. It is necessary to enhance the cruise experience and ensure customers continue to want to cruise out of Baltimore.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The improvements made at the South Locust Point Marine Terminal are for the comfort and convenience of cruise line passengers. These improvements spurred an increase in passenger demand and voyages from MPA facilities in the Port of Baltimore.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: MDOT is able to advance this project to construction phase because of funding provided by the Governor and Legislature in the last session. Construction for the new HVAC system and ceiling upgrades are scheduled to start in FY 2027.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Overall costs increased by $19M because the replacement of the passenger boarding bridge was added to this project.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [ ] GENERAL [ ] OTHER

1638,1655, 000239, 000384

PROJECT: World Trade Center

DESCRIPTION: Updating Projects include removing original electrical panels and replacing with modern electrical components, modernizing elevators by installing new motors and updating cab designs, and upgrading the air distribution system. Renovation projects include tenant and communal space modifications, lobby door upgrades, and window shades for thermal protection. Operations include on-going preliminary engineering to support capital expenditures and maintenance to accommodate day to day operations of building and staff.

PURPOSE & NEED SUMMARY STATEMENT: World Trade Center Baltimore is Baltimore's signature office building and the focal point of Maryland's world famous Inner Harbor. It is a 31-story pentagonal office tower built in 1977 with 296,139 rentable square feet located in a cluster of "Tier 1" buildings that house the region's most influential businesses. In order to remain competitive in this market, the building requires modernization and constant maintenance.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Ongoing maintenance and repair of the nearly 50-year-old building is required to ensure the World Trade Center remains safe and secure with modern, efficient facilities for all tenants and visitors.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: Preliminary Engineering is ongoing for various projects. Rehabilitation of the HVAC system is ongoing. Elevator modernization began in February 2024 and will be completed in late FY 2026. Tenant renovations will continue in FY 2026.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: $32.5M was added to cover the cost a major renovation that will allow two existing tenants to expand. Also, these additional funds will cover the replacement of a chiller and rehabilitation of electrical switchgear.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [ ] GENERAL [ ] OTHER

3107, 3217, 000178, 000274, 000275, 000288, 000339

PROJECT: Interconnector Bridge

DESCRIPTION: The Interconnector Bridge structure over Colgate Creek is a nine-span, 718-foot-long prestressed concrete beam bridge built around 1986. The bridge consists of two 79-foot spans and seven 80-foot spans, all simply supported. The reinforced concrete deck carries two lanes of traffic, one lane in each direction, with a clear roadway width of 28-feet between concrete parapets.

PURPOSE & NEED SUMMARY STATEMENT: Around 1994, the prestressed concrete beams were strengthened with external post-tensioning strands installed along the bottom flange within the middle third of each span to increase the load carrying capacity. While the structure is currently in satisfactory condition, repairs and improvements are required to maintain optimal operating conditions.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The Interconnector Bridge allows cargo traffic to flow expeditiously between the two marine terminals without having to exit and re-enter the restricted terminal areas.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

361

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Funds were reduced by $1.6M as the project bids came in below the Engineer's estimate. Funding was flowed to reflect an updated schedule.

PROJECT: Chrome Ore Processing Residue Remediation (COPR)

DESCRIPTION: After years of COPR investigations, and submission of a Corrective Measures Alternative Analysis (CMAA), the Maryland Department of the Environment (MDE) directed MPA and Honeywell to implement enhanced isolation and containment of the COPR at Dundalk Marine Terminal (DMT). This requires relining storm drains in the COPR areas and installing enhanced long-term monitoring and maintenance of the site.

PURPOSE & NEED SUMMARY STATEMENT: Originally, chromium was believed to be good fill material; unfortunately, it is now known that a large portion of the chromium at DMT contains hexavalent chromium which is defined and regulated as a hazardous substance under Federal and State law. The studies and work plans required under the Consent Decree are designed to assess the chromium remediation. The CMAA was approved by the MDE in July 2012.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [ ] Enhance Safety and Security
- [ ] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Remediation of the affected areas located at the DMT will prevent hazardous substances generated by chrome ore residue from entering Baltimore Harbor. The application of Corrective Measures will enable the reclamation of chrome ore affected areas. The MPA will use these areas to store additional cargo brought to the Port of Baltimore by truck, vessel or rail.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

1011, 1102, 1106, 1108, 9000

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: $13.4M was added to the program to cover the increased costs associated with the remediation. Most of this increase can be attributed to adding $2.5M in FY 2026, $3.4M in FY 2029 and $5.6M in FY 2031.

PROJECT: Dredged Material Placement and Monitoring

DESCRIPTION: This program supports the placement, monitoring and management of material dredged from the shipping channels for the Port of Baltimore. Costs associated with this program enable design and construction of containment sites and monitoring during and after placement.

PURPOSE & NEED SUMMARY STATEMENT: The State's 20-Year Dredged Material Management Plan (DMMP) identifies either specific sites and projects, or types of sites and projects for future dredged material placement. This program funds the development, construction and monitoring of selected dredged material management sites and projects to maintain the navigation channels that help the Port remain competitive and increase economic development.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: The Port of Baltimore is one of only a few East Coast ports with the depth and infrastructure to accommodate some of the world's largest container ships. Maintaining the shipping channels leading into the Port of Baltimore is critical to maritime commerce in the state. Managing, monitoring and utilizing sediments in ways that are good for the Port, the surrounding communities, and the environment are the priorities of the program, and a core value to the State.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: MPA continues to evaluate alternative dredged material placement sites and options. The Masonville and Cox Creek Dredged Material Containment Facilities and the Poplar Island Ecosystem Restoration project are accepting dredged material.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The overall cost increased by $14.0M because cash flows were adjusted, and funding was added to FY 2028 and FY2031.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: Port of Baltimore Rail Capacity Modernization Project

DESCRIPTION: The Intermodal Container Transfer Facility (ICTF) sits adjacent to Seagirt Marine Terminal. The project will replace existing infrastructure with five new working rail tracks and adding infrastructure to support reduced or zero emission Rubber Tired Gantry cranes. The project is being supported by a Consolidated Rail Infrastructure and Safety Improvement (CRISI) grant from the Federal Railroad Administration along with private funding from Ports America Chesapeake.

PURPOSE & NEED SUMMARY STATEMENT: The project is needed to modernize the ICTF's rail yard infrastructure to support increased demand for double stacked trains of containerized cargo once the Howard Street Tunnel Project is completed in Mid-2026.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: The project will support increased cargo demand at the terminal, upgrade the rail container terminal's aging infrastructure to achieve a higher level of safety, promote energy efficiency with electric rather than diesel equipment, reduce emissions and improve air quality by reducing the number of trucks on the road, and invest in vital rail infrastructure that will help alleviate the increasing pressure on the supply chain.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

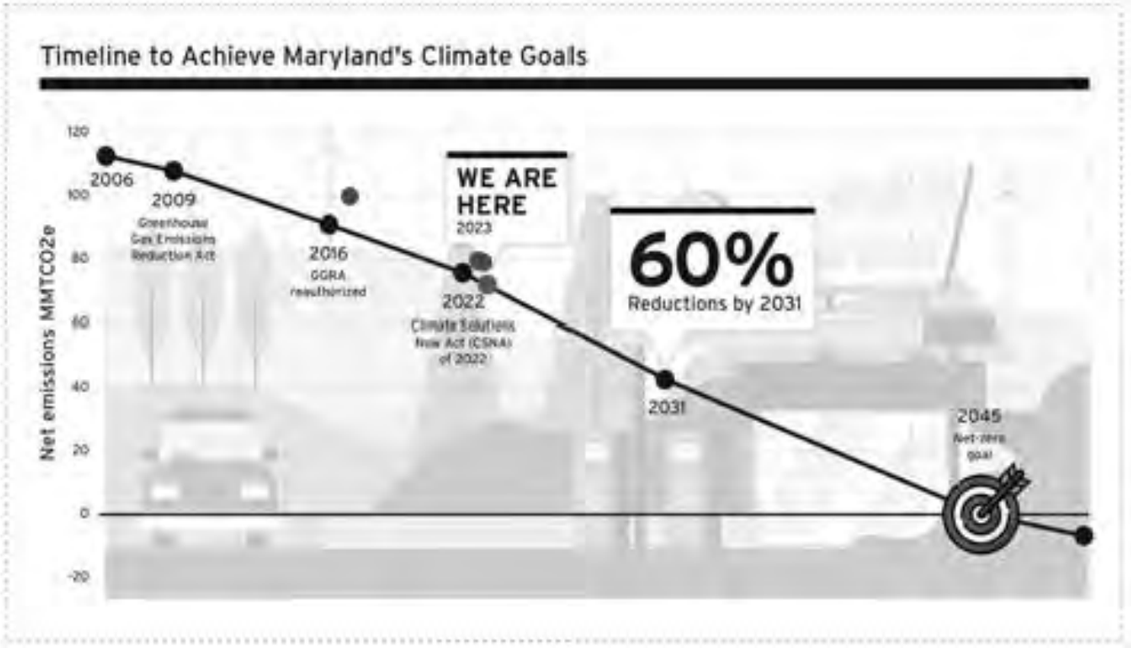

- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: The CRISI grant was announced in June 2022. Ports America Chesapeake and MPA are working with FRA to finalize the grant agreement.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

PROJECT: Climate Solutions Now Act and Related Projects

DESCRIPTION: MPA's compliance with the Climate Solutions Now Act 2022, includes converting the fleet to zero emission vehicles, replacing equipment with high energy efficiency and installing technologies with the goal of reducing greenhouse gas emissions.

PURPOSE & NEED SUMMARY STATEMENT: These projects represent MPA's compliance with the Climate Solutions Now Act 2022, the law that requires the state to be net zero by 2045.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: This project is to comply with the Climate Solutions Now Act 2022. This project will help MD improve air quality by electrifying the fleet and upgrading buildings to reduce energy consumption.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: MPA is currently replacing older diesel engines with cleaner diesel burning engines or with electric vehicles when possible. Design work has begun on the EPA Clean Port grant to bring the necessary power into Dundalk Marine Terminal and procuring electric forklifts.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Overall project costs increased by $14.6M. This is mainly due to $11.3M being added to FY 2030 and FY 2031 to fund future Climate Solutions Now Act Initiatives.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: Seagirt Marine Terminal Modernization - Loop Channel Improvements

DESCRIPTION: This is phase two of the Seagirt Modernization project, which will widen and deepen the loop channel to facilitate improved access at Seagirt Marine Terminal for the larger container ships that are now calling on East Coast ports. Phase one consists of deepening a second berth and landside improvements at Seagirt Marine Terminal Berth 3.

PURPOSE & NEED SUMMARY STATEMENT: This project is necessary to remain competitive with other East Coast ports by improving access to Seagirt Marine Terminal. This project will also improve safety for ships entering and exiting the Seagirt Marine Terminal

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The Seagirt Loop Channel improvements were evaluated through an integrated feasibility study in partnership with the US Army Corps of Engineers to maximize Baltimore Harbor's contribution to national economic development, consistent with protecting the environment, by improving the existing navigation system's ability to safely and efficiently serve the forecasted vessel fleet.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: The USACE has recommended the funding of this project to deepen the remainder of the loop channel to fifty feet. The project is funded for Engineering and Design.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [ ] GENERAL [ ] OTHER

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Construction funding was added to FY 2027 and FY 2028.

PROJECT: Dundalk Marine Terminals Berths 11 - 13

DESCRIPTION: Dundalk Marine Terminal is the largest MPA-owned terminal in the Port of Baltimore and handles a wide variety of cargoes, including RO/RO cargo, automobiles, containers, and break-bulk. Berths 11 - 13 are approximately 2,900 feet in length and were constructed over 60 years ago. This is a Project Labor Agreement candidate project.

PURPOSE & NEED SUMMARY STATEMENT: Due to the harsh marine environment, these berths are in need of reconstruction in order for the Port of Baltimore to continue to handle the large volumes of automobiles and RO/RO equipment.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Dundalk Marine Terminal (DMT) Berths 11 - 13 handle large volumes of automobile and RO/RO cargo that would not be cost effective to handle at other DMT berths. If these berths are not reconstructed, the berths are in jeopardy of being taken out of service.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Preliminary Engineering and NEPA are underway for the 1st Phase of Berth 11 - 13 Reconstruction. MDOT is able to fund the 2nd Phase of construction because of the funding provided by the Governor and Legislature in the last session.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: $35M has been added to complete the funding for the 2nd phase of the DMT Berth 11-13 Reconstruction.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: Dundalk Marine Terminal Berths 1 - 2

DESCRIPTION: The existing wharf for DMT Berths 1 & 2 is approximately 1,475 feet long, with a width of approximately 38 feet. Mooring dolphins and catwalks are present beyond the north end of the wharf. The existing structure is a combination of the original structure from circa 1929, and expansions and reconstructions of various vintages from 1960 to 2015. The pier is currently utilized by RO/RO vessels for the import of automobiles.

PURPOSE & NEED SUMMARY STATEMENT: This is the fourth and final phase of reconstructing DMT Berths 1-6. This area of DMT is the most active for vessel berthing for the loading and unloading of automobiles. The Port of Baltimore is the largest port in the USA for the handling of automobiles because of its close proximity to East Coast and Midwest markets and the ability to handle many RO/RO ships at one time.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Dundalk Marine Terminal (DMT) Berths 1 and 2 handle automobile and RO/RO cargo that would not be cost effective to handle at other DMT berths. If these berths are not reconstructed, the berths are in jeopardy of being taken out of service.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

8004

PROJECT: North Locust Point Marine Terminal Preservation Projects

DESCRIPTION: Projects aimed at bringing the terminal up to a world class operating status and increasing cargo volumes. Projects include rehabilitation of utility lines, demolition of facilities that are beyond their useful life, and reconstruction of piers.

PURPOSE & NEED SUMMARY STATEMENT: The Maryland Port Administration owns a 100+/- acre port terminal, adjacent to the South Locust Point Marine Terminal on McComas Street. The Facility has 25 +/- acres of open uncovered paved land for bulk storage with direct rail access by CSXT. The Facility is fully leased with the longest lease lasting through 2032. There are certain areas of the terminal that need an infrastructure investment to maximize cargo operations and facilitate potential future public private partnerships.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: North Locust Point Marine Terminal has aging infrastructure that needs to be rehabilitated and/or reconstructed to allow MPA tenants to continue their operations.

SMART GROWTH STATUS:

- [ ] Project Not Location Specific
- [ ] Not Subject to PFA Law
- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Design funding is on hold for Pier 3 demolition, Piers 4 and 5 Rehab, and the waterline replacement. Pier 10 repairs are expected to start March 2026.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

PROJECT: St Helena Property

DESCRIPTION: Provide expansion of RO/RO opportunities. This brownfield site will be redeveloped by MPA and used for Port of Baltimore expansion.

PURPOSE & NEED SUMMARY STATEMENT: MPA has entered into a purchase agreement to acquire 17.27 acres of undeveloped land located on Broening Highway across from the Dundalk Marine Terminal. The property is currently undergoing environmental remediation in preparation for conveyance. As part of the remediation efforts, the current owner has agreed to consider MPA's development plans for the property. Design plans for the property need to be developed and finalized to facilitate construction as soon as possible after the property is conveyed. The area will support expansion of RO/RO opportunities.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: The site would allow MPA to expand cargo storage capabilities near Dundalk Marine Terminal.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: MPA has an agreement to acquire the property and is waiting on the owner to complete the required remediation.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: Enterprise IT Capital Program - MPA OTTS

DESCRIPTION: This is the MDOT Enterprise Information Technology (IT) Program. This program supports IT projects which enhance MDOT's information technology infrastructure and strategy, including cybersecurity, innovation, IT oversight responsibilities, hardware/software upgrades, and end-of-life replacements.

PURPOSE & NEED SUMMARY STATEMENT: These reflected capital funds contribute to the MDOT Enterprise Information Technology Program.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Information technology supports the MDOT enterprise. Information technology enhances MDOT's ability to achieve its goals by supporting specific transportation projects and information technology projects that enhances the safety, security, and efficiency of MDOT.

MTA CONSTRUCTION PROGRAM

PROJECT: MARC Maintenance, Layover, & Storage Facilities

DESCRIPTION: Planning, environmental documentation, design, and construction of maintenance, layover, and storage facilities. Includes design and construction of storage tracks, replacement track switches, high-level platforms, and yard electrification at MARC Martin State Airport facility. Also includes the construction of the MARC Riverside heavy maintenance building, including two new natural gas and diesel burners, and pavement repair. Each of these facilities support equipment that is used across all MARC lines.

PURPOSE & NEED SUMMARY STATEMENT: Projects will provide a critically needed maintenance facility for the MARC fleet. Upgrades to the maintenance facility will reduce interference with Amtrak operations at Washington Union Station and Penn Station and provide urgently needed fleet storage away from the passenger platforms at the station.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Additional storage capacity enables MARC trains to be stored away from passenger platforms, minimizing disruptions and delays caused by congestion around the platforms and will help with maintenance inspections. The new maintenance facility will house specialized equipment to support maintenance of MARC's diesel locomotives.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: MARC Martin State Airport Improvements anticipated to begin construction in FY 26. MDOT is able to advance the MARC Riverside Wayside Power, Yard Air, and Environmental project to the construction phase because of the funding provided by the Governor and Legislature in the last session.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Project funding allocation increased by $18.9M due miscellaneous adjustments, unfavorable bid on the MARC Martin State Airport Improvements project. The MARC Martin State Airport Facility Renovation and Martins Layover & Maintenance Facility Yard Electrification projects have been deferred.

USAGE:
MARC annual ridership in FY 2025 exceeded 4.2 million.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [X] OTHER

PROJECT: MARC Improvements on Penn Line

DESCRIPTION: Ongoing improvement program to ensure safety and quality of service along the MARC Penn Line. Program is implemented through Amtrak construction agreements that are required in order to provide MARC service on the Amtrak-owned rail corridor. Amtrak efforts include projects such as passenger upgrades at Baltimore Penn and Washington Union Stations, interlocking work, and other track improvements along the Northeast Corridor.

PURPOSE & NEED SUMMARY STATEMENT: Investments in passenger rail corridor infrastructure improvements are necessary to continue quality MARC service.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Projects such as interlocking replacements and platform improvements are needed to keep the system in a state of good repair.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Ongoing projects on the Penn Line are governed by the Passenger Rail Investment and Improvement Act of 2008.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Project funding allocation increased by $26.4M due to the new program year (FY 2031) and the addition of the following projects: Track A Winans to Bridge Improvements, MARC Aberdeen Station ADA improvements, Penn Line Tunnels Drain Cleaning & Bowie Concrete Repairs, and Halethorpe Station Staircase Replacement.

USAGE:
MARC annual ridership in FY 2025 exceeded 4.2 million.

PROJECT: MARC Improvements on Camden and Brunswick Lines

DESCRIPTION: Ongoing improvement program to ensure safety and quality of service along the MARC Camden and Brunswick lines. Program is implemented through CSX construction agreements that are required in order to provide MARC service on CSX-owned rail corridors. CSX efforts include projects such as interlocking replacements and other track improvements.

PURPOSE & NEED SUMMARY STATEMENT: Investments in passenger rail corridor infrastructure improvements are necessary to continue quality MARC service.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Projects such as interlocking replacements and platform improvements are needed to keep the system in a state of good repair.

- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Construction for the installation of new switch panels at various locations is underway. MARC Silver Spring Turnback Facility feasibility study completed in FY 2025 and design has been initiated. MTA was awarded funding through the All Stations Accessibility Program (ASAP) for design improvements to the MARC College Park Station; concept design (15%) is underway.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Project funding allocation increased by $7.4M due to the new program year (FY 2031) and miscellaneous adjustments. The following projects were removed from the PIF following completion: Greenbelt Switches, MARC Brunswick Line Master Plan Investments, Reconstruct Brunswick Turntable & Connecting Tracks. The MARC College Park Accessible Stations (ASAP) project was added to the PIF.

USAGE:
MARC annual ridership in FY 2025 exceeded 4.2 million.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: MARC Coaches - Overhauls and Replacement

DESCRIPTION: Minor overhaul of 63 MARC III coaches, the overhaul of MARC IV railcars and truck components, and the overhaul or replacement of MARC multi-level railcars. MARC coaches are used interchangeably across all MARC lines.

PURPOSE & NEED SUMMARY STATEMENT: Overhauls will extend the life cycle of mechanical systems and car bodies, providing safe and reliable vehicles for MARC service.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project includes railcar purchases and overhauls of MARC coaches to refurbish and update mechanical systems, car bodies, and truck components.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Overhaul of 63 MARC III railcars is complete, with project closeout anticipated in FY 2026 following final project certifications, including safety-critical items. MDOT is able to advance the MARC IV Midlife Overhaul project (54 railcars) to the design phase because of the funding provided by the Governor and Legislature in the last session.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Project funding allocation increased by $21.2M due to the new program year (FY 2031) and miscellaneous adjustments.

USAGE:
MARC annual ridership in FY 2025 exceeded 4.2 million.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: MARC Locomotives - Overhauls and Replacements

DESCRIPTION: Overhaul eight diesel SC-44 locomotives, overhaul six GP39H-2 diesel locomotives, complete mid-life overhaul for 26 MP36PH-3C diesel locomotives, develop specifications for new locomotive procurements, and replace six electric locomotives. Diesel locomotives are used interchangeably across all MARC lines, while electric locomotives are used only on the Penn line. This project will include the procurement of an electric locomotive power solution to allow for electric operations of the Penn Line when required by Amtrak on the NEC, after the completion of the Frederick Douglass Tunnel Project.

PURPOSE & NEED SUMMARY STATEMENT: Overhaul of locomotives in accordance with the manufacturer's schedule is needed to maintain safe and reliable operation and to comply with federally-mandated maintenance regulations. Replacement diesel locomotives have higher horsepower and meet EPA air quality emissions standards.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Locomotive overhauls and replacements are needed to maintain a state of good repair.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: All 6 GP-39 locomotives have been overhauled and are complete. Specification development for 26 MP36PH-3C locomotives is complete and is awaiting advertisement. The overhaul of 8 SC-44 locomotives is scheduled to begin in FY 2026.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Project cost allocation increased by $4.4M due to the addition of the MARC Electric Locomotive Purchase project and miscellaneous adjustments.

USAGE:
MARC annual ridership in FY 2025 exceeded 4.2 million.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: MARC Positive Train Control

DESCRIPTION: Implementation and development of Positive Train Control (PTC) for MARC as required by the Federal Railroad Administration. Positive Train Control incorporates an on-board computer that ensures all signals are received by the various parts of the system to prevent collision, maintain speed limits, and train spacing, while also protecting track workers who have been given exclusive use of the tracks. All locomotives and cab cars will be upgraded to operate the Positive Train Control system.

PURPOSE & NEED SUMMARY STATEMENT: PTC for MARC will create a safeguard against train collisions through proper train spacing on the tracks and active speed limit oversight.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Ensure the safe operation of MARC service.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: All MARC diesel locomotives and cab cars available for service are equipped with the Interoperable Electronic Train Management System and are operating PTC on all three MARC service lines (Penn/Camden/Brunswick). Wi-Fi has been installed at all MARC Maintenance and Layover facilities. Procurement underway to continue to update PTC to latest FRA standards.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
None.

PROJECT: MARC BWI Rail Station Upgrades and Repairs

DESCRIPTION: Structural improvements to the BWI Rail Station parking garages and improvements to the existing bus loop, storm water facility, and station including passenger-friendly amenities. The MARC BWI Station serves the Penn line.

PURPOSE & NEED SUMMARY STATEMENT: Repairs to both garages and upgrades to the existing infrastructure of the station are necessary to preserve the BWI Rail Station.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project includes inspection and repairs to garages as well as maintenance repairs and passenger improvements to the station.

PROJECT: MARC Odenton Station Renovation

DESCRIPTION: This project will provide design and construction for renovations to the existing MARC Odenton Station, which serves the Penn line. Interior renovations will include new doors, lighting, flooring, seating, HVAC, paint, millwork at customer service counter, and other miscellaneous customer amenities. Interior renovation will also include accessible restrooms and water cooler. Exterior renovations will include improved drainage, exterior signage, and replacement of all doors and windows. Temporary restrooms and ticket facilities will be provided during construction.

PURPOSE & NEED SUMMARY STATEMENT: The MARC Odenton Station was constructed in the 1940's and requires upgrades to the facility to improve ADA accessibility and to maintain a state of good repair.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project includes repairs and passenger improvements to the station.

SMART GROWTH STATUS:

- [ ] Project Not Location Specific
- [ ] Not Subject to PFA Law
- [X] Project Inside PFA
- [ ] Project Outside PFA
  - [ ] Grandfathered
  - [ ] Exception Will Be Required
  - [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: Design complete. Construction is anticipated to begin in FY 2026.

PROJECT: MARC Laurel Platform Replacement

DESCRIPTION: This project will replace existing platform sub-structure, decking, stairs, and ramp at the Laurel Station, which serves the Camden line.

PURPOSE & NEED SUMMARY STATEMENT: The project will improve the experience of people accessing the station by foot, bike, wheelchair, and various other means. The proposed improvements also support the MDOT MTA's commitment to safety and reliability and complements bikeway planning efforts in the Capital Region.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project includes repairs to the station platforms to maintain a state of good repair.

PROJECT: Freight Rail Program

DESCRIPTION: The MTA Freight Rail program supports inspection, design, maintenance, and rehabilitation projects for state-owned freight rail lines, structures, and grade crossings. Projects include regular inspection and rehabilitation of freight railroad bridges in compliance with Federal regulations, grade crossing inspection and repair, and track improvements.

PURPOSE & NEED SUMMARY STATEMENT: Projects are identified and funded to meet Federal Railroad Administration (FRA) requirements, and support continued safe and efficient freight rail operations that are essential to the economic viability of the areas they serve. Inactive lines also require maintenance to ensure preservation of rights of way and address safety concerns that may arise.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: MTA must continue to comply with FRA standards to support continued safe and efficient operations while providing economic vitality across the state of Maryland.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Bridge inspections are conducted annually, per FRA regulations. Grade crossings are inspected periodically to identify priorities for repair work. Other projects are identified according to conditions to support continued safe operation, preserve and maintain rights of way, and maintain safe conditions.

PROJECT: Homeland Security

DESCRIPTION: Enhancements to the anti-terrorism and emergency preparedness processes, systems, law enforcement resources, and physical infrastructure. To reduce the risk and consequences of terrorism to MTA's customers, infrastructure and communities.

PURPOSE & NEED SUMMARY STATEMENT: This project enhances MTA's capabilities to protect critical infrastructure, provide law enforcement with resources to increase their physical presence, train employees and transit riders to be aware of security related issues, and develop and enhance processes, standards, voice and video communication systems and cooperative agreements with local partners.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

PROJECT: Metro and Light Rail Maintenance of Way

DESCRIPTION: Provide annual maintenance to major systemwide rail infrastructure to keep vital guideway elements in a state of good repair. Such elements include but are not limited to aerial structures and stations, girders, motor operated switches, ballast, concrete and timber ties, trackwork. Also support emergency response services as well as program management along the roadway as well as at railyards.

PURPOSE & NEED SUMMARY STATEMENT: To ensure that all rail-related systems are maintained in a state of good repair while providing safe and reliable service to riders.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Continued maintenance of crucial railway elements is essential to reduce system failures and to improve safety and reliability.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: Various ongoing design and construction efforts as MTA continues to ensure railway elements are kept in a state of good repair. Ongoing procurement for next MOW contract.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Project funding allocation increased by $5.8M due to the new program year (FY 2031) and the addition of the following projects: grade crossing upgrades and the purchase of maintenance materials and a brandt truck.

USAGE:

0239, 1465, 1599, 1748, 1770, 1804, 1829, 1890, 2542, 2543, 2619, 2622

PROJECT: Light Rail Vehicle Overhaul

DESCRIPTION: Perform a mid-life overhaul of Light Rail vehicles. A 15-year inspection and overhaul of the major and sub-assemblies of the vehicles will be performed. The effort will also involve identifying and replacing obsolete parts to improve vehicle performance. This project also supports ongoing overhauls of systems to ensure reliability and safety.

PURPOSE & NEED SUMMARY STATEMENT: Major overhaul of the Light Rail vehicles and upgrades of selected systems will ensure safe operation, reduce ongoing maintenance costs, increase vehicle reliability and availability, and increase passenger comfort and security.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Projects include an ongoing and major overhaul of the Light Rail fleet to ensure safe, reliable service to the end of the cars' useful life.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Project funding allocation decreased by $17.3M from identified cost savings associated with a more cost effective lifecycle management approach on the Metro Section B Interlocking Reconstruction project.

USAGE:
Metro annual ridership in FY 2025 exceeded 5.1 million.

PROJECT: Metro Station Rehabilitation Program

DESCRIPTION: Rehabilitation of Metro stations. Work will include painting, surface finish upgrades, major plumbing repairs, equipment and lighting upgrades, signage upgrade to include next train arrival display, above ground station platform repairs, staircase repair/replacement, structural repairs, roof replacement, snow melt equipment, and water intrusion abatement.

PURPOSE & NEED SUMMARY STATEMENT: Station repairs/upgrades and equipment replacement are needed to stop leaks, increase energy efficiency, and extend the service life of Metro Subway stations.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Rehabilitating Metro Stations will increase safety, reliability, and improve the customer experience for metro riders.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: Design for Metro Platform Rehab & Snow Melt System is underway. Construction for Reisterstown Plaza Station ADA Improvements & Stair No. 2 Replacement was completed in FY 2025. MDOT is able to advance Repairs to 6 stations and the Platform Rehab & Snow Melt System to the construction phase because of the funding provided by the Governor and Legislature in the last session.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Project funding allocation increased by $1.8M due to miscellaneous adjustments to advance design for the SCC Booth Replacement project and the addition of the Upton & Penn-North Stations Concrete & Leak Repairs. The Shot Tower Station Enhancements project has been deferred.

USAGE:
Metro annual ridership in FY 2025 exceeded 5.1 million.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: Metro Railcar and Signal System Overhauls and Replacement

DESCRIPTION: Replacement of Metro railcars and repair of critical equipment such as traction motors, gearboxes, axles, and wheels as well as repair and replacement of signal system and associated components. A Communications-Based Train Control system will be installed.

PURPOSE & NEED SUMMARY STATEMENT: The new vehicles will replace the existing fleet which is nearing the end of its useful life. The replacement of the Railcar Fleet will enhance passenger comfort and convenience, ensure better reliability, and improve safety. On-going overhauls for Metro vehicle subsystems are required to reduce system failures and improve reliability.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Overhaul and replacement of Metro vehicles and signals system will ensure safe, reliable service.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Project funding allocation decreased by $2.9M due to the removal of completed preservation projects. Offsetting adjustments include the addition of the New Metro Traction Motor Repair Services project.

USAGE:
Metro annual ridership in FY 2025 exceeded 5.1 million.

PROJECT: Metro Maintenance Facility Improvements

DESCRIPTION: Replace, upgrade, and install maintenance equipment in the Wabash Rail Shop to support the maintenance of new Metro vehicles while concurrently maintaining the old fleet throughout the transition.

PURPOSE & NEED SUMMARY STATEMENT: Upgrades and replacement of heavy maintenance equipment is required to reduce equipment failures and to support the new metro fleet.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The upgrade, replacement, and installation of maintenance equipment will increase safety for employees by providing fall protection, bring MTA assets to a state of good repair, allow for the current fleet to stay in revenue service, and accommodate the new metro fleet.

PROJECT: Metro Tunnel Repairs and Improvements

DESCRIPTION: Address various rehabilitation and repair projects throughout the metro tunnel system while performing regular inspections of tunnel infrastructure. Work includes but is not limited to addressing active leaks, repairing tunnel vent shafts, replacing outdated station doors, pressure testing and repairing dry standpipe, managing storm water management filters and remediation, actively cleaning tunnels of corrosive materials and unsightly debris, and street grate replacement at 19 vent shafts.

PURPOSE & NEED SUMMARY STATEMENT: This work is needed to ensure that Metro system elements are kept in a state of good repair while also addressing safety-critical repairs.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Rehabilitation/replacement of Metro Subway systems are needed to ensure customer safety, to provide reliable customer service, and to keep the system in a state of good repair while also identifying opportunities to improve upon environmental factors.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

PROJECT: Zero Emission Eastern Bus Facility Redevelopment

DESCRIPTION: The current Eastern Bus Division facility is at the end of its useful life (it was constructed in the late 1940s/early 1950s) and is obsolete. Design and construction to re-develop the existing Eastern Bus Division as a fully electric bus division. This project will develop a new electric Eastern Bus Division for approximately 190 buses on an expanded site. The project will include the relocation of the existing Ponca Street to better accommodate the facility's expansion. Roadway improvements of Ponca Street will be from the intersection of Eastern Avenue to the intersection of the southbound ramp of I-895 and the Oldham Street connector road. This is a Project Labor Agreement candidate project.

PURPOSE & NEED SUMMARY STATEMENT: The existing Eastern facility is past its useful life. Re-developing this facility will promote substantial operational efficiencies. This project is also a necessary step for MTA to transition the bus fleet to 50 percent ZEB in the future.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Re-development of Eastern Bus Division is necessary to meeting Zero Emission goals and to provide a safe and more efficient workplace for MTA employees.

PROJECT: Beyond the Bus Stop

DESCRIPTION: The Beyond the Bus Stop program aims to improve amenities for both riders and operators at bus stops around the network. The Beyond the Bus Stop program will improve the customer experience by adding real-time information signage and shelter improvements to bus stops, including some multi-modal transfers. The program also includes constructing a comfort station at the Patapsco Light Rail Station for use by our operators. Blue Light phones will also be added at these locations.

PURPOSE & NEED SUMMARY STATEMENT: With the launch of real-time information on the Transit mobile application, real-time information signage will extend that availability to the users of the Baltimore system who do not have access to mobile technology. MTA bus operators currently lack sufficient restrooms while operating their routes.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project provides blue light phones and improves existing comfort station facilities for use by operators, making the execution of their jobs safer and more comfortable. Real-time information signage and shelters make for a more vital community by enhancing the customer experience.

PROJECT: Bus Network Improvements

DESCRIPTION: Funding to implement improvements throughout the bus network including planning, design, and construction for priority corridors, dedicated bus lanes, bus stops and transit hubs, wayfinding and improving the customer experience, ADA improvements, and bike and shared mobility.

PURPOSE & NEED SUMMARY STATEMENT: The Central Maryland Regional Transit Plan set goals and objectives for MTA to accomplish in the next 25 years. This funding will work towards expanding dedicated bus lanes, improving bus stops and transit hubs, adding additional wayfinding and customer experience amenities, and improving bike and shared mobility connections.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Projects will build upon ongoing MTA efforts to accomplish goals and objectives created by the Central Maryland Regional Transportation Plan through this rider-focused initiative. The elements of this project will improve reliability and on-time performance while simultaneously enhancing the customer wait and transfer experience.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Project funding allocation decreased by $6.5M as the Baltimore Link Transitways project was removed from the PIF following completion.

USAGE:
Core Bus annual ridership in FY 2025 exceeded 45.5 million.

PROJECT: Bus Procurement

DESCRIPTION: Annual purchase of clean diesel buses to replace those that have been in service for 12 or more years. The MTA has 811 buses in its active fleet.

PURPOSE & NEED SUMMARY STATEMENT: Bus replacement levels are based on the fleet size and must be maintained to prevent high out-of-service rates and major repair problems that arise from retaining buses beyond their useful life. The replacement program will serve to maintain the average age of the bus fleet. Replacement buses will reduce emissions, fuel consumption, and noise levels.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Replacement buses will reduce emissions, fuel consumption, and noise levels while providing service to communities in need.

1447, 2635

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Project funding allocation increased by $62.9M due to the addition of CY 2027 and CY 2028 Bus Procurement project.

USAGE:
Core Bus annual ridership in FY 2025 exceeded 45.5 million.

PROJECT: Alternative Fuel Bus Procurement

DESCRIPTION: Purchase of zero emission and hybrid buses as apart of MTA's annual bus buys to replace buses that have exceeded their useful life. The MTA has 811 buses in its active fleet. These zero emission and hybrid buses can be accommodated within MTA's existing facilities.

PURPOSE & NEED SUMMARY STATEMENT: Bus replacement levels are based on the fleet size and must be maintained to prevent high out-of-service rates and major repair problems that arise from retaining buses beyond their useful life. The replacement program will serve to maintain the average age of the bus fleet. Replacement buses will reduce emissions, fuel consumption, and noise levels.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Replacement buses will reduce emissions, fuel consumption, and noise levels while providing service to communities in need.

PROJECT: Zero Emission Bus Pilots

DESCRIPTION: Purchase of three 60-foot Battery Electric Buses (BEBs) and charging stations based at Kirk Bus Division utilizing competitive grant funds from Federal Transit Administration and four 40-foot battery electric buses and charging infrastructure utilizing funds made available by the Volkswagen settlement. The project also includes the purchase and installation of battery electric bus charging equipment at Kirk Storage Building and necessary utility upgrades to support to new charging equipment.

PURPOSE & NEED SUMMARY STATEMENT: Zero emission bus pilots will allow MTA to test buses in service and develop training, procedures and lessons learned to inform fleet transition.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: This project will allow MTA to pilot emerging low and/or no emission technologies.

Project funding allocation increased by $1.1M to support program management.

USAGE:
Core Bus annual ridership in FY 2025 exceeded 45.5 million.

PROJECT: East-West Priority Corridor

DESCRIPTION: The East-West Priority Corridor project is a partnership between MTA and Baltimore City Department of Transportation to facilitate faster, more reliable transit trips and strengthen east-west connections that run along the City Orange and Blue routes from the Fox Ridge community in eastern Baltimore County through downtown Baltimore to the Centers for Medicare and Medicaid Services (CMS) in western Baltimore County. This project will include dedicated bus lanes, transit signal priority, bus stop enhancement and transit hubs, and upgrades to pedestrian and bicycle safety. The project received a Rebuilding American Infrastructure with Sustainability and Equity (RAISE) grant to support the design and construction.

PURPOSE & NEED SUMMARY STATEMENT: Project will improve bus reliability, travel speeds, on time performance and passenger safety of multiple MTA bus routes. The east-west corridor was identified through the Transit Priority Initiative as an area experiencing travel delays for the City Blue and Orange routes.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Dedicated bus lanes, transit signal priority, and additional passenger amenities at bus stops will create an improved customer experience aimed at reducing travel times, improving on time performance, and enhancing the entire customer journey.

90902

PROJECT: Fare Collection System and Equipment Replacement

DESCRIPTION: Complete replacement of the current fare system including ticket vending machines, faregates, fareboxes and smart card/mobile app readers, back-office software and other related components as well as on-going overhaul and replacement of system components as needed for the core services including Bus, Light Rail, and Metro.

PURPOSE & NEED SUMMARY STATEMENT: As the existing fare collection system ages it is imperative that MTA upgrade software and overhaul and/or replace critical hardware system components to ensure reliable system operation. This project will improve customer service and operations with efficiencies and options provided by a new fare system. The current system is very close to its end of useful life and an increasing number of components and replacement parts are no longer available.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project updates and replaces the equipment, ensures the ability to receive and install software security patches, and will improve customer satisfaction by ensuring system reliability.

PROJECT: Enterprise IT Capital Program - MTA OTTS

DESCRIPTION: This is the MDOT Enterprise Information Technology (IT) Program. This program supports IT projects which enhance MDOT's information technology infrastructure and strategy, including cybersecurity, innovation, IT oversight responsibilities, hardware/software upgrades, and end-of-life replacements.

PURPOSE & NEED SUMMARY STATEMENT: These reflected capital funds contribute to the MDOT Enterprise Information Technology Program.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Information technology supports the MDOT enterprise. Information technology enhances MDOT's ability to achieve its goals by supporting specific transportation projects and information technology projects that enhances the safety, security, and efficiency of MDOT.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Various major IT infrastructure orders are currently underway. Primary Rate Interface to Session Initiation Protocol (PRI-to-SIP) conversion & HIPATH 4000 upgrades completed in FY 2025.

PROJECT: Agencywide Elevator and Escalator Rehabilitation

DESCRIPTION: Funding for the rehabilitation and replacement of elevators and escalators that have reached the end of their useful life. Activities include bringing elevators and escalators up to current ADA and safety standards.

PURPOSE & NEED SUMMARY STATEMENT: This project will provide safety critical upgrades to the elevator and escalator infrastructure. Upgrades will also bring all elevators and escalators to compliance with ADA requirements.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Rehabilitation of the elevator and escalators is necessary to keep them in a state of good repair.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted

STATUS: Construction for Reisterstown Metro Station elevators underway. Procurement for replacement of the remaining MTA elevators will begin in FY 2026. MDOT is able to advance the replacement of 81 escalator project to the design and construction phases because of the funding provided by the Governor and Legislature in the last session.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Project funding allocation increased by $115.5M due to the new program year (FY 2031) and fully funding for the replacement of 81 escalators.

USAGE:
Metro annual ridership in FY 2025 exceeded 5.1 million.

PROJECT: Agencywide Radio and Telecommunications Upgrade

DESCRIPTION: This project will migrate all MTA radio users from 490 MHz to the Maryland (MD) First responders Interoperable Radio System Team (FiRST) Statewide 700 MHz Radio Communications System. This includes upgrading the current MD FiRST Baltimore cell with additional channel capacity to safely accommodate the additional MTA users, installation of new dispatching consoles, and installation of new subscriber radios.

PURPOSE & NEED SUMMARY STATEMENT: This project will migrate all radio users to the MD FiRST Statewide 700 MHz Radio System. MTA will be joining the Maryland Statewide network. The current system is obsolete and will soon become inoperable due to Federal Law, which requires an alternative spectrum.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [ ] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: MDOT MTA must migrate to the current system to continue the availability of radio communication which is required to ensure safe operation.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: All MTA users have been migrated to the new MD First radio system. The First 700MHZ Network project was completed in FY 2025. Design for Metro Tunnel Radio BDA System upgrade is underway and expected to be completed in FY 2026.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Project funding allocation increased by $3.0M due to the addition of the Police Radios Procurement project.

PROJECT: Purple Line

DESCRIPTION: The Purple Line is a 16-mile double track light rail line that will operate between Bethesda in Montgomery County and New Carrollton in Prince George's County. The Bethesda to Silver Spring segment will include a parallel hiker/biker trail. The line will include direct connections to Metrorail in four locations, all three MARC Train lines, and Amtrak. The project includes track, stations, railcars, and two operation and maintenance facilities. The project is being delivered as a public-private partnership for the design, construction, financing, operation, and maintenance of the facility.

PURPOSE & NEED SUMMARY STATEMENT: The Purple Line will provide faster, more reliable transportation between residential and major employment areas. It will enhance access to existing radial Metrorail lines, increase capacity of congested roadways, support economic development consistent with local master plans, and reduce environmental impacts.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: The Purple Line will serve a corridor that currently lacks rail transit service and includes important commercial, institutional, and residential communities. Electrically powered trains will reduce air pollution and greenhouse gas emissions associated with cars and buses. Transit travel times in corridor will be reduced.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: The Board of Public Works approved Amendment 7 in March 2024 to extend the revenue service availability date to Winter 2027. Major construction and extensive testing, including operator training, are underway. Delivery of all Light Rail Vehicles (LRVs) is complete.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Project funding allocation increased by $171.3M primarily due to the consolidation of Purple Line 3rd party projects.

USAGE:
Annual ridership estimated at 20.4 million trips in the year 2035.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [X] OTHER

PROJECT: Purple Line Availability Payments

DESCRIPTION: The construction financing portion of the Availability Payments are regular payments to the railroad's concessionaire for costs related to financing the original construction of the Purple Line and for ongoing lifecycle improvement costs over the 30-year operating period of the concession contract.

PURPOSE & NEED SUMMARY STATEMENT: The Purple Line will provide faster, more reliable transportation between residential and major employment areas. It will enhance access to existing radial Metrorail lines, increase capacity of congested roadways, support economic development consistent with local master plans, and reduce environmental impacts.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: The Purple Line will serve a corridor that currently lacks rail transit service and includes important commercial, institutional, and residential communities. Electrically powered trains will reduce air pollution and greenhouse gas emissions associated with cars and buses. Transit travel times in corridor will be reduced.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Project funding allocation increased by $188.0M due to the addition of the FY 31 availability payment. This has been broken out of the main Purple Line project (Line 37).

USAGE:
Annual ridership estimated at 20.4 million trips in the year 2035.

1042

PROJECT: Locally Operated Transit Systems Capital Procurement Projects (Local Jurisdictions)

DESCRIPTION: Funding to rural and small urban jurisdictions for transit vehicles, equipment, and facilities. In addition, the MTA provides rideshare funds to Baltimore City, Anne Arundel, Baltimore, Calvert, Carroll, Frederick, Harford, Howard, Montgomery and Prince George's Counties, and the Tri-County Council for Southern Maryland to promote the use of carpools and vanpools. MTA facilitates federal funds for locally-sponsored projects.

PURPOSE & NEED SUMMARY STATEMENT: Intense use of equipment and increased service demand requires regular vehicle replacement and expansion as well as adequate support facilities providing reliable maintenance service. The ridesharing program provides citizens with information on expanded commute options and provides companies with technical expertise needed to meet federal clean air requirements.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Replacement buses will reduce emissions, fuel consumption, and noise levels while providing service to communities in need.

PROJECT: Prince George's County Local Bus Program

DESCRIPTION: Funding for bus replacements as well as capital improvements to bus facilities.

PURPOSE & NEED SUMMARY STATEMENT: These investments will make The Bus system more reliable and convenient while improving passenger access to the Metrorail system.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Replacement buses will reduce emissions, fuel consumption, and noise levels while providing service to communities in need.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Project funding will support annual bus replacements and improvements to bus stops throughout the Prince George's County. Funding also includes the executed FY 22 5339 Discretionary grant awarded to the County for battery electric buses, electrical system upgrades, charges, and a microgrid.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
None.

PROJECT: Transit Innovation Grant

DESCRIPTION: A competitive, state funded grant program to support locally planned, designed, and constructed or operated transit projects incorporating innovative investments such as transit signal priority, dedicated or separated right of way, off-board fare payments, and intelligent transportation systems. Project sponsors awarded grant funding will be reimbursed up to the award amount for eligible projects and will be required to provide a local match. Funds may cover planning, design, engineering, or construction phases, including capital investments.

PURPOSE & NEED SUMMARY STATEMENT: To support cost-effective regional and statewide mobility with investments in locally owned and operated transit services and facilities projects that improve travel speeds, reliability and quality of service, and the safe, convenient, affordable, and efficient movement of people.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Eligible projects for the grant program will improve regional and statewide mobility, and the safety, efficiency, and reliability of transit at the local level. Projects will reduce delays and travel time between major activity, population, and job centers in the state.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
None.

USAGE:

PROJECT: Frederick Douglass Tunnel

DESCRIPTION: Replace the existing 1.4-mile B&P Tunnel, which dates from the Civil War era. At nearly 150 years old, it is the oldest tunnel Amtrak inherited and a single point of failure for MARC's Penn line and the Northeast Corridor. Led by Amtrak, MDOT and MTA are coordinating design and phasing plans to replace the tunnel to meet the needs of the 9 million MARC and Amtrak customers who rely on it annually. The project also includes a new ADA-accessible West Baltimore MARC Station. The budget shown is only the MTA commitment to the project.

PURPOSE & NEED SUMMARY STATEMENT: The tunnel suffers from a variety of age-related issues such as excessive water infiltration, a deteriorating structure, and a sinking floor. There are no fire and life safety systems that help keep passengers safe in the event of emergencies, and excessive costly maintenance is required. Due to its age, delays are chronic — more than 10% of weekday trains are delayed, and delays occur on 99% of weekdays.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Replacing the 150 year-old tunnel will allow for more efficient and reliable commutes for MARC train riders.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

If Project Outside PFA:
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Amtrak continues to advance various elements of this multi-faceted program, with MTA coordination. Early construction activities for new West Baltimore MARC Station anticipated to begin in FY 2026.

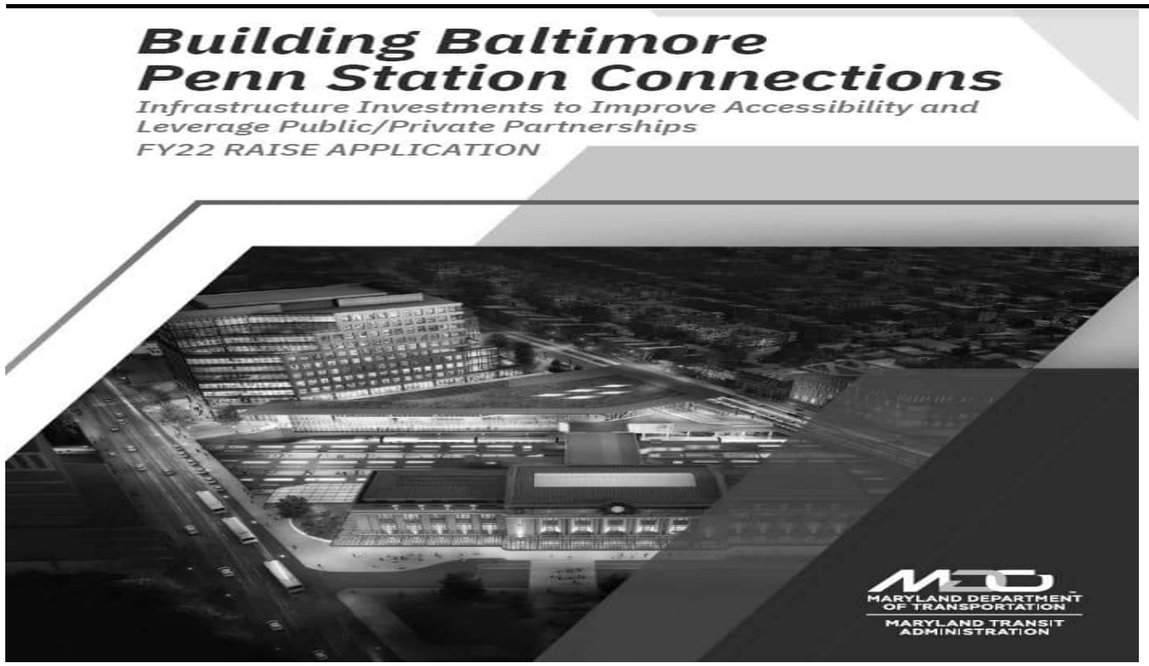

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [X] GENERAL [ ] OTHER

1799

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Project funding allocation increased by $1.7M for various engineering and legal services to support the program.

USAGE:

PROJECT: Penn Station Investments

DESCRIPTION: Multimodal access improvements at and around Baltimore Penn Station, funded by a RAISE grant and Congressionally Designated Spending managed as a grant. The project will include the addition of a full-time dedicated bus lane on Charles Street, new curb extensions, bus stop improvements, real-time sign information, and pedestrian and bicycle access improvements all around or connecting to Penn Station in order to improve access to that station. State funding will be used to match two Federal funding sources ($5M in Congressionally Designated Spending and $6M in a RAISE grant).

PURPOSE & NEED SUMMARY STATEMENT: Multimodal access improvements at and around Baltimore Penn Station, which includes the bus lane on Charles Street, curb extensions on St. Paul and Charles Street, and bike parking investments, amongst other improvements.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Customer amenities and improved connections will complement the state of good repair and enhancement work ongoing at the station.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: MTA is continuing to coordinate with federal partners (FRA and FTA) to finalize grant agreements. In FY 2025, NEPA documentation was submitted to FTA, and is currently under review.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
None.

PROJECT: Metro Mondawmin Transit Hub

DESCRIPTION: Mondawmin Transit Hub includes a comprehensive package of station upgrades, state of good repair improvements, multi-modal investments, and environmental sustainability enhancements that will create a modernized, safe, multi-modal, and well-connected transit hub in West Baltimore. The infrastructure upgrades will improve the station condition, enhance multi-modal connections, create seamless transfers between Metro and the station's 11 connecting bus routes, ensure accessibility for people with disabilities, generate sustainable energy, and improve conditions for inclusive economic growth and transit-oriented development. Mondawmin Transit Hub is located in a Historically Disadvantaged Community where, within a half-mile radius, 23% of households earn less than $15,000 annually and 27% of residents were living at or below the poverty line as of the 2020 decennial Census. This is a Project Labor Agreement candidate project.

PURPOSE & NEED SUMMARY STATEMENT: Approximately forty percent of residents within a half-mile do not have access to a personal vehicle (42%) and rely upon public transportation to get to work (37%), demonstrating a clear need for a high-quality, safe, and accessible Mondawmin Transit Hub. Improving upon current infrastructure is critical to maintain assets in state of good repair and to provide better customer service and reliability to those who are dependent on transit services.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project will address state of good repair needs, add customer amenities, and improve connections, all of which will enhance the existing Metro stop and Bus hub.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
None.

USAGE:
Metro annual ridership in FY 2025 exceeded 5.1 million.
Core Bus annual ridership in FY 2025 exceeded 45.5 million.

PROJECT: Light Rail Modernization Program

DESCRIPTION: The purpose of the project is to replace its entire existing aged fleet of Light Rail vehicles serving the Baltimore region; upgrade the stations and the maintenance facilities to accommodate the new vehicles, replacement of the Howard Street rail, and other necessary improvements to modernize the Light Rail system. MTA's existing fleet includes 52 standard, 95-foot rail cars dating back to the system's launch in 1992. All vehicles have reached the end of their useful life or are approaching the end of their useful life. Each project within this program is a Project Labor Agreement candidate.

PURPOSE & NEED SUMMARY STATEMENT: The vehicle replacement with modern, low-floor vehicles will reduce the number of vehicles that are regularly out of service for repairs. The goal for this program is to improve the reliability, safety, and performance level of the Light Rail system to benefit all users. The fleet replacement program will be accompanied by the reconfiguration of two light rail maintenance facilities and the station retrofitting upgrades at each of MTA's existing 33 stations to ensure ADA compatible access with the new vehicle fleet.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The goal for this program is to improve the reliability, safety, and performance level of the Light Rail system to benefit all users.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Vehicle and Train Control and Stations contracts are in procurement. Howard Street Rail Replacement project has been combined with this program. This program is able to advance because of the funding provided by the Governor and Legislature in the last session.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Project funding allocation increased by $46.2M due to miscellaneous adjustments and the addition of concurrent projects added to the program including Howard Street Rail Replacement, Rail and Switch Heater System Replacement, Operator Simulator, Fast Forward Wayfinding, and Preston Street Grade Crossing.

USAGE:
Light Rail annual ridership in FY 2025 exceeded 4.9 million.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [X] OTHER

PROJECT: Regional Transit Plan Corridor Studies

DESCRIPTION: Planning studies and design for early opportunity corridors identified in the Central Maryland Regional Transit Plan (RTP). The RTP identified regional corridors for additional transit assets. Corridor-specific planning studies will evaluate potential routes and alignments, transit demand, and potential stop and station locations in further detail.

PURPOSE & NEED SUMMARY STATEMENT: Regional transit corridors are important step in achieving the RTP's objectives and increasing access to quality transit.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Completing corridor planning studies will advance the identified corridors with specific data analysis and public input.

PROJECT: Patapsco Ave Pedestrian/Bicycle Bridge

DESCRIPTION: Preliminary engineering and assessment of a pedestrian bridge to connect the Cherry Hill neighborhood to the Patapsco Avenue Light Rail Station.

PURPOSE & NEED SUMMARY STATEMENT: Pedestrians often cross over restricted areas of CSX and Light Rail tracks to access the Patapsco Light Rail Station, posing a danger to themselves and train operators. Designing a safe passage over Patapsco Avenue for trail users will reduce preventable accidents.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: These connections will improve connections from nearby neighborhoods to the Light Rail, expanding transportation options and creating safer connections.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

PROJECT: MARC Penn-Camden Connector

DESCRIPTION: The Penn-Camden Connector project provides a connection track between the Northeast Corridor and the CSX-owned MARC Camden Line, utilizing mostly existing railroad right-of-way north of BWI Marshall Airport to allow Penn Line trains to access storage and maintenance at Riverside Yard. The project includes repurposing CSX-owned Mount Clare Yard into a MARC layover facility.

PURPOSE & NEED SUMMARY STATEMENT: The connection will allow MARC to more efficiently bring its locomotives to MARC's Riverside Maintenance Facility, which is MARC's only backshop for locomotive servicing and maintenance. The connector will also allow MARC to store trainsets at a rail yard (Mt. Clare Yard) adjacent to the Penn-Camden Connector, eliminating the need to store trains overnight at Amtrak's Penn Station. The project will also allow MARC trains to switch between the Penn and Camden Lines in Baltimore instead of deadheading to Union Station in Washington D.C.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The connection will allow MARC to more efficiently bring its locomotives from both Penn and Camden lines to MARC's Riverside Maintenance Facility.

SMART GROWTH STATUS:

- [ ] Project Not Location Specific
- [ ] Not Subject to PFA Law
- [X] Project Inside PFA
- [ ] Project Outside PFA
  - [ ] Grandfathered
  - [ ] Exception Will Be Required
  - [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: Project received full obligation of FY 2022 Consolidated Rail Infrastructure and Safety Improvements (CRISI) grant to complete 30% design & NEPA activities in FY 2025. Design and NEPA are scheduled to be completed by FY 2027.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:

1570

PROJECT: MARC Stations and Service Studies

DESCRIPTION: Design for various station improvements such as high-level platforms and canopies, accessible entrances, and station amenities at multiple MARC locations, both new and existing. Additionally, this project will explore potential service expansion by way of rail capacity modeling along the MARC Penn, Camden, and Brunswick lines.

PURPOSE & NEED SUMMARY STATEMENT: Improving upon current infrastructure is needed not only to maintain a MARC assets in state of good repair, but to provide better customer services at MARC stations and lines.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Improving upon various stations and amenities while exploring system expansion opportunities will provide enhanced customer service along MARC lines.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: The MARC Growth and Transformation Plan published in CY 2025. The Plan details service opportunities, projects needed to achieve each scenario, associated costs and next steps for Maryland's passenger rail service. Conceptual design for MARC Bayview and Elkton Stations is complete, as required by Senate Bill 514. 100% design for MARC Germantown completed in FY 2025.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
None.

PROJECT: I-495/I-270 Corridor Transit Investments Program

DESCRIPTION: This project will facilitate coordination with stakeholders on future transit investments along the I-495/I-270 corridors. This project is now incorporated in SHA Statewide Line 10 - I-270 and I-495 Phase I, a project that is focused on people throughput and improving transit access.

PURPOSE & NEED SUMMARY STATEMENT: This project supports coordination regarding future transit investments along the I-495/I-270 corridors.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Maintain a High Standard and Modernize Maryland's Multimodal Transportation System.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: MTA will continue to coordinate as the project progresses in design and eventually construction.

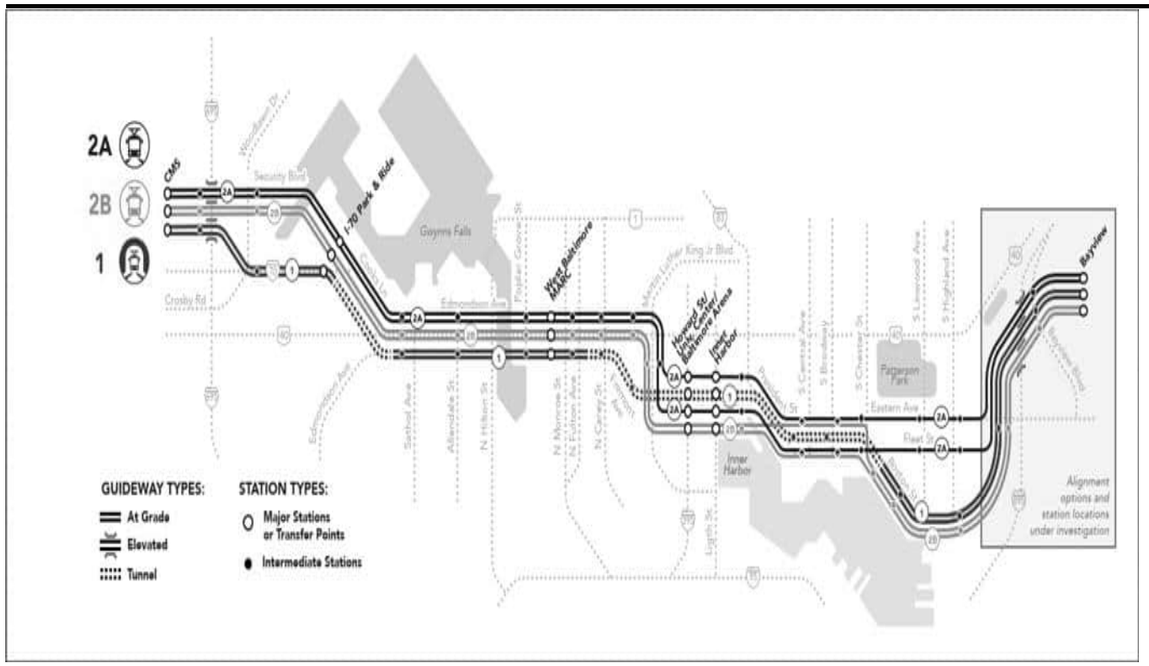

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: Red Line

DESCRIPTION: The Red Line is an east-west, high-frequency, high-capacity transit line for the Baltimore Region. This project is an investment in communities' access to jobs, education, services, and opportunities. This major investment in transit will create better, faster, east-west connections across the region through downtown Baltimore (terminating in Woodlawn to the west and Bayview to the east). The Red Line project is building upon over ten years of study, engineering, environmental analysis, and substantial community participation, which shaped the Red Line prior to its cancellation in 2015. Project work is currently focused on the alternative development, establishing coordination and priorities with jurisdictional and federal partners, and opening engagement/relationships with stakeholders, elected officials, and the public. This is a Project Labor Agreement candidate project.

PURPOSE & NEED SUMMARY STATEMENT: The Red Line project will provide high-frequency, high-capacity transit service in the corridor in a manner that improves transit efficiency; increases access to transit near work and activity centers; enhances connections among existing transit routes; provides transportation choices for east-west commuters; and supports economic development and community revitalization.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: The Red Line project presents an investment that will provide communities access to jobs, education, services, and opportunities. This will provide additional transportation options, will improve the quality of transit services in the region, and will support environmental protection by reducing emissions. The Red Line project has been shaped by over 10 years of work and extensive community engagement.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: The Red Line project team is conducting technical analysis and assessing public and stakeholder input with regards to alignment alternatives. Open houses were conducted in Fall 2024 to review 3 Light Rail alignment alternatives. Various public outreach and communications efforts are underway across the corridor.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
None.

1894

PROJECT: MARC BWI 4th Track

DESCRIPTION: Design and construction of a fourth track and third platform edge at the MARC/Amtrak BWI Station. Phase I will include construction of the third platform edge and fourth track through and adjacent to the station. Phase I will provide capacity for increased Amtrak Acela and regional service, and MARC service enhancement in accordance with the FDT MOU executed with Amtrak in January 2023. Phase II will complete the fourth track per original FRA FONSI.

PURPOSE & NEED SUMMARY STATEMENT: BWI Rail Station has two platform edges and three tracks currently and will be the next major bottleneck for MARC and Amtrak service expansion on the Northeast Corridor (NEC) upon completion of the Frederick Douglass Tunnel. The Federal Railroad Administration (FRA) published a Finding of No Significant Impact (FONSI) for the BWI 4th Track project in January 2016; the FONSI identified a preferred alternative to add a third platform edge and fourth track through BWI Rail Station, along with a significant additional section of fourth track on the NEC. Subsequent to the FONSI, the project has been split into Phase I (third platform edge at the station and a portion of fourth track) and Phase II (remainder of fourth track).

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project will address a future major bottleneck for MARC and Amtrak service expansion on the Northeast Corridor upon completion of the Frederick Douglass Tunnel.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Amtrak has completed an existing conditions study and is preparing a feasibility study for adding a third platform edge in a phased approach (Phase I - 5% conceptual design). Once conceptual design is finalized, Amtrak and MTA will identify next steps, including any NEPA updates and potential funding mechanisms.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP:
Project funding allocation decreased by $5.6M following receipt of a revised proposal from Amtrak.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: 5th Division Bus

DESCRIPTION: This project will design and construct a fifth bus division to serve MTA core bus transit. The division will contain space for staff, bus operations, maintenance, and additional support services. This space will support MTA's ongoing efforts to add new core bus service and improve reliability of existing core bus service.

PURPOSE & NEED SUMMARY STATEMENT: MTA will require additional operations and maintenance space to operate additional bus service because its four current bus divisions are all at capacity.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Construction of a Bus 5th Division is necessary to provide new core bus service to meet growing ridership demand as well as to improve system reliability.

SMART GROWTH STATUS: [ ] Project Not Location Specific [ ] Not Subject to PFA Law

PROJECT: WMATA Capital Improvement Program

DESCRIPTION: The program provides Maryland's share of the funding for the Washington Metropolitan Area Transit Authority's (WMATA) Capital Improvement Program (CIP). It includes Maryland's share of matching funds to federal formula funds received directly by WMATA as well as Maryland's share of additional state and local funds for WMATA capital projects.

PURPOSE & NEED SUMMARY STATEMENT: WMATA's FY 2026 - 2031 CIP is focused on safety, infrastructure rehabilitation and replacement, and maintaining the National Capital region's primary regional transit system in a state of good repair. WMATA's FY 2026 - 2031 CIP includes investments to replace rail cars, rehabilitate track and rail structures, replace vehicles for Metrobus and MetroAccess, and implement recommendations from the National Transportation Safety Board, the Federal Transit Administration, and the Washington Metrorail Safety Commission.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

PROJECT: Project Development Program

DESCRIPTION: The program funds Maryland's allocated share of the Washington Metropolitan Area Transit Authority's (WMATA) Project Development Program. This project supports Joint Development activities through planning for potential residential or commercial real estate projects to increase ridership and support transit-oriented development. Joint Development projects have been identified across all jurisdictions that still need support to clarify transit facility needs or resolve site issues before advancing development solicitations for the Joint Development opportunities. This funding represents one way MDOT supports the Maryland State Plan's goals to advance transit-oriented development as an important tool in tackling the affordable housing shortage and leveraging infrastructure to bolster inclusive economic growth. In addition to Joint Development, the program consists of station area planning to address access and capacity needs around transit stations served by WMATA.

PURPOSE & NEED SUMMARY STATEMENT: The program funds Maryland's allocated share of WMATA's Project Development Program.

PROJECT: Matching Funding for "Passenger Rail Investment and Improvement Act"

DESCRIPTION: The Passenger Rail Investment and Improvement Act (PRIIA) of 2008 authorized federal funds to be appropriated over a ten year period for capital and preventative maintenance projects of the Washington Metropolitan Area Transit Authority (WMATA). While the 2008 program expired in FY 2018, the PRIIA program was reauthorized under the IIJA through FY 2030 (expected to be reauthorized through FY 2031). The federal legislation requires matching funds from Maryland, Virginia, and the District of Columbia. This program provides Maryland's share of these matching federal funds.

PURPOSE & NEED SUMMARY STATEMENT: Funding is used for capital improvements for safety and state of good repair of the rail system, including replacement of older railcars and other investments called for in recommendations made by the National Transportation Safety Board, the Federal Transit Administration, and the Washington Metrorail Safety Commission.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

[ ] Project Inside PFA
[ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
[ ] PFA Status Yet to Be Determined

STATUS: FTA's dedicated funding allocation for WMATA in FY 2026 is $150.0M. Maryland's share of matching funds is $50.0M. Increases $50M due to the addition of funding for FY 2031.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The total estimated cost increased $50.0M due to the addition of funding for FY 2031.

PROJECT: WMATA Debt Service

DESCRIPTION: Washington Metropolitan Area Transit Authority (WMATA) debt service represents the amount of bond debt taken on by WMATA under agreement with the State to cover the costs of debt repayment and associated interest and fees. This debt was originally approved to fund Maryland's share of WMATA's CIP when WMATA's full requested subsidy exceeded the State's cash resources. Due to refinancing, the debt has been consolidated into one project.

PURPOSE & NEED SUMMARY STATEMENT: These debt authorizations fund the prior purchase of long-term bonds issued by WMATA on behalf of the state to fund WMATA's Capital Improvement Program (CIP).

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

[ ] Project Inside PFA
[ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
[ ] PFA Status Yet to Be Determined

STATUS: Maryland's share of WMATA debt payment with programmed funding beginning in FY 2020 and continuing through FY 2026 - 2031. Effective FY 2022, debt service has been consolidated into one project in the MDOT Consolidated Transportation Program to reflect WMATA's refinance of debt into a consolidated debt service amount.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The total estimated cost allocation increased by $31.3M due to the addition of FY 2031 funding.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [ ] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: Governor's Dedicated Capital Funding

DESCRIPTION: In 2018, Maryland acted in conjunction with the Commonwealth of Virginia and the District of Columbia to create a bondable dedicated capital funding grant for use by the Washington Metropolitan Area Transit Authority (WMATA) for the purpose of generating financial assets to finance its Capital Improvement Program (CIP). Among the three funding jurisdictions, this dedicated capital funding grant totals $500M annually. In accordance with Chapter 351 and 352 of the Acts of the Maryland General Assembly of 2018 (and as amended in 2020), $167M will be appropriated to WMATA annually as Maryland's portion of this dedicated capital funding grant. This funding shall be provided as long as the District of Columbia and the Commonwealth of Virginia likewise contribute their share of the dedicated capital funding grant.

PURPOSE & NEED SUMMARY STATEMENT: The funding is mandated by state legislation. Maryland provides $167M annually to WMATA's CIP beginning in FY 2020.

MARYLAND DEPARTMENT OF TRANSPORTATION

STATE HIGHWAY ADMINISTRATION

SHA STATEWIDE

PROJECT: Coordinated Highway Action Response Team (CHART)

DESCRIPTION: CHART is SHA's Traffic Incident Management (TIM) Emergency Response program designed to respond to lane-blocking roadway incidents and disabled motorists. It also includes installation of Intelligent Transportation System (ITS) along Interstates, US, and major MD routes. ITS include cameras, traffic detectors, weather sensors, dynamic message signs, web sites, and telecommunication networks.

PURPOSE & NEED SUMMARY STATEMENT: Reduce lane clearance time and improve response time for roadway incidents through the effective use of TIM, ITS, and traffic management as part of a comprehensive Transportation Systems Management and Operations (TSMO) plan in alignment with FHWA's National Roadway Safety Strategy. The program has also garnered praise from local jurisdictions as an effective strategy to aid in congestion mitigation and safety improvements.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

[ ] Pro
[ ] Project Outside PFA
[ ] PFA Status Yet to Be Determined

[ ] Exception Will Be Required
[ ] Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

[X] Enhance Safety and Security
[X] Deliver System Quality
[X] Serve Communities and Support the Economy
[ ] Promote Environmental Stewardship

EXPLANATION: The CHART program aids in the reduction of secondary crashes, travel time, and congestion while also providing traveler information to the motoring public. CHART prevents nearly 1,000 secondary crashes on average annually and contributes to over $1 billion in annual user cost savings through non-recurring congestion reduction.

STATUS: This represents a summary of the Statewide CHART program. Specific projects are shown in the System Preservation Minor Projects Program listing within each county where a project is located.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

PROJECT: Sidewalk Program

DESCRIPTION: This program provides matching funds for the construction of sidewalks adjacent to SHA highways.

PURPOSE & NEED SUMMARY STATEMENT: Program supports community revitalization efforts and efforts to encourage pedestrian usage of sidewalks along SHA highways.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

[ ] Pro
[ ] Project Outside PFA
[ ] PFA Status Yet to Be Determined

[ ] Exception Will Be Required
[ ] Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

[X] Enhance Safety and Security
[X] Deliver System Quality
[X] Serve Communities and Support the Economy
[X] Promote Environmental Stewardship

EXPLANATION: This program supports pedestrian and Vision Zero safety improvements, community revitalization and other efforts to encourage pedestrian usage of sidewalks along SHA highways. It also provides safer access to transit service for both bus and fixed rail systems.

STATUS: Individual projects are shown in the System Preservation Minor Projects Program pages in the county where the project is located. MDOT is able to advance all phases of this project because of the funding provided by the Governor and Legislature in the last session.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The six-year cost increase of $115.8 million, primarily in federal funding, leverages previously programmed state funding to support MDOT's commitment to sidewalk projects throughout the State.

PROJECT: Total Maximum Daily Load (TMDL)

DESCRIPTION: Plan, design, and construct storm water controls and alternative water quality improvement strategies in Maryland counties in order to meet the US Environmental Protection Agency (EPA) Chesapeake Bay Total Maximum Daily Load (TMDL) requirements. These strategies support the goal of protecting and restoring the Chesapeake Bay watershed. The implementation will follow the State of Maryland's commitment in its Watershed Implementation Plan.

PURPOSE & NEED SUMMARY STATEMENT: The SHA is required to adhere to the Chesapeake Bay TMDL and local TMDLs as a result of its National Pollutant Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System Permit (MS4). This programmatic effort is needed to ensure permit compliance and supports the ultimate goal of improved water quality in Maryland streams, creeks, rivers, and the Chesapeake Bay.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

PROJECT: NEVI Program

DESCRIPTION: The National Electric Vehicle Infrastructure (NEVI) Program will create a network of convenient, reliable, affordable, and equitable electric vehicle chargers along Maryland's designated alternative fuel corridors, which are major highways, and within communities along public roads or publicly accessible locations. Contributions from third parties will be utilized to match federal funds.

PURPOSE & NEED SUMMARY STATEMENT: To provide a network of electric vehicle chargers that contribute to the acceleration of equitable adoption of electric vehicles, including for those who cannot reliably charge at home, reduce transportation-related greenhouse gas emissions, help put Maryland on a path of net-zero emissions and improve the mobility of passenger and commercial electric vehicles.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

[ ] Project Inside PFA
[ ] Project Outside PFA
[ ] PFA Status Yet to Be Determined

[ ] Grandfathered
[ ] Exception Will Be Required
[ ] Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

[ ] Enhance Safety and Security
[X] Deliver System Quality
[X] Serve Communities and Support the Economy
[X] Promote Environmental Stewardship

EXPLANATION: A strategically placed and interconnected network of electric vehicle chargers will provide the infrastructure to support increased adoption of electric vehicles across Maryland and reduce carbon emissions from vehicular travel. The network will be developed to maximize deployment of electric vehicle chargers utilizing third party funding to match federal funds.

STATUS: Construction is underway on NEVI Round 1 sites with completion of all sites expected by Fall 2026. Round 2 sites have been selected and are currently in the award phase. Round 3 procurement will begin by Spring 2026.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

PROJECT: Carbon Reduction Program

DESCRIPTION: The Carbon Reduction Program (CRP) funds projects that contribute to the reduction of transportation emissions from on-road highway sources.

PURPOSE & NEED SUMMARY STATEMENT: The Carbon Reduction Program aims to help reduce pollution from transportation sector sources, and contribute to the achievement of state long range transportation goals and federal surface transportation program goals established in the Infrastructure Investment and Jobs Act (IIJA).

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

[ ] Pro
[ ] Project Outside PFA
[ ] PFA Status Yet to Be Determined

[ ] Exception Will Be Required
[ ] Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

[ ] Enhance Safety and Security
[X] Deliver System Quality
[X] Serve Communities and Support the Economy
[X] Promote Environmental Stewardship

EXPLANATION: The CRP funds a wide range of projects designed to reduce carbon dioxide emissions from on-road highway sources -- from installing infrastructure to support the electrification of freight vehicles or personal cars, to constructing Bus Rapid Transit corridors, to facilitating micro-mobility and biking. Under the CRP, MDOT developed a State Carbon Reduction Strategy document in coordination with Metropolitan Planning Organizations to identify projects and strategies tailored to reduce carbon dioxide emissions statewide.

STATUS: This represents a summary of available CRP funding. The program provides $94.4M in federal funding from the IIJA, which is being programmed over the FY 2026-2031 CTP period. Project development and delivery activities are underway.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

PROJECT: Complete Streets Program

DESCRIPTION: The Maryland Complete Streets Program consists of a range of context driven approaches to deploying engineering countermeasures across the state's transportation network. This includes SHA's implementation of the Pedestrian Safety Action Plan (PSAP), Vulnerable Road User (VRU) Assessment projects, District Pedestrian Safety projects, and Complete Streets Quick Build projects. Through these efforts, priority locations for vulnerable user safety investments are identified and addressed to support Maryland's safety and accessibility goals.

PURPOSE & NEED SUMMARY STATEMENT: This program will invest in prioritized corridors to reduce deaths and serious injuries for vulnerable users while also supporting MDOT's statewide safety, equity, and mode-shift goals.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

☐ Project Inside PFA
☐ Project Outside PFA
☐ PFA Status Yet to Be Determined

☐ Grandfathered
☐ Exception Will Be Required
☐ Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

☒ Enhance Safety and Security
☒ Deliver System Quality
☒ Serve Communities and Support the Economy
☒ Promote Environmental Stewardship

EXPLANATION: This program supports active transportation and community revitalization. It also provides safer access to transit service for both bus and fixed rail systems with an emphasis on improving safety for vulnerable users.

STATUS: Construction of one PSAP project is underway and design of 12 PSAP projects is in progress. Six VRU-Round 1 corridors are under design, and seven VRU-Round 2 corridors are in planning. Five District Pedestrian Safety projects are progressing in design. Three Quick Build projects were completed in 2024, and additional projects are in progress for 2025 and 2026.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increase of $102.9 million leverages state and federal funding to support vulnerable user safety initiatives statewide. Funding for individual projects may also appear within County-specific portions of the CTP.

PROJECT: PROTECT Program

DESCRIPTION: The Promoting Resilient Operations for Transformative, Efficient, and Cost-saving Transportation Program (PROTECT) funds surface transportation projects with a focus on resilience to natural hazards and disasters.

PURPOSE & NEED SUMMARY STATEMENT: The PROTECT Program aims to help make surface transportation more resilient to current and future weather events, natural disasters, and changing conditions, through support of planning activities, community resilience improvements, evacuation route improvements, and at-risk coastal infrastructure in alignment with state transportation goals and federal program goals established under the Infrastructure Investment and Jobs Act.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

[ ] Pro
[ ] Project Outside PFA
[ ] PFA Status Yet to Be Determined

[ ] Exception Will Be Required
[ ] Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

[X] Enhance Safety and Security
[X] Deliver System Quality
[X] Serve Communities and Support the Economy
[X] Promote Environmental Stewardship

EXPLANATION: The PROTECT Program will fund a wide range of projects including planning activities, resilience improvements, community resilience and evacuation route activities, and at-risk coastal infrastructure activities in all phases of project development. Under the PROTECT Program, MDOT developed a Transportation Resilience Improvement Plan to identify projects and strategies tailored to improve the resilience of the statewide transportation system.

STATUS: This represents a summary of available PROTECT Program funding. Individual projects will be included in the System Preservation Minor Projects Program of each respective MDOT modal agency as they advance. $41.3M is being used for the Maryland Port Administration's Dundalk Marine Terminal Resiliency and Flood Mitigation Project.

PROJECT: Traffic Relief Plan (Phase 2) Smart Traffic Signals

DESCRIPTION: The Smart Signal system uses real-time traffic conditions and computer software that adjusts the timing of traffic signals, synchronizes the entire corridor, and effectively deploys artificial intelligence to keep traffic moving smoothly.

PURPOSE & NEED SUMMARY STATEMENT: Deploying cutting-edge Smart Traffic Signals technology and tools will improve traffic operations and ease congestion.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

[ ] Project Inside PFA
[ ] Project Outside PFA
[ ] PFA Status Yet to Be Determined

[ ] Grandfathered
[ ] Exception Will Be Required
[ ] Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

[X] Enhance Safety and Security
[X] Deliver System Quality
[X] Serve Communities and Support the Economy
[X] Promote Environmental Stewardship

EXPLANATION: The Smart Signals traffic management system will improve traffic operations and reduce congestion.

STATUS: Engineering and construction underway, or completed, along 24 corridors throughout the State. Once the current project portfolio is completed, the program will sunset and continue under SHA's System Preservation Program.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost decrease of $12.9 million is due to the sunsetting of this particular program, however signal system optimization efforts will continue to move forward under the Traffic Management program.

PROJECT: Washington Region - Stream and Wetland Mitigation

DESCRIPTION: Provide stream and wetland restoration, creation, and enhancement in multiple watersheds in the Washington Region. Multiple sites have been developed to provide new and restored streams and wetlands to support projects such as the American Legion Bridge and I-270 corridor or other projects in the region.

PURPOSE & NEED SUMMARY STATEMENT: The purpose is to provide mitigation for unavoidable impacts to streams and wetlands, improve water quality, and protect the environment.

STIP REFERENCE #AZ0481 12/1/2025

PROJECT: I-270, Eisenhower Memorial Highway and I-495 Capital Beltway - Phase 1 South

DESCRIPTION: This project will replace the American Legion Bridge and other bridges in the corridor to today's standards, provide three miles of accessible sidewalks, three miles of accessible shared use paths, and two miles of bike lanes, provide new ramp connections to support interstate transit, provide nine miles of new and extended sound barriers and reconstruct 5 miles of existing sound barriers, rehabilitate existing general-purpose lanes, ramps, and side roads, upgrade seven interchanges, and provide high-occupancy toll lanes to support carpooling and transit. This is a Project Labor Agreement candidate project.

PURPOSE & NEED SUMMARY STATEMENT: This project represents the first step in creating a new multimodal future for the corridor by enabling more reliable and more frequent transit operations and transportation management demand practices. It will also address state of good repair, including the American Legion Bridge, improve access to jobs, improve bicycle and pedestrian access, and enhance safety in the corridor by reducing the extent and duration of congestion.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Preliminary engineering continues along with efforts focused on grant pursuit, environmental and technical refinement, and procurement preparation activities pending construction funding. Assessment of state of good repair needs and replacement of American Legion Bridge to align with regional priorities also continues as well as coordination activities for Montgomery County's Bus Rapid

MARYLAND DEPARTMENT OF TRANSPORTATION

STATE HIGHWAY ADMINISTRATION

ALLEGANY COUNTY

PROJECT: I-68 Cumberland Viaduct

DESCRIPTION: Deck replacement and rehabilitation of Bridge No. 0109600 (the Cumberland Viaduct).

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to replace the deteriorated bridge decks to keep the roadway safe and open to traffic. Replacing the bridge decks before they become poor rated will prevent additional disruptions to this heavily traveled roadway.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This bridge, constructed in 1968, is rated in fair condition. Numerous substructure repairs have been made in the past and this project would address the remaining elements of the bridge.

STATUS: MDOT was awarded a $1.6 million Bridge Investment Program (BIP) Planning grant ($400,000 state match) to develop conceptual alternatives and assess impacts to ensure community connectivity concerns are incorporated in project development. The design of the rehabilitation project is on hold pending the outcome of the planning study anticipated to be complete in FY 2027.
SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: MD 51, Old Town Road

DESCRIPTION: Replacement of Bridge No. 0104700 on MD 51 over Town Creek.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to replace a poor rated bridge to keep the roadway safe and open to traffic and to eliminate a fracture critical bridge from the inventory.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☐ Project Inside PFA
- ☒ Project Outside PFA
- ☐ PFA Status Yet to Be Determined

- ☐ Grandfathered
- ☐ Exception Will Be Required
- ☒ Exception Granted

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Enhance Safety and Security
- ☒ Deliver System Quality
- ☒ Serve Communities and Support the Economy
- ☐ Promote Environmental Stewardship

EXPLANATION: This bridge, constructed in 1932, is nearing the end of its structural life and is rated poor. The bridge is a fracture critical structure that, if impacted, would require a significant detour (length and duration).

STATUS: Engineering underway.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increase of $4.8 million is due to a revised construction cost estimate to account for remote location bid history.

PROJECT: US 220, McMullen Highway

DESCRIPTION: Study to upgrade and/or relocate US 220 (4.8 miles) and/or MD 53 (3.1 miles) from I-68/US 40 to Cresaptown. This study represents a portion of an approved 2014 Maryland-West Virginia joint study of two Appalachian Development Highway System corridors, I-68 and US 48. The focus of improvements are at the US 220 at MD 53 intersection. Improvements will remove primary truck traffic movements from the central part of Cresaptown. On-road bike lanes are included.

PURPOSE & NEED SUMMARY STATEMENT: The US 220 and MD 53 corridors provide access to economic opportunities on the south side of Cumberland. The project will enhance accessibility to area amenities, improve safety along both sides of the roadways, and promote economic development.

[X] Exception Will Be Required
[ ] Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

[X] Enhance Safety and Security
[X] Deliver System Quality
[X] Serve Communities and Support the Economy
[ ] Promote Environmental Stewardship

EXPLANATION: This project will help reduce the number of vehicles that use parallel roads like MD 2 and MD 3. These arterial roadways are also used by pedestrians, bicyclists, and transit riders, so reducing traffic on them will make it safer for everyone and help buses run more smoothly and reliably.

STATUS: Engineering underway. MDOT is able to advance this project because of the funding provided by the Governor and Legislature in the last session, and through a partnership agreement with Anne Arundel County.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Project moved to the Construction Program from the Development and Evaluation Program. The cost increase of $115.6 million will advance the project through construction using Design-Build project delivery. The project is contingent on the fulfillment of a cost-sharing agreement with Anne Arundel County for all phases of the project.

PROJECT: MD 214, Central Avenue

DESCRIPTION: The project will address current and projected traffic and safety needs along MD 214 from the intersection with MD 468 to Camp Letts Road. These traffic and safety needs will be addressed by widening from a two-lane roadway to a four-lane section, adding a shared use path, and adding a two-lane roundabout at the intersection with Loch Haven Road. The project includes full depth widening, pavement resurfacing, intersection improvements at MD 468 and Loch Haven Road, culvert replacements, stream relocation, guardrail upgrades, drainage improvements, stormwater management facilities, installation of traffic signs & pavement markings, lighting, and landscaping.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of the MD 214 project is to improve traffic operations, roadway safety, pedestrian and bicycle connections, and drainage deficiencies. The need for the project is evidenced by limited gaps for vehicles turning onto MD 214, failing traffic operations under future year 2045 conditions, high crash rates, poor bicycle and pedestrian connectivity and visible ponding in several locations.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☐ Project Inside PFA
- ☒ Project Outside PFA

PROJECT: MD 295, Baltimore Washington Parkway

DESCRIPTION: Study to widen MD 295 from 4 to 6 lanes from MD 100 to I-195 including an interchange at Hanover Road and improvements to Hanover Road from the CSX railroad tracks in Howard County to MD 170 (3.27 miles). Hanover Road would be improved to a 4-lane divided roadway with on-road bicycle lanes and a shared use path that would tie into the BWI Loop Trail.

PURPOSE & NEED SUMMARY STATEMENT: MD 295 is a congested freeway linking regional travelers with Baltimore/ Washington International Thurgood Marshall Airport. The project will improve traffic operations and extend Hanover Road to provide access to the airport and surrounding economic development opportunities.

PROJECT: MD 198, Laurel Fort Meade Road

DESCRIPTION: Project to address mobility needs on MD 198 from MD 295 to MD 32 (2.7 miles). MD 198 would become a 4-lane divided roadway with on-road bicycle lanes, sidewalk and a shared used path.

PURPOSE & NEED SUMMARY STATEMENT: MD 198 is a commuter route to Fort Meade with access to ongoing economic development in the area. The project will improve traffic operations and increase vehicular, bicycle, and pedestrian safety along MD 198.

MARYLAND DEPARTMENT OF TRANSPORTATION

STATE HIGHWAY ADMINISTRATION

BALTIMORE COUNTY

PROJECT: I-95 and I-695, Baltimore Beltway

DESCRIPTION: Latex modified concrete bridge deck overlays on I-95 at the I-695 interchange (10 bridges).

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to address concrete bridge decks before they become poor rated, and to upgrade existing bridge parapets to meet current safety criteria. Proactively addressing bridge deck condition will avoid the need for major rehabilitation or replacement of these bridges which are located on a heavily traveled section of the Interstate Highway System.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

[ ] Project Inside PFA
[ ] Project Outside PFA
[ ] PFA Status Yet to Be Determined

[ ] Grandfathered
[ ] Exception Will Be Required
[ ] Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

[X] Enhance Safety and Security
[X] Deliver System Quality
[ ] Serve Communities and Support the Economy
[ ] Promote Environmental Stewardship

EXPLANATION: These bridges are along a heavily traveled route of I-95 at the I-695 Interchange. The bridge decks have been evaluated to accept Latex Modified Concrete Overlays to prolong their structural service life and avoid costly replacements.

STATUS: Open to service.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

STIP REFERENCE #BA3532 12/1/2025

PROJECT: I-695, Baltimore Beltway

DESCRIPTION: The work on I-695 is a Transportation System Management and Operations (TSMO) project involving lane controls, intelligent traffic monitoring and other features to improve safety and reduce congestion along the I-695 inner and outer loops between I-70 and east of White Marsh Boulevard.

PURPOSE & NEED SUMMARY STATEMENT: I-695 experiences considerable congestion in the morning and evening peak commuting periods. Additionally, the facility frequently experiences non-recurring congestion. Once complete, the project will improve nine congestion bottlenecks, improve safety, reduce potential and duration for incidents, and offer estimated time savings of up to 34 minutes for morning commuters traveling on the I-695 outer loop between Overlea and Catonsville, and 21 minutes for evening commuters traveling on the I-695 inner loop between Catonsville and Overlea.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The project will allow the median shoulders to serve as additional travel lanes, primarily during peak-morning and evening rush hours. Lane-use control signals, like those used on the Bay Bridge and Fort McHenry Tunnel, will indicate when the shoulder can be used for travel.

STATUS: Construction underway. Area 1 (I-70 to I-83) is anticipated to be open to service in calendar year 2027 with full project completion (Areas 1- 3) in 2028. Area 2 limits are MD 41 to MD 43. Area 3 limits are I-83 to MD 41.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increase of $6.0 million is due to construction change orders including traffic calming implementation to address the March 2023 crash.

PROJECT: I-795, Northwest Expressway

DESCRIPTION: Project to construct an interchange at Dolfield Boulevard. Includes widening and operational improvements along I-795 from Owings Mills Boulevard (MD 940) to Franklin Boulevard. Southbound access to I-795 will be provided by ramps connecting to Red Run Boulevard. Northbound access to I-795 will be provided through a directional on-ramp from Dolfield Boulevard. The northbound off-ramp will connect to a new roundabout along Tollgate Road. A shared-use path will be constructed on Dolfied Boulevard between Red Run Boulevard and Tollgate Road. Sidewalks will be provided along Tollgate Road from Dolfield Boulevard to Hewitt Farms Road.

PURPOSE & NEED SUMMARY STATEMENT: This project will improve overall network safety and mobility along I-795 and improve safety and connections for vulnerable users along Dolfield Boulevard.

PROJECT: MD 2/4, Solomons Island Road

DESCRIPTION: Project to upgrade and widen MD 2/4 to a six-lane divided highway from north of Stoakley Road/Hospital Road to south of MD 765A (3.5 miles).

PURPOSE & NEED SUMMARY STATEMENT: This project will improve mobility for planned development. The MD 2/4 corridor is the busy spine of Prince Frederick traffic and development. The project will enhance accessibility, improve safety, and promote economic development.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

PROJECT: MD 4, Patuxent Beach Road and Solomons Island Road

DESCRIPTION: Study to upgrade MD 4 between MD 2 and MD 235 (4.0 miles), including the Governor Thomas Johnson Memorial Bridge (bridge 04019) over the Patuxent River and the intersection at MD 235. MD 4 is planned to become a four-lane divided highway with wide shoulders, a shared used path, and sidewalk accommodations where appropriate.

PURPOSE & NEED SUMMARY STATEMENT: The MD 4 corridor links communities on both sides of the Patuxent River. The project will reduce congestion and improve bridge operations to support community connections and regional development.

CARROLL COUNTY

PROJECT: MD 26, Liberty Road

DESCRIPTION: Bridge Deck Replacement of Bridge Nos. 0600100 and 0600200 over Liberty Reservoir.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to replace the bridge decks on two bridges (poor rated and fair rated) to keep the roadway safe and open to traffic.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

[ ] Project Inside PFA
[ ] Project Outside PFA
[ ] PFA Status Yet to Be Determined

[ ] Grandfathered
[ ] Exception Will Be Required
[ ] Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

[X] Enhance Safety and Security
[X] Deliver System Quality
[X] Serve Communities and Support the Economy
[ ] Promote Environmental Stewardship

EXPLANATION: The existing bridge decks are nearing the end of their useful service life with one bridge currently rated in poor condition. Bridge deck replacements will address the deficiencies.

STATUS: Engineering underway.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: MD 32, Sykesville Road, 2nd Street to Main Street

DESCRIPTION: Improve intersection geometry, extend turn lanes, and modify access along MD 32 from 2nd Street to Main Street. Improvements include the extension of the northbound MD 32 right-turn lane to 2nd St., modifying the existing 2nd St. intersection to right-in/right-out, extension of the northbound left-turn lane to Johnsville Rd and prohibition of left turns from Johnsville Rd, lengthening the auxiliary lanes between Freedom Ave. and Main St. and a traffic signal warrant analysis for the MD 32/Main St. intersection.

PURPOSE & NEED SUMMARY STATEMENT: This project will improve operations and safety along MD 32 from 2nd Street to Main Street. MD 32 is a main commuter route linking Carroll County with I-70 and the Baltimore-Washington Region. The project is essential for advancing economic development opportunities in southeastern Carroll County. Reducing the turning movements through conversion to right-ins/right-outs and providing channelization will limit conflict points, enhancing safety. Lengthening of auxiliary lanes will provide longer refuge areas, reducing the potential for rear-end collisions.

PROJECT: MD 26, Liberty Road

DESCRIPTION: Project to provide access, operational, and safety improvements along the MD 26 corridor between the Liberty Reservoir and MD 32 (2.6 miles). Bicycle and pedestrian facilities will be provided where appropriate. Improvements include: an 18-foot raised median, two through lanes with 2-foot inside and 11-foot outside shoulders, and one 15-foot auxiliary lane on MD 26 from Liberty Reservoir to MD 32. Additional targeted improvements include converting eastbound right-turn lane at Georgetown Blvd. to a through/right-turn lane, extending the auxiliary lane from Eldersburg Crossing to west of Homeland Ave, and sidewalks from the former Carroll Bank property to Georgetown Blvd.

PURPOSE & NEED SUMMARY STATEMENT: This project will improve operations and safety along this segment of MD 26.

PROJECT: US 301, Crain Highway

DESCRIPTION: Construct a new flyover from southbound US 301 to MD 5 (Mattawoman Beantown Road) to replace US 301 southbound triple left turning movement. Bicycle and pedestrian accommodations to be included where appropriate.

PURPOSE & NEED SUMMARY STATEMENT: US 301 and MD 5 are important commuter routes serving residents in Prince George's County, Charles County and the Southern Maryland region. The project will reduce peak hour traffic congestion and accommodate future increase in traffic associated with planned development in southern Prince George's County and Waldorf in Charles County.

PROJECT: I-270, Eisenhower Highway

DESCRIPTION: Implementation of innovative congestion management (ICM) tools to reduce congestion on I-270, including the east and west I-270 spurs (31.5 miles). Improvements will include a series of roadway and technology-based improvements.

PURPOSE & NEED SUMMARY STATEMENT: This project reduced congestion and improved safety and reliability.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☒ Project Inside PFA
- ☐ Project Outside PFA
- ☐ PFA Status Yet to Be Determined

- ☐ Grandfathered
- ☐ Exception Will Be Required
- ☐ Exception Granted

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Enhance Safety and Security
- ☒ Deliver System Quality
- ☒ Serve Communities and Support the Economy
- ☐ Promote Environmental Stewardship

EXPLANATION: As one of Maryland's most heavily traveled roadways, I-270 congestion affects both motorist safety and the economy. The improvements will reduce congestion and improved safety and reliability for all roadway users.

STATUS: Open to service. Completion of additional ramp metering construction underway.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increase of $1.0 million is due to material procurement delays and associated impacts.

POTENTIAL FUNDING SOURCE: ☒ SPECIAL ☐ FEDERAL ☐ GENERAL ☐ OTHER

PROJECT: US 15, Frederick Freeway, and US 40, Frederick Freeway

DESCRIPTION: Project to construct safety and mainline operational improvements along US 15 and US 40 from I-70 to MD 26 (4 miles). The project includes adding a third through lane (inside widening) in each direction along US 15 and the reconstruction and widening of seven structures. Significant noise mitigation will be included.

PURPOSE & NEED SUMMARY STATEMENT: This project will address safety, operations, and mobility needs in the US 15 corridor.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☒ Project Inside PFA
- ☐ Project Outside PFA
- ☐ PFA Status Yet to Be Determined

If Project Outside PFA:
- ☐ Grandfathered
- ☐ Exception Will Be Required
- ☐ Exception Granted

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Enhance Safety and Security
- ☒ Deliver System Quality
- ☒ Serve Communities and Support the Economy
- ☐ Promote Environmental Stewardship

EXPLANATION: This project will address safety, operations, and mobility needs in the US 15 corridor.

STATUS: Engineering underway. MDOT is able to advance all phases of this project because of the funding provided by the Governor and Legislature in the last session.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increase of $35.7 million is due to additional design costs, the addition of interchange lighting to the project scope, and inflationary construction cost escalation.

POTENTIAL FUNDING SOURCE: ☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

MARYLAND DEPARTMENT OF TRANSPORTATION

STATE HIGHWAY ADMINISTRATION

GARRETT COUNTY

PROJECT: US 219, Garrett Highway

DESCRIPTION: Replacement of Bridge No. 1102400 over the Youghiogheny River (0.04 miles).

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to replace a poor rated bridge and realign the roadway to improve safety.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

☐ Project Inside PFA
☐ Project Outside PFA
☐ PFA Status Yet to Be Determined

☐ Grandfathered
☐ Exception Will Be Required
☐ Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

☒ Enhance Safety and Security
☒ Deliver System Quality
☐ Serve Communities and Support the Economy
☐ Promote Environmental Stewardship

EXPLANATION: The existing bridge, built in 1927, is nearing the end of its useful service life and is rated poor based on substructure condition.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increase of $3.2 million is primarily due to an unfavorable bid on the construction contract.

POTENTIAL FUNDING SOURCE: ☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

PROJECT: US 219, Chestnut Ridge Road

DESCRIPTION: Project to relocate US 219 from Old Salisbury Road to the Pennsylvania State line (1.0 mile). This project represents Maryland's portion of the bi-state US 219 corridor between I-68/ US 40 and Meyersdale, Pennsylvania.

PURPOSE & NEED SUMMARY STATEMENT: US 219 corridor improvements will enhance accessibility and promote economic development.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☐	Project Inside PFA	☐	Grandfathered
☒	Project Outside PFA	☐	Exception Will Be Required
☐	PFA Status Yet to Be Determined	☒	Exception Granted

STATUS: The segment between I-68/US 40 and Old Salisbury Road is open to service. The remaining segment north of Old Salisbury Road is undergoing a planning effort in partnership with Pennsylvania. The cost shown is Maryland's share only. This project is eligible for restricted federal funding under the Appalachian Development Highway System Program.
SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

PROJECT: US 1, Belair Road

DESCRIPTION: Replacement of Bridge No. 1206600 on US 1 over Tollgate Road and Bridge No. 1206500 on US 1 over Winters Run.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to replace poor rated bridges to keep the roadway safe and open to traffic. The project will provide an improved Harford County trail along Tollgate Road and grading for a future trail along Winters Run.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☒ Project Inside PFA
- ☐ Project Outside PFA
- ☐ PFA Status Yet to Be Determined

- ☐ Grandfathered
- ☐ Exception Will Be Required
- ☐ Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- ☒ Enhance Safety and Security
- ☒ Deliver System Quality
- ☒ Serve Communities and Support the Economy
- ☐ Promote Environmental Stewardship

EXPLANATION: The existing bridges, built in 1963, are nearing the end of their useful service lives. Both bridges are rated poor based on deck condition and substructure condition (Bridge No. 1206500 only).

STATUS: Engineering underway.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increase of $1.8 million is due to additional design costs.

MARYLAND DEPARTMENT OF TRANSPORTATION

STATE HIGHWAY ADMINISTRATION

HOWARD COUNTY

PROJECT: MD 32, Patuxent Freeway

DESCRIPTION: Construct capacity and safety improvements along MD 32 from north of Linden Church Road to I-70 (6.6 miles).

PURPOSE & NEED SUMMARY STATEMENT: This project addressed congestion and safety as a result of increasing traffic volumes on the previous two-lane roadway.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☐	Project Inside PFA	☐	Grandfathered
☒	Project Outside PFA	☐	Exception Will Be Required
☐	PFA Status Yet to Be Determined	☒	Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

☒	Enhance Safety and Security	☒	Serve Communities and Support the Economy
☒	Deliver System Quality	☐	Promote Environmental Stewardship

EXPLANATION: This project relieves traffic congestion and addresses safety concerns along MD 32 in Howard County.

STATUS: Open to service.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increase of $5.0 million is primarily due to the addition of funding for the construction of noise mitigation which is contingent on the funding pre-authorization included in the state legislature's FY 26 budget.

POTENTIAL FUNDING SOURCE: ☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

PROJECT: US 1, Washington Boulevard

DESCRIPTION: Safety and accessibility improvements in the US 1 corridor from the Prince Georges County line to Gorman Road. Improvements include upgrades to existing, and installation of new ADA compliant sidewalks, curbs, ramps, medians, crosswalks, grass buffers, lighting and traffic signals. A 2 foot monolithic median on Bridge No. 16001 will also be included.

PURPOSE & NEED SUMMARY STATEMENT: This project is part of the Pedestrian Safety Action Plan Program which utilizes a data-driven approach to prioritize corridors for vulnerable road users safety projects.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☒ Project Inside PFA
- ☐ Project Outside PFA
- ☐ PFA Status Yet to Be Determined

If Project Outside PFA:
- ☐ Grandfathered
- ☐ Exception Will Be Required
- ☐ Exception Granted

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Enhance Safety and Security
- ☒ Deliver System Quality
- ☒ Serve Communities and Support the Economy
- ☐ Promote Environmental Stewardship

EXPLANATION: This project will make Context Driven improvements on US 1 from the Prince George's County Line to Gorman Road making travel safe for all users.

STATUS: Engineering underway. MDOT is able to advance this project to the Engineering and Construction phases because of the funding provided by the Governor and Legislature in the last session.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: New project added to the Construction Program.

POTENTIAL FUNDING SOURCE: ☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

MARYLAND DEPARTMENT OF TRANSPORTATION

STATE HIGHWAY ADMINISTRATION

KENT COUNTY

PROJECT: US 301, Blue Star Memorial Highway

DESCRIPTION: Replacement of Bridge No. 1701401 on US 301 Northbound over the Chester River.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to replace a poor rated bridge to keep the roadway safe and open to traffic.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

[ ] Project Inside PFA
[ ] Project Outside PFA
[ ] PFA Status Yet to Be Determined

[ ] Grandfathered
[ ] Exception Will Be Required
[ ] Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

[X] Enhance Safety and Security
[X] Deliver System Quality
[X] Serve Communities and Support the Economy
[ ] Promote Environmental Stewardship

EXPLANATION: The existing bridge, built in 1955, is nearing the end of its useful service life and was rated poor based on the bridge deck condition.

STATUS: Open to service.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increase of $1.9 million is due to project change orders and construction delays.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

MARYLAND DEPARTMENT OF TRANSPORTATION

STATE HIGHWAY ADMINISTRATION

MONTGOMERY COUNTY

PROJECT: I-270, Eisenhower Highway

DESCRIPTION: Implementation of innovative congestion management (ICM) tools to reduce congestion on I-270, including the east and west I-270 spurs (31.5 miles). Improvements will include a series of roadway and technology-based improvements.

PURPOSE & NEED SUMMARY STATEMENT: This project reduced congestion and improved safety and reliability.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☒ Project Inside PFA
- ☐ Project Outside PFA
- ☐ PFA Status Yet to Be Determined

- ☐ Grandfathered
- ☐ Exception Will Be Required
- ☐ Exception Granted

STATUS: Open to service. Completion of additional ramp metering construction underway.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increase of $1.0 million is due to material procurement delays and associated impacts.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Enhance Safety and Security
- ☒ Deliver System Quality
- ☒ Serve Communities and Support the Economy
- ☐ Promote Environmental Stewardship

EXPLANATION: As one of Maryland's most heavily traveled roadways, I-270 congestion affects both motorist safety and the economy. The improvements will reduce congestion and improved safety and reliability for all roadway users.

POTENTIAL FUNDING SOURCE: ☒ SPECIAL ☐ FEDERAL ☐ GENERAL ☐ OTHER

PROJECT: MD 97, Georgia Avenue

DESCRIPTION: Safety and accessibility improvements to MD 97 in Montgomery Hills between MD 192 and MD 390. Improvements include a new raised median; 11-foot-wide outside lanes where needed for bus operations; left-turn lanes on MD 97 at Forest Lane, Flora Lane, and Seminary Place; and I-495 ramp modifications to address safety issues. Sidewalks on both sides of MD 97 with a signalized pedestrian crossing at Flora Lane and a two-way protected cycle track on the west side of MD 97 will also be included.

PURPOSE & NEED SUMMARY STATEMENT: This project will address safety and accessibility for vulnerable users.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project will improve safety and accessibility along MD 97, including enhancing bicycle and pedestrian connectivity and accessibility while balancing vehicular mobility in the corridor.

STATUS: Engineering, right-of-way acquisition, and utilities underway. Montgomery County contributed $3.0 million towards planning. MDOT is able to advance all phases of this project because of the funding provided by the Governor and Legislature in the last session.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Project moved to the Construction Program from the Development and Evaluation Program. The cost increase of $15.9 million is primarily due to the addition of construction funding.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [X] OTHER

PROJECT: MD 28, Norbeck Road, and MD 198, Spencerville Road/Sandy Spring Road

DESCRIPTION: Study of MD 28/ MD 198 corridor safety, capacity, and operational improvements in Montgomery and Prince George's counties, between MD 97 and I-95 (11.1 miles). Localized traffic operational improvements are included along with sidewalks, shared use paths, and on-road bicycle lanes, where appropriate.

PURPOSE & NEED SUMMARY STATEMENT: The MD 28/ MD 198 corridor is an important regional connection between Montgomery and Prince George's counties. The project will improve safety and operations, and better accommodate bicyclists and pedestrians through the Burtonsville business district.

PROJECT: MD 117, Clopper Road/Diamond Avenue

DESCRIPTION: Construct intersection capacity improvements from I-270 to Metropolitan Grove Road (Phase 2) and Metropolitan Grove Road to west of Game Preserve Road (Phase 3) (2.0 miles). Sidewalks will be included where appropriate, including a shared-use path. Wide curb lanes will accommodate bicycles.

PURPOSE & NEED SUMMARY STATEMENT: MD 117 is a heavily traveled commuter route. Capacity improvements are needed to reduce congestion associated with planned and approved development in Germantown that will exceed the current capacity of the roadway.

MARYLAND DEPARTMENT OF TRANSPORTATION

STATE HIGHWAY ADMINISTRATION

PRINCE GEORGE'S COUNTY

PROJECT: I-95/I-495, Capital Beltway

DESCRIPTION: Construct a full interchange along I-95/I-495 at Greenbelt Metro Station in coordination with WMATA, Prince George's County, Greenbelt, and other stakeholder agencies to support FBI headquarters relocation and transit-oriented development.

PURPOSE & NEED SUMMARY STATEMENT: The interchange will improve traffic operations on mainline I-95/ I-495 and improve access to the Greenbelt Metro Station. The project is needed to accommodate the relocation of the FBI headquarters at this site.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The interchange will improve traffic operations on mainline I-95/ I-495 and improve access to the Greenbelt Metro Station and support the relocation of the FBI Headquarters.

STATUS: Engineering paused for coordination with stakeholders. Cashflows shown are based on order of magnitude estimates and will be refined with further scope development.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

PROJECT: I-95, Capital Beltway

DESCRIPTION: Replacement of Bridge Nos. 1615905 and 1615906 on I-495 over MD 4. This is a Project Labor Agreement (PLA) candidate project.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to replace the deteriorated bridges to keep the roadway safe and open to traffic. Replacing the bridges before they become poor rated will prevent additional disruptions to this heavily traveled roadway.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

[ ] Project Inside PFA
[ ] Project Outside PFA

PROJECT: MD 4, Pennsylvania Avenue

DESCRIPTION: Construct a new interchange at MD 4 and Suitland Parkway. Bicycles and pedestrians will be accommodated where appropriate. (BRAC Related)

PURPOSE & NEED SUMMARY STATEMENT: Severe traffic congestion occurs during peak hours and will increase with planned development in the immediate area. This project will relieve existing congestion and accommodate increasing traffic volumes associated with future growth.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☒ Project Inside PFA
- ☐ Project Outside PFA
- ☐ PFA Status Yet to Be Determined

(Project Outside PFA →)
- ☐ Grandfathered
- ☐ Exception Will Be Required
- ☐ Exception Granted

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increase of $1.2 million is primarily due to construction change orders and other construction management costs.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Enhance Safety and Security
- ☒ Deliver System Quality
- ☒ Serve Communities and Support the Economy
- ☐ Promote Environmental Stewardship

EXPLANATION: The new interchange at MD 4 and Suitland Parkway will facilitate enhanced access to an area that is planned for growth and economic development. In addition, the project will improve safety and reduce congestion at this location.

PROJECT: MD 4, Pennsylvania Avenue and MD 717, Water Street

DESCRIPTION: Replacement of Bridge Nos. 1609903 and 1609904 on MD 4 over MD 717, Bridge Nos. 1610803 and 1610804 on MD 4 over Race Track Road, and Bridge No. 1610900 on MD 717 over Western Branch. This is a Project Labor Agreement (PLA) candidate project.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to replace fair and poor rated bridges to keep the roadway safe and open to traffic and reduce the frequency of flooding in the area. The project will provide improved pedestrian facilities under MD 4 along MD 717 and will increase the clearance of MD 4 over Race Track Road.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: The existing bridges, built in 1960, are nearing the end of their useful service lives. One of the MD 4 bridges over MD 717 is rated poor based on deck condition. The MD 4 bridges over Race Track Road are fair rated with restrictive under-clearance. The MD 717 bridge is weight restricted and is subject to flooding. The project will provide improved pedestrian facilities.

STATUS: Engineering underway.

PROJECT: MU 227, Riverdale Road

DESCRIPTION: Replacement of Bridge No. 1609000 on Riverdale Road over Northeast Branch Anacostia River.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to replace a poor rated bridge to keep the roadway safe and open to traffic. The new bridge will provide shoulders and sidewalks to improve safety.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☒ Project Inside PFA
- ☐ Project Outside PFA
- ☐ PFA Status Yet to Be Determined

(Project Outside PFA →)
- ☐ Grandfathered
- ☐ Exception Will Be Required
- ☐ Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- ☒ Enhance Safety and Security
- ☒ Deliver System Quality
- ☒ Serve Communities and Support the Economy
- ☐ Promote Environmental Stewardship

EXPLANATION: The existing bridge, built in 1931, is nearing the end of its useful service life and is rated poor based on deck and superstructure condition.

STATUS: Engineering underway.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increase of $1.1 million is due to increased design costs.

POTENTIAL FUNDING SOURCE: ☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

MARYLAND DEPARTMENT OF TRANSPORTATION

STATE HIGHWAY ADMINISTRATION

QUEEN ANNE'S COUNTY

PROJECT: US 301, Blue Star Memorial Highway

DESCRIPTION: Replacement of Bridge No. 1701401 on US 301 Northbound over the Chester River.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to replace a poor rated bridge to keep the roadway safe and open to traffic.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

[ ] Project Inside PFA
[ ] Project Outside PFA
[ ] PFA Status Yet to Be Determined

[ ] Grandfathered
[ ] Exception Will Be Required
[ ] Exception Granted

STATUS: Open to service.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increase of $1.9 million is due to project change orders and construction delays.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

[X] Enhance Safety and Security
[X] Deliver System Quality
[X] Serve Communities and Support the Economy
[ ] Promote Environmental Stewardship

EXPLANATION: The existing bridge, built in 1955, is nearing the end of its useful service life and was rated poor based on the bridge deck condition.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

PROJECT: US 301, Blue Star Memorial Highway

DESCRIPTION: Replacement of Bridge No. 1701102 on US 301 Southbound over MD 290.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to replace the existing bridge on US 301 Southbound over MD 290. While the bridge is rated in fair condition and is safe for the traveling public, it is showing signs of advancing deterioration.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

☐ Project Inside PFA
☐ Project Outside PFA
☐ PFA Status Yet to Be Determined

☐ Grandfathered
☐ Exception Will Be Required
☐ Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

☒ Enhance Safety and Security
☒ Deliver System Quality
☒ Serve Communities and Support the Economy
☐ Promote Environmental Stewardship

EXPLANATION: The existing bridge, built in 1967, is currently rated in fair condition and in an advancing state of deterioration. The roadway surface was repaved as an interim action to improve the rideability until a new structure could be put in place. By replacing the bridge at this time, it will keep the roadway safe and open to traffic.

STATUS: Engineering underway. Construction is anticipated to begin in early FY 2027.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: New project added to the Construction Program.

PROJECT: MD 5, Point Lookout Road

DESCRIPTION: Upgrade MD 5 from MD 471 to MD 246 in Great Mills, including replacing Bridge No.1800600 over the Saint Mary's River (0.3 miles).

PURPOSE & NEED SUMMARY STATEMENT: Improvements will address mobility, accessibility, and state of good repair needs while providing capacity for planned development.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☒ Project Inside PFA
- ☐ Project Outside PFA
- ☐ PFA Status Yet to Be Determined

If Project Outside PFA:
- ☐ Grandfathered
- ☐ Exception Will Be Required
- ☐ Exception Granted

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Enhance Safety and Security
- ☒ Deliver System Quality
- ☒ Serve Communities and Support the Economy
- ☐ Promote Environmental Stewardship

EXPLANATION: This project provides critical multi-modal safety and traffic solutions at a key intersection in St. Mary's County, which is undergoing major residential, workforce and commercial growth.

STATUS: Engineering and utilities underway. MDOT is able to advance this project to the Utilities and Construction phases because of the funding provided by the Governor and Legislature in the last session.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Project moved to the Construction Program from the Development and Evaluation Program. The cost increase of $20.6 million is primarily due to the addition of construction funding.

PROJECTED (2045) 28,100

STIP REFERENCE #SM2101 12/1/2025

PROJECT: MD 4, Patuxent Beach Road and Solomons Island Road

DESCRIPTION: Study to upgrade MD 4 between MD 2 and MD 235 (4.0 miles), including the Governor Thomas Johnson Memorial Bridge (bridge 04019) over the Patuxent River and the intersection at MD 235. MD 4 is planned to become a four-lane divided highway with wide shoulders, a shared used path, and sidewalk accommodations where appropriate.

PURPOSE & NEED SUMMARY STATEMENT: The MD 4 corridor links communities on both sides of the Patuxent River. The project will reduce congestion and improve bridge operations to support community connections and regional development.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- [X] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

If Project Outside PFA:
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: Patuxent River Studies underway including bathymetric survey, Coast Guard coordination, and navigation clearance determination.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

POTENTIAL FUNDING SOURCE: [X] SPECIAL [X] FEDERAL [ ] GENERAL [ ] OTHER

STATE HIGHWAY ADMINISTRATION

SOMERSET COUNTY

PROJECT: MD 413 Trail

DESCRIPTION: Construction of a paved bike/pedestrian trail with parking areas and plantings along the MD 413 corridor. The project will continue the improvements to complete the 12-mile corridor for the shared use path between Crisfield and Westover.

PURPOSE & NEED SUMMARY STATEMENT: This project completes a 12-mile trail from Crisfield to Westover, providing a safe alternative for pedestrians and cyclists and supporting tourism and economic development opportunities. The improvements will also afford pedestrian and cyclists a safer alternative to navigate the corridor versus using the shoulder areas along the high-speed MD 413 corridor.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

[ ] Project Inside PFA
[ ] Project Outside PFA
[ ] PFA Status Yet to Be Determined

[ ] Grandfathered
[ ] Exception Will Be Required
[ ] Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

[X] Enhance Safety and Security
[X] Deliver System Quality
[X] Serve Communities and Support the Economy
[ ] Promote Environmental Stewardship

EXPLANATION: This project completes a 12-mile trail from Crisfield to Westover, providing a safe alternative for pedestrians and cyclists and supporting tourism and economic development opportunities. The project will also make extensive use of the old railroad bed to safely locate pedestrians and cyclists off the roadway.

STATUS: Construction of Phase 2C (north of Big Annemessex River to south of US 13) is underway. Construction of Phases 2A (Davis Lane to Lover's Lane) and 2B (Lover's Lane to south of Sheriff's Office) is anticipated to begin in early FY 2027. Phase 2C engineering was funded through grants from the Transportation Alternatives Program and the Kim Lamphier Bikeways Network Program.

MARYLAND DEPARTMENT OF TRANSPORTATION

STATE HIGHWAY ADMINISTRATION

WASHINGTON COUNTY

PROJECT: I-68, National Freeway

DESCRIPTION: Replacement of Bridge Nos. 2107603 and 2107604 on I-68 over Creek Road.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to replace the deteriorated bridges to keep the roadway safe and open to traffic. Replacing the bridges before they become poor rated will prevent additional disruptions to this heavily traveled roadway.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

☐ Project Inside PFA
☐ Project Outside PFA
☐ PFA Status Yet to Be Determined

☐ Grandfathered
☐ Exception Will Be Required
☐ Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

☒ Enhance Safety and Security
☒ Deliver System Quality
☐ Serve Communities and Support the Economy
☐ Promote Environmental Stewardship

EXPLANATION: The existing bridges, built in 1978, are nearing the end of their useful service life and are currently rated fair.

STATUS: Open to service.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

PROJECTED (2045) 81,400

STIP REFERENCE #WA4801 12/1/2025

PROJECT: I-81, Maryland Veterans Memorial Highway

DESCRIPTION: Project to upgrade and widen I-81 to a six-lane divided highway from MD 63/MD 68 to the CSX railroad bridges north of Halfway Boulevard (4.0 miles). Two noise barrier systems will be provided as part of the project.

PURPOSE & NEED SUMMARY STATEMENT: I-81 corridor improvements improve mobility, accommodate a high truck volume, and provide capacity for planned development.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☒ Project Inside PFA
- ☐ Project Outside PFA
- ☐ PFA Status Yet to Be Determined

- ☐ Grandfathered
- ☐ Exception Will Be Required
- ☐ Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- ☒ Enhance Safety and Security
- ☒ Deliver System Quality
- ☒ Serve Communities and Support the Economy
- ☐ Promote Environmental Stewardship

EXPLANATION: I-81 is a critical link in western Maryland, increasing capacity supports critical regional transportation needs.

STATUS: Engineering underway for Phase 2. Phase 1 is open to service. MDOT is able to advance all phases of this project because of the funding provided by the Governor and Legislature in the last session.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increase of $75.6 million is due to increased design costs, a revised construction cost estimate (primarily for full replacement of dual bridges over CSX), and inflationary construction cost escalation. The project will be delivered in two phases (Ph. 2A from north of MD 63/MD 68 to I-70 and Ph. 2B from I-70 to north of Halfway Blvd.) to expedite

STATE SYSTEM: Primary

Estimated Annual Average Daily Traffic (vehicles per day)

CURRENT (2025) 65,600 - 86,700

PROJECTED (2045) 77,900 - 98,800

STIP REFERENCE #WA0921 12/1/2025

PROJECT: US 40, National Pike

DESCRIPTION: Rehabilitation of Bridge No. 2101200 over Conococheague Creek.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to complete a major rehabilitation of the deteriorated portions of an existing historic bridge to keep the roadway safe and open to traffic. Rehabilitating the bridge before it becomes poor rated will prevent additional disruptions to this roadway.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☒ Project Inside PFA
- ☐ Project Outside PFA
- ☐ PFA Status Yet to Be Determined

If Project Outside PFA:
- ☐ Grandfathered
- ☐ Exception Will Be Required
- ☐ Exception Granted

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: The cost increase of $1.6 million is primarily due to an unfavorable bid on the construction contract.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Enhance Safety and Security
- ☒ Deliver System Quality
- ☐ Serve Communities and Support the Economy
- ☐ Promote Environmental Stewardship

EXPLANATION: The existing bridge, built in 1936, is rated in fair condition with numerous patches in the bridge deck and deteriorated concrete in portions of the supporting substructure. Rehabilitation of the bridge at this time will allow us to maintain the bridge in a state of good repair and continue to preserve one of 17 SHA Bridges identified for long-term preservation.

STATE HIGHWAY ADMINISTRATION

WICOMICO COUNTY

PROJECT: US 13 Business, Salisbury Boulevard

DESCRIPTION: Replacement of Bridge No. 2200400 over East Branch Wicomico River.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to replace a weight restricted fair rated bridge to keep the roadway safe and open to traffic. The project will provide improved pedestrian facilities through the addition of a shared use path and sidewalk.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☒ Project Inside PFA
- ☐ Project Outside PFA
- ☐ PFA Status Yet to Be Determined

If Project Outside PFA:
- ☐ Grandfathered
- ☐ Exception Will Be Required
- ☐ Exception Granted

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- ☒ Enhance Safety and Security
- ☒ Deliver System Quality
- ☒ Serve Communities and Support the Economy
- ☐ Promote Environmental Stewardship

EXPLANATION: The existing bridge, built in 1937, is nearing the end of its useful service life. It is currently in fair condition and weight restricted for weight restrictions.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

STATE HIGHWAY ADMINISTRATION

WORCESTER COUNTY

PROJECT: MD 90, Ocean City Expressway

DESCRIPTION: Project to improve MD 90 operations from US 50 to MD 528, including Bridge No. 2302000 over the St. Martin River and Bridge No. 2302100 over Assawoman Bay. Additional travel lanes, interchange and at-grade intersections to be evaluated, along with pedestrian and bicycle needs throughout the corridor.

PURPOSE & NEED SUMMARY STATEMENT: MD 90 is a heavily traveled roadway providing crucial access to and from Ocean City and serving as a key evacuation route during storm events. This project will improve operations and increase network redundancy in Ocean City.

PROJECT: Highway User Revenue

DESCRIPTION: Highway User Revenue (HUR) capital grants are funds that are distributed from the Transportation Trust Fund to Baltimore City, counties and municipalities to provide funding for local transportation projects. The calculation of funding is based on certain transportation revenues and allocated based on formulas established in law. Grant amounts shown are based on revenue estimates. Actual grant amounts depend on actual revenue attainment.

PURPOSE & NEED SUMMARY STATEMENT: HUR grants provide critical investments for the repair, maintenance, and replacement of transportation facilities in local jurisdictions.

SMART GROWTH STATUS: [X] Project Not Location Specific [ ] Not Subject to PFA Law

PROJECT: I-95 John F. Kennedy Memorial Highway - Express Toll Lanes (ETL) Northern Extension

DESCRIPTION: The two-lane Express Toll Lane extension to MD 24 includes I-95 safety improvements from Cowenton Road to MD 24; the reconstruction of the MD 24 and MD 152 interchanges; the replacement of four bridges over I-95 (Bradshaw Road, Old Joppa Road, Clayton Road, and Raphel Road); the construction of five noise walls; and environmental mitigation.

PURPOSE & NEED SUMMARY STATEMENT: Traffic operations on northbound I-95 beyond the current MD 43 Express Toll Lanes terminus experience routine congestion during peak hours. The improvements will address capacity concerns, improve safety, and allow for better incident management and maintenance activities. The construction of additional noise walls will address the community's requests about quality of life.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Extending the northbound Express Toll Lanes and associated improvements will provide congestion relief and address safety concerns.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

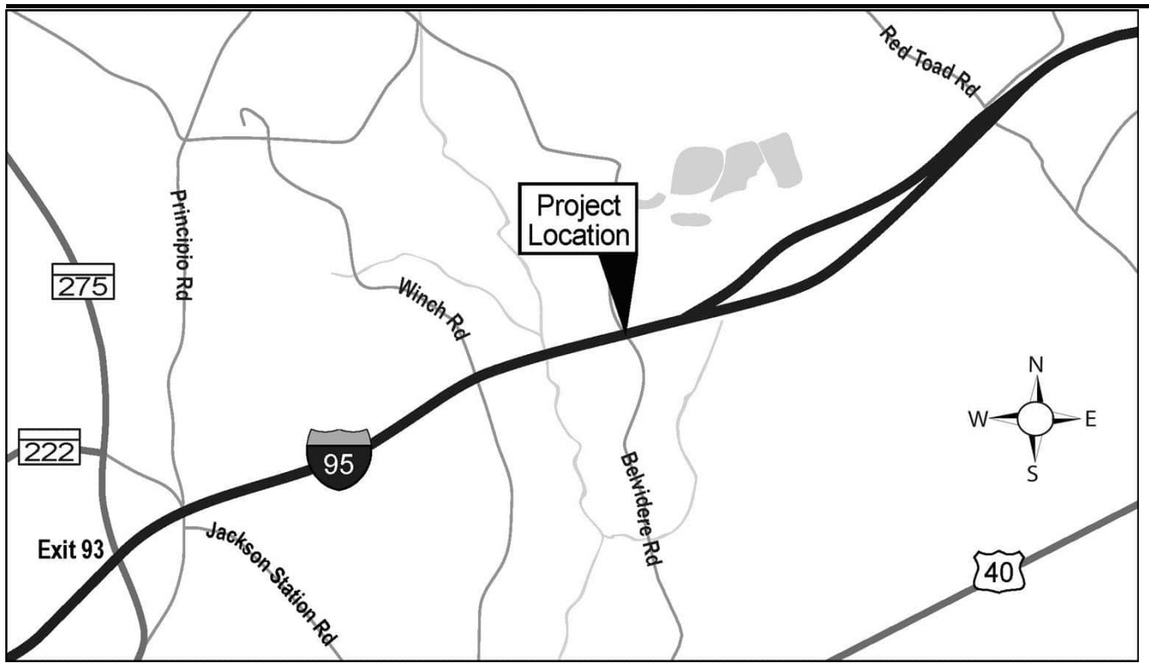

STATUS: The extended northbound I-95 Express Toll Lanes (ETL) opened on December 18, 2024, from White Marsh Boulevard (MD 43) to Mountain Road (MD 152). Engineering and construction continue on the extension from Mountain Road (MD 152) to MD 24.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Cost decreased by $11 million. The ETL Northbound Extension has received favorable bids for several contracts that have been below cost estimates. These include the last two large contracts in the ETL program. Additionally, the program is moving into its final stages with the first section open to traffic and the final contracts in procurement or construction. Therefore, the decision was made to reduce the overall program budget.

PROJECT: I-95 John F. Kennedy Memorial Highway - Construct Interchange at Belvidere Road

DESCRIPTION: The project will construct a new interchange between I-95 John F. Kennedy Memorial Highway and Belvidere Road, including constructing a new bridge over I-95.

PURPOSE & NEED SUMMARY STATEMENT: Increased development in the vicinity of Belvidere Road in Cecil County necessitates an interchange at I-95 (JFK Highway) and Belvidere Road. The project cost will be shared with Stewart Properties contributing $8.8 million for right-of-way, Cecil County contributing $1 million for construction, and MDTA providing $46.7 million, with the balance of $20 million from a Federal BUILD Grant. The BUILD Grant was awarded in December 2018. At the time of the grant application in 2018, the project was estimated at $54 million; however, the cost shown on this page reflects the low bid received from the selected Design-Build team.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project will support development by providing access to I-95 at Belvidere Road.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

2477

PROJECT: I-95 John F. Kennedy Memorial Highway - I-95 Southbound Hard Shoulder Running

DESCRIPTION: This project will provide part-time left shoulder use for approximately 5.4 miles on I-95 southbound from Maryland House to MD 24 in Harford County. It involves restriping I-95 and repaving the left shoulder lane to accommodate part-time left shoulder use. Installation of Intelligent Transportation System (ITS) devices to dynamically open and close the left shoulder lane based on traffic conditions is included. This is a Project Labor Agreement candidate project.

PURPOSE & NEED SUMMARY STATEMENT: This project will increase capacity along southbound I-95 between Maryland House and MD 24 and reduce congestion during high traffic volumes. The part time shoulder will be utilized during prescheduled peak periods and during unforeseen spikes in demand.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This segment of I-95 currently operates at an unacceptable level of service with significant delays on summer weekends and the Maryland House On-Ramp is a high frequency crash location with approximately 75% of crashes occurring on the weekends. This project will increase capacity and improve safety, particularly during summer weekends, to alleviate severe congestion, delays and crashes along southbound I-95 between the Maryland House and MD 24.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

PROJECT: I-95 John F. Kennedy Memorial Highway - JFK Maintenance Facility Complex

DESCRIPTION: The complex will include a new maintenance building to support office space, common areas, locker/rest rooms, automotive shop/bays, material storage, wash bay, salt storage barns, fueling island, debris dewatering pad, and vehicle storage structures. Site improvements shall include grading, pavement, drainage, utilities, storm water management, lighting, security, fencing, and landscaping. This is a Project Labor Agreement candidate project.

PURPOSE & NEED SUMMARY STATEMENT: The Kennedy Highway and approach roadways require continuous maintenance and safety activities to maintain Kennedy Highway and Hatem Bridge in the highest serviceable condition for safe passage of MDTA customers. The JFK Maintenance Facility Complex will provide work areas for the staff, vehicle safety inspections, and full service repair shop bays and parts storage.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The Maintenance Building will support an environment safe for MDTA employees to perform their work duties and protection for the equipment used by operations staff.

PROJECT: I-95 John F. Kennedy Memorial Highway - I-695 Ramps to I-95 Northbound Express Toll Lanes

DESCRIPTION: Construct two I-95 Section 100 ETL Ramps from I-695 Eastbound and Westbound to I-95 Northbound ETLs.This is a Project Labor Agreement candidate project.

PURPOSE & NEED SUMMARY STATEMENT: The two ETL ramps are a part of the connectivity between two major interstate roadways and specifically the northbound ETLs. This allows traffic on I-695 a choice to use the NB General Purpose (GP) lanes or the NB ETLs. This improvement will reduce the volume of traffic traveling onto the GP lanes and thereby improves traffic operation on the I-95 facility.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Once open, these I-695 ramps will provide access to I-95 NB ETLs for a distance of approximately 12 miles.

PROJECT: I-95 Fort McHenry Tunnel - Port Covington I-95 Access Study

DESCRIPTION: The first phase of this project is a comprehensive evaluation of potential improvements to I-95 ramps required to support major planned development on the Port Covington Peninsula located in Baltimore City. Improvements being evaluated include potential changes to the I-95 ramps between Hanover Street and Key Highway.

PURPOSE & NEED SUMMARY STATEMENT: A National Environmental Policy Act (NEPA) study is required to determine the potential environmental effects associated with proposed improvements to accommodate anticipated growth while maintaining the functionality of the regional and local transportation system.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The study will identify preferred infrastructure improvements to support the full development potential of a large area of underutilized land in Baltimore City while maintaining the functionality of the regional transportation system.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

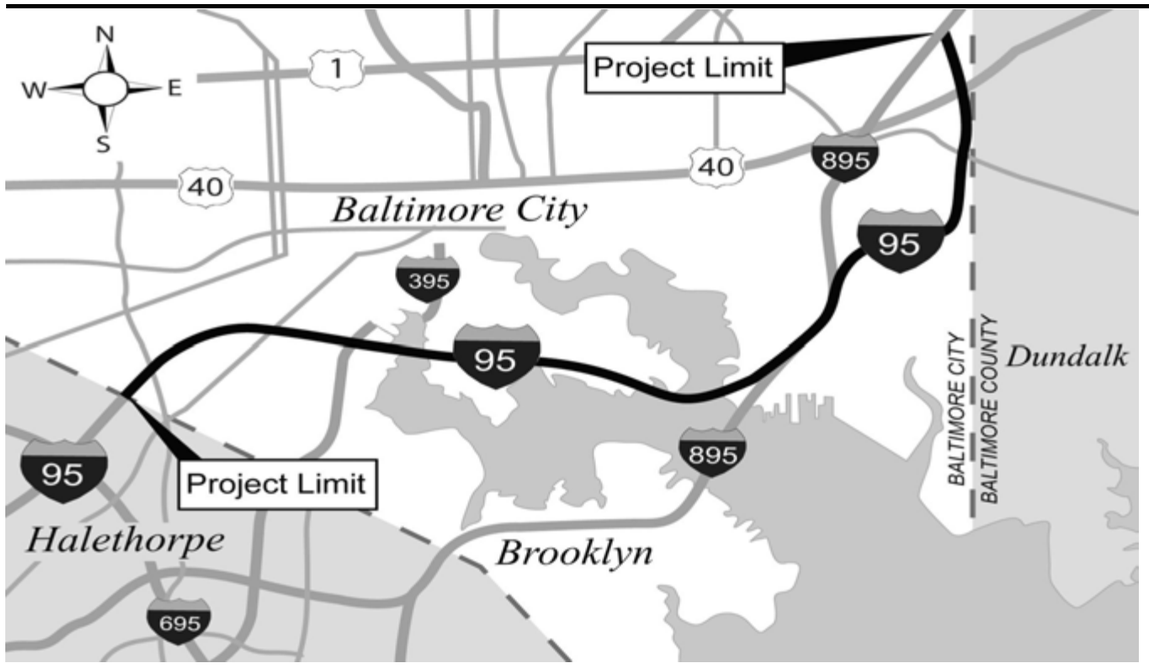

STATUS: Planning is on hold. Construction schedule to be determined. Planning funding will be for MDTA's oversight of the planning phase which is being funded by a private developer. Construction funding will be MDTA's match for future INFRA Grant.

PROJECT: I-95 Fort McHenry Tunnel - Rehabilitate Substructure and Superstructure of Various Bridges on I-95 in Baltimore City

DESCRIPTION: Repair substructure and superstructure of seventy-four bridges on I-95 in Baltimore City. The work includes structural weld repairs, structural steel repairs, roadway joint repairs, concrete repairs, and application of protective coatings on seventy-four bridges. This project includes two phases. Each phase includes thirty-seven bridges.

PURPOSE & NEED SUMMARY STATEMENT: The annual facility inspections, as well as findings and issues noted by MDTA Operations, have identified the need to perform a comprehensive substructure and superstructure rehabilitation throughout this facility.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The bridges show signs of deterioration. Rehabilitation will improve condition of the bridges' substructure and superstructure.

PROJECT: I-95 Fort McHenry Tunnel - Rehabilitate Tunnel 15 KV Cable, Conduit, and Concrete Wall

DESCRIPTION: The scope of this project includes performing concrete repairs to the underside of the roadway slab and walls inside the fresh air ducts of all four bores of the Fort McHenry Tunnel. In addition, replacement of the existing four (4) 15KV tie feeders, with associated cables and conduits, between the East and West Ventilation Buildings.

PURPOSE & NEED SUMMARY STATEMENT: Hands-on inspections identified the original 15KV cable and conduits including the surrounding concrete need major rehabilitation and replacement.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Rehabilitate 15KV cable, conduit and surrounding concrete wall to increase the useful life of these tunnel components.

PROJECT: I-95 Fort McHenry Tunnel - FMT Facility-wide Zone Paint Program

DESCRIPTION: This is a system preservation project to address areas of structural steel with moderate to advanced section loss and corrosion. The project will provide zone painting to bridges in the areas of higher corrosion to prevent further deterioration.

PURPOSE & NEED SUMMARY STATEMENT: Bridge inspections revealed significant areas of the structural steel with moderate to advanced section loss particularly at the steel beam ends at the locations of open roadway joints.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The patina protecting the steel is wearing off, therefore cleaning and painting the steel is needed to prevent further deterioration.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

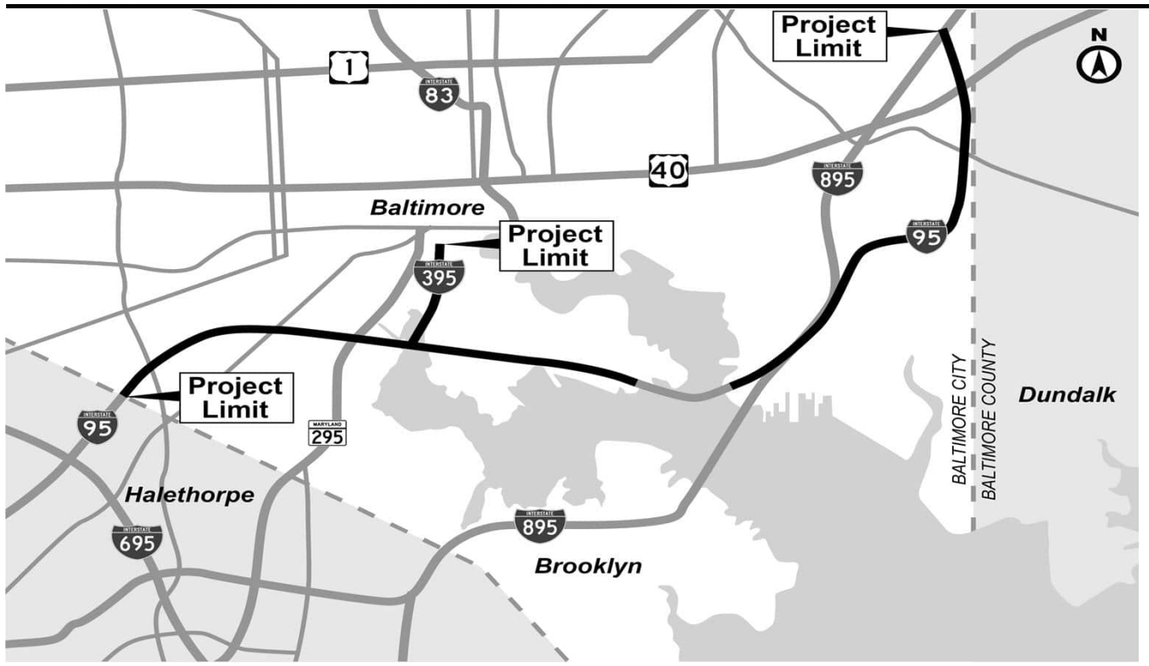

- [ ] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

PROJECT: I-95 Fort McHenry Tunnel - Rehabilitate FMT Area-Wide Lighting

DESCRIPTION: Upgrade portions of the lighting system, electrical system, and camera communication feeds on the Fort McHenry Tunnel facility to bring assets back into operation.

PURPOSE & NEED SUMMARY STATEMENT: This project will upgrade and restore assets back into operation including improvements to lighting, electrical and communication feeds, parapet cables and circuits, lighting vaults and cabinets, junction box covers, and conduit throughout.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Rehabilitation is needed to extend the lifecycle of the assets.

PROJECT: I-95 Fort McHenry Tunnel - FMT Box Girder Preservation

DESCRIPTION: Clean, paint, and repair deteriorated portions of the FMT box girders, especially the supporting girder ends. Multiple bridges on the FMT facility are supported by hollow girders rectangular or "box" in cross section rather than normal "I" shaped girders. These box girders span multiple support piers spaced along their lengths. The work in this project is to abrasive blast (clean) and paint the areas of steel that are rusted inside and outside the girders.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of this project is to remove rust and associated steel deterioration in areas of the FMT "Box" girders by cleaning and painting the rusted steel areas, discovered during biennial inspections, to preserve the useful life of these girders.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Cleaning and painting the box girders will preserve and extend their useful life.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

PROJECT: I-95 Fort McHenry Tunnel - MDTA Police Vehicle Storage Garage and Auto Repair Shop

DESCRIPTION: Project to construct a new multi-use facility at the Fort McHenry Tunnel Campus to support the MDTA police vehicle fleet. The building will include four (4) storage bays for safe shelter of various essential vehicles and equipment including the Command Vehicle and Motorcycles. The Automotive Service Shop will have three (3) bays to provide maintenance and repair for MDTA police vehicles along with office, support and parts storage space.

PURPOSE & NEED SUMMARY STATEMENT: MDTA Police identified the necessity for a centralized facility to support storage of essential vehicles for emergency response and expansion of the patrol fleet. The police vehicle fleet will increase by approximately 175 vehicles over the next two years. These emergency response vehicles require more frequent and stringent safety inspections. The existing facility auto shops will not have the capacity to perform inspections, routine maintenance, and repairs for the increased fleet due to the total number of vehicles both new and existing. The current auto shops service the entire MDTA maintenance vehicle and heavy equipment fleet.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [ ] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Provide a more suitable centralized location for safe and efficient management of the MDTA police vehicle fleet.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

PROJECT: I-695 Francis Scott Key Bridge - Key Bridge Rebuild

DESCRIPTION: This project will replace the Francis Scott Key Bridge and approaches using a Progressive Design-Build procurement process. The project is expected to be funded from insurance and FHWA emergency relief proceeds. Regionally, the Key Bridge played a critical role in the transportation network, including the transport of goods to and from the Port of Baltimore, the nation's largest port facility for specialized cargo and passenger facilities, and nearby distribution centers such as Tradepoint Atlantic at Sparrows Point. On 12/21/24, Congress approved the full federal funding of the Key Bridge Replacement Project's eligible costs. The MDTA will use toll revenue to fund the up front costs of the Key Bridge reconstruction, with Federal reimbursement in the future.

PURPOSE & NEED SUMMARY STATEMENT: On March 26, 2024, a cargo container vessel struck a main pier of the Francis Scott Key Bridge while transiting out of the Baltimore Harbor. The impact caused the bridge to collapse into the Patapsco River within seconds of the allision. As a result, the I-695 highway and ship channel became impassable. The loss of the Francis Scott Key Bridge significantly impacts travel in the Baltimore Metropolitan Region. The preliminary design phase is being delivered using an aggressive schedule, so construction can commence as soon as possible.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

EXPLANATION: Replacing the Francis Scott Key Bridge will restore critically affected traffic patterns in the Baltimore Metropolitan Region. It is a critical link in the regional and interstate transportation network and was the primary interstate route for hazardous material loads traveling through Baltimore. The collapse has negatively impacted community mobility and connectivity by creating a major gap in the Baltimore transportation network for both local and regional traffic.

STATUS: Planning, engineering and construction are underway.

POTENTIAL FUNDING SOURCE: [ ] SPECIAL [ ] FEDERAL [ ] GENERAL [X] OTHER

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Cost increased by $3.4 billion due to detailed design development and refinement, as well as detailed cost estimating efforts. Previous cost estimates were developed for programming purposes shortly after the Key Bridge collapse.

2655

PROJECT: I-695 Francis Scott Key Bridge - Subgrade Improvements at Bear Creek

DESCRIPTION: This project will rehabilitate the subgrade and pavement systems of the I-695 roadway in the Bear Creek vicinity.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of the project is to repair and rehabilitate the subgrade and pavement of MD 695 near Bear Creek and perform backwall repairs of adjacent bridges. The need for repairs and rehabilitation are based on studies that revealed settlement and deterioration in this area. The expected increase in truck volumes due to the ongoing development and expansion of Tradepoint Atlantic confirms the need for the rehabilitation at this time.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The rehabilitation and repairs of the roadway and bridge abutments will provide a safer and smoother ride.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

PROJECT: I-695 Francis Scott Key Bridge - MDTA Police Training Academy

DESCRIPTION: Construct MDTA Police Training Academy at former Allied Property.

PURPOSE & NEED SUMMARY STATEMENT: There is insufficient space at the Police Headquarters Building, where the Police Training Academy is currently located, due to the growth of police duties and responsibilities over the past decade. There is a consistent and increasing need for new recruit training and in-service accreditation from MDTA Police and other law enforcement agencies that train alongside the MDTA.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [ ] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Construct an independent police training academy building and facility.

PROJECT: I-695 Francis Scott Key Bridge - Rehabilitation of Curtis Creek Drawbridges Superstructure

DESCRIPTION: Perform steel repairs and strengthening measures to portions of the superstructure, particularly the outer loop bascule span; performing repairs to the existing catwalks; staged removal and replacement of portions of the decks and parapets; removal and replacement of all bridge-mounted low-level lights; associated electrical work, maintenance of traffic and final pavement markings.

PURPOSE & NEED SUMMARY STATEMENT: The project is an outcome of bi-annual bridge inspection reports of multiple defects that needed repair to maintain quality functioning of the bridge. Subsequent to the inspections, bridge deck surveys and analysis revealed that several deck spans needed replacement. The purpose of the project it to efficiently address the multiple existing superstructure defects at one time. In October 2024 this project was awarded an Infrastructure for Rebuilding America (INFRA) Grant in the amount of $7.5 million.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Bridge superstructure restoration and extension of its useful life.

PROJECT: I-895 Baltimore Harbor Tunnel Thruway - Envelope and Switchgear Replacements at Vent Buildings

DESCRIPTION: Replace building facade, louvers, doors, roofing, elevators and fire pumps along with switchgear/MCC line-ups, transformers, switchboards, SCADA system integration and associated feeder cables at the Baltimore Harbor Tunnel Vent Buildings, Fairfield and Canton Sites.

PURPOSE & NEED SUMMARY STATEMENT: The existing facade is failing and the existing louvers provide no protection of the building interiors and equipment from rain and snow. The switchgear is original to the facility and has reached the end of its useful life.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Replacing the facade will extend the useful life of the Baltimore Harbor Tunnel Vent Buildings and provide protection for the equipment housed therein. Replacing the switchgear and associated apparatus will provide reliable system and power control.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

PROJECT: I-895 Baltimore Harbor Tunnel Thruway - Resurfacing North and South of the Baltimore Harbor Tunnel

DESCRIPTION: Resurface I-895 roadways north and south of the Baltimore Harbor Tunnel. The limits of the project are I-895 from the southern junction of I-95 to just north of MD 295 (at the south end of the project) and I-895 from just south of Herring Run to the northern junction of I-95 (northern end of the project).

PURPOSE & NEED SUMMARY STATEMENT: This project will perform the required life-cycle pavement resurfacing and rehabilitation along I-895 in order to ensure that the pavement remains in acceptable condition.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The I-895 roadway requires resurfacing to extend the useful life of the highway.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

PROJECT: I-895 Baltimore Harbor Tunnel Thruway - AET Conversion with Frankfurst Avenue Interchange Modifications

DESCRIPTION: Demolish toll plaza, rehabilitate pavement, and install equipment to convert to all electronic tolling (AET), or cashless tolling. Modify the I-895 interchange at Frankfurst Avenue to improve safety and operations. The project will be completed in three phases: AET Conversion with Frankfurst Interchange (Gantry Work); Reconstruction Frankfurst Intersection; and I-895 Mainline & Bridge Replacement. This is a Project Labor Agreement candidate project.

PURPOSE & NEED SUMMARY STATEMENT: The advantages of converting to cashless tolling include reduced travel times; increased safety/reduced crashes; alignment with national practice; improved customer convenience; reduced emissions; and reduction in toll collection and maintenance costs. The I-895 interchange modifications will address aging bridges, clearances, and other safety and efficiency related items.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Changing to cashless tolling at the Baltimore Harbor Tunnel provides toll collection at highway speeds through the electronic methods of E-ZPass, Pay-By-Plate, and Video Tolling.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

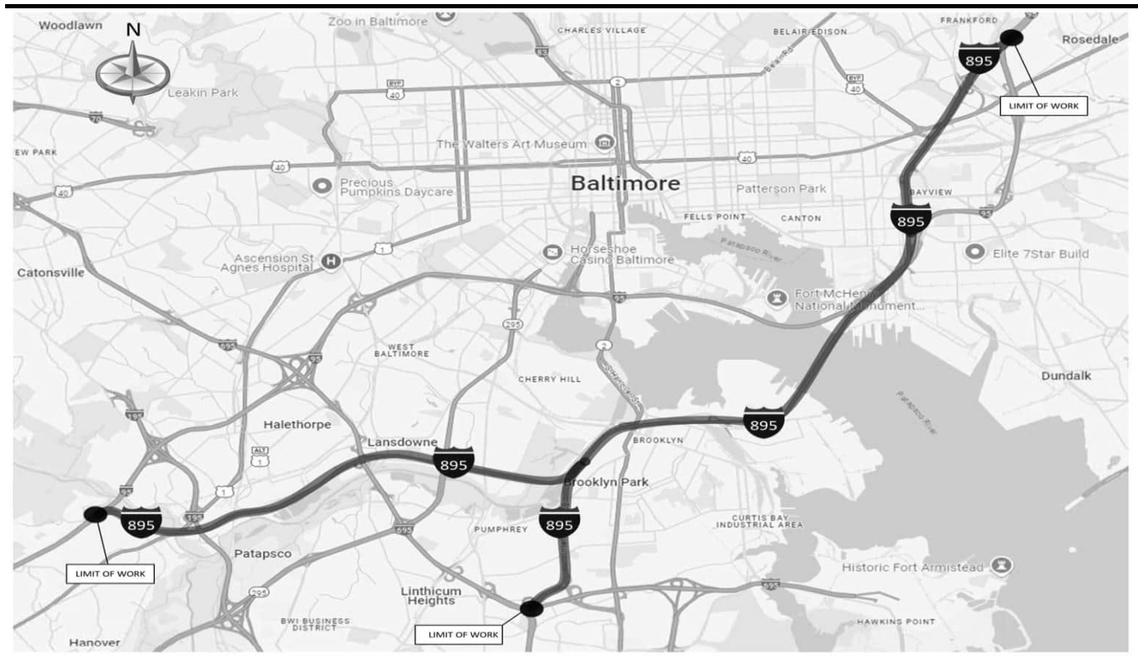

STATUS: Design and construction are underway. Only those portions of the construction that can be completed without major traffic impacts are underway at this time due to the increased traffic in this corridor from the Key Bridge corridor closure. The project was awarded an $80M MEGA grant, which will be applied to the construction. Additional funding for the balance of the project will be added later.

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

POTENTIAL FUNDING SOURCE: [ ] SPECIAL [ ] FEDERAL [ ] GENERAL [X] OTHER

PROJECT: I-895 Baltimore Harbor Tunnel Thruway - Facility-wide Signing Upgrades

DESCRIPTION: The existing signing along the BHT facility is past their service life. This project will upgrade all existing signing along the BHT facility, ensuring the facility signing is in accordance with the Maryland Manual on Uniform Traffic Control Devices (MdMUTCD). The project will also upgrade AET tolling signing as needed.

PURPOSE & NEED SUMMARY STATEMENT: This purpose of this project is to replace existing highway signs for the BHT facility that are, or will soon be, beyond their expected service life and to address new signing requirements within the latest edition of the Manual on Uniform Traffic Control Devices (MUTCD).

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Upon completion of the project, highway signing along the BHT facility will be in a state of good repair and will generally meet the latest requirements of the MUTCD.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA — [ ] Grandfathered; [ ] Exception Will Be Required; [ ] Exception Granted
- [ ] PFA Status Yet to Be Determined

STATUS: Engineering is underway. Construction will begin in March 2026.

POTENTIAL FUNDING SOURCE: [ ] SPECIAL [ ] FEDERAL [ ] GENERAL [X] OTHER

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Cost decreased by $7.5 million due to a portion of the scope was removed due to an anticipated MTA project being deferred, resulting in no longer needing to replace MDTA cantilever sign structure and infrastructure along Ponca Street.

2614

PROJECT: I-895 Baltimore Harbor Tunnel Thruway - BHT Lane Use Signals (LUS) Extension

DESCRIPTION: Recently installed gates at BHT require safe guidance for vehicles traveling through BHT. Therefore we need to extend LUS beyond gates.

PURPOSE & NEED SUMMARY STATEMENT: Additional LUS (lane use signals) are needed to safely transition from newly installed gates. Also, the project will look into other ITS (intelligent transportation systems) devices like DMS if necessary to support this.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: LUS and DMS will be installed to support traffic needs.

PROJECT: I-895 Baltimore Harbor Tunnel Thruway - Rehabilitate BHT Tunnel Lighting System

DESCRIPTION: The project will remove and replace the existing tunnel lighting system and remove and replace the existing in-tunnel puck-style lane use signals (LUS) system through the tunnel. Additionally, scope of work includes: Programmable Logic Controllers (PLC) replacements for the tunnel's control systems for both east and west tubes, and new Lighting controllers' installation at both Canton and Fairfield Ventilation Buildings.

PURPOSE & NEED SUMMARY STATEMENT: The project will install LED type luminaires and smart lighting control systems to achieve driver safety and energy savings by upgrading the controllers in ventilation buildings, and conduits & conductors inside the tunnel.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: Rehabilitation is needed to improve the lifecycle of assets, and compliance with standards in energy efficiency.

PROJECT: US 50/301 Bay Bridge - Rehabilitate Eastbound Bridge Deck

DESCRIPTION: This project includes bridge deck & floor system replacement & widening, signal gantry replacement, utility relocations, strengthening of steel truss superstructure for Deck Truss Spans T1-T13, utility relocations and strengthening of steel truss superstructure for Deck Truss Spans T14-T22, utility relocations and MASH TL-4 barrier upgrade for Suspension Spans S32-S34, and off-site storm water management work.

PURPOSE & NEED SUMMARY STATEMENT: The eastbound concrete deck is exhibiting various degrees of deterioration, as it was last replaced in 1985. Industry standards indicate that the deck is nearing the end of its life cycle.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The eastbound bridge deck is exhibiting various degrees of deterioration and will be replaced or rehabilitated.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

2317

PROJECT: US 50/301 Bay Bridge - Project Management Office and Maintenance Equipment Storage Building

DESCRIPTION: This project includes the construction of a new Project Management Office and a new Maintenance Equipment Storage Building at the Bay Bridge Campus. Work also includes site utility upgrades including water main, power, fiber, and street lighting to support the new and existing buildings.

PURPOSE & NEED SUMMARY STATEMENT: The Bay Bridge crossing and approach roadways require continuous construction and maintenance activity to maintain the dual bridges in the highest serviceable condition for safe passage of MDTA customers. The Project Management Office will provide work areas for the inspection and contract administration staff. The Maintenance Equipment Storage Building will provide protection for the equipment used by operations staff.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The Project Management Office will provide a permanent centralized office building for the construction management personnel and field staff necessary for the year round, daytime, and nighttime hours of contract work. The Maintenance Equipment Storage Building will provide protection for the equipment used by the Operations staff.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: None.

PROJECT: US 50/301 Bay Bridge - Bay Bridge Protection Project

DESCRIPTION: Design and install an enhanced pier protection system at the eastbound and westbound Bay Bridges based on current bridge standards. This is a Project Labor Agreement candidate project.

PURPOSE & NEED SUMMARY STATEMENT: Enhanced pier protection measures are essential to mitigate the risk of damage from accidental ship impacts on the bridges' structural supports.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: After completion of this project, major bridge supporting piers and towers will have enhanced physical protection from accidental collision by vessels during the service life of both eastbound and westbound Bay Bridges.

2656

PROJECT: US 50/301 Bay Bridge - EB Spans Full Paint - Phase 1 (T14-T22 & Suspension Span Towers from Water to below Roadway)

DESCRIPTION: Full blast cleaning and painting of the T14-T22 Deck Truss Superstructure and Steel Bent Substructure, which was last painted in the 1990s. The coating system in these spans has exceeded its service life and full painting of these areas is necessary to prevent corrosion, section loss and reduction of capacity. The blast cleaning and painting of the non-redundant trusses will extend the service life. Full blast cleaning and painting of the Pier 25 and Pier 26 Suspension Span Main Towers from just below the roadway to the bottom of the towers, which were last painted in the 1990s. Pin and hanger auxiliary support installation included in the scope.

PURPOSE & NEED SUMMARY STATEMENT: These areas are highly exposed to deterioration from road salt accumulation and the coating system in these select areas has exceeded its services life, with pack rust developing between the plies of steel that comprise the individual members.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This blast cleaning and painting will preserve the condition and extend the service life of the non-redundant main towers.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

SIGNIFICANT CHANGE FROM FY 2025 - 30 CTP: Added to the Construction Program.

PROJECT: US 40 Thomas J. Hatem Memorial Bridge - Cleaning and Painting of the Hatem Bridge

DESCRIPTION: Recent bridge inspections identified rust and peeling paint of the structural steel that requires attention. This project will clean and paint the structural steel and coating system of the entire bridge. Single lane closures during off-peak traffic periods will be necessary to set-up shielding and equipment and when cleaning and painting over travel lanes.

PURPOSE & NEED SUMMARY STATEMENT: Recent bridge inspections identified rust and peeling paint of the structural steel that requires attention. Cleaning and painting will protect the existing superstructure of the Hatem Bridge.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [ ] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The coating system is showing signs of wear. This improvement will address existing deterioration and extend the useful life of the bridge.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined

- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

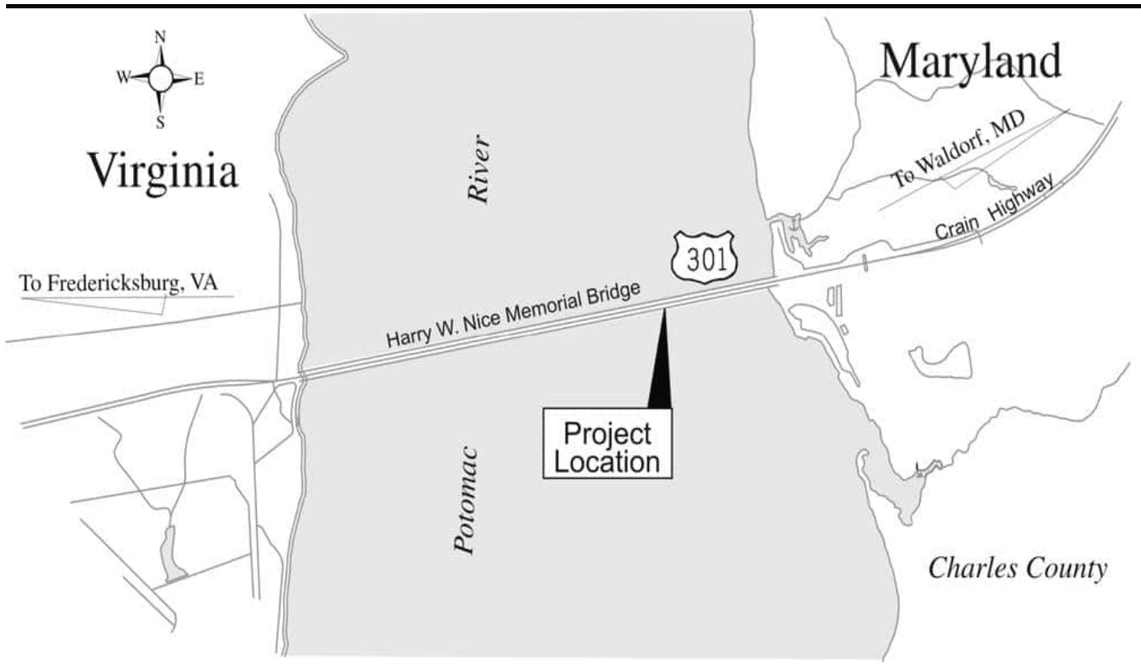

STATUS: Engineering is complete. Construction is underway.

POTENTIAL FUNDING SOURCE: [ ] SPECIAL [ ] FEDERAL [ ] GENERAL [X] OTHER

2512

PROJECT: US 301 Governor Harry W. Nice Memorial/Senator Thomas "Mac" Middleton Bridge - Replace Nice/Middleton Bridge

DESCRIPTION: Replace the current bridge with a new 4-lane bridge.

PURPOSE & NEED SUMMARY STATEMENT: The existing bridge did not meet current standards, i.e., narrow lanes, lack of shoulders, and steep grades with lack of truck climbing lanes and was reaching capacity during peak travel periods. Traffic was projected to increase by 45 percent on weekdays and 33 percent on weekends by 2025.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: The new 4-lane bridge is safer and relieves congestion.

SMART GROWTH STATUS: [ ] Project Not Location Specific [X] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: The facility is open to service. Final construction activities related to Intelligent Transportation Systems (ITS) devices are near completion.

POTENTIAL FUNDING SOURCE: [ ] SPECIAL [ ] FEDERAL [ ] GENERAL [X] OTHER

Maryland Transportation Authority

PROJECT: Authority-Wide - Replace Electronic Toll Collection and Operating System - 3rd Generation

DESCRIPTION: The project will design and build a replacement toll system and services to support it; and design and build a new Customer Service Center (CSC) and provide the services to operate it. These projects include account and transaction processing systems, CSC phone systems, IVR, MVA lookups, reporting, operations, web site, mobile app, image review services, reciprocity services, enforcement services, and maintenance services for six to up to ten years.

PURPOSE & NEED SUMMARY STATEMENT: This project will update the Electronic Toll Collection hardware and Operating System software and increase the capacity for handling video tolling and citations.

STATE GOALS : **Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [ ] Serve Communities and Support the Economy
- [ ] Promote Environmental Stewardship

EXPLANATION: This project will update the Electronic Toll Collection hardware and Operating System software and increase the capacity for handling video tolling and citations.

PROJECT: US 50/301 Bay Bridge - Tier 2 NEPA Study

DESCRIPTION: The Bay Crossing Study Tier 2 NEPA is the second stage of the two-tiered federally required National Environmental Policy Act (NEPA) process. The Bay Crossing Study Tier 1 NEPA was approved by FHWA in April 2022, identifying Corridor 7, the corridor containing the existing Bay Bridge, as the Selected Corridor Alternative. Tier 2 studies specific alignment, crossing type and potential number of lanes needed within the 2-mile wide, 22-mile long corridor from Severn River Bridge to the US 50/301 split. Tier 2 involves significant public engagement and participation. Project delivery method options will be determined.

PURPOSE & NEED SUMMARY STATEMENT: The Bay Crossing Study Tier 2 NEPA is the next step in the strategy to address congestion and future traffic demand crossing the Chesapeake Bay. It must be completed before final design and construction could potentially begin if a build alignment alternative is selected.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

PROJECT: Enterprise IT Capital Program - MDTA OTTS

DESCRIPTION: This is the MDOT Enterprise Information Technology (IT) Program. This program supports IT projects which enhance MDOT's information technology infrastructure and strategy, including cybersecurity, innovation, IT oversight responsibilities, hardware/software upgrades, and end-of-life replacements.

PURPOSE & NEED SUMMARY STATEMENT: These reflected capital funds contribute to the MDOT Enterprise Information Technology Program.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- [X] Enhance Safety and Security
- [X] Deliver System Quality
- [X] Serve Communities and Support the Economy
- [X] Promote Environmental Stewardship

EXPLANATION: Information technology supports the MDOT enterprise. Information technology enhances MDOT's ability to achieve its goals by supporting specific transportation projects and information technology projects that enhances the safety, security, and efficiency of MDOT.

SMART GROWTH STATUS: [X] Project Not Location Specific [X] Not Subject to PFA Law

- [ ] Project Inside PFA
- [ ] Project Outside PFA
- [ ] PFA Status Yet to Be Determined
- [ ] Grandfathered
- [ ] Exception Will Be Required
- [ ] Exception Granted

STATUS: IT projects are on going.

MARYLAND DEPARTMENT OF TRANSPORTATION

APPENDICES A & B – CHAPTER 30 SCORES

Appendix A: Previous Chapter 30 Project Scores
Draft FY 2026-31 CTP

The Maryland Department of Transportation (MDOT) evaluates major transportation projects through a project-based scoring model that is required by the Maryland Open Transportation Investment Decision Act – Application and Evaluation (Chapter 30). Major transportation projects are defined as highway and transit capacity projects over $5 million. The major transportation projects that have been evaluated under chapter 30 and their corresponding scores are shown below. Please note that the maximum allowable score for any project was determined to be 2000. The project prioritization model required under Chapter 30 does not select major transportation projects for funding, but it is one of many tools MDOT utilizes in its project evaluation and selection process.

Project Name	Sponsor	Score	Rank
MD 3 (MD 32 to St. Stephens Church Road)	Anne Arundel County	1376.21	1
Parole Transportation Center	Anne Arundel County	614.36	2
MD 170 (MD 100 to south of MD 174)	Anne Arundel County	276.88	3
Odenton MARC Garage	Anne Arundel County	192.53	4
MD 4 (Lous Way to north end of South Patuxent Beach Road)	St. Mary's County	160.24	5
MD 214 (MD 468 to Oakford Avenue)	Anne Arundel County	116.25	6
US 40 & Otsego Street/Ohio Street Intersection	Harford County	111.67	7
MD 27 (Leishear Road to Penn Shop Road)	Carroll County	69.24	8
MD 175 (US 1 to Dorsey Run Road)	Howard County	56.34	9
MD 194 (MD 26 to Devilbiss Bridge Road)	Frederick County	55.63	10
US 50/US 301 (MD 2/MD 450 to Chesapeake Bay Bridge)	Anne Arundel County	54.42	11
MD 26 (MD 32 to Liberty Reservoir)	Carroll County	29.69	12
MD 2 (US 50 to Wishing Rock Road)	Anne Arundel County	27.62	13
MD 117 (I-270 to Watkins Mill Road)	Montgomery County	26.43	14
I-95 (MD 32 to MD 100)	MDOT SHA	25.97	15
MD 18 (Castle Marina Road to the Kent Narrows)	Queen Anne’s County	22.20	16
MD 175 (MD 170 to west of MD 295)	Anne Arundel County	20.56	17
MD 197 (MD 450 to Kenhill Drive)	Prince George’s County	18.92	18
US 29 (Seneca Drive to Middle Patuxent River)	Howard County	15.44	19
MD 85 (Guilford Drive to south of Ballenger Creek)	Frederick County	14.38	20
I-70 (I-270 to Alternate US 40)	Frederick County	13.68	21
MD 198 (MD 295 to MD 32)	Anne Arundel County	12.66	22
MD 2/4 (Auto Dr to MD 765A)	Calvert County	10.67	23
MD 355 Flash Bus Rapid Transit (Clarksburg to Bethesda)	Montgomery County	6.59	24

Appendix A: Previous Chapter 30 Project Scores
Draft FY 2026-31 CTP

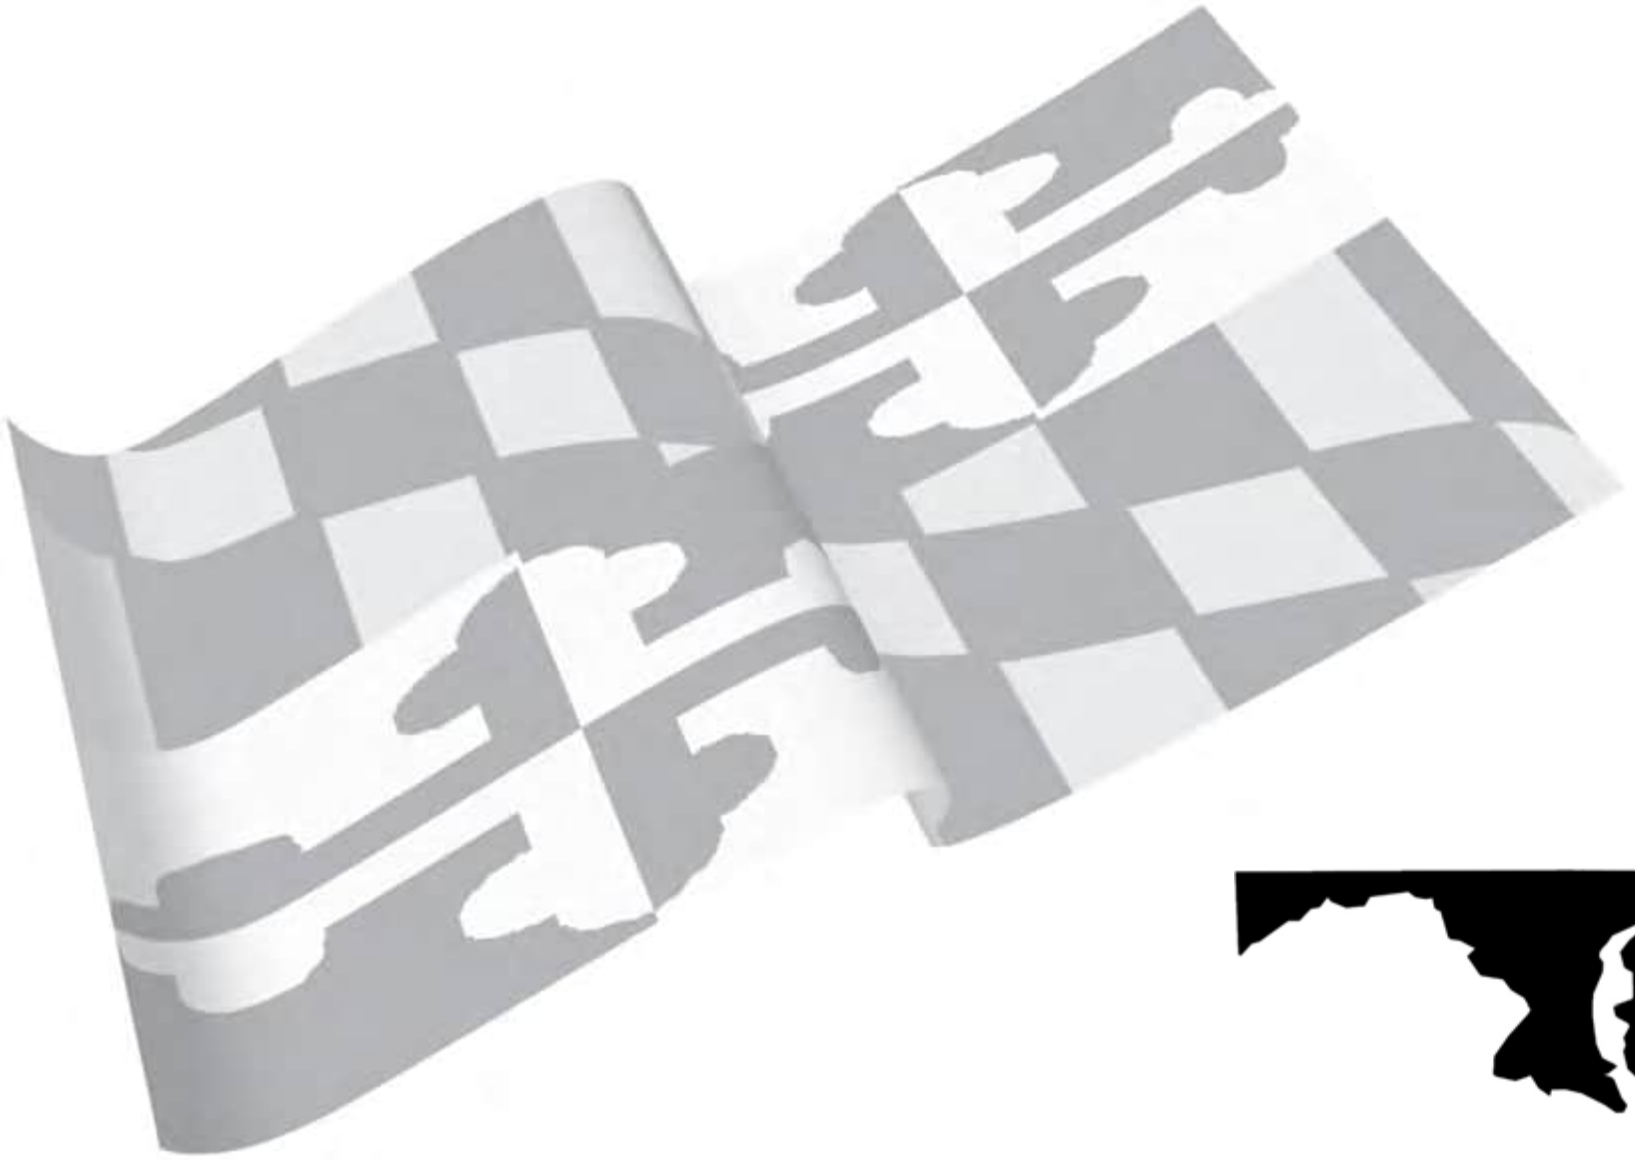

Project Name	Sponsor	Score	Rank
I-70 (US 29 to US 40)	Howard County	6.14	25
MD 32 (MD 26 to Howard County line)	Carroll County	5.75	26
MD 295 (I-195 to MD 100) and Hanover Road (MD 170 to CSX Railroad)	Anne Arundel County	5.62	27
BWI Rail Station and Fourth Track (Grove Interlocking to Winans Interlocking)	MDOT MTA	5.37	28
MD 5 (north of I-95/I-495 to US 301)	Prince George's County	4.91	29
MD 210 (MD 228 to Palmer Road)	Prince George's County	4.68	30
MD 223 (MD 4 to Steed Road)	Prince George's County	4.31	31
MD 4 (I-95/I-495 to MD 223)	Prince George's County	4.25	32
US 29 Bus Rapid Transit (US 40 to Silver Spring Metro)	Howard County	4.24	33
South Side Transit (Branch Avenue Metro to King Street Metro)	Prince George's County	3.85	34
MD 4 Governor Thomas Johnson Bridge (MD 2 to MD 235)	St. Mary's County	3.42	35
Southern Maryland Rapid Transit (Branch Avenue Metro to Demarr Road)	Charles & Prince George's Counties	3.18	36
MD 213 Chestertown Bypass (MD 297 to south of MD 544)	Kent County	2.97	37

Appendix B: Previously Scored Chapter 30 Projects that Entered Construction Program

Appendix A describes the Chapter 30 scoring model. The projects listed below were not evaluated for this current CTP. Instead, they were scored in previously years and have since entered the Construction Program in FY 2023 or FY 2024, in whole or in part. The list includes projects that have been tempoarily suspended from the Construction Program due to funding shortfalls but are set to reenter it when funding becomes available. Such projects do not need rescoring to reenter the Construction Program. If phases of a project enter the Construction Program, applicants are required to update the project limits for the remainder of the project and submit a full application for it to be scored.

Project Name	Sponsor	Phase(s) Scored	Phase(s) Entered	FY Entered	Score	Rank
US 15/US 40 (I-70 To MD 26)	Frederick County	---	---	2023	13.22	20
I-795 @ Dolfield Boulevard Interchange	MDOT SHA	---	---	2023	5.51	29
I-97 (US 50 to MD 32)	MDOT SHA	---	---	2023	12.88	22
US 219 (Old Salisbury Road to Pennsylvania state line)	MDOT SHA	---	---	2023	13.05	21
US 220 and MD 53 at Cresaptown	MDOT SHA	---	---	2023	35.85	12
I-95/I-495 @ Greenbelt Metro Station Interchange	Prince George's County	---	---	2024	14.38	20
MD 5 (MD 246 to MD 471)	St. Mary's County	---	---	2023	27.43	14
I-81 (north of MD 63/MD 68 to Pennsylvania state line)	Washington County	2 to 4	2	2023*	11.40	23

*The I-81 project was also scored in FY 2024 in error

MARYLAND DEPARTMENT OF TRANSPORTATION

GLOSSARY

CONSOLIDATED TRANSPORTATION PROGRAM GLOSSARY

State Report on Transportation (SRT)	Consists of the Maryland Transportation Plan (MTP) and the Consolidated Transportation Program (CTP).
Maryland Transportation Plan (MTP)	The MTP identifies the focus of the Department and its modal administration that defines program objectives and serves to guide program development. It includes a 20-year forecast of needs based on anticipated resources available to the Department.
CHART	Coordinated Highways Action Response Team – Maryland's program to employ Intelligent Vehicle Highway System (IVHS) technology to better manage highway capacity.
Consolidated Transportation Program (CTP)	The CTP designates capital projects that will be undertaken during the six-year period, and a summary of operating programs. The CTP also identifies projects added to the Construction Program and Development and Evaluation Program, delayed in schedule, deleted from the Development and Evaluation Program and finally completions.
Construction Program	List within the CTP of major projects (descriptions, cost estimates and schedules) under construction and those anticipated to begin construction within the six-year period. An estimate of annual expenditure levels for system preservation projects is also included.
Development & Evaluation Program (D&E)	List within the CTP of projects for planning studies, preparation of environmental studies and preliminary design. These projects are candidates for future addition to the Construction Program.
Remaining Cost to Complete	Amount of funds required after the budget year to complete a project.
Balance to Complete	Amount of funds required after the six-year program period of the CTP to complete a project.
Major Capital Project	New, expanded or significantly improved facility or service that generally involves planning, environmental studies, design, right-of-way acquisition, construction or purchase of essential equipment related to the facility or service.
System Preservation Project	Project of limited scope for the preservation or rehabilitation of an existing facility or service which generally does not have a significant impact on the human or natural environment.

CONSOLIDATED TRANSPORTATION PROGRAM GLOSSARY (Cont'd.)

Reconstruction	Complete rebuilding of a facility/structure or system which is beyond the point where it may be economically repaired or renovated.
Rehabilitation	Restoration and/or modernization of a facility/structure or system in order that it may be effectively used for its designated functional purpose or comply with current requirements.
Highway System Preservation Program	Program of projects oriented toward preserving the existing highway system, including resurfacing, safety improvements, bridge rehabilitation, landscaping, traffic control and ridesharing lots and other miscellaneous improvements.
Reimbursables	State funds advanced for work performed for local jurisdictions, services performed for other agencies, recovery of damages to Department property, salaries and expenses of the Interstate Division for Baltimore City, fees for issuing commercial entrance permits, and other activities performed by the Department and are paid by various sources.
Capital Contributions Agreement	Agreement entered into by 8 local jurisdictions in Maryland, Virginia and the District of Columbia that provides a capital funding schedule for Metrorail construction in the Washington area.
(PP)	Project Planning: The state in the planning process where detailed studies and analysis are conducted to establish the scope and location of proposed transportation facilities.
(PE)	Preliminary Engineering: The state in project development when surveys, soil conditions, elevations, right-of-way plats, and detailed design plans and specifications are prepared.
(RW)	Right-of-Way: Acquisition of land for transportation projects.
(CO)	Construction.
(IN)	Inflated Cost.
(FA)	Federal-aid.
(STP)	Surface Transportation Program category of federal aid
(NHS)	National Highway System category of federal aid.

(IM)	Interstate Maintenance category of federal aid.
(BR)	Bridge Replacement/Rehabilitation category of federal aid.
(CMAQ)	Congestion Mitigation/Air Quality category of federal aid.
(DEMO)	Specific projects identified in federal legislation for demonstration purposes.
