Philadelphia PA 19103-2968

Dear Mr. Murrill and Ms. Crews:

The Maryland Department of Transportation (MDOT) hereby amends the Fiscal Year (FY) 2022-2025 Maryland Statewide Transportation Improvement Program (STIP) to include the National Capital Region Transportation Planning Board (TPB) FY 2023-2026 Transportation Improvement Program (TIP) which was approved by the TPB on June 15, 2022.

The Federal Transit Administration (FTA) and Federal Highway Administration (FHWA) coordinated the transportation air quality conformity determination submittal with the Environmental Protection Agency (EPA) and jointly approved the determination on August 25, 2022. The MDOT has assigned Control #22-39 for this amendment. The document can be accessed by the following link: <https://visualize2045.org/plan-update/approved-2022-plan/>.

The Maryland Statewide Transportation Improvement Program continues to be fiscally constrained.

Mr. Gregory Murrill
Ms. Terry Garcia Crews

Re: Air Quality Conformity Determination of the 2022 Update to the Visualize 2045 Long-Range Transportation Plan and The FY 2023-2026 Transportation Improvement Program

Dear Chairwoman Sebesky:

The 1990 Amendments to the Clean Air Act (CAA) require transportation air quality conformity determinations for Metropolitan Transportation Plans, Transportation Improvement Programs (TIP), sections of a State Transportation Improvement Program (STIP) covering rural nonattainment/maintenance areas, and projects in areas that are designated as air quality nonattainment and maintenance areas. Section 176(d) of the CAA establishes priority requirements for programs supported by the Federal government that target nonattainment or maintenance areas to provide for timely implementation of eligible portions of air quality plans.

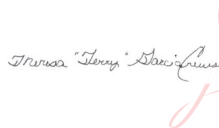

On August 16, 2022, in an e-mail to the Federal Highway Administration's (FHWA) District of Columbia Division, the Environmental Protection Agency (EPA) concurred that the conformity determination met the requirements of the CAA. EPA's review considered the 2008 8-Hour Ozone National Ambient Air Quality Standard (NAAQS) and the 2015 8-Hour Ozone NAAQS Conformity Determinations for the Fiscal Year (FY) 2023-2026 Transportation Improvement Program (TIP) and the Visualize 2045 Long Range Transportation Plan (LRTP) for the Metropolitan Washington Region as adopted by the National Capital Region Transportation Planning Board (TPB).

FTA and FHWA are jointly making this air quality conformity determination. FTA and FHWA find the planning process to be continuing, cooperative, and comprehensive transportation planning carried on cooperatively by the TPB, the Washington Metropolitan Area Transit Authority (WMATA), the states of Maryland and Virginia, and the District of Columbia in accordance with the requirements of 23 USC 134 and 49 USC and Section 5303.

Based on our transportation planning regulatory requirements, our day-to-day involvement, and extensive review of technical analysis reports, and in accordance with the provisions of Section 134(h)(2)(B), Title 23 USC, FTA and FHWA find the financial information needed to support our fiscal constraint determination is complete.

Any questions concerning this determination should be directed to Ms. Sandra Jackson, Community Planner of the FHWA District of Columbia Division, at (202) 493-7031 or Daniel Koenig, Community Planner of the FTA Region 3 Office, at (202) 366-8224.
