### PURPOSE OF MEMORANDUM

To request the MDOT OPPPD request HEPMPO to approve the following TIP administrative modification and, upon HEPMPO approval, notify the Federal Highway Administration - Maryland Division of the amendment to the HEPMPO FY 2025 – FY 2028 TIP.

### SUMMARY

The Maryland State Highway Administration (SHA) hereby requests HEPMPO amend the FY 2025-2028 HEPMPO TIP to reflect the following action.

TIP	PROJECT	PHASE	NEW FUNDING
WA3401	National Electric Vehicle Infrastructure (NEVI)	PE CO	\$ 26,000 \$277,200

### ANALYSIS

*National Electric Vehicle Infrastructure (NEVI)* – This requested administrative modification is to add \$26,000 in funding for design and \$277,200 in funding for construction in the FY 2025-2028 HEPMPO TIP. These funding additions are specifically for Phase 3 of the NEVI Program. Design includes 80 percent NEVI funding, 15 percent STBG funding (converted through toll credits), and 5 percent state funding. Construction includes 80 percent NEVI funding and 20 percent private funding through the Contractor. The SHA began Phase 3 design in Spring 2025 and completing design in Spring 2031.

Ms. Michelle Martin

The attached Statewide TIP (STIP) report documents MDOT's requested amendment with respect to funding for the project above. This requested action will not impact scheduling or funding availability for other projects in the current STIP, which remains fiscally constrained. The amended funding does not affect the portion of federal funding programmed for transit or allocations of state aid to local jurisdictions in lieu of federal aid.

In addition, the Maryland Transportation Trust Fund (TTF) remains fiscally constrained. The TTF supports State transportation system operation and maintenance, MDOT administration, debt service, and capital projects. Semiannually, MDOT updates revenues and expenditures using two national forecasting companies' latest economic estimates. The MDOT published funding details in the FY 2025-2030 Consolidated Transportation Program and FY 2022-2025 Maryland STIP.

Please modify the FY 2025-2028 HEPMPO TIP and FY 2025-2028 Maryland STIP to reflect the funding information provided in the attachments. If you have any questions, please contact SHA RPD Regional Planner, Mr. Sean Varsolona, at 410-545-5672 or [svarsolona@mdot.maryland.gov](mailto:svarsolona@mdot.maryland.gov).

Description	The National Electric Vehicle Infrastructure (NEVI) Program will create a network of convenient, reliable, affordable, and equitable electric vehicle chargers along Maryland's designated alternative fuel corridors, which are major highways, and within communities along public roads or publicly accessible locations. Contributions from third parties will be utilized to match federal funds.						
Justification	To provide a network of electric vehicle chargers that contribute to the acceleration of equitable adoption of electric vehicles, including for those who cannot reliably charge at home, reduce transportation-related greenhouse gas emissions, help put Maryland on a path of net-zero emissions and improve the mobility of passenger and commercial electric vehicles.

## Maryland Federal-Aid Highway System Projects

Washington County, like other jurisdictions across the country, receives funding from the Federal Highway Trust Fund for use on designated federal-aid highway systems. This funding is generated through fuel taxes, as well as tire, truck, and trailer sales. Using their own priority ranking system, Washington County includes federal-aid systems in their Capital Improvement Program (CIP). Below is a listing of current projects contained in the adopted Washington County CIP FY 2026-2035. These projects are also included in HEPMPO's TIP as a line item project (W2019-07).
